FIRST SESSION. Petitions Against Railroad Discriminations-The Woman Suffrage Question-Committee of Inquiry into the Condition of the Potomac River at Washington-House Select Commit-

tees. [By Telegraph to the Morning Star.] SENATE.

Washington, Dec. 13.-Messrs. Maxey Vest, Groome and Ferry presented petitions for the prohibition of unjust discriminations in railroad charges.

Mr. Hoar, from the Committee on Rules, reported back the resolution for a select committee of seven to be appointed by the Chair, on the extension of suffrage to women, or the removal of their legal disabilities. He asked unanimous consent for the present consideration of the resolution. Mr. Vest objected.

Mr. Ransom submitted a resolution constituting a select committee of five to inquire and report as to the condition of the Potomac river front of the City of Washington, the navigability of said river, the effect of bridges across the same upon navigation, floods and health of the city, and what action ought to be taken in the premises, with power to send for persons and papers, examine witnesses and employ a clerk and stenographer if necessary. Adopted, and Messrs. Ransom, Jones of Nevada, Kellogg, Conger and Vest were constituted by the Chair as the committee.

Mr. Logan, from the committee on Military Affairs, reported, with amendments, a bill to place Gen. Grant on the army retired list. Placed on the calendar.

Mr. Maxey, of the committee, said that the report just made was not unanimous, and he would indicate his objections to it at the proper time.

The report of the committee on Privileges and Elections on the case of the New York Senators was laid on the table, Mr. Garland saying that he saw nothing to dissent from. This is regarded as finally disposing of the matter.

Mr. Voorhees gave notice of a speech tomorrow on the financial portions of the President's message At 1.15 p. m. the bill to regulate and im-

prove the civil service was taken up, and Mr. Pendleton addressed the Senate. Mr. Dawes, and Mr. Hill, of Georgia, also

spoke on the same subject. Mr. Voorhees said that he had no speech to make, but would ask for the reading of a joint resolution he had prepared on the subject. The joint resolution was read by the Clerk and referred to the committee on the Judiciary. It proposes an amendment to the Constitution providing that all postmasters, revenue collectors, judges, marshals, and U. S. district attorneys for the district courts of the United States shall be elected by the people of the States in which their duties are to be performed, and in such manner as the Legislatures of the States shall provide.

Mr. Pendleton's bill was then informally laid on the table, and on motion of Mr. Beck his Presidential succession bill was taken up, in order to have precedence to-The Senate then went into executive ses-

sion, and at 3.40 p. m. adjourned. HOUSE OF REPRESENTATIVES.

Mr. Taylor offered a resolution, which was unanimously adopted, for the appointment of a select committee of seven members, to audit all the claims for services and expenses growing out of the illness and burial of the late President Garfield, and also to consider what allowance, pension or privilege shall be granted the widow and family of the late President.

Mr. Robeson, of N. J., offered a resolution for the appointment of the following select committees: On the census, on reform in the civil service, on epidemic discases, on the inter-oceanic ship canal, on the payment of pensions, bounty and back

Mr. Knott, of Ky., objected to the resolution on the ground that a majority of those committees were unnecessary. On motion of Mr. Sherman, of Ills., a

resolution was adopted for the appointment of a committee on the census. Under the call of States (as of a Monday) the following, bills, etc., were introduced

and referred: By Mr. Herndon, of Ala., for a settlement of the Nicaragua claims.

Cross-Examination of Mr. Spitzka Resumed - The Prisoner's Eyes Evidence of his Insanity.

[By Telegraph to the Morning Star.] Washington, December 13.-Dr. Spitzka's cross-examination was resumed this morning. Witness thought the appearance of Guiteau's eyes one of the strongest indications of his insanity.

Mr Scoville questioned witness in regard to his connection with the Gosling case, and in the course of his explanation witness said he had upon that case been asked the same kind of questions by lawyers on the other side relative to what they termed the "horse doctor business," as he had been asked by the prosecution yesterday, and in both cases the questions had been put at the instigation of some medical politician. In the Gosling case the result had justified the position he (witness) had taken, that is to say, the prisoner died in the insane asylum from the same type of insanity that he (witness) had ascribed to him.

After further question witness explained his position as follows: "I do not hesitate to reiterate my opinion that the expert who will in this Court testify that the prisoner is sane, is in my opinion no expert or is a dishonest one.

Dr. Fordice, broker, of New York, was the next witness. He gave at great length the result of his experience and study and his views upon the various type of insanity, but before concluding his testimony the Court took a recess.

Meeting of Senate Committee on Finance to Consider Senator Sherman's Bill for Retiring Legal Tenders.

[By Telegraph to the Morning Star.] Washington, December 13.—The Senate Committee on Finance held their first meeting for the present session to-day, and took up the bill introduced by Senator Sherman, which provides for an issue of three per cent. bonds to the amount of \$300,000,000, payable at the pleasure of the Government after January 1st, 1887, in exchange for the deposit of an equal amount of legal tender notes, which, when so obtained by the Treasury, are to be devoted to the retirement of extended fives and sixes, commonly known as 31 per cent. bonds. The bill appeared to meet with the unanimous approval of the committee, but action upon it was postponed in order to hear the views of Secretary Folger on the subject, for which purpose he will be invited to come before the committee next Thursday

### The Investigation into the Conduct of the Ninth Regiment at Bichmond, Va .- A Denial of the charges.

[By Telegraph to the Morning Star.] Boston, December 19.-The Board of Inquiry on the conduct of the Ninth Regiment at Yorktown and Richmond, concluded its investigation last night. In accordance with a summons of the Board of Inquiry of the Regiment a number of members appeared Monday evening to answer to charges of misconduct while the Regiment was in Richmond. Each was charged with intoxication. All denied the charges and demanded to be confronted by their accusers, a demand which was not complied with. The accused also claimed that some of the officers were endeavoring to clear themselves by putting the blame on the men. The final decision of the Board could not be learned, but it will be transmitted to the Governor in a few days,

### Verdict of Murder in the Second Degree.

[By Telegraph to the Morning Star.] Uniontown, December 13.—The jury in the case of Patrick Dolan, for the murder of Maurice Healy, last evening brought in a verdict of murder in the second degree, The prisoner seemed well pleased with the verdict. It is understood that not one of the twelve was for acquittal, and that the uncertainty as to whether Healy was the one to whom the two speakers referred at the Hibernian meeting, prevented a verdict in the first degree.

The London Standard on Blaine's Instructions to the American Minister at Lima-The Vienna Fire-A French-American Treaty of Commerce.

[By Cable to the Morning Star.] VIENNA, December 13.—Twenty-seven bodies were removed from the ruins of the theatre yesterday, also a quantity of fragments of bodies, such as feet and hands, which were not burned. . LONDON, December 13.—The Standard,

in a leading article on Mr. Blaine's instructions sent to the American Minister at Lima, says: "It may be absurd, but it is only carrying the Monroe doctrine to its legitimate conclusion, to assume that by and by we shall see representatives deputed from Washington to control the relations of the Emperor of Brazil with European Powers, and the savages of Patigonia invoking the aid of a United States commission to compose their differences. It is true that Mr. Blaine has resigned, and Americans will no longer have to admire the glowing periods in which he has maintained the pretensions of his country, but American diplomacy is uniform; it will be much the same whether the dispatches are penned by Mr. Frelinghuysen or Mr. Blaine. It is not improbable that President Arthur may soon announce that peace is restored and a new protectorate established by the United States.'

The Pall Mall Gazette says: "The impression created by Mr. Blaine's dispatches is undoubtedly bad, and it would have been much worse if the author was still entrusted with the direction of the foreign policy of the United States. We feel no apprehension that the attitude Mr. Hurlbut has assumed at Lima will be persisted in by the commissioner who will supercede him. The American people have too much to do nearer home than to set up as adjudicators among the South American republics. If any European power were to intervene the circumstances would be altered.

A Paris correspondent announces that the Chambers of Commerce of Paris, Lyons, Stetienne, Rheims, Bordeaux, Macon, Colmar, Rochelle, Montpelier, Grenoble, Angonleme, Bayonne, Nancy, Havre and Marseilles, have pronounced in favor of negotiations for a French-American treaty of commerce,

Boston Boot, Shoe and Leather Market.

Boston Commercial Bulletin, December 10. The number of buyers in town is fully as large as at the time of our last report, and they are placing a fair amount of orders. Prices are very firm, but it is difficult to secure any advance, though buyers are convinced that present values are not remunerative. The leather market has been moderately

active at easier prices on some grades of stock, and from present appearances the small margins of the boot and shoe manufacturers are as likely to be remedied by lower cost leather as by higher prices of manufactured goods.
