Washington and Lee, as before mentioned, bestows the degree of D. L.-Doctor of Letters. There is one more degree that ought to be started-G. U. P.-Given to Universal Puffery. By the way, the usual number of theological plasters were applied this summer. The Doctored are getting on as well as could be expected.

There are now 500 claimants for the Warner Observatory prize of \$200 on the score that each first discovered the comet. A note from the Observatory of the 1st inst., says:

Runaway and Accident. There was a runaway on Dock street yesterday afternoon which came very near resulting in a serious accident. Mr. J. M. Forshee, of the firm of Kenan & Forshee, of this city, was being driven in a buggy down the thoroughfare referred to, and had reached a point nearly opposite Mr. W. P. Oldham's mill, when the horse suddenly became frightened at something-probably at a flock of geese which were in the midst of an exciting serenade in that immediate vicinity at the time-and dashed off in the direction of Water street, in turning the corner of which, in the direction of Orange street, the buggy was capsized and Mr. Forshee and the colored driver were thrown violently out. Mr. Formes fell with one of his feet against a gang-saw, which was lying at the corner of Messrs. P. Cumming & Co.'s mill, and received a severe but not serious cut on the ankle, the wound soon afterwards having the proper surgical attention. The driver, named Jim _____, received some slight bruises.

One victim of the accident died instantly, and, as usual, no inquest was held over the body. We allude to a goose that had its head cut "smack, smoove off" by foolishly getting into the way of one of the wheels of the vehicle.

Mayor's Court. The only case for the Mayor's Court yesterday morning was that of Mary Jane Mc-Clellan, as she called herself, the woman who was taken by so many for a man in disguise on account of the beard on her face. She was released on the promise of leaving the city instanter, and with the warning that if found within the city limits of the same after a given time during the day she would be locked up for an indefinite period in the guard house (Upon being turned loose she inquired the nearest way out of town, and then took the opposite direction. The general impression was that she would eventually find her way back to her old quarters. She says she is from the old country and seeking service.

A ROMANCE OF 'A POOR YOUNG MAN.—
A reporter of the Philadelphia Record recently sought out a yeang German segar maker in that city named Delaware R. Wenzelle, of No. 869 North 9th street, and found him with \$5,000 in greenbacks, preparatory to opening a bank account and going into business for himself on the river front. This came from expending one dollar for a half ticket in the May drawing of the Louisiana State Lottery. There will be over \$110,000 distributed in like manner July 13th. A venture often wins.

THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the "German Reformed Messenger," at Chambersburgh, Pa.:

A BENEFACTRESS.—Just open the deor for her, and Mrs. Winslow will prove the American Florence Rightingale of the Nursery. Of this we are so sure that we will teach our "Snay" to say, "A blessing en Mrs. Winslow," for helping her to survive and escape the griping, colicking and teething siege. MRS. WINSLOW'S SOOTHING SY-RUP relieves the child from pain, and cures dysentery and diarrhea. It softens the gums, reduces inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—knew her only through the preparation of her "Soething Syrup for Children Teething," If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle.
