Our City Election. Section 6, Chapter 192, Laws of 1876-'77. provides that the registrars shall, on the 5th day of March in each year in which municipal elections are held in the city of Wilmington, open books for the registration of voters in their respective wards and precincts, and that said registrars shall keep said registration books open from 9 o'clock in the morning until 6 o'clock in the afternoon, on each and every day from the day on which they are opened as aforesaid, until the third Wednesday in March, which

embraces about ten working days. Section 4 of the same act makes it a necessary qualification on the part of a person applying for registration that he shall have been a resident bona fide in the particular ward in which he applies to be registered ninety days next preceding any such election; and section 3 of the same act requires that there shall be a new registration be-

Since the above was in type we learn that the City Attorney takes the ground that the law as above stated, so far as regards the time for registration, was intended to apply simply to the first election occurring after the passage of the act, which was the year

An Affray at a Colored Ball.

At a colored festival or ball in Brooklyn on Tuesday night, a difficulty occurred between two young colored men named John Lewis and John Jackson, during which the latter struck the former a blow with his fist which laid him out at full length upon the floor, where he lay for several minutes apparently dead. He finally recovered consciousness, however, when the two disturbers of the peace were arrested by officers Grant and Williams, who had been called in for the purpose, and taken to the guard house.

The case came up before the Mayor yesterday morning, when the parties were discharged on the ground of the insufficiency of the evidence.

"A stitch in time saves nine." A bottle of Dr. Bnil's Cough Syrup will often save large doctor bills. Keep it handy, for it

City Affairs-A Communication; from the Board of Audit and Finance to the Board of Alderman.

The following communication was read at the meeting of the Board of Aldermen, held last night, and referred to the Finance Committee, who were instructed to confer with the Board of Audit and Finance, relative to the issuing of the bonds. It does not appear in our regular proceedings this morning, on account of objection to its delivery for publication having been made after the adjournment of the meeting, and is published at the request of the Board of Audit and Finance:

OFFICE BOARD OF AUDIT AND FINANCE, ? FEBRUARY 21st, 1881. To the Honorable, the Mayor and Aldermen: GENTLEMEN:-We have received the statement made by the Mayor at your meeting of the 14th inst., in reference to procuring Legislative authority to fund certain bonds maturing in 1882. We are unwilling to occupy a false position before the taxpayers as desiring to issue more bonds than

necessary for that purpose. Our communication of February 8th was definite and clear. We do not, and did not. propose to issue more bonds than was necessary, and distinctly stated that fact. The proposition submitted to you, was to procure authority to issue, if necessary,

\$80,000 of new bonds to take up the same amount of bonds to mature in 1882. That proposition was based on the following: Amount required to meet Expenses, Bonds and Interest, from January 1st, 1881, to January 1st, 888, when the next Legislature as-

Current expenses for two years, at \$55,060.....\$110,000 Past due Bonds (on January 1st, 1881),..... Accrued interest on same...... Coupons due January and July, 1881 and 1882, and January, 1883, (assuming that amount of New

Bonds on hand, less \$10,000 special deposits from sale of New Bonds, will be issued July 1st, 1881).... Coupons due prior to January 1st, 1881, not presented..... Bouds maturing January, 1882.... Bonds maturing July, 1882..... 60,000

To meet the above we will have Tax Book of 1880 (collectable).....\$30,000 Monthly License Taxes and all other sources to January, 1888, 55,000 Tax Book of 1881, (col-count)..... 45,000 Sale of New Bonds..... 75,000—\$280,500 Deficit.....

This deficit, assuming that all the new bonds on hand will be sold, and that current expenses will not exceed \$55,000 per annum, and that no epidemic occur. Unless more economy is exercised than exhibited during past two years, the current expenses will exceed \$55,000, as an additional annual item of \$5,250 for water works will appear hereafter in Fire and Sanitary Departments, besides expenses of hospital, if that scheme be carried out. Current expenses of the present Board of Aldermen for nine months (Mr. Dawson being Mayor 7 months and 11 days, and

including his salary not drawn) at the rate of \$47,101 per annum. Mr. Fishblate's administration: Current expenses year ending April 1st, 1879.....\$ 45,678 Current expenses year ending April ing January 1st, 1881, \$38,447, be-

ing not less for year than 51,000 Aggregate for three years . . . \$148,678 Average per annum...... 49,559 From which it will appear that the current expenses have been increased, not reduced, since the resignation of Mr. Dawson. The Mayor states that in the past three years the debt of the city has been reduced \$120,000. We fail to find this result. On the 12th of February, 1878, when he was elected, the City Government being fully organized, the debt stood : Coupons past due, \$ 68,100

Interest on same, about. 3.500 Bonds past due,..... 70,050 Interest on same,..... 4,575 Floating debt,..... 9,700 Bonds not matured \$478. 600, less \$10,000, Bonds doubtful, since declared illegal by U. S. Cir-

cuit Court, 468,600-\$624,525 Present debt : Past due Bonds \$ 29,000

Interest on same,..... Coupons of January, 1881 less amount in bank to 8,000 pay the same, Coupons not presented. due prior to 1881,.... Bonds not matured, 500,000

\$544,145 Less special deposit in bank, \$10,000 Less Bonds belonging to Sinkng Fund, 2,500- 12,500-\$531,645

Actual reduction. The whole reduction of the City Debt, since the Government

passed into Democratic power, \$105,715 We fail further to see how the city debt will be reduced \$5,000 more by the 1st of Let it be distinctly understood, gentles

men, that this communication is only in reply to statement made by the Mayor when referring to bonds falling due in has made provision for the Board.

1882. Very Respectfully,

THOMAS F. V NORWOOD GILES,

Chairman Board of Audit & Finance.

Sent to Jail for Trial. Mike Peden, Robert Turner, Jim Durand and Robert Vann, had a hearing before a magistrate yesterday on the charge of steals ing a quantity of flasks from the premises of Mesers. P. L. Bridgers & Co., on Sunday last. Durand and Vann were discharged on account of the insufficiency of the evidence, and Peden and Turner were ordered to give bond in the sum of \$50 each for their appearance at the next term of the Criminal Court, in default of which they were committed to jail.

The defendants are all boys, but very bad ones, and Peden has been frequently before the courts for petty larceny and other offences.

HORSFORD'S ACID PHOSPHATE of the use of tobacco.

Another Contribution to the Analysis of Drinking Waters in and Around Wilmington.

The chemical examinations were made for the North Carolina Board of Health at the Agricultural Experiment Station, by Charles W. Dabney, Jr., Ph. D .:

0.05 0.16 0.16 0.16 . Cistern water, Front st Silver Lake N. E. River, at Hilton 0.6 0.05

Preliminary to commenting on the above, it is necessary to give the following explanation as to what constitutes impurity, according to our chemist:

"Chlorine alone does not necessarily indi-cate a filthy water. More than five grains per gallons of chlorine, accompanied by more than 0.08 parts per million of free ammonia, or more than 0.10 parts per million of albuminoid ammonia, is a clear indication that the water is contaminated with sewage—decaying animal matter, urine, &c. These are of course the most dangerous waters.

"More than 0.10 albuminoid ammonia without much chlorine, or more than 0.08 parts per million of free ammonia, is evidence of contamination from vegetable matter-rather a bad water, though not positively so dangerous as that containing animal matter.

"Free ammonia over 0.08 parts per mil lion and albuminoid ammonia over 0.10 parts per million render a water very suspicious, even without chlorine. "Total solids should not exceed 85 grains

per gallon in drinking waters. More than this, accompanied by an excess of albuminoid ammonia, renders the water very bad. The samples of cistern water were from cistern with the very worst surroundings, in a thickly built part of the city. The water was examined for suspected contammation by sulphate of copper thrown out from the Telegraph Office. There was no copper found. Considering all the chances of the percolation into the cistern of deleterious matter, this water is remarkably pure, but could be much improved by thorough cleansing and renewing the filter more frequently. No well, however guarded by cementing the curbs, could have possibly resisted the ingress of vile matter, in

tages of this plan of storing water. The water from "Silver Lake," a small rain pond, six miles from the city, proves to be good, although the amount of free and albuminoid ammonia is high. This could be eassly remedied by proper attention to clearing away decaying wood from the margins. The supply from this pond would be entirely inadequate to the necessities of Wilmington.

The water from North East River at Hilton bridge may very properly be compared with the water from Greenfield Pond. and Smith Creek. Former analyses gave

LOCATION Smith's Creek at the Bridge,... 6.7 1 7 .05 .80
... Hilton... 7.7 1.8 .16 .36
Greenfield Pond at the Mill... 4.7 1 6 .34 .80
... 1 mile ab've mill 4.6 1.65 .34 .36
Nerth East River at Hilton... 6.2 0.6 .05 .26 Smith's Creek at the Bridge, 0.7 1 7

The comparison shows the smallest amount of solids in the Greenfield Pond water, and the smallest amount of chlorine in the North East River water. But the chlorine in all these specimens is insignificant, when we consider that it represents the common salt which is washed away from the soil (this substance abounding to a considerable extens in the soil of the sea coast), or carried up the streams with the tide water. Of course the latter remark does not apply to Greenfield Pond. Ordinarily the presence of common salt, (estimated in our tables as chlorine for convenience, chlorine and sodium being the ingredients of common salt) in combination with albumen and albuminoid ammonia is the truest index to

the potability of water. The water from Greenfield Pond will probably show an average less proportion of chloring the year round than the river, because in times of great drought the water 18 sometimes sufficiently brackish to entice

crabs up the river as far as the city. The water in sample No. 6 is from the well of a family in which diphtheria has been very fatal. Without wishing to establish this impure water as a causative element in this instance, it is very desirable that a more thorough investigation should be made. It need hardly be said that this water is bad, but its use was abandoned before the analysis was determined.

The Board of Health is desirous of increasing the spread of information on the sanitary points involved in drinking waters, this being the only field on which the State THOMAS F. WOOD.

The Fire Number Two.

The fire at about half past one this morning was located on the south side of Church street, between Ffth and Sixth streets, and destroyed a one-story house streets, and destroyed a one-story house next to the corner of Sixth and Church streets. The Rev. J. P. King's Baptist church, just south of the building burned, caught fire, as did also the house next adjoining, but both were saved through the efforts of the firemen. We were unable to gain further particulars owing to the late hour of the occurrence.

WHOLE NO. 4,220

BOARD OF ALDERMEN.

Synopsis of Proceedings in Called

The Board of Aldermen met in called session yesterday afternoon at 5 o'clock; present, His Honor, Mayor S. H. Fishblate, and Aldermen Myers, Bowden, VonGlaghn, Vollers, Foster and King.

The Mayor stated that he had called the meeting for the purpose of appointing Registrars and Inspectors of the City Election to be held on the fourth Thursday in March next, and presented a letter from the City Attorney relative thereto.

Alderman Bowden offered the following resolution, which was adopted:

Resolved. That the appointment of Registrars and Inspectors of the municipal election on Thursday, the 24th of March, be made by the Mayor, who shall consult with the members of this Board from the several

Alderman Myers offered the following. which was adopted:

Resolved. Thetregistration books be opened in the several wards of the city at such places as may be hereafter designated. on Monday, the 7th of March, at 9 A. M. and to be open daily, Sundays excepted, until 6 P. M., to March 23d, inclusive. Alderman Foster offered the following,

which was adopted: Be it ordained by the Mayor and Board of Aldermen of the city of Wilmington, That no ordinance heretotore passed has heretofore or shall hereafter be construed to prevent the owners or drivers of carts or wagons containing country produce, fish or oysters brought to the city for sale, going from house to house in any part of the city at any hours of the day for the purpose of selling or delivering the same. This ordinance shall take effect at

Mr. Norwood Giles, chairman of the Board of Audit and Finance, came before the Board to endeavor to make some arrangement about the amount of bonds it would be necessary for the Board to issue to meet those falling due in 1882. Alderman Foster offered the following, which was adopted. Resolved. That the committee on Finance

confer with the Board of Audit and Finance, and agree upon a bill asking of the Legislature permission to issue a sufficient amount of bohds to meet the bonds coming due in the year 1882, the same to be exchanged at not less than par-An oil lamp was ordered for Macumber's

Concealing Escaped Convicts.

Smith Ennett and his wife. Minerva Ennett, colored, had a hearing before Justice Gardner, yesterday morning, on the charge of harboring escaped convicts from the Penitentiary. The evidence was to the effect that on or about November 28d last an escaped convict by the name of Jim Bowden was arrested at the house of the accused, on the plantation of John A. Sans ders, about four miles from this city, and was subsequently taken to the Penitentiary and recognized and received as an escaped convict; that the said Jim Bowden had on at the time a pair of the striped pants form ing a part of the Penitentiary garb, which were concealed by an ordinary pair of pants worn over them; that five other suits of striped Penitentiary clothing were found be. tween a bed and mattress in a room of the house of the defendants; and that on one occasion one of the witnesses went there for some purpose and discovered five men secreted in the loft, and among them the notorious Henry Cruse, who was known to have but lately escaped from the Peniten-

tiary. At the close of the examination Smith Ennett was required to enter into bond in the sum of \$50 for his appearance at the next term of the Criminal Court, while his wife was released on her own recognizance for her appearance, she having several small children, including a babe at the breast, to look after. Failing to furnish the necessary bond, Ennett was committed to jail.
