OUTLINE.

Samuel Lord, Liverpool cotton broker, failed with liabilities of \$30,000. The widow of ex-President Fillmore died at Buffalo, N. Y., Thursday, aged 71. Dr. Agnew denies statements concerning President Garfield's condition alleged to have been made by him to a reporter of the Philadelphia Times. Mississippi Republicans and Greenbackers will unite on a State ticket. Ex-Confederates of the Southwest met at Dallas, Texas, effected a permanent organization and adjourned. The Bankers' Convention at Niagara Falls elected officers for the ensuing year and adjourned. Dr. Blaisac his foreigner while performing the operation on the blood-poisoning. The market for cotton goods at Manchester, Eng., is flat. Ben Bird, colored, was hung at Jacksonville, Fla., yesterday, for the murder of a colored policeman in that city a year ago. A negro hung for rape at Birmingham, Ala. The drought in the Northwest seriously threatens the corn crop; a heavy and continuous advance in prices took place in Chicago yesterday. The Duke of Argyll marries a daughter of the Bishop of St. Albans. French troops in Tunis are moving in the direction of Algeria, where the border tribes have revolted. The Governor of South Carolina offers \$200 reward for the murderer of Collector Bryant. The President passed a comfortable day; the rise in temperature reached the same point as the day before, but the surgeons consider his condition satisfactory. New York market: Money 2 1/2 per cent; cotton quiet and steady at 12 1/2 cts; southern flour at \$5 15/16; wheat 1 1/2; corn 1 1/4; sugar, unrefined red \$1 14/16; corn 1 1/4; spirits, unrefined, very strong at 45 cts bid and 47 cts asked; rosin firm at \$2 05/16 3/4.

North Carolina State securities are

higher.

There will be a railroad to York-

town by the celebration.

We were correct. Gen. Rains was

born in Craven county, N. C., and was 77 years of age.

Wilmington, with a Democratic

Council and Mayor, has one colored policeman, and a good one.

The free baths of New York are a

great comfort and convenience. In one week there were 256,350 bathers.

There is a mammoth Opera House

being erected in New York. It is on Broadway, between Thirty ninth and Fourth streets.

The Chinese Government has had

charge number of students in the United States for some time. One hundred have just been recalled.

A conversation in the STAR office:

A: "The People do not believe much in the bulletins sent out concerning President R. - 'No. Ignorance is Bliss.'"

Dr. Philip Schaff, in a recent ad-

dress, said that he believed the new revision was the clearest, purest and most accurate ever issued. In this opinion he speaks truly doubtless.

The value of the Lake fisheries is

placed at \$1,652,900 by the last census. Pounds of fish, 68,742,000. Of this, \$6,804,000 pounds were trout, 15,356,300 herring, 7,012,000 sturgeon, &c.

The New York Herald says the

thousand reports of carpet-baggers and other enemies of the South are the real causes that have hindered immigration to the South. It looks for better things now. But the liars are not all dead yet and the South will be slandered and misrepresented still more.

Our advice to the Cornells is to

remain home. Rowers of their muscle should like small boats keep near the home shore. Thrice beaten and in foreign waters. Let the American eagle hide his beak for fifteen minutes and pluck a fresh quill from his own wings with which to lodge Cornell's collapse.

What an immense sum big Ver-

mont pays to the General Govern-ment in the way of revenue tax. It actually paid \$53,000 for one year, almost as much as Darham would pay in one day. Maine, not to be eclipsed, became desperate and planked down \$2,456 05. No wonder the people of that region like a law that takes nothing from them, collects from two to twenty million from other States, and thus pays the great debt and creates a great sinking fund.

The precise condition of the Presi-

dent, the cause of the recent surgical operation, and the location of the ball are not fixed facts in the knowledge of the public. The following may help you to understand the matter better or to make you become more perplexed than ever as the case may be. The Washington correspondent of the Baltimore Sun says on the 10th:

"The impression is growing that the operation of Monday was not so much to facilitate the exit of pus as it was to straighten the track of the bullet, so that the electrical probe can be used in locating it to a certainty the position of the bullet. Those who know Dr. Agnew, well and are familiar with his views in regard to this case say he is not at all satisfied with the bullet being where it is, and that it is his intention to cut it out if it can be located as the only means by which a final recovery can be assured. It would have been taken out weeks ago, had the President's condition been such that he could stand the operation. It is said that in a conversation with Secretary Blaine yesterday he said that the ball would have been extracted before this, but that the danger attending the operation would be more than that of leaving it where it is, unless the President was sufficiently strong to rally from the effects of the operation. It is said also that Dr. Agnew is of the opinion that the rise in temperature during the evenings of last week was due more to the irritation caused by the bullet than by the inefficiency of pus discharged."

When Dr. Agnew returned on

Tuesday to Philadelphia he refused to be interviewed as to the condition of the President, referring reporters to the official bulletins.

The Democrats have carried North

Carolina in every State election since 1868, except one. They have a majority of some 13,000, according to the vote, but more if all the electors would turn out. The prohibitory law is defeated by 100,000 majority. If the Democrats, as a party, had supported it, would they not have carried it? Hew, then, was it defeated by such a tremendous majority? Is it not nonsense, or worse, to be saying that it was a Democratic measure and that the Republicans defeated it? On the Democratic vote alone the bill is defeated.

Gen. Pleasant is the author of the

articles on Grant appearing in the Philadelphia Times.

Pharmaceutical Association.

New Berne Nut Shell. Most of the time of this able body was taken up yesterday in reading well prepared papers, and in the election of officers for the ensuing year. The following officers were elected: President - S. J. Hinsdale, of Fayetteville. Vice Presidents - William Simpson, of Raleigh; E. H. Meadows, of New Berne; V. O. Thompson, of Winston. Secretary - T. C. Smith, of Charlotte. Treasurer - John S. Pasco, of Raleigh.

The Association adjourned sine die,

to meet on the second Wednesday in August, 1882, at Winston.

THE CITY.

NEW ADVERTISEMENTS.

MUNSON - The King shirt. PROF. N. SCHMITZ - Piano tuning. WANTED - Barber and hair dresser. B. F. MITCHELL & SON - Oats and rye.

The Drought and the Crops.

A week or two ago we were deploring the bad effects of the long-continued drought in the Western part of the State and portions of South Carolina, and at the same time giving vent to our satisfaction at the fact that we in this section had been blessed with generous seasons and had before us a prospect of good crops. Now the scene has somewhat changed, so far as this section is concerned, as we are informed that the crops in the Town Creek section, in Brunswick county, which were looking so finely ten days ago, now present quite a discouraging appearance; and the same may be said of the lower part of Brunswick and the neighborhood of Little River, South Carolina. To add to the trouble, the wells are drying up and it is difficult to get sufficient water to supply the stock. Unless this section of the State is visited by pretty general rains very shortly the result will be very disastrous.

Shipments of Vanilla.

We mentioned a few days since that the vanilla plant had become quite an article of export from this city, and instanced the fact that seventy-five bales had been shipped during the past week. Referring to the same subject, Mr. A. C. Powell, of Teachey's, Duplin county, writes us that from that little town, on the Wilmington and Weldon Railroad, the agent of Root and Herb Company claims to have bought and shipped one hundred bales in the last thirty days, and expects to ship one hundred and fifty bales in the next thirty days. He ships to Baltimore.

Personal.

Mr. Sol. Haas of the Associated Railways, Mr. R. S. Tucker, of the well known firm of W. H. & R. S. Tucker, of Raleigh and Col. T. S. Emery of Weldon are at the Purcell House.

DRUNKENNESS.

Those who have taken Simmons Liver Regulator declare that it sets the liver in action and invigorates the system in such a way as to destroy the craving for strong drinks. A Genuine prepared only by J. H. Zella & Co.

Local News.

Receipts of cotton yesterday 13 bales.

One case of drunkenness reported at the station house yesterday.

Sixth street bridge has just undergone thorough repairs and will be ready for use to-day.

There was a good attendance upon Prof. Agostini's excursion on the steamer Passport yesterday.

The clerk of the market reported everything lovely in the market cart line yesterday, the streets being clear in good time.

Rev. J. W. Shackford will preach at Front Street M. E. Church to-morrow at 11 A. M. and at Fifth Street M. E. Church at 5 P. M.

One of the Water street brokers is said to have temporarily changed his occupation on Thursday to that of "drummer," his field of operations being Wrightsville beach; and it is further reported, on good authority, that he not only failed to "saw" pile" even so much as the scale of a fish, but that his pedal extremities have been in a state of cream-ation ever since.

Daily Weather Bulletin.

The following will show the state of the thermometer, at the stations named, at 3.00 P. M. yesterday, Washington mean time, and also the amount of rainfall in inches for the twenty-four hours ending daily at 3 P. M., except Tuesday, when it is 48 hours, as furnished by the Signal Officer of this city:

Table with columns: Station, Temp., Rain fall, Weather. Includes Atlanta, Augusta, Charleston, Charlotte, etc.

The following are the indications for the

South Atlantic States to-day: Fair weather, winds mostly southerly, stationary or higher temperature, and stationary pressure.

An Assault and a Lively Chase.

A colored boy named Wesley Spearman, aged about 12 or 13 years, was arrested yesterday morning for committing an assault upon another colored boy named Wm. Holmes. It seems that the difficulty occurred in the neighborhood of Seventh and Market streets, during which Spearman struck a rock at Holmes, which struck him on the head and inflicted a wound from which the blood flowed quite freely. Spearman was subsequently pointed out to Sergeant Davis, of the police force, in the lower part of the new market, but the boy noticed the officer about the same time and darted down in the direction of Water street, pursued by the officer. The boy was making good time, with a chance of finally coming out victorious in the race, when, suddenly for him, just as he was in the act of turning the corner of the Scandinavian Saloon into Water street he ran "slap-dab" into the arms of Officer Costen. Sergeant Davis arrived at the scene a moment after, and Spearman was taken to the guard house.

The Life-Saving Station Again.

Mr. Daniel Stimson, a clever and enterprising gentleman of New Berne, has contracted to furnish the material and erect the necessary buildings for the Life-Saving Station on our coast. He was in the city yesterday, having just returned, with Lieut. Shoemaker, from Smith's Island, where the station is to be located. Mr. Stimson is now fitting up the frames of the buildings at his mill in New Berne, and will take them around to the station in vessels when completed. He expects to have the lumber on the ground in about three weeks and will then commence the work of erection at once. Should no unfortunate circumstance prevent he expects to have the entire work completed and the station ready for service in about sixty days.

The exact location of the station will

be well out on Cape Fear Point, and about three miles from the light house.

Institution of a New Council of the

American Legion of Honor. On last Wednesday, the 10th inst., La Fayette Legion No. 1, of the American Legion of Honor, was instituted at Fayetteville with forty charter members, by Nath'l Jacob, Esq., the Supreme Deputy for North Carolina. The following are a list of the officers of the new Council: C. - C. M. McDonald. P. - W. C. Troy. V. - J. C. A. McKethan, Jr. S. - J. P. Thomson. Col. - L. Strous. T. - B. E. Sedberry. Med. Ex. - Dr. W. C. McDuffie. Chaplain - A. B. Dangerfield. G. - W. G. Tolar. G. - J. A. Pemberton, Jr. W. - M. Schlossburg. S. - A. Elson. Trustees - W. J. Tolar, N. H. Cohen, W. H. Tomlinson.

Mayor's Court.

The case of William Phinney, colored, charged with committing an assault with a deadly weapon upon one Lucy Morse, colored, which was to have come up before the Mayor's Court yesterday morning, was continued on account of the fact that the injured woman was unable to be present to give in her testimony.

THE ELECTION.

From specials to the STAR we give the following returns from the counties named on the question of "Prohibition" or "No Prohibition":

GRAHAM - For 79; against 125. Majority against 45.

WATAUGA - For 228; against 731. Majority against 503.

FORSYTH - For 603; against 2,214. Majority against 1,611.

YANCEY - For 502; against 306. Majority for 196.

BUNCOMBE - For 1,006; against 1,743. Majority against 737.

CALDWELL - For 245; against 871. Majority against 626.

UNION - For 809; against 1,694. Majority against 885.

ALAMANCE - For 543; against 1,749. Majority against 1,206.

CASWELL - For 210; against 2,700. Majority against 2,490.

ALEXANDER - For 387; against 652. Majority against 265.

Official Vote of North Carolina on

Prohibition, August 4, 1881.

Table with columns: County, For, Against. Includes Alamance, Alexander, Alleghany, Ashe, etc.

Wanted.
