Paint Accident at Sed Sanks Death

Tof w Promiseus Ostson. The sad intelligence was received ben pasterday of the accidental killing of Mr. B. H. Paul, a prominent and energetic offizen of Red Banks, Robeson county, on the Carolina Central Railroad. It seems that Mr. Paul was engaged with some of his mill hands in coupling some lumber cars on a side-track, and was in between two of the cars, when his head got accidentally caught between some projecttig pieces of lamber and was so badly crashed as to cause his death.

Deceased was a man of tary superior chargy, and at the time of his death was postmaster at Red Banks, railroad agent, the proprietor of a distillery and a steam my mill, and had but recently erected The residence at that point. His loss will be a heavy one to the little community in other trash out of the stores into the streets, which he was such a moving and controlling under a penalty of \$1 00 for each offence.
Such deposits must be placed in barrels or boxes to be removed by the city catterevery been deprived of one of her best and most prominent citizens.

No blame whatever is to be attached to the railroad for the deplorable accident, as there was no engine connected with the cars, which, as before stated, were on a side track.

Deceased, who leaves a wife and children to mourn his sad fate, lived only about one hour after the accident. We unders stand that his life was insured for \$20,000.

Propurated. P. Z.Mir & F. We regret to learn that Mr. L. WHO IS MRS. WINSLOW?—As this question is frequently saked, we will simply say that she is a lady who for upwards of forty years has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world renowned as a benefactor of the race; children certainly de num up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalised her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its health, and units in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup.
