FORTY-SEVENTH CONGRESS

FIRST SESSION. Both Houses Called to Order at Noon-Organization of the Senate-Senator

Windom, of Minn., Sworn in-A Number of Bills Presented-Organization of the House of Representatives—Election of Officers—New Members Sworn in-Contested Cases, Etc. By Telegraph to the Morning Star.] SENATE.

Washington, December 5.—The first regular session of the Forty-seventh Congress began to-day, and both bothses were called to order at noon.

In the Senate, after the usual interchange of friendly greetings by members, the President pro tem., Senator Davis, of Ills., formally convened the Chamber, and after prayer by the Chaplain, presented the credentials of Senator William Windom, of Minn, chosen to fill the vacancy caused by his resignation in the term ending March 3rd, 1883, said vacancy having been temporarily filled by the appointment of ex-Senator Edgerton.

After the reading of the credentials Senator Windom, accompanied by Senator Hoar, appeared, was duly qualified and entered npon his duties.

Resolutions for committees of notification to the House of Representatives and the President, informing them of the organization of the Senate were adopted. The annual reports of the Acting Secretary of the Senate, Sergeant-at-Arms of the Senate, Chief Clerk of the Court of Claims, and Public Printer were presented by the Chairman and laid on the table. The hour of meeting daily was fixed at

12 o'clock M. A number of bills and resolutions were presented and laid over, among which were one by Mr. Beck, to provide for the retirement of the trade dollar and its recoinage into standard dollars. By Mr. Logan, to place Gen. Grant on

the retired list of the army. By Mr. Sherman, to provide for the issue of three per cent, bonds to the amount of three hundred millions, to be applied to the

redemption of three and a halfs. By Mr. Garland, to provide for a tariff commission. This bill is a substitute for Mr. Eaton's bill of 1880; also, by Mr. Morrill, to investigate the tariff question. By Mr. Grover, restricting Chinese immi-

vetoed fifteen-passenger bill of 1879. Mr. Coke, allotting lands in severalty to Indians on various reservations, and for other purposes. Mr. Pendleton gave notice that he would

to-morrow introduce his civil service re-

a resolution continuing the committees as now constituted. Mr. Pryor offered an amendment, re-

the committees should be divided equally between the two political parties or not. Without decision the Senate adjourned. (The message will not therefore go in to-

C.; next, Moore, of Tenn., in dramatic fashion, objected to Chalmers, of Miss.; Bragg, of Wis., imitating the werds and tone of Moore, in turn objected to Moore. All objected to stood aside. The remainder were then sworn in, and Mr. Jones took the floor to state objections, when Mr. Rand offered a resolution referring the matter to the committee on Elections when

appointed. Tabled. On motion of Mr. Randall, by almost a unanimous riva roce vote, the objections were then withdrawn in all cases except those of Chalmers and Dibble, and all but these two were sworn. Chalmers was also sworn after some further skirmishing.

Mr. Calkins then called up the case of Mr. Dibble, of South Carolina, and offered a resolution referring the matter to the committee on Elections, when appointed. He gave a statement of the circumstances under which Mr. Dibble was elected, and contended that there was no vacancy inasmuch as it might be that Mr. Mackey had originally been elected.

Mr. Brown, of Indiana, took the op-posite ground, and argued that Mr. Dibble had as good a prima facie right to a seat as any other member. Mr. Evins, of South Carolina, moved to lay Mr. Calkins' resolution on the table, and

it being agreed to Mr. Dibble appeared and Mr. McPherson was then elected Clerk. the vote being McPherson 148, Adams

129, De La Matyr 9. Hooker, Brownlow and Sherwood were then elected Sergeant-at-Arms, Door-keeper and Postmaster on one vote, and all the officers were sworn in. Hiscock, Orth and Reagan were appointed a committee to wait on the President. Mr. Fred D. Powers, of Washington, was then elected Chaplain. Adjourned.

Nothing now intervenes to delay the President's message but the swearing of the Territorial delegates, which will be done in a few minutes.

A Mining Foreman Killed by a Discharged Workman, who Afterwards Kills Himself.

[By Telegraph to the Morning Star.] DENVER, December 4.-A special to the Tribune, from Leadville, says: In the Gold Park Mining camp, four days ago, Harry Weston, foreman of the Gold Park Mining Company, was shot and killed by one Bag-ley, a discharged blacksmith. Bagley also made an unsuccessful attempt to shoot Superintendent Turny. He then fortified him-self in a cabin, which was immediately surrounded by a mob. The cabin was besieged for eight hours without dislodging its occupant. Finally a large quantity of giant powder was placed near the door and ignited, and the explosion which followed tore the cabin to pieces. Bagley was found with a bullet hole through his heart, having

Democratic Caucus-A Resolution Endorsing a Tariff for Revenue Only Indefinitely Postponed-The Old Officers of the House Renominated-President Arthur to be Summoned in the Guiteau Trial-Report of the Comptroller of the Currency.

[By Telegraph to the Morning Star.] WASHINGTON, December 4.-After the adjournment of the Republican caucus, last evening, the Democratic members assembled in the same hall, and organized their caucus for the ensuing Congress by re electing Representative House, of Tenn., Chairman, and Messrs. Frost, of Me., and Wilburn, of Texas Secretaries. Representative Proctor Knott, of Ky.

then offered a resolution endorsing the declarations of the Democratic National Committees of 1876 and 1880, the supposed object being to put the Democratic members on record in favor of a plank endorsing a tariff for revenue only, which, if it did not prevent the complimentary nomination of Speaker Randall, would serve as a rebuke. The resolution was supported by Representatives Knott, of Ky., and Reagan, of Texas, and opposed by Representatives Hammond, of Ga., McLain, of Md., Hooker, of Miss., and Herbert, of Ala. Representative Hooker moved to indefinitely postpone the consideration of the

resolution, and his motion was carriedaves 53, noes 44. Representative Kenna, of West Va., then moved that the caucus endorse and put in nomination as the candidates of the Democrats all of the officers of the last House,

and the motion was carried riva voce, without dissent. The caucus then adjourned subject to the call of the chairman.

At the close of the Guiteau trial yesterday Mr. Scoville said he had issued a subpæna for President Arthur, but he did not care to have him summoned until he had seen him personally, and had instructed Marshal Henry to that effect.

The Comptroller of the Currency, in his annual report to the Secretary of the Treasury, made public to-day, says eighty-six National Banks were organized during the year ending November 1st, with an aggregate authorized capital of \$9,651,050, to which \$5,233,580 in circulation notes have been issued. This is the largest number of banks organized in any year since 1872. Twenty-six banks, with an aggregate capi tal of \$2,020,000, have voluntarily discontinued business during the year. There were no failures of National Banks during the period from June 19, 1880, to November 1, of the present year. National Banks are located in every State of the Union except Mississippi, and in every Territory except Arizona; the total number in operation on the 1st of October last being 2,132. This is the greafest number which have ever been in operation at any one time. The

estimated losses to creditors from the failures of National Banks during the past eighteen years since the passage of the act, is \$6,240,000, and the average annual loss has therefore been about \$346,000 in the business of the corporations, leaving an average capital of about \$450,gaation; being mainly the copy of the 000,000, and deposits averaging about 8,000,000. Twenty-one of these in banks have paid their creditors in full and forty of them have paid more than 75 per cent. each. The individual liabilities of the

shareholders of insolvent banks has been enforced in fifty-three instances, and about A recess from 1.15 to 2.30 was taken. Upon reassembling Mr. Edmunds offered \$2,700,000 has been collected from this source. After presenting the usual comparative tables showing the past and present condition of the National Banks the Comptroller discusses the question of the expiration of charters of the banks, and recomquesting the President to decide whether mends that an act be passed during the present session authorizing any National Bank, with the approval of the Comptrol-ler, at any time within two years prior to the date of expiration of its corporate ex-

notes, during the year ended November 1st last, was \$16,510,143. This, together with The vote for Speaker was, Keifer 148, Randall 129, Ford 8; necessary to a choice the increase of gold coin, \$108,686,279 and of silver coin \$27,716,454, makes a total increase of coin and bank notes of \$152,912,-876. Under the head of private bankers Upon calling the States for swearing in the Comptroller reports that there are in the United States and territories 3,038 private bankers, with an aggregate control of ninety-three millions and aggregate deposits of two hundred and forty-one millions. The report closes with a series of tables,

> of National and State taxation. Upon the subject of taxation the Comptroller says the amount paid by the National Banks to the Treasurer of the United States for taxes on capital and deposits, during the year ended June 30 last, was \$5,472,178 and the amount paid by banks other than National to the Commissioner of Internal Revenue was \$3,757,912. The value of two cent check stamps issued during the fiscal year was \$2,366,801. Total amount of bank taxes which it is recommended should be abated was \$11,496,171, which amount is much less than the annual increase of the Internal Revenue during the past two years. The reason that has during the past been

> > namely, that the amount produced was necessary for the support of government and for the payment of the public debt, has long since lost its force, and the repeal of these laws has already been recommended both by the Secretary of the Treasury and the Commissioner of Internal Revenue. The report of the Department of Justice s given to the public. It recommends the

abolition of fees to U.S. District Attorneys and assistants, and placing them on salaries. Estimates for expenses of United States Courts for the fiscal year ending 1883, are three million five thousand dollars. The report recommends an appropriation for the payment of special deputy marshals at last year's elections.

THE TRIAL OF GUITEAU.

Fourth Week-Immense Crowd Throng the Court House-Prisoner Trembles for his Safety and Asks for Protection-He Propounds a Question for Expert Witnesses to Pass Upon.

[By Telegraph to the Morning Star.] WASHINGTON, December 5.—Guiteau was brought to the court house a little later than usual, and the Court was not opened until 11 o'clock. An immense crowd had gathered on the sidewalk and when Guiteau alighted from the van he evinced unusual trepidation and begged the officers to take him around to the back entrance. He was assured that the escort was ample for his safety, and with trembling steps and swing-ing gait he quickly shuffled through the angry crowd. Abject fear was depicted upon his sallow countenance, and it was several minutes after he reached his room before he regained his usual composure. Ex-speaker Randall appeared in answer to the subpæna, but was at loss to know why he had been summoned.

Court Mr. Scoville called to the stand Dr. James Kennon, of Chicago. Before any question could be asked witness. Guiteau desired to address the Court, and without waiting for assent or dissent on the part of the Court said, in quick nervous tones: "I want these expert witnesses to pass upon this point, where a man is impelled to do an' unlawful act by a power which he cannot possibly control or over-rule and by which his moral agency is dominated, is he to be considered sane or in-

Immediately after the opening of the

sane ?" Judge Cox-"We will have that question discussed:

Witness said he was managing editor of the Chicago Medical Review, and lecturer upon Mental Diseases at the Chicago Medical Schools. He delivered his first lecture last April, Witness replied to the hypothetical question, predicated upon the trustworthiness of the evidence to which he had istened, that he had no doubt of the prisoner's insanity.

The witness admitted that when a man committed a crime while acting under the delusion of divine inspiration and then conducted himself precisely as a criminal would do, it would be presumptive evidence

against his insanity.
Guiteau, who had been quietly but intently following the witness, here broke in rather excitedly, saying, "Nothing of the

kind in this case, Judge."
Mr. Davigde—"Well, we will see." Guiteau, (angrily)—"You are going too fast in this matter. We want facts, not your judgment. The witness has stated one thing right; the Lord injects the inspiration and then lets a man use his own judgment to work it out; that's just my case; that's the way I get my inspiration. The Lord don't employ fools to do his works; he gets the best material.

Mr. Davidge-Then put a still stronger hypothetical case, using the term "likes a common vulgar criminal. Guiteau turned to Davidge, and with an air of immense superiority, said, "there's nothing vulgar about this case. It's all

high toned." [Laughter, quickly suppressed by the Court.] thought an insane man in carrying out an inspiration would act_according to his peculiarities of manner and temperament, although there were types of insanity where a man's general character became changed. The witness gave a

scientific name. Richard J. Hinton, editor of the Wash ngton Gazette, had been present at the Republican headquarters in New York, and had formed the opinion that the prisoner was an exceedingly illy-balanced, crazy egotist. Witness was asked what he thought of the prisoner's speech, "Garfield vs. Hancock," and his reply was that in his opinion it was a ridiculous, disjointed

when the witness came upon the stand, here became very much incensed, and shouted out, "Well, it wasn't anything of the kind. You don't know what you are talking about. My speech received the endorsement of the best men of the country.' Witness resumed by saying that the prisoner seemed to be a perfect nuisance about the rooms, but was interrupted by Guiteau, who said, "You were a nuisance yourself. I'd rather be hung as a man than acquitted as a fool, and I wont have any more of this

Guiteau, who had smiled complacently

kind of evidence.' Witness added, "he was a laughing stock, so far as I could see.' Guiteau became greatly enraged, and, turning to Mr. Scoville, shouted, "If you put any more of these crank fellows on the stand I'll score you again. 'Twas a great piece of impudence on your part to put Judge Davis on the stand without consult-

ng me."
Upon the hypothetical case put by Mr. Scoville, Guiteau was pronounced insane by the following physicians: Dr. Charles H. Nichols, of Bloomingdale Asylum, New York; Dr. Charles F. Folsom, Harvard University; Dr. Samuel Wooster, Selma, Mass.; Dr. William Godding, St. Elizabeth Asylum, Washington; Dr. Jas. H. McBride, Milwaukee; Dr. Walter Chewning, and Dr. Theodore Fisher, Mass. Guiteau announced that he wanted Grant and Conkling summoned.

FIRE RECORD.

Four Large Flouring Mills and a Cotton Mill Destroyed at Minneapolis, Minn.-Four Lives Lost-Destructive Conflagration in Georgia.

[By Telegraph to the Morning Star.] St. Paul, December 4. - At 4 o'clock this morning fire broke out in the milling district of Minneapolis, destroying before it was subdued four large flouring mills and one cotton mill, and causing the death of at least four men. The fire broke out in the Pillsbury B. flouring mil, owned and operated by C. H. Pillsbury & Co. It communicated to the Excelsior mill, owned by Dorillus Morrrison and operated by C. A. Pillsbury & Co., and to the Minneapolis mill, owned and operated by Crocker, Fiske & Co., which exploded, killing Neil Fredericks, first assistant engineer of the Fire Department. The fire then communicated to the Empire mill, owned by L. F. Watson, of Massachusetts, and operated by C. A Pillsbury & Co. Burning brands then fell upon the roof of the cotton mill near by, owned by Dorillus Morrison, and it was also consumed, together with the trestle work in rear of the mills and several freight cars filled with wheat. The fire had communicated to the mill of Crocker, Fisk & Co., when an explosion occurred and leveled the walls of the structure, crushing the elevated railroad track in front of the mill, killing three persons and injuring one fatally, and several others in a less degree. The loss may be summarized as follows: Pillsbury B. mill, \$140,000; Empire mill, \$125,000; Crocker, Smith & Co.'s mill, \$125,000; Pillsbury & Co., on stocks, \$20,000; Excelsior mill, \$100,000; cotton mill, \$40,000; Crocker, Fisk & Co., on stocks, \$8,000; H. P. Plunkler, on stock, \$10,000. Total, \$568,000.

St. Paul, December 5.—Later estimates reduce the aggregate loss by the fire to \$345,000. ATLANTA, GA., December 5.-A fire at Lowry Branch, yesterday, destroyed several stores

A fire at Marietta, to-day, destroyed several business houses. Loss about \$75,-

At Chicago, yesterday morning, Frank Banke, a tailor, cut his young child's throat from ear to ear with a butcher knife, killing the infant instantly, and then endeavored to kill his wife. Afterwards, he cut his throat and stabbed himself several times in the stomach. Banke had been out of emcided not to pay their rents, except with a ployment for some time and became despondent.

BURNETT'S COCOAINE, UNLIKE ALL OTHER HAIRDRESSINGS, is the best for promoting the growth of and beautifying the Hair, and rendering it dark and glossy. The Cocoaine holds, in a liquid form, a large proportion of deodorized Cocoanut Oil, prepared expressly for this purpose. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair. The superiority of BURNETT'S FLAVOR-ING EXTRACTS consists in their perfect pu-rity and great strength.
