- Winston Leader: The members of the Methodist church, of this place, are taking steps to the erection of a new church building. It will occupy the site of the old one, and is to cost \$10,000, \$7,500 of which has been subscribed. - We'll No-vember no longer. - A correspon-dent of the Raleigh News-Observer, at High Point, informs that paper that a party of gentleman are about to locate and build a road from Fayetteville via Deep River and High Point to Winston. It is quite an easy matter to build a railroad on paper. The actual building is quite another thing. —A new mineral has recently been discovered in Mecklenburg county and called Leopardite, from the fact that it is spotted like a leopard. It is claimed that it is the only place where it is found in the State. There is a large quantity of it in Stokes county, we are informed, and we have seen a specimen of it. Why, some thirty or forty years ago Mr. J. B. Kings-bury and Mr. Edward Martin discovered this peculiar mineral in that county. The quarry is not worked but it is there. It is superior in color to that found in Mecklenburg. A fine specimen of jasper is also found in Stokes. The State Geologist pro-nounces it splendid.

A DOWN TOWN MERCHANT, having passed several sleepless nights, disturbed by the agonles and cries of a suffering child, and becoming con-vinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the ohld. On reaching home and soquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Return-ing home the day following, the father found the baby still suffering ; and while contemplating an-other sleepless night, the mother stepped from the room to attend to some domestic duties and left the father with the child. During her ab-sence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little feilow swoke in the morning bright and happy. The mother was delighted with the wonderful change, and al-though at first offended at the deception prac-ticed upon her, has continued to use the Syrup, and suffering orying bables and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and over-come the prejudices of the mother. Sold by all Druggists. 26 cents a bottle.

Wilmington Coast Railway.

E. F. Martin, a well known colored man of this city, informs the STAR that he purposes to undertake the work of completing the Wilmington Coast Railway. Messrs. Geo. R. French & Son and other gentlemen, who are the principal stockholders in the road, have agreed to make Martin a present of the franchise, provided he begins work upon the road within six months, and with a reasonable assurance of completing it. About five or six miles of the road have been graded already. Martin is confident of success in his enterprise, and says that if no impediment is thrown in his way he will have the road built and in running order to the Sounds by the 1st of July next, and will then continue its construc-

tion to New River. The STAR heartily wishes success to Martin in his enterprise. If he accomplishes his purpose he will be the first of his race, in this part of the world at least, that has ever built a railroad.

Death of Mr. W. A. Patterson.

Mr. William A. Patterson, of the firm of Patterson & Hicks, died at the residence of Mr. W. H. McRary, in this city, yesterday, after a lingering illness, of consumption. He was a native of Milton, Caswell county,

In reply to questions propounded by A. H. VanBokkelen and others, Dr. Canedo stated it as the intention of the company he represented, in addition to the \$55,000 paid for the State stock, to pay off the entire floating debt of the Cape Fear and Yadkin Valley Railroad Company, amounting, it was understood, to about \$100,000, before the final consummation of the agreement. We learn that it is the intention of Dr. Canedo and party to meet Gov. Jarvis in this city on or about the 13th of December, when they will together examine the river and the terminal facilities of Wilmington generally, preparatory to the meeting of the Commissioners at Raleigh on the 19th inst., it being the intention of Dr. Canedo and party to go from here to Raleigh by the way of Fayetteville, to be present at said meeting.
