

The report of the capture of a town in Arizona and the killing of thirty-five persons is denied; only one man was killed and he was three miles from town.

An exciting colloquy occurred between Mr. Blaine and Mr. Belmont of the Foreign Affairs Committee engaged in the Shipherd investigation; Belmont intimated that he would deal with Blaine in private, and it is said that the dispute is not ended.

Ralph Waldo Emerson is dead. The most original and powerful intellect among the New England literati. He was poet, one of our best, essayist and philosopher, and was a man of very remarkable powers.

A gentleman living in Baltimore, where Judge Bond resides also, writes to the Day as follows: "Let the people be told the truth as to this modern Jefferys, so that he may not by his subtle speech, and through the medium of his club and other social advantages, be able to deceive well meaning and honest citizens of both parties."

Spirits Turpentine. Col. H. C. Jones is to deliver the Charlotte Memorial Address. Durham Plant: The report of rust in wheat southwest of Durham has been confirmed.

The track farms around Norfolk, Va., have been injured by the cold. There is an amendment before the Senate to prevent the naturalization of the Chinese.

There is a proposition to build a new railway between Washington and New York. The revolt in Pennsylvania against the Cameron bosses becomes more determined daily.

Adam Forepaugh is mad with Barnum and threatens to sue him for libel, laying the damages at \$50,000. Lieut. Danenhower and the surviving crew of the Jeannette are on their way to St. Petersburg by rail.

The retirement of Miss Kellogg from the stage is to be regretted. She is the best of the American singers. On Wall street, 25th inst., sales were made as follows: North Carolina tax (3d class) bonds at 7 1/2; small North Carolina 4s at 82.

The scene reported by telegraph as occurring between Blaine and young Belmont before the Committee of Foreign Affairs was novel, spicy and pugnacious. May we expect "coffee and pistols for two?" Mrs. Garfield certifies to the statement of Dr. S. A. Boynton that Dr. "Condurango" Bliss was never called in to see the late murdered President. There now "Cheek" pays, or will pay if he gets the \$25,000. "Ignorance" may be bliss, but not this Bliss.

Senator Voorhees has introduced a resolution that may prove a rod in pickle for the jury-fixers in South Carolina. He is reported as being "deeply incensed at the lawlessness and tyranny which received the sanction of Judge Bond."

A dispatch from Raleigh to the New York Times gives a very encouraging account of the iron mine near Chapel Hill. It is said to be extensive and valuable. The ore has been tested at the Iron and Steel Works at Harrisburg, Penn., and the statement is that the analysis shows it to be equal to the best steel ore now mined near Lake Superior. It is further stated that the Pennsylvania Iron and Steel Company has engaged all of this ore and is using it in the manufacture of steel. The Malley trial is going on. The State Attorney in his theory of the prosecution said: "On the 6th day of August last the dead body of Jennie Cramer was found on the shore at Savin Rock, near the Hill home-stand. It was partly submerged in the water and no one was in sight. We expect to show that her death was not produced by drowning. There were none of the evidences to show death by this cause. There was none of that foam about the mouth that was to have been expected. She was lying upon her back and her hands were crossed. No water came from her body. We shall claim that her death was caused by arsenic found in her body that had been recently administered and not self-administered. Life was extinct when that body touched the water."

THE MORNING STAR.

VOL. XXX.--NO. 32.

WILMINGTON, N. C., FRIDAY, APRIL 28, 1882.

WHOLE NO. 4581

Ralph Waldo Emerson is dead. The most original and powerful intellect among the New England literati. He was poet, one of our best, essayist and philosopher, and was a man of very remarkable powers.

A gentleman living in Baltimore, where Judge Bond resides also, writes to the Day as follows: "Let the people be told the truth as to this modern Jefferys, so that he may not by his subtle speech, and through the medium of his club and other social advantages, be able to deceive well meaning and honest citizens of both parties."

Spirits Turpentine. Col. H. C. Jones is to deliver the Charlotte Memorial Address. Durham Plant: The report of rust in wheat southwest of Durham has been confirmed.

The track farms around Norfolk, Va., have been injured by the cold. There is an amendment before the Senate to prevent the naturalization of the Chinese.

There is a proposition to build a new railway between Washington and New York. The revolt in Pennsylvania against the Cameron bosses becomes more determined daily.

Adam Forepaugh is mad with Barnum and threatens to sue him for libel, laying the damages at \$50,000. Lieut. Danenhower and the surviving crew of the Jeannette are on their way to St. Petersburg by rail.

The retirement of Miss Kellogg from the stage is to be regretted. She is the best of the American singers. On Wall street, 25th inst., sales were made as follows: North Carolina tax (3d class) bonds at 7 1/2; small North Carolina 4s at 82.

The scene reported by telegraph as occurring between Blaine and young Belmont before the Committee of Foreign Affairs was novel, spicy and pugnacious. May we expect "coffee and pistols for two?" Mrs. Garfield certifies to the statement of Dr. S. A. Boynton that Dr. "Condurango" Bliss was never called in to see the late murdered President. There now "Cheek" pays, or will pay if he gets the \$25,000. "Ignorance" may be bliss, but not this Bliss.

Senator Voorhees has introduced a resolution that may prove a rod in pickle for the jury-fixers in South Carolina. He is reported as being "deeply incensed at the lawlessness and tyranny which received the sanction of Judge Bond."

A dispatch from Raleigh to the New York Times gives a very encouraging account of the iron mine near Chapel Hill. It is said to be extensive and valuable. The ore has been tested at the Iron and Steel Works at Harrisburg, Penn., and the statement is that the analysis shows it to be equal to the best steel ore now mined near Lake Superior. It is further stated that the Pennsylvania Iron and Steel Company has engaged all of this ore and is using it in the manufacture of steel. The Malley trial is going on. The State Attorney in his theory of the prosecution said: "On the 6th day of August last the dead body of Jennie Cramer was found on the shore at Savin Rock, near the Hill home-stand. It was partly submerged in the water and no one was in sight. We expect to show that her death was not produced by drowning. There were none of the evidences to show death by this cause. There was none of that foam about the mouth that was to have been expected. She was lying upon her back and her hands were crossed. No water came from her body. We shall claim that her death was caused by arsenic found in her body that had been recently administered and not self-administered. Life was extinct when that body touched the water."

Raleigh Farmer and Mechanic: The Times, a new Republican campaign paper, is now being printed in Raleigh, and will appear to-morrow, or this week; Mr. J. C. Logan Harris editor. Much attention is being attracted to North Carolina politics, and many of the Northern dailies have correspondence describing the situation. The Herald last week gave space for a three-column letter from Raleigh. At Asheville depot, one day last week, Jim Earle, a negro hack-driver, struck mail route messenger Chilton with a stick, damaging his skull. Judge Gudgey attempted to arrest Earle, but was hustled and prevented by negro bystanders, says a telegram to the Observer. Chilton is not fatally hurt. From Hamlet, our young friend Brainard Whiting writes: "A colored boy, sixteen years old, named Abram Atkins, from Holly Springs neighborhood, Wake county, robbed a United States mail bag at Old Hundred, North Carolina, on the 24th inst., destroying all letters, etc. He is now in Richmond county jail. He says his father's name is Bird."

One of our best citizens, Capt. W. H. Turentine, brother of Capt. Jas. A. Turentine, hit upon a new method of constructing railroad "frogs" (on junction blocks where switches are put in), which not only saves much trouble to the section masters, but also lessens the liability of accident. Large numbers of them are now going up to the Western N. C. R. R. R. P. Bryson, of Rutherford, last week patented a steam road engine. Patents have been granted as follows: Wren C. Penland, Asheville, assignor of one half to J. M. Brookshier, for pruning knife; Lewis S. Hefner, assignor to himself and E. O. Elliot, Catawba Springs, N. C., seed-planter coverer and fertilizer distributor; D. L. Shoemaker, Washington, D. C., assignor of one third to John Hughes, New Bern, N. C., machine for cleaning and scouring rice, etc.

THE CITY.

NEW ADVERTISEMENTS. J. H. DURHAM-Dentistry. J. C. MUNDY-Sozodont, etc. MUNSON-Clay diagonals, etc. MEETING-Library Association. CAUTION NOTICE-Crew Aspirant. R. M. McINTIRE-Silks, laces, etc. CROMLY & MORRIS-Nails at auction. CROMLY & MORRIS-Underwriters' sale. BROOKLYN HALL-Universalist sermon. CROMLY & MORRIS-General auction sale.

Abandoned-Skipper. Col. Frank E. Willis, the proprietor of the "Museum of Wonders" that was on exhibition here a few weeks ago, disappeared suddenly from Norfolk on Tuesday night last, as we see from a special telegram in the Richmond Dispatch, taking all the available assets of the institution and leaving the performers and employes destitute of means. To his agent he left the following letter: NORFOLK, April 23d, 1882. FRIEND TOM.-For, and in consideration of your services rendered, I sell you the alligator and cage, the hand organ under the glass box, and the glass case and the "Rhoda Mystery," all of my traps. To Old Castleman, the father of the "Fat Boy," I extend my bad luck. To the rat man, the faking wolf, all he can steal in a small way. To old man White my best wishes that he may make money with the show I organized. To the printers, send their bills to me to New York and I will settle them. To the boys a drink, for all good bye.

Brunswick County. Sheriff E. W. Taylor, of Brunswick, under date of April 26th, states that there have been two or three cold nights during the present week, but no frost. It was cold enough for frost, but light winds during the nights referred to prevented it. The people, he says, are very busy planting cotton, corn and rice. The high prices of provisions recently are causing the people to look to their interest in making supplies. If provisions should rule high and turpentine decline for two or three years, the Sheriff thinks Brunswick would raise a surplus of the former.

Foreign Exports. The following comprised the foreign shipments yesterday: The Norwegian barque Hektor, Capt. Tellefsen, for Stettin, Germany, by Messrs. E. Peschau & Westermann, with 8,940 barrels of rosin, valued at \$9,150; and the British brigantine Signal, Capt. Williams, for Bristol, England, by Messrs. Alex. Sprunt & Son, with 500 casks of spirits turpentine and 2,065 barrels of rosin, valued at \$19,150. Total foreign exports for the day, \$28,300.

Testing Hose. The steam fire engine No. 3, with five hundred feet of new hose, which has five hundred feet reserved for special purposes, will be tested at the foot of Dock street this afternoon, at 4 o'clock; the supply of water being taken alternately from the river and from the Water Works hydrant near by. The test will be under the supervision of Capt. F. G. Robinson, Chief of the Fire Department.

Compelled to Decline. In response to invitations to lecture in this city for the benefit of the Wilmington Library Association, during the present session, letters have been received by Mr. F. W. Kerchner, for the Association, from Senators Z. B. Vance and T. F. Bayard, in which they state they find it impossible to comply with the request on account of numerous pressing business engagements.

Agricultural. We are requested to state that there will be a meeting of the farmers of Lockwood's Folly, Brunswick county, on Saturday, the 18th day of May, to permanently organize an Agricultural Society for the county at large, as well as for the different townships, and transact other important matters in the interest of agriculture. All persons favorable to the cause are invited to attend. Forty years' trial has proved "BLACK DRAUGHT" the best liver medicine in the world. For sale by J. C. MUNDY.

Local Notes. The receipts of cotton yesterday footed up 201 bales. Rev. D. B. Clayton, Universalist, will preach to-night at Brooklyn Hall. The public is invited. In consequence of a lack of freightage facilities by water, a good deal of rosin has recently been shipped North by rail. We learn that, in consequence of a change in arrangements, Rev. Dr. Hawthorne will not lecture in this city on next Monday night, as had been announced. An important meeting of the Wilmington Library Association is announced by the President for this (Friday) evening, at 8 o'clock. He wants every member to be present. Large congregations attend upon the special services at the Front Street Methodist Church, which are being held each evening this week. Rev. Mr. Burton has preached the last two or three evenings. We learn that an effort will be made to induce Rev. Dr. Talmage to lecture for us again on the occasion of his visit to this State in June, when he delivers the Commencement Address at Trinity College. Mr. G. H. Ferris, the contractor in charge of operations for dredging the Cape Fear river below this city, has made arrangements for the building of two new sewers or lighters at Mr. J. W. Taylor's mill.

Rev. Dr. Burkhead passed through this city Wednesday night on his way to the General Convention of the Methodist Episcopal Church South, which meets in Nashville, Tenn., Wednesday, May 3rd. One of the ordering wires of the Telephone Exchange was broken yesterday afternoon, causing considerable inconvenience for a few hours, but it was soon repaired by Manager White, and now everything is working all right again.

Wilmington Light Infantry-Anniversary Prize. A handsome silver cake basket is on exhibition at one of the jewelry stores on Market street, which is intended to be presented to the Wilmington Light Infantry Company, at their anniversary on the 20th of May, to the best drilled man in the manual of arms. This will be in addition to the regular prize of a gold medal for the best shooting. Captain Cantwell informs us that it has not yet been decided definitely where or in what manner the day (which is also the anniversary of the Mecklenburg Declaration of Independence) will be celebrated.

A Kind Act. Mr. J. T. Carson did a very handsome thing in connection with the accidental shooting of Mr. Vincent on the steamer Murkison, an account of which appeared in the STAR. Learning that Mr. Vincent was a poor man dependent on his daily labor for a support, and that his wound incapacitated him for work temporarily, Mr. Carson paid him a full month's wages and agreed to pay more in case he could not resume his occupation at the end of that period. This was both generous and kind in our friend "Kit."

Interested in the Scheme. E. F. Martin, who is engineering the proposed scheme to build a railroad to the Sound and thence along the coast to Onslow county, is so enthusiastic and determined in the matter that he has been dubbed "Railroad Martin." He is certainly persistent, if that is to be taken as a token of success. He showed us letters yesterday, from parties in Ohio, Louisiana, Michigan and other States, who have seen the article lately referred to as having appeared in the Philadelphia Press, and who express themselves interested in the scheme.

Sanitary Matters. We hope our citizens generally may realize the importance of an early attention to sanitary matters, before the heated term comes upon us in full force. A responsible party has been put in charge of the most essential department in this connection, and one who has provided himself with all the facilities necessary to the proper discharge of his duties. Let all, then, meet him halfway, and the work of purification will go bravely on.

Explosion in a Mill at Goldsboro. A passenger from Goldsboro informs us that the boiler of a steam saw mill located just outside of the city limits at that place exploded on Wednesday and resulted in the complete destruction of the mill and the badly wounding of several employes, four of whom (all colored) were being borne through the streets on a litter when the train passed. The mill belonged to a man named Hammond or Hyman.

Unavailable Matter. The following is the unavailable matter remaining in the city postoffice: John S. Robertson, Edgartown, Dukes county, Mass.; Mrs. L. Herschman, care of Charles Berliner, 201 E Seventy-second street, New York; Mr. Oscar Meller, Boyton, N. C.; Mr. Wm. Wombell, 126 Grand Hill avenue; one stamped envelope-no address.

An invaluable strengthener for the nerves, muscles, and digestive organs, producing strength and appetite, is Brown's Iron Bitters.

War Department, Signal Service, U. S. Army. Division of Telegrams and Reports for the Benefit of Commerce and Agriculture. COTTON-BELT BULLETIN. APRIL 27, 1882--5 P. M. The meteorological observations given in this table are not those taken only at the points named, but are intended to cover the entire cotton belt. The figures for Wilmington, for example, cover the average temperatures and rainfall at Wilmington, Florence, Cheraw, Charlotte, Goldsboro, Lumberton, Goldsboro, Weldon and Salisbury. So of Galveston, which is the district center of eighteen towns in the cotton region of Texas. The observations are taken at 5 P. M., but do not reach Wilmington until after midnight.

Table with columns: DISTRICTS, Max. Temp., Min. Temp., Rain Fall. Rows include Wilmington, Charleston, Augusta, Savannah, Atlanta, Montgomery, Mobile, New Orleans, Galveston, Vicksburg, Little Rock, Memphis.

The following are the indications for today: Middle Atlantic States, clearing weather, northwest winds, higher barometer, and stationary or higher temperature. South Atlantic States, partly cloudy weather, occasional rains, probably followed by clearing weather, with southwest to northwest winds, stationary or higher barometer, and stationary temperature. East Gulf States, rain, followed by clearing weather, variable winds, higher barometer and stationary temperature. West Gulf States, partly cloudy weather, variable winds, stationary barometer, and temperature. Tennessee and the Ohio Valley, fair weather, northwesterly winds, stationary or higher barometer, and stationary temperature.

Sale of Wrecked Material at Auction. The wrecking material of the schooner Minnie, ashore on Frypan Pan Shoals, including sails, rigging, blocks, chains, etc., together with vessel and cargo, were sold at auction by Messrs. Cronly & Morris, auctioneers, yesterday morning, under inspection of the agent of the Underwriters. The schooner was knocked down to Capt. Sears, of the barque Iroquois Scudder, at \$2.25--cheap enough, in all conscience, for a fore-and-aft schooner. The ninety tons of Peruvian guano on board was then put up and finally sold to Capt. Sears for \$3.75. The spirit casks on board, about five hundred in number, were knocked down to Mr. Sol. Bear for \$2.50, and the sale of the material saved from the wreck was then proceeded with. At the close of the sale Messrs. Watson & Eckel purchased the vessel and guano from Capt. Sears for \$10, the latter making \$4 upon his investment.

Convict from this County Killed. The Raleigh Visitor of Wednesday says: "About 7 o'clock this morning two of the convicts (col.) at work at Cook's brickyard, just south of the city, attempted to make their escape. They were halted by the guards, but paid no attention to the demands. The guard fired on them, and Nat. Hill, from New Hanover county, was instantly killed. He had been in the penitentiary only a few months. He was sentenced to ten years." Nat. Hill was sentenced at the February term of the Criminal Court to six years in the penitentiary for swindling an old colored man from the country out of a considerable sum of money by a confidence game. His companion in iniquity was Dick Boston, who received a similar sentence. Nat. belonged to what was formerly known as the "Red String Band."

Carolina Central Railroad. At the annual meeting of the stockholders of the Carolina Central Railroad Company, held at the office of the Company, in this city, yesterday morning, the following Board of Directors were elected for the ensuing year: M. P. Leak, of Anson; D. W. Oates, of Mecklenburg; C. M. Stedman, of New Hanover; J. L. Minnis, of Baltimore; W. W. Chamberlain, of Norfolk; Severno Eyre, of Baltimore; J. C. Winder, John M. Robinson, and R. S. Tucker, of Raleigh; J. S. Whedbee and R. C. Hoffman of Baltimore.

Immediately after the adjournment of the stockholders' meeting the newly-elected Board of Directors assembled and unanimously elected Col. John M. Robinson as President. The last of the material for Mr. B. L. Perry's new hotel at Smithville, which has been in process of preparation at Mr. J. W. Taylor's mill for a week or two past, was placed on lighters yesterday and was expected to be towed to Smithville yesterday evening or this morning. There is included in the lot about forty thousand feet of lumber, fifty thousand lathes, door frames, etc. The work of erecting the hotel will now be pushed forward with all possible dispatch.

Fire in Brunswick County. The house, kitchen and smoke-house belonging to Col. John McRee, on a place owned by him in Brunswick county, on the Wilmington, Columbia & Augusta Railroad, about eight miles from this city, were destroyed by fire on Wednesday afternoon last, about 4 o'clock. The fire is supposed to have been started from a stove. The dwelling was occupied by Miss Mary Williams, who saved most of her household furniture. There was no insurance on the property.

TREAT YOUR TEETH Rather than have them pulled. Let your dentist save all he can. You deserve to have trouble, because you have not used SOZODONT. When properly used, then rub on the SOZODONT, and keep them all right for time to come.

Mayor's Court. The only case for the Mayor's consideration yesterday morning was that of Laura Hall, colored, charged with acting very disorderly on Nutt street Wednesday night; abusing a colored man and using language unfit for ears polite. She was required to pay a fine of \$2, which she did and was discharged.

RIVER AND MARINE. The steamship Benefactor is due here to-morrow. The steamship Regulator sailed for New York yesterday afternoon. Dutch barque Janje, Lever, cleared at Boston for this port on the 25th inst. Norwegian barque Kristnings, Leydersen, hence, arrived at Rotterdam on the 23d inst. German barque Louise Wichards, Elmcke, hence, arrived at London on the 24th of April. The steamer Libon left for Lisbon, Sampson county, yesterday afternoon, with a full freight. She brought down about three hundred barrels of naval stores.

No head-ache or back-ache for ladies who drink "WINE OF CARDUI." For sale by J. C. MUNDY. CITY ITEMS. ON THIRTY DAYS' TRIAL--We will send Dr. Dye's Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and health. Also for Rheumatism, Neuralgia, Paralysis, Liver and Kidney Difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

MOTHERS! MOTHERS! MOTHERS! Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately--depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

HOME QUESTIONS. TO THE SICK AND DEBILITATED. It is worth while to endure pain torture every night from wakefulness, inability to sleep, nervous prostration, &c., when you can be immediately relieved and permanently cured by so agreeable a remedy as SAMARITAN NERVE. Does it pay to be compelled, by debility and languor, to abandon active business when brain, nerves and muscles can be braced up and the whole system can be restored to a healthy condition by a course of SAMARITAN NERVE. You nervous dyspeptics, who approach the dinner table daily with a positive disgust for all that is savory and delicious, when the diet is the best, and even the plainest food is created by the use of SAMARITAN NERVE. It is wise to live in this bright world as though it were a danger, and to make the most of it, and to avoid the worst case of epilepsy, nervousness or hypochondria is cured in ninety days by such a pleasant and wholesome an exhibition as SAMARITAN NERVE. Can it be possible that any person of a nervous temperament will run the risk of apoplexy or paralysis when he can tone and regulate the nervous centres with SAMARITAN NERVE. Is it not a species of moral insanity for any merchant, mechanic, farmer or traveler to be without the best known antidote against disease, SAMARITAN NERVE. Considering the harassing and depressing nature of the functional derangements to which women are subject, is it not astonishing that any invalid of the feeble sex should hesitate to seek the certain relief afforded in such cases by the general operation of SAMARITAN NERVE. These are questions of deeper interest than any of the political dogmas of the day, and those whom their concerns are invited to give them something more than a passing thought.

MARRIED. WALKER-LIPPITT--In this city, on the 18th inst., at St. James' Episcopal Church, by the Rev. A. Watson, D. D., JOHN M. WALKER, Esq., and MARY, daughter of the late William H. Lippitt, Esq.
