The Legislature should move with great caution on the railroad question. The people may have wrongs to redress, but this does not justify the assumption that the railroads have no rights to maintain.

In 1878 there were 10,478 failures in the United States. In 1879, there were 6,058. In 1880, 4,735. This is most encouraging. The total liabilities were only \$65,752,000, against \$98,149,053 in 1879, and \$234,383,-132 in 1878.

Capt. Bogardus, the "shootist," is to be in Richmond to-day. Since we read of what Dr. Carver and that other fellow could do with the rifle we have lost our interest in Bogardus. We do refer to the celebrated "Bogardus boot," for editors' offices.

If we may trust the Washington papers, the coming theatrical star is Miss Elapor Calhoun, a grand daughter of the great John C. Calhoun. She won a splendid triumph in Washington last week. The Herald said : "But there is, above all, about Miss Calhoun that spell of youth and freshness that must captivate even the jaded theatre-goer and make him know what enthusiasm means once more. There is a young girl who has come to us out of the West, though with the credential of an old South Carolina name, and we think we may fairly say that she has taken the town by storm. It is reported that the price has been raised. There appears to have been no contest, as the vote was taken by acclamation. — The scene at China Grove day before yesterday, when the pasenger train ran off, was very acimated. The fast mail being right behind the passenger, the women and children stampe ded. One fellow, in the excitement of the occasion, dropped a two-months-old baby as he

Both of the men and also the two women of the tattered group had taken the word of a brother-in-law of one of them and "gone west" to Butler county, Ohio, last March, in the expectation of finding there a Buck-eye paradise. Instead they soon discovered that there was little chance for such as they in that bustling, pushing, self seeking Yankee community, and set out to return to native land, abandoned homes and only friends. When they eached here their eight children were cryog for bread, and they had not even a stone to give them.

There appears to be no doubt that Mr. Best has formed a new syndicate and relies upon the Midland charter to carry his projects to success. What this project is remains to be seen. Those interested in the new scheme preserve a considerable degree of reticence in the matter, but there seems to be a tacit understanding that the first object simed at is to get possession of the Atantic & North Carolina Railroad.

BOARD OF ALDERMEN.

Abstract of Proceedings in Called session.

The Board of Aldermen met in called session at the City Hall yesterday afternoon. All the members of the Board were present. The Mayor stated that he had called this meeting for the purpose of giving the City Attorney power to draw deeds for property sold for city taxes, and also to receive a communication from the Board of Audit and Finance relative to the market ques-

Alderman Myers, Chairman of the Committee on Ordinances, offered an Ordinance, which was adopted, empowering the City Attorney to make the necessary deeds of conveyance to the city for all real estate sold by him for the non-payment of taxes. and upon which the said taxes are still due and unpaid, and making provision for the redemption of the said property within two years from the 1st of January, 1881.

A communication from the Board of Au. dit and Finance, disapproving the contract with the Wilmington Market Company, was read, as also the opinion of the City Attorney pronouncing the contract illegal.

The Board of Audit and Finance, in their communication to the Board of Aldermen, say :

"We return herewith the contract with the Market Company referred to this Board for approval. It is returned without such approval, as we believe it to be illegal. We are opposed to the mode and manner proposed of paying for the markets. We do not think it right or legal to barter away for a term of eighteen years an unknown portion of the city revenue for the purpose named in said contract, and especially when the barter is coupled with conditions that will seriously interfere with the privileges of the citizens of Wilmington-not only venders of fresh meats, but commission men and grocers. The conditions of the sale of the property to the city are, that all revenues derived from the rents of stalls, license taxes of butchers, and other dealers in perishables, as well as fees for weighing beef cattle, for a term of eighteen years shall be collected and retained by the Market Company; and for the purpose of enlarging this fund, ordinances are to be the sale of all marketable articles and perishable articles within four blocks in any direction from the market house named. The more strictly these oppressive laws are enforced to the inconvenience of many merchants and citizens, the larger the sum paid by the city for the property. Desiring to have legal information in a matter of so much importance to a tax paying community, we sought and obtained the opinion of the city attorney, which is herewith en-closed. If, as he believes, this contract cannot be legally entered into, and it should be so decided by the courts, there is no provision made for the return to the city of any of the revenue collected by the Market Company, or their successors, or the pay-

Resolved. That the facts set forth in the objections to the market contract by the Board of Audit and Finance are not sufficient to lead this Board to change its action

Alderman Myers moved that the Board of Aldermen ratify its action as taken at the regular meeting of December 6th, 1880, in accepting the contract with the Wilmington Market Company. The motion was earried, Aldermen Bowden and VonGlahn woting in the negative.

Adderman Foster moved that the old market house be sold to Jus. Sternberger at his bid of one hundred and thirty dollars, unless a more favorable bid be received by the Mayor, chairman of the committee on Finance, by 12 o'clock M. to-day (January 19th, 1880). The motion was carried, Aldermen Bowden and VonGlahn again voting in the negative.

Alderman Myers offered a series of ordinances establishing the new market houses and regulating the sale of meats, fish, vegetables, etc., which were adopted, and the Board adjourned.

No Hopes.

The sad news came over the wires from Abbottsburg, yesterday morning, to the effect that most unfavorable symptoms had been developed in the case of Mr. W. E. Hill, who was so badly injured in the steam saw and planing mills in that place on Saturday evening last, and that no hopes were entertained of his recovery. Rev. C. M. Payne, of the Second Presbyterian church, Mr. John Colville and a number of lady friends of the family went up on the regular train yesterday morning. Further telegrams, as well as a gentleman friend, who arrived here on the 3:20 train vesterday afternoon, confirmed the sad intelligence and left no room to hope for any but the worst results.

P. S .- Since the above was in type we regrat to learn that Mr. Hill died at 73 o'clock P. M. on yesterday. It is understood that his remains will be brought to Wilmington for interment.

It seems that the Governor afterwards respited him to Friday last, January 14th, and all the preparations had been made to carry out the law, religious services baving been held, and his mother and sister having bid him good-bye and left him, not expecting to see him again, when a telegram was received from Gov. Hagood again respiting him until the 18th of March, in consepassed and rigidly enforced, prohibiting quence of some clerical errors in the papers, It is thought he will certainly swing next time. To witness the enchanting play.

Where the gentlemen obtained such array,
It is no secret, for knows, every one,
That they were fitted and furnished by DYER &
