President Arthur is still Chairman | Medical Museum, makes a sworn of the Republican State Committee of New York. A little curious. He ought to have resigned before he took the oath of office. What's up?

The New York Sun's special from Washington says that Arthur is more determined to prosecute the Star Route Ring than the late President was. Secretary Blaine is accused of being friendly to the rascals. The Sun says this fact seals his fate as Secretary of State.

Flipper has published a defence of himself. To believe him you must discredit the Colonel and other officers. They are neither honorable nor true men, if he tells the truth. The STAR cannot have any objection to his being vindicated fully, and if he is tried we shall be glad to know that he is acquitted honorably.

The committee retired, and on their return presented the following resolutions. which were unanimously adopted:

Death has removed from our midst one the most prominent citizens of Wilmington. It was with sorrow that the community received the announcement of the death of ex-Mayor John Dawson, who expired on the 29th of September. He came to the banks of the Cape Fear in early manhood, and by industry and strength of will he became a successful merchant and achieved high places of honor in this city. During the scourge of yellow fever that visited Wilmington in 1862 he remained manfully at his post, and discharged his duty as Magistrate of Police to his afflicted

and suffering people; therefore, be it Resolved, That we, the Mayor and Aldermen of the city of Wilmington, in view of the death of this eminent citizen, who, as former Mayor of this city, rendered such numerous and efficient services, feel called upon to give this public official expression our feelings upon the sad event. Resolved, further, That in the death of

Of "Diplomacy," the play to be presented at the Opera House on Tuesday night by the Hoe-Hardie Combination, the Brooklyn Union and Argus says:

"Diplomacy" was played again at the Park Theatre, last evening, to a large au-dience, and it met with a most favorable reception, The success of "Diplomacy" deserved, both on account of the play and the cast. The plot is clean and clear, and the scenes intensely interesting. One good feature of the play is that the author has not subordinated nine-tenths of the characters to make one stand out in undue prominence. All have their due share of prominence, and are well rounded one to another. Of course the characters of Julien and Henry Beauclerc are the leading features of the play but they are not made so at the expense of the others."

Lack Push.

The last Raleigh News and Observer has this to say: "We learn from the STAR that Messrs. Sprunt & 8on have brought a steamer from Liverpool to try direct trade by steamer. We hope that everything will combine to make the effort a success. The Wilmington merchants, however, seem to lack push. They do not appear to make proper efforts to get new trade or extend their business relations with the interior of the State. We do not see the advertisement of any of their business houses in the News and Observer. That is proof positive that they are quiescent. How are the inland folks to know that there are any business people in Wilmington?"

She is provided with a double engine of 10 by 36 inches, and draws only 18 inches of water when light. She has four state rooms and a cabin, and her capacity for naval stores is about 600 barrels of rosin. It is claimed that she is of the lightest draught of any boat that ever run on the Cape Fear river. The Bladen is owned jointly by Capt. Sam! W. Skinner and Messrs. DeRosset & Co., and the latter firm will officiate as her agents in this city. She will be commanded by Capt. Wm. Skinner, a brother to Capt. Sam. Skinner. Settling a Libel Suit.

The Charleston News and Courier of vesterday says: "A settlement was effected yesterday in the libel suit of the steam-tug Blanche, of Wilmington, vs. the derelict schooner Hannah M. Lollis. The schooner, it will be remembered, was picked up by the Blanche soon after the hurricane in August last, waterlogged and abandoned, and was towed into this port. Representatives of the owners of the vessel and cargo were in the city yesterday, as was also Mr. J. S. Wilson, of Wilmington, N. C., the managing owner of the Blanche. The settlement was effected on the payment of \$1. 600 to the tug, the costs of the courts to be paid by the Lollis. The schooner is loaded with lumber, and was bound from Jacksonville to New York when the hurricane wrecked her. The captain was lost and a new captain has been appointed to take charge of her. Her cargo, which consists of lumber, ordered for a special purpose, is supposed to be worth about \$4,000 in New York. The vessel will be towed to Central wharf, unloaded and refitted and repaired, and will then proceed on her voy-

The Court House Improvements. The improvements to the Court House are about complete, and the rooms which have been added are neat, well lighted, substantial and comfortable. The Clerk of the Superior Court has two fine rooms, including the one built strictly fire-proof, as a depository for the county records. Maj. Dunham, Clerk of the Criminal Court, has now a room adjoining the court room, which is a great convenience as compared with the former arrangement, when his room was on the first floor back and occupied jointly by himself and the Grand Jury, when court was in session. Solicitor Moore will occupy the room with Maj. Dunham. The Grand Jury now have this room to themselves, and it has been considerably enlarged and improved. Messrs. B. D. Morrell & Son were the contractors.

Mr. Sneeden's Condition.

At last accounts, yesterday, Mr. John Sneeden, who was so terribly wounded on Monday last, by the premature discharge of a cannon, was doing as well as could be expected. By the way, among the contributions made for his benefit, we notice that Messrs. F. M. King & Co., by whom Mr. Sneeden was employed at the time of the accident, have subscribed \$25, and his shopmates in the same establishment a like amount, making \$50.

Foreign Exports. The Norwegian barque Capella, Captain Holman, was cleared from this port for Hamburg, vesterday, by Messrs. MRS. WINSLOW'S SOOTHING SYRUP.—Rev. Sylvanus Cobe thus writes the "Boston Christian Freeman": We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever.
