Mr. Edward McPherson returns to the charge and insists that Garfield has 8,235 majority over Hancock. The official figures will tell the story.

Mr W. H. Vanderbilt evidently enjoys the luxury of giving. He has added another \$100,000 to his former gill to Vanderbilt University. wish he would take a notion to make his \$10.000 for our University one flargre more.

It begins to look, say the corres pendents of papers, like there will be an extra session. The Sundry Civil bill has not been reported as yes. Then the amendments to the Funding bill, the River and Harbor ball, &c., are to be considered.

Here is the sixte as made up thus far according to Madame Rumor Blame, of Maine, Secretary of State; Senator Alligon, of Town, Secretary of Treasury; Judge Folger, of New York, -; Gov. Foster, of Ohio, Postmaster General. But this is guess work, we suppose.

The New Pennsylvania Senator, Matcheil is 43 years old. He has served several terms in the Legislature, has been a member of the U. 5. House for four years, and has been for years a strong friend of Blaine. But the Philadelphia Times says Mitchell's election is a victory for the Cameron class. Cameron named the mac.

Blackburn, of Kentucky, and Bragg, of Wisconsin, had no less than three sharp wars of words in the House. The former called the latter a liar in parliamentary langeage, and an after settlement was hiuted at. There will be no powder burnt if Bragg was a Union General. tie is a Democrat, but he has no good feeling for the South.

Whilst the New York Seventyfirst Regiment is on its way to New Orleans to attend the Carnival Northera Radicals are trying to prevent the Southern people from having any band to the Inauguration ceremonies. Well, let 'em rip, we have postponed our trip natil 1885, when we hope to see a good, true Democrat sworn into office. Say what you will, your regulation Radical hates the South and his bite is venomous.

The Charleston News and Courier says of Miss Calhoun's Juliet:

"In the earlier acts Miss Calboun lacks perfect naturalness. The balcony scene exhibits the fault very decidedly. There is too much consciousness in it and too much burry. But when the tragic aspects of the scene obtain the ascendency Miss Calbonn is at her very best. The parting from Romeo in the third act, and the follows. does, and the rest of the play was given with striking effect."

She is but 18 years of age, and it thinks she will make a fine actress with more practice and culture. It

will be spott by the admiration that is lavished upon her. If there over was a constitutional lover of her art she is one. None know better than she what her shorteomperceiving that every day she improves, and her friends may rest assured that she une derstands the need of incessant work, and the importance of attention to every detail,

look and gesture," The News wary justly praises Mr. Hill's admirable rendition of Mercutio-s most fisished personation, it struck us.

not be allowed to be slaughtered in the Senate, as she was in the House. The following is good news as far as it goes, and we hope the appropristions will be passed. The Washington letter of the 23rd to Richmond Dispatch says :

"The Senate Commerce Committee this evening completed their work on the riverand harbor bill and will to-morrow report It increases the amount appropriated by the House about \$750,000, and gives North Carolina a considerable increase. This was but fair. I bear the bill provides for the survey of James river, &c., as asked by its leading citizens, and gives Appomaitox and Petersburg harbor \$10,000, Cape Fear river, North Carolina, gets \$130,-000 more, making \$140,000; the Neuse, \$15,000; Beaufort harbor \$25,000; and the opper Cape Fear, \$35,000."

This is not one cent in excess. We hope our members in the House wi neist upon the sums named for they are needed.

The Washington correspondent of he Baltimore American, Republican organ, says it is generally understood that Mahone will vote with the Republicans in the organization of the next Senate. He says:

"The friends of the Virginia Senator state that while he will attend no caucus of either party, he will vote against the Bourbons in the Senate, and this is accepted as a sure indication that he will vote with the Republicans in the organization of the Senate. It has been given out that Jedge Davis will vote with the Democrais, but this is by no meaus certain. The illness of Senator Carpenter, which will make it impossible for him to be present at the reorganization of the Senate, adds another complication to this affair, though if both Davis and Mahone act with the Republicane, the latter can organize the Senate without Mr. Carpenter's assistance. There is a chance, too, that one of the Dem cratic Senators may not be present."

The Society of the Army and Navy of the Confederate States for Maryland held its annual banquet in Baltimore on the 22nd. Sundry Confederate Brigadiers were present and a good sprinkling of Captains and Misters. Senator Vance wrote a letter of regret. Gen. Hampton, Gen. Bradley T. Johnson, Gen. W. H. F. Lee, Gen. D. Maury and Mr. James R. Randall, author of "My Maryland," which was rendered by Emick's band, made speeches. Gen. Trimble being called on also responded briefly.

Matters and Things in Raleigh. Gen. Manning, who has just returned from Raleigh, gives it as his opinion that

the Legislature will take no action in regard to the Criminal Courts, in consequence of the conflicting influences that have been developed since the matter was brought to the attention of the two houses. Capt. W. J. Potter, a Cape Fear Pilot of long experience and, by the way, a very intelligent gentleman, he gave it as his opinion that it would be displaying a very unwise policy on the part of the government to withhold at this time the needful appropriations in behalf of the Cape Fear River and Bar, after bringing the work to its present condition of forwardness. Now, in his judgment, is the very time of all others for the government to manifest a liberal spirit and make ample provision for carrying on the work, so promising of good results, to a successful completion. To begin withhold. ing the necessary aid now will be to retard the operations progressing so favorably and render the work already accomplished liable to injury and to eventually become worthless, thus virtually throwing away the money heretofore expended upon it. It is to be hoped that Congress will take the proper view of this important matter and make the appropriation sufficient to

CITY OF WILMINGTON, N. C., OFFICE BOARD OF AUDIT AND FINANCE

EDITOR STAR-Dear Sir : Will kindly insert the following? The statement made by the Mayor to the Joint Bond Committee and published by you yesterday almost leads me to the belief that the English language has lost its force.

The Mayor states that I "have attempted to create the impression" that the expenses term of office. I have not attempted to create any impression, but fiatly stated that the current expenses had been increased since Mr. Fishblate's election. The figures were given and are not attacked or disturbed by the Mayor, probably because they possess that characteristic which has made the owner of the "little hatchet" famous. The only question to be decided by those interested is briefly comprehended in this:

In two communications, both pub-

no desire or intention to issue more bonds out the desire. If there is any one thing nacle clinging to the side of "this administration"-credit for, it is the strict adherence to the law under which the funding bonds are issued. In the next place the Mayor states that I desire to issue bonds to "prepare for an unexpec-ted epidemic." How he can contort this: That from the figures given, under ordinary circumstances, the deficit would be \$72,800; that if we failed to sell all of the bonds now on hand; that if the current expenses were voluntarily increased beyond \$55,000 per annum; that if an epidemic expenses, the deficit would be greater. nor, when he made that "detailed examination" in February, 1878, referred to by him on the first page of his message, to-wit: "That a decided reduction could be made in the expenses of the city govern-ment from \$120,000." It being generally conceded that Columbus discovered America, what would be thought of a modern navigator, who, landing on our shores now, and finding there his friends and acquaintances, should depart and claim the discovery. Now, this is about the way with the Mayor. Seven months and eleven days after the Board of Aldermen and Board of Audit and Finance had conjointly reduced the current expenses and the government was being carried on at the rate of \$47,101, Mr. Fishblate discovered that a decided reduction could be made from the \$120,000. The Mayor ventures the prediction that within one year the expenses of the Fire Department will be reduced. I trust the prophecy will be fulfilled, but believe to the contrary. Finally, City Treasurer) on the debt reduction I do not include as a part of said reduction \$10,000 of illegal bonds. This is another idea. Why should Mayor Fishblate have credit for what Mayor Fishblate never did-towards which result he con-tributed neither funds nor ability, the bonds in question being declared illegal by

WHG IS MRS. WINSLOW?—As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a soothing Syrup for children teething. It operates like magic—giving rest and health and is moreover sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world renowned as a benefactor of the race; children certainly de miss up and bless her; especially is this the case in this city. Vast quantities of the Soothing Byrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslew's Soothing Syrup.
