Several of our staff are on the sick list, but we are still able to sign receipts and put new names on our mail books.

A horrible assassination in Arkansas is reported in our telegraphic department. The "Heathen Chinee" figures in it as the suspected assassin.

Guiteau insists that there are two kinds of insanity-the crank insanity and the Abraham insanity-and that his belongs to the latter class. We think he belongs to the class known as cowards and assassins.

The record of crimes and casualties, reported by telegraph, is quite a full one as given in the STAR this morning. The most serious loss of life occurred at West Point, Va., where some seventeen persons were killed. The accounts of murder and attempts to murder are too numerous to mention.

We extract the following from the weekly cotton report of the New York Commercial and Financial Chronicle: For the week ending this evening (Friday, December 23), the total receipts have reached 201,-555 bales, against 236,576 bales last week, 233,341 bales the previous week, and 216,170 bales three weeks since; making the total receipts since the 1st of September, 1881, 2,941,458 bales, against 3,257.664 bales for the same period of 1880, showing a decrease since September 1, 1881, of 316,206

Spirits Turpentine. Beaufort Telephone: Two firms shipped 150 barrels of clams to the Northern markets last week. -A party of gentlemen from Kinston, among whom was Dr. Bagby and Mr. Canaday, went hunting a few days since in the Eastern waters of the county and killed 131 ducks, 10 brant and 11 wild geese. —Black and red drums are the principal fish brought into town now and they are not by any means plentiful, at 15 cents each.

- New Bernian: We would ven ture, strike a circle 36 miles in diameter. New Bern being its centre, that in this ter ritory this year the producsion of rice has exceeded that of any four previous years four fold. ---- Our new gas works are now in operation and furnishes a gas far superior to anything ever before known in New Bern. This gas is generated from water. — New Bern has been a busy bee-

hive throughout the week. The sidewalks and the stores have been crowded to overflowing. We have never seen anything approaching it since 1865.

- Piedmont Press: Martin Robinson, a colored man raised by Mr. Henry Robinson, of this township, is the most successful person of his race in this community. He now lives on his own plantatation, has plenty of stock around him and raises every year from 200 to 300 bushels of corn. 50 to 75 bushels of wheat, 2 to 3 bales of cotton and other products in proportion. - Capt. C. S. Dwight who has been engaged during nearly all this year on the Imboden Narrow Gauge survey, was in town Thursday night. He has just completed the new line and has suspended operations for the holidays. — The members of the

North Carolina Synod of the Lutheran congregation of Hickory have purchased a desirable lot on which a church will be erected. The church will be a large and handsome brick structure and the work is to begin in the early spring.

- Raleigh News-Observer: The social event of this week is the masquerade ball given under the auspices of the Mono-gram Club at Henry Hall, Wednesday evening. It will be a grand affair, and the majority of the costumes will be of special elegance. — The Orphans' Friend has been revived as a weekly, with Mr. Lycurgus Thomas as manager, and will reappear early next month. Rev. R. H. Marsh will edit it. — An extra telegraph wire has been put up between Raleigh and Durham. The telegraph now also connects Warm Springs with Salisbury. --- Rev. E. A. Yates, the new pastor of Edenton Street Methodist church, arrived yesterday, with

his family. He will preach his first ser-mon to-morrow. The arrival of this talented minister gives great pleasure. He will soon have as warm a place in the hearts of this congregation as he holds in those of his late congregation at Wilmington.

- Statesville Landmark: Three years ago Aaron Whitaker bought for \$70, 10 acres of mountain land in Surry county and the first year raised on a part of it a tobacco crop which netted him \$400. Last year he sold his crop for \$1,300 and this year it will yield him \$1,500. - The first train on the Western North Carolina Railroad ran to Warm Springs last Friday. R.M. McIntire's, and will hereafter continue the business at that location. Mayor's Court.

A large crowd was in attendance upon the Mayor's levee yesterday morning, the result of Christmas indulgences and the doings of John Barleycorn. Eight cases of minor importance were

summarily discharged, more than the usual latitude being allowed on account of Christmas. The first case tried was that of John

Walker and Fanny Walker, both white, and strangers in the city, who were arrested on the charge of being drunk and down. They were told to go and sin no more.

Sidney Hansley, Henry Daniels, George Bremer and John Lewis, all colored, were arraigned on the charge of being engaged in a fight and disturbance on Market street. between Front and South Water, on Monday morning, and particularly for resisting the police who arrested them. They were ordered to pay a fine of \$5 each or be locked

up for ten days in the city. Thos. McKenzie, colored, charged with acting disorderly on the streets, was dis charged. Fred. Robinson, charged with disorderly conduct and resisting the police, was re-

quired to pay a fine of \$25 or go below for thirty days. Thomas Sledge, colored, for disorderly

conduct, was ordered to fork over \$5 or be locked up for ten days.

#### Inland Navigation.

The little steamer Busy Bee, Capt. B. M. Roberts, of this port, towed a flat up Shelter creek, Pender county, on Friday last, to a point known on the map of said county as "Shaking," a distance of about nineteen miles from the junction of the creek with North East river. Whatever of importance there is connected with this announcement lies in the fact that it is the first time a steamboat has ever entered upon the waters of Shelter creek, though Capt. Roberts expects to run one regularly hereafter for the purpose of towing flats loaded with freight up and down the same, which we are told will be a great convenience to the people in that section.

#### More Pounding.

Rev. W. M. Kennedy, of Magnolia, Duplin county, writing us under date of December 25th, says: "I have just been made the recipient of a favor in the way of a profitable pounding by the church and congregation at this place. And this token of love for me, and appreciation of my humble services, is the more highly prized by me because it comes not only from my church members, but from members of the other churches and citizens generally. The Lord reward them all for their kindness to me and bless my labors to the spiritual good of each one who has so kindly remembered me on this occasion."

A man overboard at the foot of Market street created a slight sensation, but as he was quickly fished out the excitement as soon subsided. It was only a case of an equitable distribution of moisture, though the outward application was decidedly the coolest and most shocking to a sensitive temperament.

There was a small turn out of "Don Quixotes," r "D. Q. I's," during the afternoon, and quite a number of "Kooners' added their attractions to the lively scenes on the streets, while at the intersection of Front and Market streets, upon a platform erected for the occasion, Scott's colored minstrels, several of them dressed in Indian costumes, went through their performancesto the evident delight of a large crowd of colored spectators, with a slight sprinkling of whites on the outskirts. Altogether the day was a very lively one, and at night a good many rockets and Roman candles could be seen going up in every direction. until the storm of wind and rain came and put a stop to the exhibition and the fun.

Cows on a Rampage.

On Saturday night, about 10 o'clock, as one of the city officials was walking on Seventh street, between Chesnut and Mulberry, he found the gate of a front garden open and no less than three cows inside, engaged in devouring the fine plants and evergreens with which it was stocked. The c. o. entered the yard to inform the family of the circumstance, but they had retired, and he was about to do what he could towards driving the cattle out, when one old cow, of evident belligerent proclivities, up with her head and went for him, and was about to plant one of the crooked appendages of the same to the vacuum designed for his Christmas dinner; but the c. o. valiantly seized the aforesaid projection and finally succeeded in overcoming the inherent obstinacy of the creature to a degree that she submitted to be enticed from the premises, followed by her equally guilty, but less belligerent companions.

### The Duplin Canal.

Maj. W. L. Young, of the Duplin Canal, was in the city yesterday, and, in response to inquiries, informed us that work on the Canal was progressing finely, especially the sluicing process. They are also reclaiming a great deal of State land on the east side of Angola Bay as they go along.

### Fox Hunting.

Some of the members of the Wilmington Fox Club were out Monday morning, with horn and hounds, and caught two foxes, the chase beginning in the neighborhood of McIlhenny's Mill. Mr. Thomas and Mr. Green, of the Club, bore off the trophies.

#### IN MEMORIAM.

Miss SARAH B. HILL, who died at Shaw Uni-versity. Raleigh, N. C., on Saturday night, Dec. 17th, 1881, was a lady of great promise. She was entering upon her fourth year in school at this institution of learning. By diligence in study she had made rapid progress, and had exhibited such ability that during the last session she was ap-pointed to the position of assistant teacher, and her class at the spring examination gave evidence of having been well taught, and that she pos-sessed first-class qualification as a teacher. During the present term she was reappointed to her former position, and in addition taught a class in instrumental music. She was a young lady be loved by all her teachers and associates in school and her name will long be remembered, and her early death mourned, by all who knew her. For some time before she was stricken with fe-ver her health had not been good, but it was ver her health had hot been good, but it was hoped that with the return of cooler weather that she would improve in strength, but Providence has ordered otherwise. About the 20th of No-vember she was taken with the fever, and ai-though at first of a mild type, yet it finally de-veloped into typhoid pneumonia. She was fully conscious of the fatal character of her disease, and was able at times to converse with her friends. It is but just to her memory for the writer to bear tostimony to her many admirable qualities; to one who were among the hundreds of young ladies who have pursued their studies un-der his direction, has been surpassed by none, giv-ing rich promise of a life of great usefulness, and if she had continued her studies as she proposed, in two years she without doubt would have re-ceived appointmet as a regular teacher in her Alma Mater. In the prayer meeting her voice was often heard, hoped that with the return of cooler weather that

ceived appointmet as a regular teacher in her Alma Mater. In the prayer meeting her voice was often heard, and she lived an exemplary Christian life. In the times of revival she labored with great zeal, and was listened to with interest and profit. Her strong faith and trust was beautifully illustrated in the last days of her life. She spoke many words of comfort to her mother and friends, and was ready and willing to die. Her trust and hope was in her Redeemer, and death had no terror for her. Her triumph and victory was complete, and while she has departed this life our loss is her gain, for she is with Christ in glory. This thought, together with the fact that she was a kind and affectionate daughter and sister, we trust will do much to comfort the afflicted family, and lead them cheerfully to submit to the will of Him who doeth all things well. H. M. TUPPER, President Shaw University. RALEIGH, Dec. 21, 1881.
