is in conflict with mine, yet, knowing as I do the whole case and his relations to it, I

must say most positively, and of my own personal knowledge, that Major Daniel's course has been characterized by the high-

make him the next Governor of Virginia.

- Asheboro Courier: Six men from this county are bound over to appear at the Federal Court next week and answer for violations of the Revenue law. - Mr. James O. Pickard, of Randleman, left last Thursday for Providence, New York, Boston, Lowell and other places, to purchase the new machinery for the Worth Manufacturing Company and the Central Falls Company. — There is a pear tree in this country, on Sandy Creek, said to have been planted one hundred and twenty-seven rears ago.

- Elizabeth City Economist: We learn from an observant gentleman, who has just returned from a long sojourn at Nag's Head, that the sickness on the north end of Roanoke Island and along the coast is unprecedented. The prevalence of sickis unprecedented. The prevalence of sickness is ascribed to drying of the salt marshes by the excessive drought. Another peculiar condition is the unprecedented quantity of fish in the waters of the sound. The waters are full of them. They are caught here in large quantities with hook and line and in other ways. Fat-backs are so thick you can hardly push a pole through them. The fish are fat and healthy, but the quantity is astenning. From the Nag's Head pier one catches fish enough in a short time to supply a family for days. to supply a family for days.

Mr. Moore was the Republican candidate for Attorney General on that ticket last year, and was lawyer of ability.

- Lenoir Topic: Week before last a tall, thin man, "wearing an old flax coat and dirty breeches," with two middle fingers f his left hand off and a bullet wound the calf of one of his legs, called on old Will Howell, living half way up Hibriten, and announced himself as Anderson Howell, son of Will's long lost brother, David Howell. Taking into consideration the fact that Will never had a brother David, there would have been some reason for his believing that his would-be-nephew was mistaken, but old Will, as usual, averse to contradiction, let him have it his own way, but inwardly repudiated the relationship. Not so with Will's fair daughter Jane, for the stranger found favor in her sight, and when he left the Howell domicile, having stolen the proprietor's pocket-knife, she hied away after him. — The most deserted looking habitation in this county is the jail, not a human being has been seen about it for more than a month. - At 12.30 o'clock last night the mercury was down to 52 degrees.

- The receipts of cotton at this port yesterday footed up 1,338 bales.

- Major Cobb, travelling agent of the Goldsboro Messenger, is here and favored us with a call last evening.

- The thermometer at the STAR office yesterday ranged as follows: At 6 a m., 74; at 9 a. m., 65; at 6.30 p. m., 62. - The long looked for change in

the atmosphere came at an early hour yesterday morning, and thick coats had to be called into requisition.

- We learn that a proposition ooking to a railroad between Point Caswell and Clinton, Sampson county, is being discussed with much favor at the latter place.

- A subscriber at Wadesboro writes us as follows: "Does no one in your city sell coal? I cannot find the card of any dealer in that line in your paper.' We pause for a reply.

- The Eastern Baptist Association convened at Magnolia, Duplin county, on Tuesday. Quite a number of our Baptist friends from this city are in attendance, some going up yesterday morning.

- The condition of Mr. John Sneeden is about as favorable as could be expected. The wounds are reported by Dr. J. T. Schonwald, Jr., as doing nicely. The worst of the trouble now is in his mental condition, as he seems to be just fully realizing the extent of his injuries.

Heavy Rainfalls Probable.

It is the idea of many versed in weather natters that the long continued dry and parching weather that has prevailed will be fully compensated for by heavy rainfalls in the not remote future. This calculation is based on the fact that there has been no general precipitation of the vast volume of vapor accumulated in the sky during a long period of rapid evaporation. In September alone it is estimated that the amount of water evaporated from the tropical Atlantic and the Gulf of Mexico, much of which is destined -to be borne by trade winds over the United States, cannot be less than ten inches of the sea surface, an amount which, if precipitated within a short time, would produce torrential rains over the larger part of the country east of the Rocky Mountains. It cannot be said that this water will not fall elsewhere. It is known that India, Algeria and other wide tracts of the world's surface have suffered from want of rain. But it may be suspected that the sultry and oppressive atmosphere overlying the United States at present contains still a great part of the burden of vapor gathered during the last hot term. The putting off of the day the storms which mark its re-establishment the more violent.

Tuesday night, between eleven and twelve o'clock, a man named Ancrum Batson roused Justice E. D. Hall from his slumbers, and said that he wanted a warrant for the arrest of a man who had robbed him. His statement was to the effect that he and another colored man occupied a house together at Orton plantation, about fifteen miles down the river; that they left the house on Tuesday morning, and when they returned to dinner they found that the building had been broken open during their absence and robbed of between five and ten dollars in money, a coat, a pair of pants and several other articles. They soon after wards received information to the effect that a colored man. name unknown, who had been seen loafing about the premises for some days, was the perpetrator of the robbery. When the steamer Passport came along Batson and his friend took passage and came to this city, when they ascertained that the supposed thief had crossed the ferry and reached the city ahead of them. Not long afterwards Batson came up with the unknown, when the latter informed B., who had not let on that he was concerned about the robbery, that he was going off on the train. Batson went with him to the depot, thinking the stranger did not know him, and then returned for the warrant. Justice Hall prepared the warrant and deputized Sergeant Davis, of the police force, to serve it. The officer, accompanied by the

two men, hurried to the depot in search of

the robber, but when they got there the

"bird had flown." There is no doubt that

the thief knew Batson and understood his

A Pleasant Affair. Capt. B. L. Perry, the hospitable and enterprising proprietor of the Purcell House, gave a splendid supper last night complimentary to Capt. Trennery, of the British steamer Barnesmore. A few friends of the captain and several prominent citizens were present, and the affair was a pleasing success. Everything was entirely informal and unpretentious, and yet tasteful and elegant and was greatly enjoyed and appreciated by all who were so fortunate as to be present. Toasts were pronounced. speeches made, stories told, and a generally pleasant time had by everybody. We understand that several Wilmingtonians especially distinguished themselves as orators, but could not ascertain their names. We did hear, however, that a very genial, clever Freight and Passenger Agent (not in the Associated Railway Combination) excelled himself as a story-teller and relator of anecdotes, and that he was closely pressed for first honors by a prominent Federal official, much better known, probably, as an ex-high officer of the city of Wilmington. The two, we understand, contributed greatly to the success of the occasion, and amused and entertained the crowd most delightfully. Many heartfelt wishes were expressed for the safe and speedy voyage of the Barnesmoore and her early return to this port, and the party broke up, enthusiastic over their treatment and the pleasure

Foreign Exports.

The British steamship Barnesmore, Capt. Trenery, was cleared from this port for Liverpool, yesterday, by Messrs. Alex. Sprunt & Son, with 4,458 bales of cotton, valued at \$178,775; 678 casks spirits turpentine, valued at \$16,550, and 550 barrels of rosin, valued at \$196,575. This is said to be the largest and most valuable cargo ever shipped from this port by any one

Jailed for Costs. A colored man named Ben Bonham was arrested by Special Deputy John Statcher, yesterday, for non-payment of costs in a case of assault, tried some months since in Justice McQuigg's Court. He resisted and tried to make his escape, but was finally taken to the county jail and locked up.

RIVER AND MARINE.

- The British steamer Barnesmore, Capt. Trenery is expected to sail for Liverpool this morning, about 7 o'clock.

- The steamer Vesta, Capt. Love, will run between this place and Point Caswell for the present, leaving on Friday morning and making two trips per week. As soon as the river rises she will resume her trips

- Capt. Coste, who was here on the steamer Delight early in September, being en route to Charleston, where the boat was to be used by Gen. Gilmore, in charge of the Government works at that place, met with a severe accident a few days ago. The New Berne News says: "The steamer Darling arrived here on Wednesday last and sailed on Thursday for Charleston, S C. This vessel has just been purchased by Capt. Coste for the U.S. Government, and brought from Buffalo to be used in towing the Government barges and dredges. While she was here Capt. Coste met with a painful accident, which prevented him from leaving with the steamer, and came near resulting seriously. He was visiting the officers on board the Revenue Cutter Colfax, and fell from the main deck to the forecastle deck, cutting his head severely and damaging his left eye, by striking against a ladder. Capt. Coste left on Saturday morning by rail for his home in Charleston,

Larceny of Money. Victoria Swain, a white girl of doubtful reputation, was arrested yesterday, on a warrant issued by Justice Hall, charged with the larceny of \$30 in gold, the property of one John Garrason, white. It appears that the money was left in a trunk in room occupied by Garrason, on Nutt street, yesterday morning, and that the trunk was unlocked and the key in it. Vic. Swain was known to have been in the room. and shortly after her departure the money was missed and the key was found to have been removed from the trunk and placed under a pillow on Garrason's bed.

The case came up for a hearing before Justice Hall and defendant was ordered to give bond in the sum of \$100 for her appearance at the present term of the Criminal Court, in default of which she was committed to jail.

A DOWN TOWN MERCHANT, having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still suffering; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties and left the father with the child. During herabsence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering erring habies and restless nights have disappeared. A single trial of the Syrup come the prejudices of the mother. Sold by all Druggists. 25 cents a bottle.

A TRACT OF ABOUT 1800 ACRES, in Pender County, situated in the fork of North East River and Turkey Creek, one mile and a half from the W. & W. Railroad, and thirteen miles from Wilmington by the Long Creek Road. There are 80 Aores cleared, including 20 Aores which have been in cultivation only two years—all in good condition, and well adapted for Cotton, Corn and other crops; with a new comfortable frame Dwelling and other Farm Buildings. The tract abounds in Pine, Cypress, Juniper, Ash and other Timber, and a great abundance of material for composting and fertilizing. There are extensive swamps, producing natural grasses, rendering it one of the best places in the State for raising all kinds of Stock. About one mile of fencing will enclose the entire tract, and any of the products can be brought to Wilmington by water on one tide.

Also, a TRACT OF ABOUT 3500 ACRES of unimproved Pine Land, in Brunswick County, extending for several miles along the W., C. & A. Railroad, estimated to be capable of supplying from sixty to one hundred thousand cords Pine Wood, and containing some swamp land, which, if cleared and ditched, would produce 50 to 75 bushels corn to the acre.
