After examining our daily exchanges carefully for many years we have concluded that a daily is but little else than a record of folly, crime and misfortune.

The leading actresses spend immense sums in dressing for the stage. Anne Louise Cary is modest in her expenditures, and yet she can not get along under \$10,000 worth yearly. Patti spends tens of thousands.

Senator Vance had three invitations to attend parties or something of the kind on the same evening. He was mighty sorry he could not be at all three, but he could not divide up. His head and legs were bound to be where the stomach was.

The Washington Star says Arthur will nominate Gen. Fitz John Porter as Colonel in the regular army. The Star says:

The decision of the advisory board that Gen. Porter was not only unjustly dealt with, but that if it had not been for him there would have been a great disaster to the Union army, has had great weight with the President and his Cabinet. The question of the date of his being mustered out as a Major General of volunteers will be settled by the decision of the Attorney It is estimated that when confirmed by the Senate as a Colonel of the regular army, that Gen. Porter will be entitled to about \$115,000 back pay. When Gen. Porter was cashiered he was forever lisqualified from holding any office of public trust or profit. The nomination of Gen. Porter to be a Colonel of Infantry, which will be made without a doubt, will carry with it a pardon-when it is confirmedfrom all disabilities imposed by the verdict of the original court in his case."

Vermont passed a very severe law to compel people to list their property at an honest valuation. The result is that in one year the valuation was raised from \$100,000,000 to \$163,000,000. North Carolina needs just such a law. Whenever property, real and personal, and merchandise sales, are taxed fairly and fully in North Carolina, there will be no need of repudiation, and the common school fund can be increased by three or four hundred thousand dol-

-Warsaw Brief Mention: Duplin Inferior Court will meet on the third Monday in March. — Senator Vance's speech on the tariff was very strong. Vance is always equal to anything he undertakes. Hurrah for Vance!

- Durham Tobacco Plant: An addition is being made to the Methodist Female Seminary building. This step has been rendered necessary by the constant in-crease of scholars. Durham is well supplied with schools, but what we need is a well conducted graded school.

- Elizabeth City Falcon: We are pained to learn of the extreme illness of Dr. J. H. Nonamaker, from pneumonia. —Mr. Daniel Sawyer, an old citizen of Newland township, this county, died last week, aged about seventy years. Mr. Sawyer was an exemplary Christian gentleman.

- Charlotte Observer: It affords us pleasure to state that Mr. W. J. Yates, who has been suffering seriously from rheumatism for the past two weeks, is re-covering, and will no doubt soon be upon his feet again. - Mrs. Mary J. Lucas died in this city last night about nine

- Asheboro Courier: Mr. W. H. Snow, we learn, has a contract with the Winston and Fayetteville Company to make 600 wheelbarrows, with which said company proposes to begin work immediately. —The new factory of the Enterprise Manufacturing Company, which is being rebuilt where the old one was burned down several months ago, will be ready for the roof next week.

- Raleigh News-Observer: The Superior Court was occupied yesterday in discussing the case of the county against the Raleigh & Gaston Railroad. The County Commissioners not long since decided to impose a tax on stock held by the Raleigh & Gaston Railroad in the Raleigh & Augusta Air-Line. Judge Bennett, while intimating that he would sustain the commissioners, took the papers, reserving his

— Allen Davis, white boy, has been arrested and jailed for the murder of Allen Merrick, colored boy, near Fayette-ville. The Examiner says: Merrick went off about that time in company with Allen Davis, a white boy about his own age, to look for a cow which Davis claimed to have lost. Merrick did not return, but Davis re-ported to Merrick's father that Merrick had run away. This report was believed and matters went on for a month without any suspicion of foul play. Recently, however, various facts coming to the knowledge of Merrick's friends induced them to suspect that he had been killed by Davis. He was found partially buried in a thick swamp, with one hand projecting. A warrant for Davis's arrest was obtained.

- Weldon News: On Saturday Tom Fields was arrested on a charge of failing to execute and return a warrant issued to have Latham and Brown before a justice to give bail. It will be remembered that Tom Fields, who had charge of the prisoners, refused to bring them before a magistrate for hearing, but lodged them in jail upon a mittimus from the coroner. Fields was taken before Justices Daniel and Moseley, and after a hearing was bound over to the term of the Inferior Court now in session, in the sum of \$300 to answer the charge. Arresting citizens and lodging them in jail without proper writs is a serious matter and we trust Fields and all others will learn that the time has passed

when they may ignore writs, - Fayetteville Examiner: A few years ago James A. Blackburn, of Sampson county, was brought to trial in the Superior Court of that county, charged with the murder of — Lamb. The trial was removed to Pender county, but did not come to a hearing there. In the meantime Blackburn was released on bail and went at large. He, however, failed to put in an

against Blackburn from Pender county was placed in the hands of the Sheriff of Cumberland county, and Blackburn was found here, arrested and placed in confinement, where he will remain until removed to Pender county for trial.

- Kinston Journal: A party of gentlemen from Chatham were in Jones county last week buying corn, paying 70 cents per bushel. — There will be a meeting at Bell's Ferry next Saturday for the purpose of petitioning Congress for an appropriation to centinue the work on Contentnea Creek. — Dr. W. A. J. Pollock cites, as a proof that his plantation in Jones county is in a healthy condition, the fact that Mr. James Hawkins, who lives

mear by, has three sons that weigh 600 lbs.

Mr. S. B. Noble, of Sand Hill townwho was attacked at his home one night about six weeks ago and left for dead, was in town Monday. He has several ugly scars on his head and neck, made by the bush-hooks used by the assassins, who have not yet been arrested.

- The Kinston Journal copies what the STAR said of Cook's brigade, and what the STAR said of Cook's brigade, and then says the 15th, McRae's old regiment, and 27th, Cook's old regiment, were the two best drilled regiments in Hill's Corps, or perhaps in Lee's army. They once drilled against each other. Col. R. C. Hill, of the 48th, an old army officer, was to decide the contest. The 27th was handled by Col. Whitfield, the 15th by Col. McRae. Col. Hill's decision was just what the most of us expected: "The 27th the best on the manual, the 15th the best on the revolu-In 1865 a South Carolina regiment challenged the two regiments for a drill. On the day selected General Cook took the 15th and 27th regiments out, and, in the presence of Gen. Lee and several Corps and Division commanders actually made the South Carolinians ashared of themselves.

— Goldsboro Messenger: Mr. B. S. Barwick, of Indian Springs township, recently killed a hog weighing 710 pounds the day after being killed. The pork was two years and eight months old. —The dwelling house of Mrs. C. A. G. Herring, a worthy widow lady residing in Indian Springs, in this county, was destroyed by fire on Sunday last. The fire was caused by sparks. No insurance — The friends of Dr. John R. Thompson, of this county, will regret to learn of his affliction in the death of his beloved wife, which sad event occurred at their residence in Fork township on the 13th instant, aged 45 years.

The carriage house of Mr. Wm. B. Thompson, near this city, was destroyed by fire Monday night, together with a fine carriage, a buggy, about 100 bushels wheat a quantity of rice. Total loss about The fire is supposed to be the work of an incendiary.

- Raleigh Farmer and Mechanic. Strange to say, we for the first time yester-day learned that Judge Thomas S. Ashe, of the Supreme Court, was once elected as Senator from North Carolina. It was in 1864. He was nominated without his knowledge and elected by a considerable majority over Edwin G. Reade. Before the time for him to take his seat arrived, the Confederate Congress took down its hat, and silently scattered across the Appomattox into the domain of History. -Bishop Northrop is visiting (and preaching at) New Berne, which was his first parish in North Carolina, just after the war. It was a number of old New Berne friends, in Baltimore, members of Judge Manly's family in particular), who prepared and presented to him the beautiful jewelled cross and chain worn by the Bishop on the occasion of his consecration. The cross is composed of North Carolina gold, richly set with gems from our State mines; and was much admired for its beauty and appropriateness -North Carolina is likely to be the great vintage State of the Atlantic coast The vine flourishes everywhere through its length and breadth, growing with especial luxuriance in every forest of the State. Since the war, hundreds of vineyards have been planted; these are mostly small, but there are six, each of a hundred acres or more, where wine making is carried on aided by the best experience and skill that could be found in Europe. The products of some of these vineyards made an interesting feature of the State exhibit at the great Atlanta Exposition. - Farmer, York, Pa. S. R. Worms in the Turpentine Trees-Recollections of '49.

A late number of the Hinesville (Ga.) Gazette says: "Some of our turpentine men are in great distress. Worms are appearing in the trees recently boxed, and decay soon follows. Of course the supply of gum s scanty, and it is filled with the dust of the bark and thereby injured. It is supposed that these worms get in the green timber from the dead trees prostrated by the storm, for the greatest havoc caused by them is in those parts adjacent to the old farms where the storm logs are so abun-

The winter of 1849 was generally mild and open, and as spring approached it became evident that a bug had attacked the pine trees in all this section. The noise made by them in their depredations was perceptible to any one passing through the woods. The trees commenced to die rapidly, and but for a providential extremely cold snap in April of that year (on the 15th of which month it will be recollected there was a heavy fall of snow), in all probability the entire pine forests would have been more or less affected by them and possibly killed. As it proved, however, the cold snap put an end to the ravages of the bug. In succeeding years the effect of this bug attack was noticeable in the broad acres of dead timber which were to be found in

many sections of our pine country. This same bug has now made its appearance in Georgia and portions of South Carolina, and if not killed off by a similar cold snap as that which so opportunely intervened in 1849, as we now have reason to hope they will be, may do incalculable damage. Those familiar with and who recollect the visit of the bugs in 1849 say they were a very small, hard-shelled, black bug, that bored into and sapped the life of the tree, when it withered and died. A worm known as the sawyer then followed in the track of the bug, and it was this that made the noise referred to, which resembled somewhat the sound of a small saw in use. -

Alarms of Fire Yesterday.

The alarm of fire yesterday morning, about half-past 8 o'clock, was caused by the burning of a hole in the roof of one of the still-sheds of Messrs. Hall & Morton's distilleries. Men mounted the roof and extinguished the flames before the engines ar rived. The alarm was telephoned from the City Hall, and the fire department was promptly out.

Fire No. 2 occurred about 12 o'clock, the roof of the dwelling house of Mr. E. D. Hewlett, on Seventh and Queen streets, having been discovered in a blaze. Some of the neighbors quickly mounted the roof and succeeded in nipping the conflagration in the bud, the only damage being a hole of not very large dimensions. There was no general alarm this time.

The next alarm (No. 3) was sounded about a quarter to 2 o'clock, but the fire which caused it wasn't much. It seems that a minature conflagration started in a house in the neighborhood of Tenth and Princess streets, and some one rushed into the street and yelled "fire!" but those who remained behind had the flames under control before the person could return.

The fire department was out, the engines having reached the neighborhood of Eighth and Market street, when word came that their services were not needed.

Wilmington Library Association

A meeting of the Directors and members of the Library Association was held at the Library Room last night.

The meeting was called to order by the President, Alex. Sprunt, Esq., who reviewed the history of the Association, and who was followed by Messrs. Wm. L. Smith and Chas. Robinson, in brief addresses.

Col. Smith moved that an advisory committee of four, with the President as Chairman ex officio, be appointed to solicit members to a Literary Society, to be organized among the members of the Library Association. The following gentlemen were appointed by the chair: Capt. Chas. Robinson and Messrs. Herbert Smith, Iredell Meares, and Walter Rutland.
