OUTLINES.

This Marvin, who through false representations married an estimable young lady of Richmond, Va., negotiated a false draft and absconded, has been arrested in Lyon, Mass. — Hartmann, the Russian nihilist, fled his declaration to become a citizen of the U. S., at New York yesterday. — Capt. Howgate of the U. S. Signal Service, charged with embezzlement, was arraigned at Washington and the case adjourned to Monday. — The chief and others of the Greek Brigands who captured Mr. Sutcliffe in Kumela last spring, have been arrested. — New cotton has been received from Alexandria, Egypt. — Elections for members of the German Reichstag begin tomorrow (19th). — Another mail robber captured in New Mexico. — Physicians report a gradual improvement in the condition of President Garfield; nourishment was taken several times during the day without any sign of the stomach; inflammation of the peritoneal gland was reported, but this was said not to cause alarm; it resulted in a moderate state of the patient. — Reported generally in the North-western States Wednesday. — Prices of wheat and wheat flour advanced rapidly in the market yesterday. — New York market: Money 6@3 per cent; cotton 12 1/2@13 1/2; southern flour fairly steady and higher at \$5 50@7 75; wheat 1 1/2@1 3/4; corn 1 1/4@1 3/4; sugar 24@25; spirits 40@41; turpentine 40@41; rosin 42@43.

Another run-off on the Oxford and Henderson road, but no one hurt. — The Henderson Tobaccoist-Review is out as a daily. Price \$3 a year. We hope it will succeed. — Since 1879, when the railroad scheme originated, there have been over 44 houses erected at Oxford, one of the most beautiful of the beautiful towns in the State. — Oxford Torchlight: The thermometer stood at 104 in Oxford Saturday at 1 o'clock in the shade. No less than ten pairs of twins have been born in and around this town in the last twelve months, and we didn't have any railroad or telegraph either. — Elizabeth City Economist: On Saturday Prof. Kerr went down the Nag's Head beach to ascertain the location of Kill Devil Hills, Kitty Hawk, also of Jockey's Ridge and Nag's Head. The latter he found to be, on the south side, about 150 feet high, and the former, contrary to the general impression, many feet lower. We are told that Jockey's Ridge is the highest point of land on the North Carolina coast. — Sam Pierson stabbed Rob Walker in the neck, killing him. This was eight miles from Morganton. Sam left for parts unknown. The nation's lawyer says: It is said that an old grudge existed between Pierson and Walker on account of the rejected matrimonial overtures of the former to the sister of the latter some years ago. Pierson is described as a desperate character, although quite small in stature. — Warsaw Brief Mention: Excellent rains have visited most of this section, greatly reviving everything and improving the crops. We deeply regret to hear that H. E. Sandifer, of Onslow, is dead. He was an excellent gentleman. — The Justices of Sampson have established an inferior court for their county. They have shown excellent judgment in electing Rev. J. L. Stewart, one of the best lawyers in the State, as chairman. A. J. Johnson and James Huggins, Esqs., are his associates. — We do not deem it altogether nice to print every compliment a newspaper may receive from its kind and intelligent patrons, but then one likes to know about them, nevertheless. — Raleigh News-Observer: Correct. It ain't "nice" to publish "every compliment." We only give about one in a dozen. Several very "nice" ones have come to us, but we keep them all to ourselves. But why should not our many readers see what "its kind and indulgent patrons" say? It is so "nice" you know to be praised and so "nice" to "see one's name in print." — Henderson Tobaccoist-Review: The crops have been damaged, but not to any serious extent. It is the same old cry that we hear every year. The crops will be as large as any for the past five years. — In a difficulty which occurred last night just out of town, a lady, Mrs. L. H. Hawkins and Lane Willford, both colored, the latter was peacefully stabbed. The O. & H. Telegraph Company are doing a good business. An enormous per cent is realized on money sent by telegraph. — Henderson in the most elevated point on the R. & G. Railroad and is also the largest shipping point. — Thermometer 108 in the shade last Saturday. — Durham Plant: On Wednesday last, at Asheville, Miss Bettie Hawkins, of Franklin, and Miss Sallie Carter, of Raleigh, were enjoying a pleasant horseback ride in the suburbs. While descending a steep hill they discovered a double team attached to a wagon coming in the rear at full speed. The team, being unable to escape, ran over Miss Bettie dismounted, but found it impossible to make safe her retreat. Hard pressed by the maddened steeds dashed forward in the face, but with calm determination she threw herself on the ground, when the horses passed over or either side and an instant afterward she was clasped in the arms of her friends unhurt. — Durham Plant: It is our painful duty to chronicle the sad news of the death of that estimable lady, Mrs. L. N. Link, wife of our townsman, ex-Mayor Link, which took place Saturday morning at 10 o'clock. — The Chatham trade is turning from Raleigh to Durham. — Mr. B. L. Duke, one of our most enterprising townsmen, has commenced the erection of a large brick hotel on the lot where stood the "Duke Hall." This building will be three stories high and extend from Main to Clay street. — At the house of Mrs. J. N. Link, Parrish & Blackwell sold 112,153 pounds, which averaged \$17,849.82. Lea Bros. sold at the Banner warehouse 68,849 pounds, which averaged \$16.04 per hundred—total \$11,134.69. — Charlotte Observer: A man named Cagle, was very seriously injured, yesterday, by the falling of a coal bin on the North Carolina road a few miles beyond Concord. He will recover however. — One of the green-eyed provincial newspapers published in a village not far from Charlotte, describes the cut of the Charlotte, water works which appeared in Sunday's Observer, as looking like a picture drawn by a dring man of what he saw during an attack of delirium tremens, struck by lightning. It is necessary to state that newspaper has no special artist. — Raleigh News-Observer: From Raleigh to Durham the suffering for rain is very great. The railroads are as dusty as a race track. — A farmer near this city planted twenty acres of new ground in corn. Today not a single stalk is living. — The first bale of new cotton is anxiously awaited. Yesterday morning at 6 o'clock, the thermometer was 88 degrees, lower than since May. — The grape crop in this section is very large and of good quality. — The railroad work on the Edenton extension of the Edenton City & Norfolk Railroad is progressing nicely. — About 700 laborers are employed on the work. — Miss Ellis, daughter of ex-Governor Ellis, of North Carolina, figured in an opera given at Berryville, Va., a few nights since. He was a son of James Clarke Rife. — North Carolina contributes 294 white and 459 colored people to the population of the District of Columbia. — We mentioned yesterday the death of a young man of this State by drowning. A letter from Mabaneville gives the following additional particulars: "On last Friday evening, about dark, Charles Cresswell, a young man from this place, and a companion, were out on the Hudson river in a small boat. They rowed to near a passing steamer and were drawn under the wheels of the boat and both were drowned. The body of young Cresswell was found yesterday and will be brought to Mabaneville to be buried. He was a son of James Cresswell, an Englishman, living near this place. Two years ago he finished his

Local Items.

Maj. Hill is reported better. — New cotton is coming in quite lively. — Receipts of cotton yesterday 8 bales. — Ex-Mayor Fishlake and family have returned. — Mr. N. B. Rankin, who has been very sick, was sufficiently recovered to be on the streets yesterday. — Cannot some of our enterprising shippers charter a few steamers to load with cotton here for foreign ports? — There are some bad places in the pavements on Water, between Market and Dock streets, which should be repaired. — Sergeant Haines, of the U. S. Signal Office in this city, has gone to Philadelphia, having been called thence by the death of his father. — If you wish to see something lively just our Chicago market report to-day. Every commodity there seems to be active, strong or excited. — Cotton for August delivery sold in New Orleans yesterday at 13.05, and in New York at 13.49. Who says those New Orleans boys don't know a thing or two? — By some unaccountable oversight we omitted to mention that the first bale of new cotton, alluded to in our paper of Wednesday, was consigned to Messrs. Worth & Worth. — The thermometer at the STAR office registered 64 degrees yesterday morning, at 5.30 o'clock, being one degree and a half lower than at the same hour the previous morning. — Just at these presents it is both pleasant and profitable to buy eggs from the shops and stores. We know what we are talking about for we have tried it. The other day we bought 18 eggs and out of the lot we got seven good ones. The others were "bad eggs," you bet, and "too hot for the ice-box." — Look Out for the Flag. We learn from Mr. E. W. McGinn, in charge of the Signal Office here, that, for the convenience of all interested, he has arranged to display one of the regular Clyde steamship flags—a new and handsome one having been furnished by Mr. T. E. Bond, the agent, for that purpose—whenever an incoming New York steamer crosses the Bar. The office at Smithville will notify the office here upon the approach of a steamer and the flag will be hoisted on the Signal Station forthwith. This arrangement is a capital one, and will prove a source of convenience to many. So, look out for the flag, if you want to know when the steamer is coming! — Injured by a Fall. A colored laborer by the name of Geo. Toomer, living on Taylor, between Fourth and Fifth streets, fell through the scullie left for the stairway in the new residence being erected for Mr. Jno. C. Heyer, on the southeast corner of Fourth and Red Cross streets, yesterday morning about 10 o'clock, and was precipitated a distance of about fifteen feet to the floor below, striking a ladder in his descent and breaking one of his ribs. He was removed to his home by the assistance of some of his fellow workmen and received the necessary surgical treatment. It is hoped that his injuries are not serious. — Magistrate's Court. Rena Pearson, colored, was arraigned before Justice Mills, yesterday morning, on the charge of committing assault and battery upon Nancy Churchwell. Judgment suspended on the payment of costs. Nancy Churchwell was next called upon on the charge of committing assault and battery upon Rena Pearson, and judgment in her case was suspended on the payment of costs. The two then paid up and departed, perfectly satisfied, and with a high opinion of the law. — Rather Provoking. If there is a cow ordinance it should be enforced, particularly against those reckless bovines that are in the habit of going around the streets and deprecating upon people's property. One of these, yesterday morning, while Mr. H. H. Bloom's back was turned for a moment, ate a fine cabbage and a lot of Irish potatoes, besides upsetting a tray containing six dozen of eggs, four dozen of which were broken and destroyed; the articles being on shelves in front of his store on the corner of Fifth and Chesnut streets. — Unavailable Matter. The following is the unavailable matter remaining in the city postoffice up to this date: Mr. Henning, 504 North Seventh street, Richmond, Va.; Mr. E. M. Johnston, Camers, Pender county, N. C.; Mr. Samuel O. James, Bates, Cumberland county, N. C.

Daily Weather Bulletin.

The following will show the state of the thermometer, at the stations named, at 3.00 P. M. yesterday, Washington mean time, and also the amount of rainfall in inches for the twenty four hours ending daily at 3 P. M., except Tuesday, when it is 48 hours, as furnished by the Signal Office of this city: Atlanta 80, Baltimore 80, Boston 80, Buffalo 80, Charleston 80, Charlotte 80, Clear Lake 80, Columbia 80, Galveston 80, Havana 80, Indian Land 80, Jacksonville 80, Key West 80, Montgomery 80, Punta Rasa 80, Savannah 80, Wilmington 80, Orangeburg 80, Port Eads 80, Pensacola 80. The following are the indications for the South Atlantic States to-day: Partly cloudy weather, local rains, variable winds, mostly north easterly; stationary temperature, stationary or lower pressure. Worth Trying. A gentleman of this city gives us the following, which he terms an infallible cure for dropsy: To one quart of sweet cider put one quarter of an ounce of saltpeper, together with a sufficient quantity of horseradish and parsley root to make the mixture taste strongly of those ingredients, and take a good draught three times a day after eating. Our informant says he has known it tried in various instances and always with success. SEWER AND MARINE. — Norwegian barque Loveland, Bastrap, sailed from Bergen for this port on the 9th inst. — The schooner Adelta, from this port for Moule, Guadaloupe, with lumber, put into Antigua July 28, where she was quarantined, the mate and one man having died from ague during the passage. For the Star. — Please allow me, through the medium of your paper, to express my heartfelt thanks to those of my friends who have within the last day or two responded so liberally to a call for money, whereby I am enabled to do more thorough work for the colporteur than I have hitherto done. May the Lord reward them fourfold. W. J. POTTER. CITY ITEMS. THE MORNING STAR can always be had at the following places in the city: The parcel House, Harris' News Stand, and the STAR Office. WICKED FOR CHILDREN.—Bellevue, Mr. Washington, D. C., writes: "I believe it to be all wrong and even wicked for clerymen or other persons to be led into giving testimonials to quack doctors or vile stuffs called medicines, but when a charitable person makes of valuable remedies known to all, that all physicians use and trust in daily, we should freely commend it. I therefore cheerfully and heartily commend the Hon. J. B. Colporteur, who has done me and my friends, armily believing they have no equal for family use, I will not be without them." — New York Register Weekly. A DOWN TOWN MERCHANT, having passed several sleepless nights, disturbed by the agonizing cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and assisting his wife with what he had done, he returned to his bed, ministered to the child, as she was strongly in favor of Homoeopathy. That night the child passed in suffering, and the parents without sleep. Retaining hope the day following, the father found the baby still weeping, and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the child with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow broke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception, practiced upon her, she has continued to use the Syrup, and suffering children and sleepless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby and overcome the precursors of the mother. Sold by all Druggists. 25 cents a bottle.
