

HE MORNING STAR. PUBLISHED DAILY EXCEPT SUNDAYS. BY W. H. BERNARD.

ADVERTISING RATES. For one square one inch, first week, 10 cents; second week, 8 cents; third week, 7 cents; fourth week, 6 cents; one month, 25 cents; three months, 75 cents; six months, \$1.25; one year, \$2.00.

OUTLINES. Lord Beaconsfield's condition yesterday was less favorable. Railroad traffic at Omaha is interrupted by floods, which are increasing.

The Richmond Dispatch's Washington letter of the 7th has some interesting references to our two Senators. It says: "Governor Vance had a fine audience today, and made a capital speech, full of argument and brimful of humor."

We are pleased to see that the Democrats are beginning to pelt the New England Senators and are placing them on the defensive. The State's letter of the 8th says: "In the Senate yesterday the usual spectacle was witnessed of Northern Senators compelled to defend their States against charges of the violations of the rights of free suffrage by great manufacturers and corporations in New England."

There is said to be some weakening among the Democrats in the Senate. They knew the public sentiment they would be stiff as the North and would stand firm to the last.

A New York landlord was threatened with vengeance for allowing a boycott to stay at his hotel. He received the letter the proprietor was so indignant that he ordered a porter to hoist the English flag on the house. He offers a reward of \$25 for information in regard to the author of the letter.

Fourteen headed a delegation of North Carolina dummies and called on the President to urge him to appoint James Harris to a consulate. Not getting the postoffice at Raleigh he will be content to go abroad. Better get into the upholstery business, James, and make a success in the White House.

The stalwarts in the Senate ought to be reminded every day of the disfranchisement that exists in Massachusetts and Rhode Island. Here are the returns for the year: "Rhode Island has 31,065 voters registered this year, which is 4,565 less than last year. The real estate voters number 19,913, a gain over last year of 373; the personal or party voters, 11,152, a loss of 4,201."

Let this condition of affairs exist in a Southern State and the Radical papers and politicians would never cease howling over it.

Rev. Dr. Philip Schaff, chairman of the American revisers, has given some information concerning the revised New Testament that will be issued May 16th in England, that is interesting and worth reproducing in our columns. He says: "The changes are so many that scarcely a verse in the New Testament remains unaltered. In many instances, however, the variations concern punctuation and minor words. Of course any alterations will arouse criticism, but I think that we can build our own, and we are prepared to do so for what we have done and sanctioned. We have worked between two fires, the radicals wanting far more sweeping changes than we would sanction, and the other party rolling their eyes in horror when a comma was transposed or a small letter replaced by a capital. The controversy will probably go on for a few years. At the end of five years, at the latest, I expect to see the new version accepted by all but the most narrow-minded persons."

Two negro gladiators fought with hard gloves in New York. One named Grant, from South Carolina, banged out the other, named Cooley, a Rhode Island negro, in six rounds. Both were badly punished. Grant is 42 feet half inch, weighs two hun-

red and sixty pounds. Cooley is six feet inch and a half, and weighs two hundred and seventy pounds. After the sixth round Cooley refused to fight longer, saying, "I've had enough of dat feller, and I kno' when I've had enough." The fight lasted twenty-five minutes.

The Richmond Dispatch's Washington letter of the 7th has some interesting references to our two Senators. It says:

"Governor Vance had a fine audience today, and made a capital speech, full of argument and brimful of humor. His defence of his State against the charge of repression was capital, and he showed that he knew a great deal more about the subject than those of any other States. Governor Vance said that the carpet-baggers in North Carolina, in leaving the franchise to the masses, and permitting them to elect a man of color to the office of Governor, had done a wrong that would make on being dragged down a slippery hill. When they turned North Carolina over to the Democrats the poor old State reminded him of a preacher who, after a sermon, sent round his hat by the deacons for a collection. When it was returned, however, there was not a cent in it, and he got down on his knees and offered up thanks that he even got his hat back."

"General Ransom, during the debate, gallantly defended the course of his State in regard to his debt. His speech was as logical and as full of spirit as could be. As a sign of a distinguished ex-Secretary of the Treasury remarked to me, it could not have been more complete."

"In the Senate yesterday the usual spectacle was witnessed of Northern Senators compelled to defend their States against charges of the violations of the rights of free suffrage by great manufacturers and corporations in New England by intimidation of operatives and by statutory restrictions upon the right to vote. Senator Call came boldly to the attack and kept the Massachusetts Senators busy whirling through their circles the peculiar form of indictment which they were to answer when the Bay State is at the bar to answer. No two men in the Senate are more officious than How and Dawes in meddling with affairs of Southern States, and in recalling the baldest falsehoods about the South. Yet they come to write heat in a moment if any man charges, or proves by the record, as Call did, that wrongs are done in Massachusetts. Call had not finished his speech when the Senate adjourned until Monday."

THE AMATEUR OPERA PERFORMANCE. Wednesday next, the 30th instant, we hear, has been selected as the date for the presentation of Sullivan's Comic Opera Cox and Box and Richberg's Doctor of Alcantara, by the amateur musical talent of this city. The music of the triumvirate Cox and Box is said to be of a high and difficult class, and considered to be the most artistic in this line yet written by its gifted and distinguished composer. It is said, in fact, that Sullivan himself pronounced it his best work thus far. The Doctor of Alcantara has recently been given in both Charlotte and Richmond, and the papers of these cities praised it as an exceptionally delightful and amusing production. The cast that will produce it here is exceedingly strong, and the respective roles are singularly well assigned to persons entirely competent to render them successfully. Numerous rehearsals and practices have been had in the last few weeks, and an attendance on one of them gives us abundant confidence to promise the public an evening of great enjoyment on the occasion of the performance.

CHARLES STEVENSON'S HEARSE. A colored boy, about twelve or thirteen years of age, was arrested on the wharf, yesterday afternoon, on the charge of stealing a quantity of barrel hoops from Mr. J. H. STRAUSS. He gave the name of John Ashburn, but his mother, who went to see him after he was locked up in the guard house, said his name was Zekariah Johnson. He is believed to be one of the juvenile beggar brigades who are in the habit of going around the wharves and elsewhere with bags and stealing coal and other portable articles that may chance to come in their way. Zekariah will be held for an examination before the Mayor's Court to-morrow morning.

FIRE ALARMS. A city subscriber writes: "A good deal of time is unnecessarily consumed in sounding the alarm for fire from the Marsh House bell. Under the present arrangement, after the policeman receives notice of the fire he has to run from the corner of Front and Market streets to the Market House and go up into the belfry, where the bell is located, before the alarm can be given. Would it not be a good idea, and result in the saving of much time, to have a policeman stationed at the New Market House and an arrangement made for ringing the fire bell from the lower or ground floor of that building?"

WHO IS MRS. WINSLOW?—As this question is frequently asked, we will simply say that she is a lady who for upwards of forty years has untiringly devoted her time and talents as a Female Physician and nurse, particularly in the treatment of children, especially the constitution and wants of this class of the human race. It operates like magic—giving rest and health, and is moreover sure to relieve the bowels. In consequence of this article Mrs. Winslow is becoming widely renowned as a benefactor of the race; children certainly do nurse and grow up healthily by using this medicine. Very quantities of the Bouncing Syrup are daily sold and used here. We have seen Mrs. Winslow's medicine in the hands of a lady, and we sincerely believe thousands of children have been saved from a premature grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her children better than Mrs. Winslow's Bouncing Syrup. Try it, once, in our opinion, until she has given it the benefit of a trial, and you will be convinced of its value. Sold by all Druggists, 25 cents a bottle.

THE MORNING STAR is always had at the following places in the city: The Purcell House, Harris' News Stand, and the Star Office. A RARE BARGAIN.—A well established and prosperous Weekly Newspaper, located in a thriving, growing town on the line of a prominent Railroad, is offered for sale. Terms easy. For terms and particulars apply to the editor of this paper. LAYS PAPERS.—The Harris' News Stand, south side of Front street, is now offering for sale of the New York Ledger, Chicago Corner and Front Street, and the Boston Herald, for the current week. The stand will remain open until 11 o'clock this morning. PROFIT \$100.—To sum it up, six long years of hard fighting, costing \$500 per year, total \$1,500—all of this expense was supported by three bottles of Hop Bitters taken by my wife. She has done her own work, and is now a contented wife and mother. Give it to your children, and you will know for their benefit.—N. B. Farmer.

Local News. One week to Easter. To-day is Palm Sunday. Receipts of cotton yesterday 48 bales. Day's length 12 hours and 59 minutes. Nothing doing in Magisterial circles yesterday. Weather a little spring-like, yesterday, for a rarity. Eggs are getting scarce again, and are retelling at 20 cents per dozen. Beef has been coming in quite plentifully for the past two or three days. The alleys and other damp places were lined by the health officer yesterday. The theatrical season is about closed, nothing being booked for the Opera House. They will "see you later."

The Register of Deeds issued only one marriage license during the past week, and that was to a colored couple. Mr. Joseph Bisbee, of the steamer Etahook, will, we understand, soon have a five excursion steamer here. The "City Park" presents a lively spectacle when Nowitzky and the prize package man both "have the floor."

Mr. John W. Rhodes, formerly of the Revenue cutter Colfax, but now stationed at Newport, R. I., is here on a visit to his family. Yesterday (April 9th) was the sixteenth anniversary of the surrender of the Confederate army to Gen. Grant at Appomattox Court House. Persons desirous of visiting Newbern will be glad to learn that first-class fare has been reduced on the A. & N. C. R. R. to four cents per mile.

Mr. T. M. Lee, father of Mr. T. Jeff. Lee, formerly connected with the newspaper business in this city, died in Wilmington a few days ago, aged 80 years. Mr. J. D. Brooks, formerly of this city, but now of Statesville, and well known in insurance and newspaper circles, made us a pleasant visit yesterday. The popular play known as "Comrades" is in preparation and will be presented by the Amateurs under the management of Mr. G. R. Dyer, immediately after Lent.

We are requested to state that the discourse of Rev. Thos. D. Pitt, at St. John's Church, this evening, will be on the "Sin of Drunkenness." Services to commence at 8 o'clock. There were two interments in Oakdale Cemetery during the week closing yesterday, both of which were adults, and one of which was brought here for burial, the party having died elsewhere. Farmers in this vicinity say the cold has not injured anything materially but the fruit. Apples and pears are not believed to be badly damaged, but the peach crop is expected to be nearly an entire failure. To prevent any misapprehension abroad, Mr. R. J. Jones' name not occurring in our article in regard to the Board of Audit and Finance in yesterday's STAR, we would say that he is still a member from the Third Ward, as he has been from his organization.

The German barque Providence was cleared for Antwerp, Belgium, yesterday, by Messrs. Alex. Sprunt & Son, with 2,300 barrels of rosin, and the German brig Clara, for Hamburg, Germany, by Messrs. J. R. Blossom & Evans, with 3,180 barrels of rosin. Mr. Thos. Monk, who has a truck farm near this city, says he expects to plant ten acres in upland rice this season. There will probably be more upland rice planted in this section this year than ever before. The time for planting is from the first of April to the middle of May, and the quantity from two to three pecks to the acre.

United States Commissioner's Court. The case of Captain Higgins, of the schr. Emma H. Drummond, and his mate, Mr. W. R. Snow, charged with causing the death of Frank Drew, the colored steward of the vessel, which has been undergoing investigation before United States Commissioner McQuigg for the past three days, has not yet been concluded. There have been quite a large number of witnesses examined, and, as the testimony of each has to be taken down in writing, considerable time is necessarily consumed in the examination. District Attorney Albertson being called elsewhere by imperative business engagements, Commissioner McQuigg conducts the examination for the Government. The investigation will continue on Monday, and in the meantime the accused are out on bond.

NEW ADVERTISEMENTS. Merit Wins. IS THERE ANY THING MORE HANDSOME than a nice, well fitting garment (—any thing better calculated to delight the human eye, than Gentlemen's Clothing gotten up in the latest designs 2 and verify we say No!—likewise the world says No! We coincide most conclusively with our old school-mate that "the apparel of prelates the man." The fact is strange, but nevertheless true, OTTERBOURG actually clothes two-thirds of Wilmington's fellow citizens, and clothes them satisfactorily in the bargain. Reader, if this afternoon is a pleasant one, and as you stroll yourself of your usual promenade, observe if you please the many well dressed gentlemen you chance to meet. Out of every half dozen score four of them to OTTERBOURG. You can bet your last dollar the majority of Spring Suits have been furnished by the POPULAR MEN'S WEAR-DEPOT; and as you gaze upon them don't attribute the excellent fits to some Merchant Tailoring Establishment. OTTERBOURG'S Clothing, as regards artistic work, is second to none in the whole country, and is often judged to be those made by special measure. You can tell 'em by the bang of the cloth. ap 10 D&W
