John H. Hardin,

PRESCRIPTION DRUGGIST. NEW MARKET. my 22 (t) Wilmington, N. C.

not occupy a half dozen pages. No doctrine has been disturbed. The new title page says that it is only "the version set forth in A. D. 1611 compared with the most ancient authorities and revised A. D. 1881."

The Washington Post for Sunday thus refers to our distinguished Senator, and friend of Wilmington, Gen. Matt W. Ransom:

"Among the last visitors was Senator Ransom, of North Carolina, who has been credited with being Conkling's warmest personal friend on the Democratic side. He was asked what he thought of the extra session and its results, and replied that the work of the session could have been concluded in two weeks, and nothing had been gained by either side by the delay, excepting only what was the result of circumstances and not of efforts. The Conkling-Robertson contest had worked good to the Democrats in more ways than one. It had saved turning out the Democratic Senate officers and had materially brightened the prospect of the party. Conkling, however, said his Democratic friend, 'has made a big mistake, and it is quite likely that he will not return to the Senate. He will be greatly missed.'"

Gen. Ransom has denied that he was a supporter of Conkling as against Robertson, and his vote shows that he spoke the truth.

Never before in the history of the world was there such a rush for any other book as there has been for a more accurate rendering of God's Word into our vernacular. Two million copies had been sold already last week in London. The large supply in New York was nearly exhausted.

Mr. Nelson said that he received an additional invoice of about 60,000 copies by the Baltic, which arrived on Friday. In speaking of the extraordinary demand for the book, he said that the efforts of publishers and newspapers to obtain advance copies bordered on the ludicrous. It was his belief that he could have got 50,000 for a single copy as late as 12 o'clock on Thursday night. Funk & Co. had sold up to Friday night 20,000 copies of the Companion to the New Testament, and would have by to-day another edition of 35,000 copies ready.

Bob Ingersoll's organ, the Washington Post, publishes another of the blatant infidel's harangues. It purports to be a rejoinder to his clerical critics in New York. We beg pardon for another bit of Ingersoll, as served up by the Post.

"If there is any God I expect to find myself credited on the heavenly books by my defense of him. I did say that our civilization is due, not to impiety, but to infidelity. If he would read his Old Testament with care he will find that God violated most of His own commandments, all except 'Thou shalt worship no other God before me,' and, may be, the commandment against work on the Sabbath."

One account from Albany is that Conkling's own friends are in the dark as to his intentions. Gov. Cornell is working vigorously for their re-election and all of his personal friends have been ordered to do the same thing. The Stalwarts claim that they will be able to re-elect them. The N. Y. Times of Sunday says the chances are in favor of Conkling, but not so with Platt. The former was in New York Saturday; kept close to his room, but received many callers, among them certain State Senators and prominent politicians. It is understood that Conkling and Platt will be candidates and will move on Albany at once. Arthur is on hand.

THE EPISCOPAL CONVENTION. Raleigh News-Observer. Upon motion of Mr. F. R. Rose, a resolution was adopted authorizing the printing of 5,000 copies of the memorial address of Bishop Lay for gratuitous distribution.

Upon motion of Rev. Mr. Murdoch, it was resolved that the Bishop be requested to associate with himself two presbyters and two laymen, to constitute a committee to consider the establishment of a permanent diocese in this diocese.

Upon motion of the Rev. John Huske, it was resolved that the clergy throughout the diocese be requested to take up a collection at an early date to aid in the rebuilding of the church in Clinton, recently destroyed by a storm.

A resolution, offered by Rev. Mr. Wooten, that the copies of the memorial address be distributed on the same plan as journals of the convention, was adopted.

On motion of Rev. Dr. Watson, the secretary was directed to print copies of the journal not to exceed 1,400.

Rev. Dr. Watson read a communication from the general convention, regarding the establishment of a general fund for aiding in the building of churches.

Upon motion of Rev. Mr. Bronson, it was referred to the building committee.

The Rev. Dr. Buell, for the committee appointed to consider the means of establishing a memorial professorship in the Revuecroft Institute, in memory of Bishop Atkinson, reported the following resolutions, which were both carried:

Resolved, That the Bishop, and two laymen and two clergymen, to be named by him, be constituted a committee to raise the necessary funds.

Resolved, That the amount of the endowment be increased to \$20,000.

Rev. Mr. Benton, for the Church Building committee, reported a resolution directing that all of the church building funds for the ensuing year be used for the rebuilding of St. Paul's church, Clinton. The resolution was adopted.

After the reading of the journal, and the usual services, the Convention adjourned sine die.

DREAMING. Raleigh Times. The Raleigh Observer must have been in an evening siesta when it penned that Prohibition was steadily gaining ground through the Piedmont section. There is no accounting for dreams.

Spirits Turpentine

—Elizabeth City Falcon: Harry Pool, a colored youth, attempted to put into execution the bright idea of using the wheel of a moving flat car as a step-ladder, Saturday. His foot was about ground up.

—New Berns News Sheet: As an evidence of the amount of work being done in the canning factory in this city, we are permitted to state that 6,000 cans of oysters were shipped to Baltimore Saturday by the steamer Experiment, of the North Carolina line. The day after tomorrow a small dwelling in James City took fire and was burned down.

—Mr. F. V. Venable, Professor of General and Agricultural Chemistry at the University of North Carolina, sailed for Europe on the 14th inst. Professor Venable will complete the course in General and Agricultural Chemistry at the University of Goettingen and will return by the opening of the fall session at our State University.

—Concord Star: We got back yesterday from the Falls of the Yadkin, to Stantley. The citizens of Leicester on a brief but delightful trip. It was a good week for shad and the fishermen were in their glory, making splendid catches every day. The dip net, which is largely influenced by every minute or so and they would never row out to the traps to find them empty.

—Raleigh Farmer and Mechanic: A gentleman whose business carries him among the people, says that Warren county will give a prohibition majority. He says the negroes are largely influenced by their preachers and their Lodges. Report says the Alcolohols are spending money to subsidize old papers, and start new ones. This doesn't seem to be for some of the poorest papers in the State are "Dry" as dust-pans.

—Asheville News: There has been some responses in the papers in the eastern part of the State, and from South Carolina, for an inter-State shooting match at this place. The citizens of Leicester have already purchased the College buildings, formerly known as Bascomb College, and will commence a school of high grade in August. The costs paid by the county in the case of the murder of Reeves, for the murder of Alexander, amounts to \$446 55.

—In response to an invitation Dr. James F. Long, of this city, will deliver the address before the North Carolina Medical Society, which meets in Asheville on the 25th inst. Dr. Long is one of the most popular physicians in the State, a profound thinker, a graceful writer and polished speaker. In the estimation of the medical fraternity Dr. Long occupies an enviable position. New Bernian. Dr. Long is per se the most eloquent M. D. in North Carolina, and we have no doubt, in the South, and we mean all we say.—STAR.

—Franklin (Macon county) Reporter: Dr. W. L. Love assures us, on the strength of information received, that there is no doubt about the success of the Rabun Gap Short Line Railway. He says work will begin in this county during the coming summer months. The Jackson county mica mines are proving profitable; three new stores in Hamburg; a company of miners from Greenville, S. C., are at work to develop a mica mine near Wash. Zachary's, with good prospects.

—Wadesboro Times: Col. Walter L. Steele, our present Congressman, is attending our court, and we are pleased to see the Colonel looking so well. Few public men hold so warm a place in the hearts of their constituents as does Col. Steele, and his retirement is a loss that his many friends in Anson will long deplore. —A very large rattle-snake, with nineteen rattles, was killed last week upon the premises of Mr. Samuel Pratt. According to the rule he must have been 21 years old. It blew quite a hurricane on last Saturday night, and in portions of the county much damage was done to forest trees, houses, etc. This is particularly the case, we learn, upon the premises of Messrs. Little, Watson, Teal, Sinclair, Hanna and others.

—New Bernian: Our truckers have not realized such prices for their peas this season as they anticipated, and many of them are looking blue and despondent. The oyster-canning establishment in this city is still running on full time and now gives employment to about 150 women, boys and children in opening, canning and boxing oysters for shipment. —Our truckers should bear in mind the fact that small potatoes are not in demand in any of the Northern cities, and that a few days delay in digging them for shipment will be much to their advantage. —Mr. George N. Ives received yesterday morning 5,000 fine, fresh market from Bessemer, which were shipped in a box to New York. —Dissolve a bushel of salt in a barrel of water, and with the salt water slake a barrel of lime, which should be wet enough to form a kind of paste. For slaking this home-made chloride of lime is nearly

as good as that purchased at the drug stores. —Raleigh News-Observer: We are glad to be informed that the iron for the University Railroad has been procured and will be put down at nearly so early. It will be impossible for the road to be completed in time for this commencement. —H. A. Gudge, chairman prohibitory State campaign committee, and Needham B. Broughton have accepted an invitation to deliver an address at Wake Forest College on Thursday night, the 26th inst., on the subject of prohibition. —There will be an exhibition at Shaw University, colored, on the evening of the 24th, and the annual commencement will be on the evening of the 25th. On that occasion A. B. Vincent, of Pleasant Grove, N. C., will deliver the salutatory, and J. S. Lee, of Yadonville, N. C., will be the valedictory. —On one of Maj. James M. Mayo's Nash county plantations Blake Ricks struck Geo. Griffin with a piece of plank, killing him instantly. Ricks then took his rifle and went to work at nothing but hatching. Both parties are colored. No arrest at last accounts. A woman was the cause. —Receipts of cotton in this market 70,750 bales. —Last year over 10,000,000 eggs were taken and 5,448,000 fish were hatched. This year 5,645,000 fish were hatched and the loss of bad eggs in hatching was less than 1 per cent. Not only is the improvement in hatching a fact of importance, but also the confirmation of former experiments which leads to a greater extension of the work. It is believed that during the next season at least 10,000,000 eggs will be hatched. This season was made to hatch rockfish this season, owing to the limited means allowed, but further facts lead to the belief that they spawn considerably in the Albemarle waters, and that their propagation will be equal to that of the shad in two more seasons. The general report of the force employed is that nearly the entire force was overworked.

Medication of a Roman Catholic Church at Laurinburg—Large Crowd in Attendance. Sunday last was an occasion long to be remembered by the Catholics of Wilmington and Laurinburg. It had been announced by advertisement in the Wilmington daily papers that a special train would be run to Laurinburg and back on that day, in order to allow all who wished to attend dedicatory services at the latter place an opportunity of doing so. A large crowd, which completely filled four coaches, availed themselves of the privilege. Arrived at Laurinburg a large congregation assembled at the new Catholic church on McLaurin Avenue at the appointed hour for the dedicatory services. Rev. Father Gros, of St. Thomas' church, Wilmington, officiated, assisted by Rev. Father Hobman of the same church. The clergy and assistants came out and formed in procession at the entrance to the door, and went around the church, sprinkling the walls with hallowed or blessed water. Upon going into the church all knelt in the sanctuary before the altar and recited the Litany of the Saints. A prayer was then recited, dedicating the church to the service of Almighty God under the title of St. Augustine, after the Bishop of Hippo, Africa. The ceremony was followed by High Mass and a sermon by Rev. Father Gros, in which he gave a learned and very interesting sketch of the Roman Catholic church, its modes of worship and of the distinguished Fathers who have figured from time to time in the progress of its history.

The music on the occasion was rendered by the choir of St. Thomas' church, of this city, and was exceedingly appropriate and artistic.

The new church is a wooden structure, in dimensions thirty by fifty feet, and is very neat and tasty in appearance. The altar-piece is a very handsome picture of the Crucifixion, about eight feet high, painted by one of the Sisters of Wilmington and presented to the church by Rev. Father Gros. The church is a worthy monument to the religious zeal of the few Catholics in Laurinburg, who number only about a dozen families, and especially to Mr. James McGlynn. They were aided in the erection of the sacred edifice by liberal contributions from persons of other denominations, the Catholics of Wilmington also kindly assisting.

The running of a special train proved to be a successful venture, about one hundred and seventy-five dollars being realized over and above expenses, which sum will be given to the church at Laurinburg. The company was also orderly and well-behaved.

The kindness of Capt. V. Q. Johnson in furnishing the train, is, we are assured, highly appreciated. The church will be attended one Sunday in each month from Wilmington. Citizens of Laurinburg turned out in large numbers to witness the ceremonies attending the dedication.

At 3:30 P. M. there were further services and a brief sermon from Rev. Father Gros, who remained in the town that night with the expectation of making a trip further up the road yesterday.

DAILY WEATHER BULLETIN. The following will show the state of the thermometer at the stations named, at 3:00 P. M. yesterday, Washington mean time, and also the amount of rainfall in inches for the twenty-four hours ending daily at 3 P. M., except Tuesday, when it is 48 hours, as furnished by Sergeant James W. Watson, Signal Officer at this Station:

Table with 4 columns: Station, Temp., R., F. Weather. Includes Atlanta, Augusta, Charlotte, etc.

A runaway—Horse badly injured. A horse attached to a Wheeler & Wilson Sewing Machine wagon got frightened at something in front of the office at the agency on Princess street, yesterday afternoon, and ran away. In turning the northeast corner of Princess and Front streets the unfortunate animal came in contact with the wooden post placed just outside of the street lamp-post and was thrown prostrate upon the stone pavement, besides receiving a terrible wound in the side near the right hind leg, from which the blood fairly spouted. The harness was loosened and the horse assisted to his feet, when he was taken to Capt. Southerland's livery stable to have his wounds attended to. The wagon was not materially damaged.

Mayor's Court. The only case before Mayor Smith, yesterday morning, was that alluded to in Sunday's paper, wherein one George Green, colored, was mentioned as having, according to the statements of bystanders, very unnecessarily provoked a difficulty on the wharf foot of Princess street on Saturday last. The case was tried as an affray, and Green was ordered to pay a fine of \$5, which was subsequently reduced to \$3, which was paid and the defendant set at liberty. The other party was discharged.

FOR LONG CREEK. By advertisement in to-day's paper it will be seen that an opportunity is afforded to go to Long Creek upon an excursion to-morrow. The steamer will leave at half-past 6 o'clock A. M., sharp, from the foot of Market Dock. The occasion, as before said, will be a Prohibition meeting and picnic at Long Creek, with a ball at night. Capt. Thompson, of this city, Judge Cantwell and other speakers, will entertain the crowd that will be on hand.

MEADE & BAKER'S CARBOLIC WASH is a fragrant and delightful Toilet Article, which has, by its intrinsic merits, become universally popular wherever it has been introduced. It arrests and destroys the offensive odor caused by decaying teeth, and imparts a fragrant odor to the breath. Used as a remedy it will speedily heal all Bleeding, Spongy, Ulcerated and Eczematous Gums. It is unsurpassed as a remedy for Sore Throat, and has been used with entire success for the cure of Sore Glands. It is used and prescribed by the best physicians. Price 50 cents a bottle. For sale by Druggists. ap 292m cod

Parasol. The friends of Capt. Geo. G. Lynch, and there is an army of them scattered from Wilmington to Weldon, will hear with genuine regret that he has resigned as conductor on the Wilmington and Weldon Railroad, to accept a position as train dispatcher and assistant master of transportation at Florence, S. C. Capt. Lynch has been a conductor on the Weldon road for twelve or thirteen years past, and his familiar face will be sadly missed by the traveling public, though it is pleasant to know that his new situation is an advance, and that in leaving us he goes to accept a better situation.

Blackfish Excursion. The first blackfish excursion of the season will take place on the Steamer Passport on Thursday next, the boat to leave her wharf promptly at 5 o'clock. A splendid time is anticipated. The fare for the round trip is \$1.00.

The American brig Minnie Addie, from Galveston for Philadelphia, 98 days out, loaded with hides and bones, was spoken off Frying Pan Shoals on the 21st inst. [All hands well.

CITY ITEMS.

A RARE BARGAIN.—A well established and prosperous Weekly Newspaper, located in a thriving, growing town on the line of a prominent railroad, is offered for sale, terms easy. For terms and particulars apply to the editor of this paper.

"I DON'T WANT THAT STUFF!" is what a Boston lady said to her husband when he brought home some medicine to cure her sick headache and neuralgia which had made her miserable for fourteen years. At the first attack thereafter it was administered to her with such good results that she continued its use until cured, and was so enthusiastic in its praise that she induced twenty-two of the best families in her circle to adopt it as their regular medicine. That "stuff" is Hop Bitters.—Standard.

THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from the latter written for the "German Reformed Messenger" at Chambersburg, Pa.: "A BIRTHDAY PRESENT.—Just open the door for Florence Nightingale of the Nursery. Of this we are so sure that we will teach our 'baby' to say, 'A blessing on Mrs. Winslow,' for helping her to survive and escape the griping, colicking and teething pains. WINSLOW'S SOOTHING SYRUP relieves the child from pain, and cures dysentery and diarrhea. It softens the gums, reduces inflammation, cures whooping cough, and keeps the infant safely through the teething period. It performs precisely what it professes to perform, every drop of it—nothing less. We have never seen a Winslow—know her only through the preparation of her Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical angel to the infant race. Sold by all druggists. 25 cents a bottle.

DEED. POTTER.—In this city, on Monday, the 23d inst., at 5:30 P. M., J. P. POTTER, of cancer, aged 83 years and 11 days.

Funeral takes place this afternoon, at 3 o'clock, at residence on Second between Harriet and Cowan Streets, to Oakland Cemetery. Friends and acquaintances are respectfully invited to attend.

NEW ADVERTISEMENTS.

Wilmington Lodge, No. 319 A. F. & A. M. URGENT MEETING THIS (TUESDAY) EVENING, May 24th, 1881, at 8 o'clock. Work in the M. M. Degree. Visiting brethren cordially invited to attend. By order of the W. M. WARROCK, Secretary.
