We are informed that the Richmond and Danville Combination refuses to make rates on cotton from Atlanta to Wilmington via Charlotte. It wouldn't surprise us if it should charge North Carolinians double price for riding on its trains.

The Mobile Board of Trade estimates that the cotton crop will fall short 1,000,000 bales. The Washington Post thinks it will be 1,500,000 less. Others place it at 500,000 bales less. There can no longer be any doubt that the crop is seriously dama

WHOLE NO. 4383

The Wall Street correspondent of the Baltimore Sun writes Septem-

"Cotton rose to 11.70 for September and 11.37 for October against 11.35 and 10.98 yesterday. It is evident from this that the August work is not yet over. The squesling in Liverpool is terrific, as seen by the public demonstrations against those supposed to be engaged in the cornering. It has leaked out here today that the foreign market was the chief one against which the manipulation was practiced, New York really playing only a secondary part. In one case Liverpool hoped to obtain relief by importing from Havre, but Ranger checkmated this by shipping cotton from Liverpool to Spain. The spot market is virtually dead."

The Apache Indians have been on he warpath with signal results. They succeeded in massacreing two entire companies of U.S. cavalry, if the reports are to be trusted. Gen. Carr and his entire command were slaughtered. It is another Custer affair. We judge that there was a parley, and the whites were shot down, as it appears, at the first fire. Reinforcements are hurrying to the scene. The Indians prove themselves to be very formidable enemies. They are a well armed as our troops and are very courageous.

The Central Pacific Railroad train on Thursday was thrown from the track by mountain brigands, although they failed to get any booty. There was \$300,000 in the Treasury box. They are thought to be Jimmy Hope's gang. It is said they were after the rich Senator Fair. American brigands are imitating the Italian bri-

Death of David S. Sanders,

Mr. David S. Sanders, one of the oldest white citizens of the county, died at his residence near Castle Haynes, about eight miles from this place, after a lingering illness, yesterday morning. Mr. Sanders came to this county from Onslow somewhere in the neighborhood of 1824 or 1825, and resided for some time at Topsail Sound. He was a very successful peanut planter and was always engaged prominently in agricultural pursuits. He served some years ago, and very acceptably, as one of the Democratic members of the Board of County Commissioners for this coun-

ty, and in all the gelations of life he has been esteemed for his many good qualities. Deceased was about 78 years of age, and was a half brother of the William Mumford who was hung at New Orleans by order of Gen. Butler, and which created such a stir throughout the South at the time of this among the most disgraceful

occurrences of the late war.

The Hace Friday. The September Regatts of the Carolina Yacht Club, the last of the season, took place over the course at Wrightsville on Friday last, and was won by the yacht Bestless. On account of the scarcity of "able seamen" present, it was impossible to man all the yachts, and it was decided by the captains of the Ripple, Restless and Glide, the three boats entering, to have two of them race and then let the winner give the remaining boat a start. In accordance with this agreement the Ripple, Capt. Norwood Giles, and the Restless, Capt. S. P. Cowan, raced first, and the Restless was vic-

torious by one minute. The Restless was then pitted against the Glids, Capt. Pembroke Jones, and beat her also by one minute, only going half over the course. The Restless was given the champion flag, which she had so gallantly sarned, taking it from the Ripple, in whose possession it had been for exactly one year, she having won it at the September race, Lock! Dots.

gests that thanksgiving be rendered in all our churches to-day for our wonderful preservation from the destructive effects of the late storm which swept our coast and resulted in so much damage to property and loss of life.

A "postal" from Deputy Sheriff McIver, of Robeson county, informs the Sheriff of New Hanover that one Lucien Simpson is in fail in Lumberton on the charge of murdering a woman in this county some time ago, and requesting the Sheriff to inquire into the facts at once, and advise the Sheriff of Robeson of the result, as Simpson may soon be released on the charges there. The opening engagement in our beautiful Opera House this season will be that of Anthony, Ellis & Hathaway's Majestic Consolidated Aggregation, on Wednesday and Thursday, the 7th and 8th inst., including a surprising novelty in the person of an East Indian Princess, said to be a veritable Priestees of the Sun, Sadwah, the Fire Worshipper, who will appear at each entertainment in her weird and aweinspiring specialties; something entirely new to an American audience. The Albany Argus says :

"The above organization, which is new

this season, is one of vast magnitude and travels in a style and elegance that falls to the lot of but few of the many companies on the road. They have their own Palace Drawing Room Hotel Car with Monsieur Lebeau, the Chief de Outsine, formerly with Sarah Bernhardt, as master of the larder, and this should be a sufficient guarantee that the wants of the inner man are supplied; but beside this the car has all the modern conveniences, elaborate furniture, magnificent grand piano, library, reception room, pantry, kitchen and state-room for ladies and gentlemen, which certainly should make life very agreeable to the artists engaged with this monster entertainment. Everything that money can provide, with a lavish hand, has been bestowed to make the above organization the strongest in the country, a capital of \$65,000 having been invested by the enterprising managers in this stupendous undertaking. The car is open for inspection to the public in each city or town where they perform, who are cordially invited to see the Queen Parlor Palace on the rail."

Personal and Educational. Five young gentlemen of this city-Messrs. E. A. Alderman, W. R. Morrison, Horton Freeman, Poindexter Taylor and James D. Strauss-left this city during the past week to attend the present session of Wake Forest College.

Mr. W. T. Jones left on Monday night last for Louisville, Kentucky, where be goes to enter the Southern Baptist Theological Seminary.

Robbery of a Plat.

Some thief broke into the cabin of Capt. Pound's flat, lying at Henry Turner's wood wharf, near the foot of Market street, sometime during Friday night, and stole a pair of shoes, a quantity of clothing and other articles. No clue has as yet been obtained to the perpetrator of the theft. The flat in question runs between this city and Town Creek, Brunswick county.
