"Regarding the next Cabinet it is though here that at least Secretaries Windom and Lincoln and Postmaster General James wil remain in the new Cabinet if any change is made. The feeling here is that ex-Senator Conkling will not be tendered the position of Secretary of State, and that he would refuse it if it were offered him."

Chester Allan Arthur was born in Fairfield, Franklin county, Vermont, October 5th, 1830. Fairfield is very near the Canada line. It was thought for some time that he was a Canadian, and was born at Meggs's Corners. His father was named William, and was a Baptist preacher and school teacher.

President Arthur again took the ath of office, this time in Washing ton. He promises to equal Gen. Winfield Scott when the war was just beginning. That veteran was wont to take the oath of loyalty every few days. The new President delivered a brief address. The main point was that Congress would not be called to meet in extra session. The Senate, we suppose, will not be gress. — Monday next, the 26th inst., is called, although if Arthur was to die there would be no successor under the Constitution and all would be chaos. The Democrats would elect one of their own member President of the Senate, if it was to meet soon and before the New York senators are sworn in, and that may explain why the Senate will not be But is it a good tart, to partisan view of a seriquestion when such grave inlarge quantities. — A \$200,000 five in terests are at stake? The country is in that condition to be interested in everything hat concerns President Arthur. What he does, says and thinks may be important. When he was about to leave New York for Washington on Tuesday, many of his old opponents in his own party and many I mocrats took him by the hand aid said a kind word to him. That it is General Arthur's desire to carry out the wishes of the people we have no doubt. No where else can General Arthur look for this advice, and lean so reliantly upon that given him, as on General Garfield's Cabinet. The gentledying father, fell fainting to the floor. Dr. Hammond is vindicated in his opinion of the President's case. He pronounced the swollen gland a most dangerous symptom, when Bliss swore it was a small matter. When Bliss was deceiving the public about the cough, Hammond said it was produced by blood-poison.

Raleigh News-Observer: At a meeting of the Board of Trustees of the University, held here yesterday, Mr. Joseph Austin Holmes, of Laurens, S. The public meeting last evening was an immense one. The speeches were admirable, and nothing was left unsaid. It was worthy of the distinguished speakers, of the audience and of Raleigh.

- Raleigh Farmer and Mechanic: The New Berne News is right. The vehement attacks upon Gov. Vance make "strange reading in North Carolina." It would be much fairer to turn the guns on those who backed the original transfer by

Statistics show that North Carolina has

than any Southern State, except the nest of mountains called (by the Yankees) "West Virginia," and there is no doubt that in the number of "Births" she leads all the other States of the "Original Thirteen," if not the whole Union. —In some aspects the railroad controversy is very unfortu-nate. But it will at least inform and arouse the people. —In accordance with a resolution of the last convention, Bishop Lyman has appointed Rev. Will. S. Bynum and Rev. Geo. Our "TWINKLER" comes before its many readers this morning with new heart and new hopes. Of course, we would not boast of our new clothes; but we cannot resist the temptation to say that we feel just a little bit proud of the nice, bright sheet which we send out this morning.

It is the beginning of the civil year; that of the ecclesiastical year being, in accordance with Exedus XI., 2, "the first day of the first month of the months of the year,' known in the Hebrew almanac by the name of Nissan, and corresponding with parts of March and April. The Rosh-Hashanah with the single exception of the fast of Atonement, is the most solemn festival in the annual cycle, it being celebrated as "a memorial of sounding the cornet, a holy convocation" (Leviticus XXIII., 24) preparatory to the day of Atonement which follows it nine days later; hence the services in the synagogues and temples, on that occasion, are of a very solemn char-

The lumber is being gradually removed, and it looks as if a good thing may be made out of her by Messrs Watson & Eckel, who purchased the wreck, as the anchors, chains, spars and rigging are to a great extent "come-at-able" and susceptible of being profitably utilized. MRS. WINSLOW'S SOOTHING SYRUP.—Rev. Sylvanus Cobb thus writes the "Boston Christian Freeman": We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable.
