Postmaster Nichols, of Raleigh, is becoming uneasy as to his tenure of office, it is thought. He is reported among arrivals in Washington.

Since January 1, 1881, over 200,-000 Germans have arrived in this country. They long for freedom and a fair chance in the struggle for life.

The December number of the North American Review will contain the views of many leading surgeons as to the treatment of the late President Garfield.

The threatened water famine in New York grows apace. According to statistics is looks ar if more water was consumed daily than in London. But this is accounted for easily. Americans water their whiskey.

The Star Route thieves are said to be very jubilant over the expected retirement of Attorney General Mac-Veagh. Have the people no rights under the Government that they can be robbed at will by genteel rascals and political bummers?

The New York correspondent of the Philadelphia Ledger says of the boom in Confederate bonds:

"The renewal of the mania for the purchase of Confederate bonds attracts some attention in the street, where it is looked upon as a shrewd movement by speculators to advance the present price, and then sell out, leaving the confiding public to shoulder the leaver."

The New York dry goods market on Friday was thus epitomized in a

New York letter : "Cotton goods to-day were very firm, and some of the larger jobbers are placing liberal orders for future delivery. Cotton flannels continue scarce. Prints and ginghams are quiet. Dress goods are in light demand and steady. Woollen goods are less active, but light weight cassimeres, etc., are largely sold ahead, and prices are firm."

Alfred Tennyson has published a new poem in the Nineteenth Century entitled "Despair," a part of which is cabled to the New York Evening Telegram, owned by Bennett. A

London critic says of it: "Mr. Tennyson has never been less ambiguous, seldom more powerful, never more weirdly impressive than in this, the latest fruit of his genius."

Mr. Archibald Forbes happened at Charleston during the visit of the Connecticut regiment and he did not

We saw Thomas Keene play here

as Cassius and we thought there was a good deal of force in his personation. He was decidedly the actor in the company. He has been starring it with success in the West, but he is catching it in the East. The Washington Post says his houses fell off during last week. It says of

"He turned out to be only a mediocre stock actor, whose pretensions were partly the prompting of mistaken ambition and principally the speculation of an enterprisng manager. All of his conceptions were bad and his methods lacking even the ordinary imitation of the artistic models of the stage, which in all of these Shakesperean parts have been built up from the aggregation of many actors of various times. Mr. Keene's study is superficial and his com-prehension all warped by the ranting and howling of the old Bowery school of

Mahoneism received a slight bruise under the right eve in that Statham business. The debate in the secret session must have been interesting. The special correspondent of the Richmond Dispatch writes on the 29th ult. :

"The speeches made by Democratic Senators have been very aggressive, and had the Republicans consented to the proposition of the Democrats to discuss the Statham nomination with open doors, it would have been very edifying to the public. The selection of this special nomination for the contest has been a very unfortunate one for the Republicans."

Arthur is shrewd. He would not press matters. It is said that he will appoint Statham any way.

Seven hundred farmers in county Mayo banded together and resisted successfully the police and officers who were serving writs of ejectment. Several officers were fired upon and wounded, and the others were forced to retire. A Dublin dispatch of October 29th says:

"This successful resistance of the service of ejectments is hailed with delight by the Irish tenantry, and grave fears are felt by the government here as to the effect upon immediate future enforcement of the Land law. It is a significant fact that the Land League sympathizers both in Dublin and here were the first to be apprised of

Mrs. Burnett is the most dramatic of all American novelists. Her new play, "Esmeralda," just played in New York, was in some sense successful. The Times says:

"A play is too easily passed as a work of real power when it is crammed with situations. It is not situations, however, that we need it is life, character, sincerity. The play by Mrs. Burnett, which was produced at the Madison Square Theatre last evening, has to some degree these elements of lasting strength, and it is largely devoid of glaring theatrical elements. It is an adaptation of a short tale by the novelist.'

England is reported as urging a European note rejecting the American conclusions relative to the Panama Canal. If the United States should take the position through its Congress that neither England nor any other power shall meddle with that important route, it will be safe to bet that it will not be done. If England wishes to have some of the Dominion annexed, just let it go into a scuffle over Panama.

We score one for President Arthur. On Saturday last he said to Mrs. Chapin, of South Carolina, "that he was in entire sympathy with the South in her recuperation, and was determined that no section of the country should during his Administration be favored as far as it was in his power to prevent, over another." Stick to that, Mr. Arthur, and you will have thousands of friends all over the South.

New York to date has contributed \$119,200.73 to the Michigan sufferers.

The present editor is retained by Mr. McDuffle as assistant editor, and will attend to the religious, educational and local departments.

— Salisbury Watchman: Miss Isabel Hanes died in Salem, of typhoid fever, on last Saturday. — Winston is soon to have a reading club. — The sugar cane crop of Forsyth and adjoining counties is good this year, and a plentiful supply of home-made sweetness, in the way of sorghum, may be expected. - Wilkes county court contributed one poor unfortunate to the penitentiary—Leah Hampton by name -infanticide her crime-sentence, 10 years. — Corn crops along the Yadkin river will yield far beyond the expectation of many, the farmers tell us. — The finest tobacco sold on our market this year was raised in Davidson county by a Mr. Koontz. Fifty-two pounds sold for \$55. It was the second crop ever raised by Mr. K.

- The Raleigh News-Observer interviewed Governor Jarvis as to his Atlanta trip. The following concerns our State: The display made by North Carolina at Atlanta is a dual one, and in this respect has an advantage. It is a remarkable exhibit, and one of which every citizen of our State should feel proud. In the display of iron. copper, gold, etc., the State is immeasurably ahead of the others exhibiting. This display of mineral wealth is lavish, wonderful in its extent, variety and richness. The woods, in variety and beauty, have no equals, and no State can compare with us as to this display. In tobacco we are far ahead of the others, and there is no attempt at competition in the display of the famous yellow leaf from Person, Caswell and Granville. Then our silk exhibit has no peer. and there is really no competition. A remarkable feature of our exhibit is that of factory goods, and this attracts marked attention. The cotton and woolen goods divide the honors. The finest thing in this department is a display of blankets, from the Elkin factory, in Surry county. These are confessedly equal in make-up and quali-ty to the finest rose blankets. Our marbles and building stones, lead and other minerals all attract attention, and special attention, too. Every article shown is plainly labelled with the name of the State, county and mine.

- Raleigh News-Observer: Cotton receipts last week 3,516 bales. Thus far this season we have received 17,519 bales of cotton. - There are now no less than 120 pupils enrolled at Fray & Morson's school. - An interesting incident at Atlanta on Thursday was the weighing of the Governors, an entertainment in which Pennsylvania's Governor led all the rest. Following is the official report of the result: Colquitt, of Georgia, 176 pounds; Bigelow, of Connecticut, 1861; Jarvis, of North Carolina, 208; Blackburn, of Kentucky, 223; Hoyt, of Pennsylvania, 248. —On and after to-day the Midland North Carolilina trains will run as follows: Passenger trains moving east, leave Goldsboro at 5.30 a. m.; arrive at New Berne at 8.88 a. m.; leave New Berne at 5.45 a. m.; arrive at Morehead at 11.08 a. m. Returning, leave Morehead at 12.45 p. m.; arrive at New Berne at 3.15 p. m.; leave New Berne at 3.25 p. m.; arrive at Goldsboro at 6.30 p.m. In addition to the above train a daily freight train, with a passenger car attached, will leave New Berne at 3.30 a. m., and arrive at Goldsboro at 9.15 a. m. Returning, will leave Goldsboro at 7.00 p. m., arriving in New Berne about midnight. Dr. Craven states that Trinity College has a larger number of students than last year at this time, and that the outlook for the future is very encouraging. — Last evening, as the train on the Raleigh and Gaston Railroad was passing the stone quarries just beyond Henderson, some person threw a large stone at the passenger cars. It struck one, but, fortunately, be tween the windows, thus doing no damage and injuring no one. — The conduct of the Ninth Massachusetts Regiment at Richmond and at Wilmington, Delaware, is to be inquired into. While in camp at York-town the men of that regiment were orderly, but no other troops had anything to do with them, hearing of their bad conduct prior to their arrival. — A bale of cotton, in a wagon, on which were perched two blooming country cirls. Was one of the two blooming country girls, was one of the attractions on 'change yesterday. The younger cotton samplers particularly were notably spry, while not a few of the old boys took a look at that bale. - Thursday night a negro, coal black, and of most unprepossessing appearance, whose name is Nathan Perry, pushed Mr. Uzzle, of Franklin county, into a ditch near the residence of Dr. Hogg, on Wilmington street, and robbed him of \$17. Perry then went across town, and when at one of the livery stables met two white countrymen. These he attempted to assault and rob, but they proved more than a match for him, and one of them knocked him down. He raised a great cry, and declared that one of the white men had stolen his watch. A policeman ran up and captured the white men, thinking the negro's story was true. One of the white men being taken along Fayetteville street to the guard house, jumped away from the officer and ran down towards the graded school. The officer fired at him, and the report of the pistol caused some excitement. Yesterday morning the facts in the case of the negro became known, and he was before the Mayor, charged with assaulting and robbing Mr. Uzzle. The case against him was a clear one, and he was sent to jail in default of bail. — Square Clark, who was convicted of murder in Lexington, N. C., and was to have been hanged Friday, was re-

#### FOX CHASE.

A Long and Exciting Chase-A Large Crowd Witness and Participate in

At the hour appointed, notwithstanding the threatening aspect of the weather, the gentlemen of the Wilmington Fox Club and their friends assembled at the spot designated in Sunday's STAR and proceeded to a spot a short distance beyond McIlhenny's mill pond, just beyond the southern limits of the city, where the fox was turned loose and the young beagles set out in full

chase, with the old pack hound, "General Pickett," in the lead. After running for about a half an hour, with rather poor headway, the pack was finally turned loose, when the chase was commenced in good earnest and was kept up for three-quarters of hour, the entire distance covered being about eight miles, ranging from the neighborhood of McIlhenny's mill pond to the Hewett place and thence to the Wilkes Morris place; where Reynard and his pursuers turned and retraced their steps. Being headed off on the "home stretch," the fox set out in the direction of Hart, Bailey & Co.'s vineyard, through an open country. At this stage the race became so exciting that Capt. Barker's men, imagining they were at sea in a storm, slashed around pretty promiscuously, finding themselves on sundry and divers occasions "taking reckonings" upon the uneven ground, while their horses seemed determined not to pay the slightest attention to the "steering apparatus" in the hands of their riders. Mr. H. McL. Green made one lunge as he executed one of his usual doubles, but when he struck the ground the sly creature was gone. After running about half a mile further he was headed off again, when Messrs, Grant, Schonwald and Barker swung to the fox, each trying manfully to get the "brush." While endeavoring to decide this important issue in the struggle

was permitted to bear off in triumph, the coveted 'brush." A collection was then taken up, the neat little sum of \$75 being added to the funds of the Club, when all hands started for

#### Forepaugh's Circus.

The Augusta Chronicle and Constitu tionalist has this to say of Forepaugh's Circus, which is to be in Wilmington on the 12th of November:

We have never seen as fine a circus display in Augusta. Unlike most exhibitions of the kind, the wagons were not strung out at long distances from each other to make the procession appear to be a very lengthy one, but were as close together as they could well be put. The representative of Lalla Rookh, advertised as the most beautiful woman in America, created a sensation as she rode in her howdah on the back of the tallest elephant. The entire procession was a very gorgeous affair, and was very highly spoken of by everybody who saw it.

The great tent was packed to its utmost capacity at both the afternoon and evening performances. We have never seen so many people inside a circuss tent. The show was undoubtedly worthy of the pa-tronage it received. The performance is first class. There were two rings, and acts were going on in both almost constantly. The trick stallions were wonderful in their tricks. The artistic pad riding by Marie Ashby and Rosina Dubsky, was very inter esting. Both performers are capital riders. They are very easy and graceful. The lofty trapeze act by Mile Victoria surpassed anything of the kind that we have ever seen. The audience almost held their breath as she performed her daring feats swinging in mid-air. The three Herberts are equal, if not superior, to the Hanlons in their acrobatic feats. The tumbling was excellent. Zuila gave a remarkable exhibition on a wire stretched high above the ground. She walked across it blindfold, then with baskets on her feet and finally rode across it on a velocipede. The bicycle riding by the Villion troupe was altogether novel and showed remarkable skill and nerve. The performing elephants gave an exhibition demonstrating to what an extent the unwieldly animals can be trained. They showed almost human intelligence. John Worland the champion trick leaper of the world, gave a wonderful performance in leaping. Loval, the man meteor, was shot upward from a huge mortar, and was caught by Zuila, who was suspended head downward from a swing a considerable distance above. Joseph Ashly rode four horses at

once in a very skillful manner. We can recommend the show to the press and people of other places as decidedly the best that has ever visited the South.

Blatchford, commonly and well known in this city by the name of Thomas Barton, is said to have been found in a dying condition at the house of a colored man just east of the city, a short distance this side of Smith's creek. WHO IS MRS. WINSLOW?—As this question is frequently asked, we will simply say that she is a lady who for unwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as a nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are Dally sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No MOTHER has discharged her duty to her; suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup.
