VOL. XXVIII.--NO. 39.

WILMINGTON, N. C., FRIDAY, MAY 6, 1881.

PROMIBITION IN CHARLOTTE It | be made, it is said, by the present the championship on prohibition. Referring to the affirmative vote of the Aziz. people on this question, the Observer

"They had so decided by a small majority, in the election of a Mayor and a tie vote in the Board of Aldermen. No sooper had the decision been announced than fears began to be entertained that the defeated party by some indirect means would balk this good. expression of the sovereign will. It was asserted on the street that the six Aldermen elected on the anti-prohibition ticket would ignore the call of the Mayor for an organization of the new Board and thus preventing a quorum, would defeat the will of the people. This is the explanation given by Mayor DeWolfe for his sudden action yesterday morning in calling together the old Board of Aldermen.

From the account in the Observer. it does not appear that any attempt was made to have a meeting of the new Board of Aldermen. But the old Board met and passed several ordinances relating to the sale of iquor, &c. These ordinances prohibit the sale as a beverage by any person or persons, including drug stores, of any wines, brandy fruit or alcoholic bitters, spirituous or malt liquors, under certain penalities.

Of course, if these ordinances mean anything, and are observed, it is impossible to buy in Charlotte a bottle of brandy peaches or Hop Bitters, though we confess to some obtuseness in solving the problem of using peaches, either plain or brandied, as a beverage.

We have given above a very brief synopsis of the action the Charlotte Aldermen, as it is a matter of interest at this time, and to show to what extremes the prohibition question is being carried thus early in the cauvass. Of course, a reaction will follow which will be felt on the first Monday in August, when the whole people will be called to the polls.

Mr. Orren R. Smith, of Durham, writes to the Raleigh News-Observer that he has that "cotton picker" complete and fully tested. He says:

'I have worked my cotton picker for we years, worn it out, and proved that I am the first man that ever picked a bale of cotton with machinery, and sold it for the same as band picked cotton, and never touched it. The machine gathers threefourths of the open cotton in going over once, and shows a better sample of cotton from the same field than hand-picked, for it gathers nothing but the perfect cotton. The machine can be made to gather a bale an hour, where the cotton is well opened. I am at work now on a half-size machine for the Atlanta exposition, where I shall meet capital and the genius of the world. and show them how the old thing works."

The following North Carolina physicians are now attending the American Medical Association, now in session at Richmond, Va.: L. L. Statan, Tarboro; C. W. Eagles, Old Sparta; J. W. Jones, Tarboro; T. F. Wood, Wilmington; N. J. Pittman, Tarboro; Eugene Grissom, Raleigh; T. J. Moore, Charlotte; Duncan M. Patterson, S. S. Satchwell, Rocky

Speaking of the two great actors now playing together in London, the Baltimore American says :

"Irving's Iago appears to have been too florid, given to hyperbole, an Irish villain rather than an Italian. Booth's wonderful subtlety, his catike ways, his Italian mask of features, serve him wonderfully in this part. Even his Othello seems to have won more applause than Irving's Iago. When the parts are raversed a sure triumph awaits him."

Rev. Mr. Todd, it seems, was tried and acquitted of the charge of immorality at Manassas, Va. The charge was brought by a man named Gaines, who admitted on the trial he could not sustain his accusations. But Todd is in hot water still, Gaines swearing he is a bad man and a charge having been proved that he went into a bar-room at Alexandria and took a glass of lager-beer.

The plan of the Stalwarts is to vote only on those nominations to which there is no objection. In this way Robertson can be shoved off until December. It is thought that Gorham and "that other fellow" will be dropped quietly, and that next winter others will be nominated in Republican caucus. In the meantime the President will appoint Judge Robert- colony.

It is now known that a conspiracy to assassinate the present Sultan has been discovered, and his two brothers-in-law are suspected and under to Dr. Blacknall says that Mrs. Reade is now convalescent. They expect to arrive arrest. Some curious disclosures will in Raleigh day after to-morrow. -The be set down as pretty quick time.

MRS. WINSLOW'S SOOTHING SYRUP.—Rev Sylvanus Cobb thus writes in the "Boston Christian Freeman":—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing byrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.
