OUTLINES.

The health officer of the port of Key West, Fla., has been dismissed for refusing to give clean bills of health; he reports that yellow fever exists in the city and supports his statement by an affidavit from several physicians. —— Redmond, the South Carolina moonshiner, was convicted on ten counts, at Columbia, Thursday. —— President Garfield gained a little yesterday afternoon, but the improvement was so slight that it did not afford much encouragement to his attendants; the glandular swelling broke and was discharging through his right ear; but this failed to afford expected relief; the case continues to be one of great gravity and danger. —— Some of the churches of Washington, D C., recommend the general observance of Sunday, the 28th inst., as a day of fasting and prayer for the recovery of the President. —— A brewery at Philadelphia burned; loss $60,000. —— New York markets: Money 3@6 per cent.; cotton nominal at 12¼@13¼ cents; southern flour quiet and in firm demand at $1 10@5 50; wheat 1@2c lower, ungraded spring $1 11@1 28; corn 1@1½c lower, ungraded 63@72 cents; spirits turpentine held higher and quoted at 49½ cts asked; rosin strong at $2 10@2 15.

The New York *Herald* knows nothing of the published changes in its management and staff.

Rumor credits Mr. Alex. H. Stephens with being very busy over a reply to ex-President Davis's work.

While Richmond is crying out "water, water!" Philadelphia is holding its proboscis over the stinking streets.

O'Donnamite Rossa says he and his confederates "mean buisness now" and the British ships must go down or go up.

It is predicted by some of the calculators that the grain crops of the United States will fall short 200,000,000 bushels. Others are more hopeful.

Dr. P. Goolrick, of Washington City, an old army surgeon of large experience, says he has no doubt the President is suffering from blood-poison.

Two yellow fever cases in quarantine at New York, and many others suspected. Yellow fever is now epidemic in all of the West Indies. Look out.

One of the most interesting and scientific thieves of modern times is Capt. W. H. Howgate, late of the Signal Service. His work is now being inspected.

Richmond, Va., has resolved to have a steam pump capable of supplying 6,000,000 gallons daily of water. The Council have appropriated $80,000 for the purpose.

Attorney General MacVeagh has rendered a decision that reverses one made by his predecessor, Devens, relative to rank in the army. This decision concerns quite a number of officers.

The Columbia *Register* pays a good deal of attention to cotton and cotton statistics. It estimates the crop of 1881 at $352,800,000. This is some $27,000,000 more than the crop of 1880.

U. S. Grant is no longer "the great national mendicant." He is reported as having made a quarter of a million lately in Wall Street speculations. His friend Jay Gould whispered in his ear.

The Raleigh *Observer* says: "Col. Jones has been longer in the harness than any other editor of a daily paper in the State." If the *Observer* refers to continuous service in the position named it is in error.

The new cotton crop is variously estimated at from 5,700,000 to 7,000,000 bales. Suppose we average these estimates, and call it 6,350,000 bales. We are inclined to believe, however, that the latter is a full estimate.

Senator Lamar, the ablest man in Mississippi, and one of the ablest in the United States, is going to take the stump and will visit every county in the State. They are trying to beat him for the U. S. Senate and to remand Mississippi into the keeping of the Radicals who came near ruining it forever. Mr. Lamar means to prevent such a sad calamity. He is a power. His health, however, is feeble and he may not hold out.

THE VOTE.

We learn from a Proclamation of the Governor in the Raleigh *News-Observer* that 212,194 votes were polled in the election on August 4, 1881. Of these 48,061 were for prohibition; 164,133 were against prohibition—majority against prohibition 116,072.

Lieutenant Commander Brown, of the United States torpedo ram Alarm, reports to the Navy Department that the trials have been satisfactory entirely, and it has been demonstrated that a vessel of considerable size can be steered and propelled by a screw alone, without a rudder, that it can carry guns of the largest size, which can be aimed with precision and certainty. He says the Alarm is the most formidable vessel in our navy.

Mr. Tom Keogh, of Greensboro, has just returned from Washington, and represents Dr. Bliss as saying to him that he had not had any hope of the President's recovery in ten days. The New York *Star* says that while "the President lies fighting for his life, somebody at his bedside is telegraphing his sufferings to stock speculators to make money out of his miseries. Who is it?"

There is one kind of experiment that is repeated often and is very dangerous. It is to try the fun of pouring kerosene oil on fire. The test has been made a hundred or two times by chamber maids and housewives, and with the precise result every time. There was a funeral afterwards. The last noticed happened at Burlington, Vt., on the 24th. Next.

When we were told that the glandular swelling in the President's head had broken and was discharging through the ear we thought we discovered one gleam of hope; but when the quartette of doctors informed us that pus was discharging through the "right external auditory meatus" we gave up in utter despair.

The colored men of New York are beseiging Mayor Grace for an appointment on the police. The Philadelphia example is catching. The Mayor is a Democrat and possibly he may take a notion to appoint one or two. The Republicans never did that way.

The greatest political disturbance to which Philadelphia was ever subjected was that given by Mayor King, Democrat, when he appointed a negro as a policeman. The Republicans of the "city of brotherly love" regard the Mayor as a disturber of the peace.

It is said a large number of doctors scattered throughout the country believe that the President has been suffering from an attack of malarial fever. That opinion has not existed among those of the White House.

KNIGHTS OF HONOR.

SECOND DAY'S SESSION OF THE GRAND LODGE.

(Raleigh News-Observer Report.)

The State Medical Examiner, Dr. W. J. H. Bellamy, submitted his report, which was ordered to be printed in the proceedings of the Grand Lodge.

Special order was taken up at 10 o'clock, being the report of the committee on revised constitution for the Grand Lodge. After various amendments and changes, the report was adopted as a whole. The most important changes made were constituting biennial sessions of the Grand Lodge instead of annual; that the reports of Grand officers be submitted in print to the Grand Lodge.

AFTERNOON SESSION.

The special order, the election of officers, was taken up, resulting in the choice of the following:

J. M. Spraggins, Tarboro, Grand Dictator; Dr. R. F. Lewis, Lumberton, Grand Vice Dictator; J. T. LeGrand, Rockingham, Grand Assistant Dictator; Rev. L. A. Bikle, Mt. Pleasant, Grand Chaplain; P. C. Carlton, Statesville, Grand Reporter; S. C. Scofield, Davidson College, Grand Treasurer; N. Jacobi, Wilmington, Grand Guide; D. Cogdell, Goldsboro, Grand Guardian; C. A. Sherwood, Raleigh, Grand Sentinel; J. W. Gudger, Bakersville; J. C. Kennedy, Kinston; A. W. Moye, Greenville, Grand Trustees.

Representatives to the Supreme Lodge—Dr. W. H. H. Cobb, Goldsboro; Theo. F. Kluttz, Salisbury. Alternates—J. D. Taylor, Wilmington; S. J. Pemberton, Albemarle.

The *per capita* tax for subordinate lodges was fixed at $1 per annum.

Greensboro was selected as the place for the next meeting of the Grand Lodge, and the second Tuesday in August, 1883, as the time. It should be remembered that in future the sessions will be biennial.

The officers elect were duly installed by Past Grand Dictator Kluttz.

The committee on the State of the Order, the committee on Returns and the committee on Laws, made reports on various matters referred to them. These reports were adopted.

The Grand Dictator appointed as finance committee M. Bellamy, Wilmington; W. G. Brinson, Newbern; S. G. Dodson, Greensboro.

The salary of the Grand Treasurer was fixed at $50 per annum.

The Grand Lodge having disposed of all the business before it, was closed in due form, to meet in Greensboro in August, 1883.

THE BANQUET.

At 8.30 o'clock the Grand Lodge sat down to a supper, given by Oak City Lodge, of this city, at Metropolitan Hall. Quite a number of prominent gentlemen, invited guests, sat down with the Knights and partook of their hospitality. There were several speeches during the evening. Among the speakers were Col. C. R. Jones and Capt. S. A. Ashe.

Spirits Turpentine

— J. E. Peterson has been elected Captain of the Goldsboro Rifles. The other officers now are T. H. Bain, 1st Lieutenant; R. G. Powell, 2d Lieutenant, and D. W. Galloway, Jr. 2d Lieutenant.

— Warrenton *Gazette*: A party of United States surveyors was at the hotel here last Sunday. We understand they are making a survey of the Roanoke, and report that the river from above Clarksville down can be made navigable, partly by canal. Their report will be made to the next Congress.

— We greeted Mr. J. B. Hussey when it was announced that he would take control of the Greensboro *Patriot*. The last number bears marks all through of a practiced hand. Mr. H. has talents, tact, industry, experience and ambition, and he will make the *Patriot* better than it ever was. Our best wishes attend him.

— Raleigh *Visitor*: Mr. Edward O'Daniel, residing near Mr. G. T. Stronach's, in this county, was seriously, if not mortally, injured by the running away of a mule on Monday afternoon last. ——In the forage market yesterday fodder sold for $1 40 per hundred, instead of $1 10, as stated in yesterday's issue; fodder brought $1 50 to-day; hay from 40 to 60 cents, as to quality; oats 80 to 90 cents; straw 40 to 50 cents.

— Statesville *American*: The farmer will act wisely who will put in a full seeding of Winter oats and wheat for the next crop. Oats should be put in from this time to the middle of September, earlier the better, and wheat in due time. By all means plow the ground well and harrow fine, and then sow with a drill for wheat, if possible. —— We regret to announce the death of Rev. Alfred Carson, of Taylorsville, which sad event occurred at his residence, at 10 o'clock, Thursday night of last week.

— Greensboro *Patriot*: Capital, labor and education is what North Carolina most needs. ——A gentleman who has travelled through parts of Forsyth and Yadkin counties says that in the East Bend, Winston and Flint Hill sections the corn crop is almost a complete failure. A good wheat crop has been harvested. —— The title to the Conrad Hill gold mine—known here as the Old Morehead mine—is in dispute. Mr. J. F. McKee, the manager of the company now operating the mine, makes a spirited defense of his title. He asserts a fee simple. The mine is being developed and proves to be very valuable property. ——The Mt. Pleasant Manufacturing Company, composed of solid and enterprising business men, commenced operations on the 15th inst. The factory is located at Mt. Pleasant, in this county, and supplied with the best and latest improved machinery. The enterprise has abundant capital behind it, and promises to be successful and profitable. Only warps are manufactured at present.

— Raleigh *Farmer and Mechanic*: We are pleased to learn that Dr. Carmer, formerly of Raleigh, now of Norfolk, is doing very well with his Granville county "Odenheimer Sauce," which is being sold in large quantities. ——Gen. Clingman thinks Garfield should call Vice President Arthur to his bedside and delegate to him the powers of President. It would be a bad precedent to set. The time might come when a President would dodge his duty by going off and leaving the V. P. in charge. ——The collections from the street boxes are no longer made twice daily. One collection only is made, at about 9 A. M., in time for the Northern mail on the Raleigh & Gaston Railroad. The carrier is a colored man, Henry Scott, who succeeded Alex. Strickland, who was so long the carrier. The pay for this service, says the Postmaster, is sufficient to secure collections twice daily.—*Daily Observer*. This is a curious statement by Mr. Posmaster Nichols. If the young darkey won't do the work for the pay, why remove the old darkey who was doing it? Now, we happen to know that the very considerable sum of $550 has been added to the pay of the Raleigh postoffice within a short time past, to insure better accommodations for the public; yet they are less than before? When Gov. Holden went to see Garfield he was met by the complaint that he did not employ negro clerks. Holden replied that he had a full corps of clerks, but if he had more pay he could very well employ another. Garfield at once ordered an additional allotment of $550 a year to the Raleigh office. Mr. Nichols came in a few weeks after; and dispensed with a stamp clerk, thus increasing the time of mail distribution, and he now cuts off two collections from the lamp posts. What goes with the extra pay?

THE CITY.

NEW ADVERTISEMENTS.

MRS. ANTONE RUSH—Notice.

Local Dots.

— Receipts of cotton yesterday 19 bales.

— The storm signal was displayed again yesterday.

— Very little doing in magisterial circles yesterday.

— There were no cases for the Mayor's Court yesterday morning.

— Rev. J. B. Taylor, pastor of the First Baptist church, returned home last night.

— The rice crop of this immediate section now promises a very large yield, and of fine quality too.

— We had the pleasure of a call yesterday from Mr. Theodore Hobgood, editor and proprietor of the Toisnot *Home*.

— The grain mills in this city are running night and day to supply the demand upon the market for meal and other articles turned out by them.

— There was a fine rain here yesterday afternoon, which seemed to be the wind up of the gale of wind that has been prevailing and threatening for the past day or two.

— The wind yesterday morning swept the dust through the streets in clouds, to the intense annoyance of pedestrians, who welcomed the timely shower which came and put a stop to the antics of "rude Boreas."

— We believe there is an appropriation of $20,000 available for the improvement of the Cape Fear river above Wilmington. Why is not advantage taken of the present low stage of water to begin the work?

— Dr. W. J. H. Bellamy and Messrs. N. Jacobi, J. D. Taylor and Marsden Bellamy, who have been in attendance upon the session of the Grand Lodge of Knights of Honor at Raleigh, returned Thursday night.

— We are informed that the Agent of the Wilmington & Weldon Railroad at Teachey's, Duplin county, has shipped thus far this season 169 bales of vanilla or "dog tongue" to the northern markets. The bales are as large as cotton bales.

— We saw yesterday a curiosity in the shape of two eggs joined together *a la* the Siamese Twins, which were laid on a pump (instead of a softer nest) by a hen belonging to Mr. J. Sternberger. The shell of one was rather pliant, but that of the other nearly hard.

A Scrimmage.

Lewis Green and J. H. Giles, both colored, were arrested yesterday morning on the charge of disorderly conduct. Officer Stone says he was in the neighborhood of Front and Market streets, when he noticed Green running in the direction of Second street and Giles in pursuit with a rock in his hand. The officer followed them up Market to Second and down Second to Dock, soon after turning into which latter street they were overtaken and carried to the guard house. Green said that Giles struck him and then ran, and from the language the former used it was natural to suppose that he was in a very bad humor.

Fire at Wrightsville.

The kitchen on the premises of Mr. Howell Cobb, formerly of this city but now of Catawba county, located on Wrightsville Sound, was destroyed by fire on Thursday morning, about half-past 10 o'clock. The dwelling was unoccupied, but a colored man lived in the kitchen. He built a fire that morning and afterwards fastened up the kitchen and went fishing in the Sound, and it was during his absence that the building caught fire and was destroyed. The neighbors arrived at the scene in time to save the dwelling, but too late to do anything for the kitchen.

The stomach being the chief organ of digestion, is subject to a variety of troubles, brought about during the spring and summer months by the consumption of improper articles of food, impure water and other things. When a man's stomach is out of order he becomes an exceedingly unhappy creature, and doctor's bills roll in with a regularity that is positively dreadful. All this is unnecessary. If the victim would inquire of any respectable druggist, he would learn that in PERRY DAVIS PAIN KILLER, a remedy of forty years' standing, he has a certain, safe—and in all ordinary cases an instantaneous—cure for diarrhoea, dysentery, cholera, cramps, and other affections of the stomach. †

Daily Weather Bulletin.

The following will show the state of the thermometer, at the stations named, at 3.00 P. M. yesterday, Washington mean time, and also the amount of rainfall in inches for the twenty four hours ending daily at 3 P. M., except Tuesday, when it is 48 hours, as furnished by the Signal Officer of this city:

	Temp.	Rain fall.	Weather.
Atlanta	82	.00	Clear
Augusta	86	.00	Fair
Charleston	79	.02	Cloudy
Charlotte	82	.00	Clear
Corsicana	96	.00	Fair
Galveston	90	.00	Fair
Havana	86	.00	Fair
Indianola	89	.00	Haze
Jacksonville	83	.00	Cloudy
Key West	89	.03	Fair
Montgomery	89	.00	Clear
Punta Rassa	84	.83	Fair
Savannah	78	.00	Cloudy
Wilmington	81	.00	Cloudy
Cedar Keys	86	.00	Fair
Port Eads	85	.00	Clear
Pensacola	89	.00	Clear

The following are the Indications for the South Atlantic States to-day:

Cloudy, rainy weather; variable winds mostly from northeast to northwest, lower temperature and low pressure.

Unmailable Matter.

The following is the unmailable matter remaining in the city postoffice up to this date:

One white envelope, no address; Mrs. Martha Thornton, Harrison square, Mass.; Mrs. Adaline Monroe, Bladenborough, N. C.; Mrs. Jane Harrison, Simpson's Turnout, S. C.; Edward Tucker, No. 3 Stand Hope Place.

RIVER AND MARINE.

— German barque *Elise Metzler*, Dahms, hence, arrived at Stettin on the 21st inst.

— The Schr. *W. B. Mackie*, Capt. Dowling, which was cleared from this port for Port-au-Prince, Hayti, on the 22d inst., with a cargo of 196,400 feet of lumber and 25,000 shingles, by Messrs. E. Kidder & Sons, returned to this port yesterday in a leaky condition. Capt. Dowling reports that he encountered a storm on Tuesday night, the 23d inst., just in the western edge of the Gulf Stream, and that the sea was very high, to give some idea of which it may be mentioned that an anchor suspended under the bow of the vessel was washed from its position and landed on deck. Part of the cargo of lumber was washed overboard and the vessel sprung a leak, when the captain put back to this port, entering the bar Thursday night. A survey was held yesterday and it was ordered that the vessel discharge cargo for repairs. The freight was covered by insurance with Messrs Atkinson & Manning. The vessel was consigned to Messrs E. G. Barker & Co.

— Capt. A. H. Worth, of the steamer *A. P. Hurt*, arrived here from Fayetteville yesterday by rail. He reports that he left Spring Garden, about four miles this side of Fayetteville, the nearest navigable point, on Monday last at 10.20 o'clock A. M., in his boat, with a flat in tow; got down the river fourteen miles and then transferred his freight, consisting of about 225 casks of spirits turpentine, to the flat, put a crew on her, and she came down as far as Willis' Creek, some distance beyond Elizabethtown, when he (Capt. Worth) left and travelled across the country to the C. C. Railroad and boarded a train for this city. The flat with the freight was expected to reach here in about two days. The steamer *North State*, Capt. Green, which left Wilmington on Friday of last week, has been lying ever since at Cypress Creek, seventy miles above this city. Her freight was transferred there to a flat for Fayetteville, and the *North State* was taking on a cargo of rosin for this place at White Hall and will probably reach here to-day. There is scarcely any water in the Upper Cape Fear and no improvement has been noted.

— We visited yesterday the Swed. barque *Frithiof*, Capt. Aug. Borin, which arrived here recently from Havre, France. She registers 545 tons, and is the first iron sailing ship ever built in Sweden. She was constructed at Sodertam, a seaport near Stockholm, and is of iron throughout, except her decks. Her dimensions are 175 feet in length, 30 feet in width of beam and 15 feet in depth of hold, with a capacity for 6,000 barrels of rosin. She is decidedly one of the handsomest and neatest ships we ever boarded; is provided with all the modern conveniences for purposes of navigation, and has handsome and well furnished rooms for the accommodation of officers. In fact, both outside and in, she is a model of strength and beauty, and we do not blame Capt Borin for the just pride he displays in his noble craft. She is also a very fast sailer, as may be inferred from the fact that she came over in forty-one days, with a head wind all the way, except about two hours, during which, she made the distance from the Frying Pan Shoals Light Ship to the Cape Fear river. She is about ten years old, and is consigned to Messrs. Alex. Sprunt & Son, at whose wharf she is now lying. It is regretted that she did not arrive here in the proper season to take on a cargo of cotton instead of rosin. It is expected, however, that she will be here again before the cotton season ends.

BURNETT'S COCOAINE—A LADY'S HAIR SAVED BY ITS USE—Burnett's Cocoaine will keep the hair in a strong and healthy condition *by stimulating the roots of the hair and restoring the natural action upon which its growth depends.* Twenty years ago a single bottle saved a lady's hair in a desperate case where every other treatment had failed; and since that early success thousands of cases of Baldness, Dandruff, Loss of Hair and Irritation of the Scalp have yielded to this remedy.

The superiority of BURNETT'S FLAVORING EXTRACTS consists in their perfect purity and strength. †

The Ellerbrock Monument.

The monument to the lamented Wm. Ellerbrock, who lost his life during the fire at the corner of Front and Dock streets, has been completed by Mr. Jno. Maunder and will be put in position in a few days. It is twelve feet high and bears the following inscription:

"The citizens of Wilmington, the several Fire Companies and the Christian Association of St. Paul's Evangelical Lutheran Church have erected this monument to the memory of Capt. Wm. A. Ellerbrock, a native of Hamburg, Germany, who lost his life in doing service at a fire corner of Front and Dock streets, April 11th, 1880. Aged 24 years and 24 days." On the reverse side of the dye is a dog in a crouching position and just above it the following inscription: "Faithful unto Death."

The Barque Glacier.

Messrs. L. Hansen & Co., of this city, yesterday purchased the interest of Messrs. E. G. Barker & Co. in the barque *Glacier*. Messrs. Hansen & Co. inform us that the barque in question will be kept here and run in the Wilmington trade. Capt. Small takes leave of the *Glacier*, but his successor has not yet been named. The vessel was formerly owned by Messrs. Barker & Co. and Hansen & Co., jointly.

DON'T DIE IN THE HOUSE—Ask druggists for "Rough on Rats." It clears out rats, mice, bed-bugs, roaches, vermin, flies, ants, insects. 15c per box. †

CITY ITEMS.

THE MORNING STAR can always be had at the following places in the city: The Purcell House, Harris' News Stand, and the STAR Office.

WICKED FOR CLERGYMEN.—Rev, Mr. ——, Washington, D. C., writes: "I believe it to be all wrong and even wicked for clergymen or other public men to be led into giving testimonials to quack doctors or vile stuffs called medicines, but when a really meritorious article made of valuable remedies known to all, that all physicians use and trust in daily, we should freely commend it. I therefore cheerfully and heartily commend Hop Bitters for the good they have done me and my friends, firmly believing they have no equal for family use. I will not be without them."—New York Baptist Weekly.

THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the "German Reformed Messenger," at Chambersburgh, Pa.:

A BENEFACTRESS.—Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure that we will teach our "Susy" to say, "A blessing on Mrs. Winslow," for helping her to survive and escape the griping, colicking and teething siege. MRS. WINSLOW'S SOOTHING SYRUP relieves the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle.
