OUTLINES.

Two hundred square miles of land in Louisiana, occupied by 4,000 people and embracing many valuable sugar plantations, are covered with water: the loss of crops alone will exceed \$500,000. - Lieut. Randolph, one of the army officers sent to investigate the extent of the destitution in the overflowed region, reports that from Red river to the Arkansas line, there has been no loss of life except a few children and no actual destitution at present; he recommends that all issues of rations be immediately discontinued upon the subsiding of the waters, so that planting can begin. - Franklin J. Moses, Republican ex-Governor of South Carolina, has been arrested in New York on the charge of swindling; since his arrest a continuous series of swindles for five years past have been traced to him. - Printers on the New York World have struck against a reduction of wages. --- An unknown man, crazed by drink, shot and killed a citizen of Lexington, Ky., on a railroad train in Indi ana, without provocation; the maniac then jumped from the train and drowned himthe people living in and around the self. - The short time movement in town could only have their way. English cotton mills is holding its ground and likely to spread. - An Ohio woman broke the necks of two of her children and then drowned herself and babe; cause, disagreement with her husband. - New York markets: Money 6@21 per cent.; cotton quiet at 12@12\$c; southern flour dull and unchanged at \$5 20@8 00 wheat weak, ungraded red \$1 18@1 414; corn 1@1\frac{1}{4}c higher, ungraded 75@77\frac{1}{4}c; rosin very strong at \$2 40@2 45; spirits turpentine firm and quiet at 58c.

Arthur is reported as losing his grip on the half-breeds.

Last week America's racing in England stood, one victory, two defeats.

It is thought the Tariff Commission bill will be subjected to a long discussion in the House. We hope the House will have sense enough to defeat it.

We are glad that the Senate passed the House bill giving a pension of \$5,000 a year from September 19 1881, to Mrs. Garfield, Mrs. Polk and Mrs. Tyler, widows of three Presidents.

Miss Helen M. Louis, of Charleston, S. C., became stage-struck while in New York, and has been swindled out of \$500 which she gave a fellow named Schwab to purchase for her a necessary stage wardrobe.

According to Dr. Hamilton, the eminent New York surgeon and physician, sewer gas produces typhoid fever, diphtheria, &c. He says there is no safety but to keep all such pipes out of all dwellings.

Bill Chandler's services are not needed by the country. "Bildad" writes to the Richmond State:

"One thing can be confidently predicted -viz: If Chandler is made Secretary of the Navy the bill proposing to appropriate ten millions for the construction of new vessels will get very few Democratic votes.

Some one fired a pistol into the editorial room of the Norfolk Landmark, but no editors were in. The ball hit a portrait of Senator Vance, and we are glad Zab was out. It is not known whether the shot was accidental or otherwise.

It is said that there is no prospect of reducing the letter postage to two cents, but there is good prospect of increasing the weight of letters from half an ounce to one ounce for three cents. This will be a benefit, but the two cents' plan would be better.

Mrs. General Fremont, Tom Benton's daughter, has filed a petition in the United States Senate to have restored to her twelve acres in San Francisco that were seized by the United States Government, and are estimated to be worth now \$1,000,000.

Robinson, nominated by Arthur for the United States District Attorney's place, ought not to be confirmed if what Republicans living in Wilmington say of him is true. Our delegation would do well to be careful how they vote. Look before you leap. A word to the wise is sufficient.

The Republicans in Congress have chosen the following campaign committee for the present year, namely: Senators Allison, Hale and Aldrich, and Representatives Hiscock, Robeson, McKinley, Fisher, Page, Davis of Illinois, Houk, Calkins, Van Horn, Russell of Massachusetts, Washburne, of Minnesota, and Ryan of Kansas.

WILMINGTON, N. C., THURSDAY, MARCH 30, 1882. VOL. XXX.---NO. 7.

Some writer in the Raleigh News-

Observer wishes everybody else to

stand aside and let Gen. W. R. Cox,

Representative of the Raleigh Dis-

trict, be nominated for Representa-

tive of the State at Large. Gen.

Cox is an estimable gentleman, with

a good war and peace record, and of

fair talents; but why give him all the

offices? He only entered upon his

present term in December and has a

long time to serve yet. Why wish

him to resign a certainty for an un-

certainty? If he were to resign his

successor might be a Republican,

and then he stands a chance of being

defeated for the other place. The

people around Raleigh need not ex-

pect to do all the nominating. Cox,

The STAR is well satisfied with the

report of the Ways and Means Com-

mittee in the matter of internal reve-

nue reduction. The plan is to reduce

the revenues some \$23,000,000. This

is about what it should be at present

as the STAR thought and urged. It

would have been a tremendous blun-

der to have abolished the internal

taxes as was insisted upon by certain

North Carolinians. It would have

been, we have no doubt, a great blun-

der to have cut them down to the

tune of \$68,000,000 as was advocated

by some Congressmen. We are satis-

fied entirely with the result. The

STAR in its first editorial on the sub-

ject took ground in favor of a re-

duction of both the tariff and the in-

ternal taxes. Its wishes in regard to

the tariff will not he gratified for

appointed at the failure. The ques-

tion of Can-e-do-it is now answered.

But it is to be hoped that the road

proposed or some other equally bene-

ficial to Wilmington will be con-

structed yet. We regret to see the

hopes of so many dashed to the

Over one hundred and fifty covered wagons, it is estimated, went through Tuesday. We learn that some of the parties, middle-aged men, from near Danville, Va., were making their first trip

to North Carolina." - Winston Sentinel: Our crop prospects were never better at this season of the year. Wheat, of which a larger acreage was sown than usual, is looking remarkably well-too well, some of the farmers say. So far the fruit crop has not been injured, and promises a large yield. Extensive preparations for a large tobacco crop are being made. —The case of Miss Crutchfield, charged with infanticide, was neard before 'Squires Johnson & Barrow on Saturday, and from the testimony given there remains but little doubt of the truth of the charge. #### The Sutherland Family, or the Seven

The weather being propitious yesterday great many people took occasion to pay visit to the seven long-haired sisters comprising the justly celebrated Sutherland Family, which under the management of Mr C. A. Donaldson, have been giving daily exhibitions and musical concerts on Market street, opposite Masonic Hall, for several days past. They are certainly a wonderful family, and every one seemed delighted with their pleasant manners and attractive faces, as well as amazed at the wealth of beautiful hair which adorns their shapely heads. The eldest sister gave a very interesting history of seven sisters, which was followed by one of their choice musical efforts, which was generally appreciated, especially the sweet bass of Miss Naomi. one of the most noticeable of the longhaired beauties. The large number present seemed very agreeably entertained, and we have no doubt that during the remainder of their stay, should the weather continue

good, their levees will be well attended. The sisters consist of the Misses Sarah N., Isabella C., Grace, Naomi, Dora and Mary; the youngest being 15 and the eldest 24 years of age. They were born in the town of Cambria, on what is known as the Sutherland farm, near the city of Lockport, Niagara county, New York, a few miles east of Niagara Falls, and are said to be all members of the Episcopal church, having been confirmed by Bishop Cox, of

#### Clinton and Point Caswell Railroad.

The committee having the matter in charge have arranged to systematically canvass the city for subscriptions to the capital stock of the Clinton and Point Caswell Railroad Company. To this end, Messrs F. W. Kerchner, Roger Moore, R. W. Hicks, J. C. Heyer, Owen Fennell and H. M. Bagg, of the committee, will call on members of the Chamber of Commerce and Produce Exchange, and all business houses on Water street. And Messrs. A. Adrian, J. C. Stevenson, H. Brunhild, W. B. Mc-Koy, Preston Cumming, and Hon. W. L. Smith will canvass Market and Front streets, and the city at large, in behalf of the enterprise.

# Trains Withdrawn.

We are requested by Capt. J. F. Divine, General Superintendent, to state that trains Nos. 42 and 45 will be discontinued on the Wilmington & Weldon, and Wilmington, Columbia & Augusta Railroads on and after Sunday next, April 2nd. #### The Paupers' Burying Ground.

We are glad to see that the authorities have decided to enclose the paupers' burying ground, in the extreme southeastern limits of the city, with a substantial fence, and that the lot used for that purpose is to be considerably enlarged. It is also understood that steps will be taken to secure more care and discrimination in making the interments than has heretofore been ob-

#### Effects of the Late Rains.

Arrivals from the Black River section yesterday report a big freshet, the branches being so full that they can barely be crossed by vehicles, the creeks, where fordable ordinarily, being now impassable, and the bridges submerged to a considerable depth. We could hear of no particular damage from the flood, but the water was still rising, and may yet result more seriously.

Destroying the Contents of a Room used by a small-pox patient may be avoided by using Darbys Prophylactic Fluid. It is morally criminal to neglect the use of such a disinfectant and preventive. It is certainly best to prevent the spread of disease, and those who will use Darbys Prophylactic Fluid freely about their houses will be saved from the attacks of all contagious diseases and death itself,

#### The Late Session of Wilmington Pres-

Those from this place who attended the session of Wilmington Presbytery at Burgaw last week speak in high terms of the hospitality of the people in that section, and going on there, especially with reference to the handsome and tasty cottage just erected in the village for Mr. J. T. Collins, the work, by the way of Wilmington mechanics. Of the business done by Presbytery we may mention that Rev. R. B. McAlpine and Ruling Elder B. F. Hall were elected Commissioners to the General Assembly: Rev. J. S. Black and Ruling Elder G. B. Carr being selected as alternates. The most interesting and important subject of discussion was Evangelization, and a very healthy sentiment was developed in that direction. One of the results of the discussion was the addition to the former committee on this subject of Ruling Elders T. B. Hyman, John Colville and B F. Hall.

The next session of Presbytery will be held at Black River Chapel on Thursday before the third Sunday in September next.

#### Entertainment by the Literary Club. We learn that the meeting of the Lite

rary Club connected with the Wilmington Library Association, held on Tuesday night, though not largely attended on account of the bad weather, was still a very pleasant and enjoyable entertaintment, amply repaying those who braved the dampness and mud to be present. Mr. E. A. Oldham delivered an interesting oration or essay on the subject of "War;" Mr. B. G. Empie declaimed admirably, using for the purpose an extract from the great speech of William Wirt in the trial of Aaron Burr; and Mr. G. P. Macindoe recited "My Uncle's Story" in such a manner as to call down the house.

The following appointments were made for the second regular meeting in April Orator, Dr. Thomas F. Wood; Declaimer, R. D. Jewett; Reader, George R. Dyer.

A DOWN TOWN MERCHANT, having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeomethy. That night the child research administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still suffering; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists. 25 cents a bottle. Druggists. 25 cents a bottle

Correspondence of Chicago Times, Aug. 10, 1881. THE WORLD'S EPILETIC INSTITUTE.

While passing through St. Joseph, and having heard a great deal about the World's Epileptic Institute located here, I concluded to pay the celebrated institution a short visit. We were met by Dr. Richmond, the proprietor, who has gained a reputation as broad as the land. He is gained a reputation as broad as the land. He is a rather small, yet prepossessing man, of very affable and gentlemanly manners. He gave us a hearty welcome, and took great pains in showing us through his palatial and mannoth institution. It is a five-story building, 200x180 feet, with basement, and contains over three hundred rooms, and can accommodate five hundred patients, and each and every room is furnished in the most elegant and lavish manner. But we will begin at the office, which is a large room furnished with rosewood furniture throughout. In the office are the office, which is a large room furnished with rosewood furniture throughout. In the office are thousands of photographs of those who have been benefited by the Nervine. The office is one of the finest and most complete in the west, and he has the rooms decorated, carpeted and trimmed up with as much care and luxury as is his own private office. On the first froor of this mammoth building is the doctor's private office, the printing department, bindery, tank room, packing, bottling and consultation rooms, barber shop, drug store, etc., all of which are fitted up regardless of expense. The second floor has the hotel office, dining, billiard and cooking rooms, many guest chambers and several parlors. The third and fourth floors are all rooms, all of which are furnished with Brussels carpets and the finest are furnished with Brussels carpets and the finest furniture. An idea of the immensity of the doctor's business may be given when we say that on the day-we visited the Institute he showed us to his express room, and we saw the expressman take goods labeled to the following places, to say nothing of hundreds of orders from all quarter of America: Lyons, France: Geneva, Switzerland of America: Lyons, France; Geneva, Switzerland; Madrid, Spain; Brussels, Belgium; Cape Town, Africa; Shanghai, China; Yokohama, Japan; Bombay, India; Melbourne, Australia. The doctor employs hundreds of men and women in his Institute in the several branches, aside from the immense force required to conduct the hotel.
