OUTLINES.

Argument in the Star Route cases was continued yesterday. - In the Guiteau case the court refused to postpone the time fixed for the commencement of the trial. - The Republicans of Austin, Texas. elected their candidate for Mayor. ---- B. Leirson & Brother, dry goods dealers of Nashville, Tenn., have failed for \$30,000. ____ A boat_with twenty-seven survivors of a lost Dutch steamer picked up in the Indian ocean; four boats with 129 persons are still missing. ---- Information from the relief ship Rodgers has been received at San Francisco, she gives no tidings of the Jeannette; a survey of Wrangell Land shows it to be an island. --- Lefroy the murderer of Mr. Gold, on the Brighton, (Eng.) railway, has been sentenced to be hung. ---- A quiet election in Virginia. and a heavy vote polled; many negroes are reported to have voted the Democratic ticket. --- Four white men killed and two severely wounded by negroes at the polis at Marion Station, Miss. ; the whites had no arms and none of the negroes suffered; a sheriff's posse was fired upon by a hedy of about one hundred negroes barrieaded in the dwelling of their leader. -A gigantic strike is threatened in the Staffordshire (Eug.) potteries.

Last week 9,679 foreign immigrants arrived at New York.

Two hundred horses have died in Baltimore of "Pink Eve" within a few days.

The Baltimore Gazette says Keene has made himself a favorite of that city by his fine acting.

Tourgee and his poor little play went out like an old fashioned tallowdip-spluttering and stinking.

The Flipper case opened at Fort Davis on the 5th. The theory of the defence has not been developed.

SERIOUS RUNAWAY.

Information was received here late yesterday afternoon that Mr. James Sprunt and a younger sister had been seriously injured while out driving on the Turnpike, near the Sound, by the horse running away and throwing them out of the buggy. Mr. W. H. Sprunt and Dr. Thos. F. Wood at once started for Capt. Manning's place on the Sound, where the sufferer had been

removed. On arriving there they found Miss Sprunt not seriously hurt, but Mr. Sprunt very badly injured. One leg being so badly broken as to require amputation. Mr. W. H. Sprunt came back to the city for Dr. Love, to assist Dr-Wood in performing the operation, and they returned immediate ly. No further particulars could be ascertained as our informant could not be detained, but we sincerely trust that Mr. Sprunt's injuries may not prove so serious as the necessarily hurried examination of the surgeon indicated. The horse was caught not far from town with the shafts dangling behind and brought to town. He has been owned by Mr. Sprunt for several years, during which time he has run away quite frequently.

For the Star. Will the ladies of Wilmington lay aside for awhile the cares that are so absorbing, and listen to a few loving words from one who, in claiming to be one of them, feels it to be an honor and a pleasure? We have the poor among us, dear friends, as our blessed Lord foretold-and He has made it the duty of His followers to share with the has been of very good assistance to the needy such gifts as He has bestowed upon us-a duty which in its fulfillment brings gladness to our own hearts. Who has not tasted the delight of being able to ease the burden of a troubled heart by timely aid in seasons of distress? That we may aid each other in doing this you are all invited to meet together on Thursday, (to-morrow) in Hook & Ladder Hall at 11 o'clock a. m., when we hope to have a very short address, with prayer, and strengthen one another by adding each our little contribution, to be kept for those necessary uses, under the care of proper officers. It has been our habit to provide as funds may allow, flannel, blankets, fuel, shawls, food, &c., for distribution or loan as necessity may require. We ask you all to come and help us. The sick and the poor must not be left to starve or perish. May the loving Master fill your hearts with compassion and lead you to bring gifts into his storehouse for his needy PRESIDENT. It never entered human head before, and I think that in all future time it will find no lodgment in the mind of any reasonable being."

The number of applications on the part of tenants in Ireland to have their rent fixed by the Land Commission already is more than 18,000. This shows its popularity. But there must be several hundred thousand, and when can the matter of rent for ⁸⁰ many be decided ?

The extraordinary boom in Confederate bonds still perplexes the uninitiated and the speculating mania just now is most memorable. What it all means is the disturbing inquiry. We have inclined to the opinion for some days that it is a sort of wildcat business, that will end in many persons getting clawed severely. The Treasury Department is as much per-

plexed as the press or the people. A Washington special to the New York and that paper will hereafter be published Tribune says:

"It is known that at least ten large fine steamers belonging to the Confederacy were in foreign ports when the war closed. Machinery for rifling cannon, said to have cost a million and a half dollars, and 250 chronometers captured by the famous Semmes are among the effects, the existence of which was known to our Government soon after the close of the war. Aside from these it was supposed that a large amount of money had been deposited in the different banks in London by the Confederate authorities and by private individuals then in the South. The Secretary of the

Treasury has on more than one occasion made futile attempts to get some clew to this property and to obtain possession of it. Agents have been sent to England for this purpose, but they have never succeeded in recovering a single dollar of the millions said to have existed."

That was a very neatly turned retort given by Lord Lorne in a little speech, when leaving Quebec, he paid his respects to Mr. Labouchere, editor of the London Truth, because of his references to the Princess Louise. Said he:

The Fire Alarm. Captain F. G. Robinson, Chief of the

day Fire Department, in his report to the Board wea of Aldermen for the month of October, very justly remarks : "The want of a proper fire alarm is very detrimental to the men ther efficiency of the Fire Department. Your our attention is again respectfully called to this ener fact, with the hope that something may be done at once to remedy this evil."

It is argued in favor of the proposition

to have the fire alarm removed to the premises of the Howard Relief Fire Engine Company No. 1, on Fourth, between Market and Dock streets, that it is one of the most elevated positions in the city, that the lot is the property of the city, that it will be convenient to the various engine and hook and ladder halls, and that its removal there will obviate all differences of opinion as to the propriety of its connection in any way with the City Hall.

Richard Merrick, colored, was arraigned before Justice Gardner, yesterday, on the affidavit of his wife, Mary Merrick, charged with assault and battery upon her, she alleging that her husband, with whom she has not lived within the past five years, did meet her on the street at night, knock her down and beat her after she was down He was found guilty and ordered to pay a fine of one penny and the costs. Personal and Theatrical.

Mr. P. Heinsberger has on exhibition a number of photographic representations of Mr. James M. Brown, of this city, now citizens of Lincoln county, died at his home on the Catawba river, Friday night at 11.30 with Haverly's Original Mastodon Minstrels, in his various female characters which he plays in connection with that troupe. Mr. Brown makes a very handsome and stylish "lady," and few unacquainted with the facts would take him, in any of the characters, to be other than what he represents. The costumes, too, are rich and showy. The troupe to which he is attached is expected to visit this city some time during January or February next.
