MORNING EDITION.

OUTLINES.

The total receipts of cotton at all American ports since last September amount to 4,496,382 bales.

Betty Lewis, his wife, the only sister of George Washington. She further states that she is the sole owner of the family Bible of Augustine and Mary Washington.

THE MORNING STAR.

VOL. XXX.—NO. 50. WILMINGTON, N. C., SATURDAY, MAY 20, 1882. WHOLE NO. 4599

Local Dots.

—Big times in Charlotte to-day. —The receipts of cotton yesterday were 40 bales.

—Rev. Mr. Taylor preaches at Riley's Creek to-day. —Mecklenburg Declaration of Independence.—20th of May.

—Strawberries are retailing at from 10 to 12 1/2 and 15 cents per quart. —The Wilmington Light Infantry was given a place in the programme at Charlotte.

—Mr. R. P. Howell, Cashier of the Bank of New Hanover, Goldsboro, is at the Purcell House.

—The Produce Exchange and most of the public offices will be closed to-day. Also the banks.

—The Produce Exchange becomes more popular as it grows older. There are nine applications for membership now on file.

—A colored camp meeting is in progress at Piney Grove, but the excitement is not so great as on some former occasions.

—The thermometer in the STAR office registered 49 1/2 degrees yesterday morning at 5 o'clock. Pretty cool for the latter half of May.

—We regret to hear that it is likely the Howard Relief Fire Engine Company No. 1 will indefinitely postpone their proposed visit to Charleston.

—We learn that the steamer Passport will take the visiting Lutheran divines and a number of their friends for a trip down the river on Monday.

—Miss Annie Hart's school had a pleasant excursion down the river yesterday, on the steamer Passport, accompanied by a number of their parents and friends.

—The Wilmington Light Infantry, with the Veteran Corps and honorary members, are requested to meet at the armory to-night after the competitive drill at the Opera House.

—Rev. Dr. Conrad, of Philadelphia, will be the guest of Mr. H. B. Eilers while in the city, and Rev. Dr. Bikle, of Mt. Pleasant, N. C., will stop with Mr. H. Vollers.

—We are glad to learn that a new interest has been awakened in the Wilmington S. F. E. Company, and that many new members are attaching themselves to the organization.

—The continued cool weather is ruining young cotton in this section, and it is expected that many will plough it up and plant corn in its stead, while others will find it necessary to replant.

—The Water Works has been on such a "tare" here lately that it has been found necessary to put 'em in jail. The county is having it done, and it is thought the act will redound to the benefit of those mostly concerned.

—The celebration. As stated in our last, the Wilmington Light Infantry will celebrate their anniversary and the 107th anniversary of the Mecklenburg Declaration of Independence to-day by a parade and target practice at Hilton in the morning, and a competitive drill for a handsome prize at the Opera House at night, the half having been kindly tendered to the Company for that purpose by Capt. E. J. Pennypacker, the lessee. Everybody and his wife and children are invited to be present and witness the drill, which will commence at half-past 8 o'clock. The Company, together with the Veteran Corps and honorary members, have been notified to meet at their armory at 7 o'clock for parade and target practice, and at 8 o'clock for competitive drill. We hope to see a large turnout of the Company and that they may have a pleasant time.

—The City Bell and Electric Alarm. The bell for market hours and to denote the time for early closing will hereafter be rung by hand and without the use of a rope. We learn that it is the intention of the authorities, for the present, at least, to have only the five districts sounded by the electric apparatus, and that a general alarm, as formerly, will not be rung.

—High Tent, I. O. of Rechabites. Mr. Thomas E. Skipper, of this city, leaves this morning for Ilion, New York, where he goes to attend a meeting of the High Tent, Independent Order of Rechabites, which assembles in that city on Wednesday, the 24th inst. Mr. Skipper attends as a representative of New Hanover Tent No. 67, of this city.

—The Inmate's Death Breach. A tremendous excitement attended a dog fight at the foot of Market street late yesterday afternoon. The crowd all seemed to think it was fine fun, except the little boy who fell down and had the bruises tearing at each other's throats over his prostrate form. He thought it was a very serious matter, and was willing to sell out his interest in the fight for a sick of candy.

—Magistrate's Court. Carrie Walker, colored, was arraigned before Justice Millis, yesterday morning, on a peace warrant sworn out by Annie Williams, and was required to pay costs and give bond in the sum of \$25 to keep the peace for thirty days. The necessary bond was furnished and the defendant was discharged.

—Robbing a Poor House. Thieves made a raid upon the grounds attached to the county Poor House, on Wednesday night last, and succeeded in stealing and carrying away about three pecks of potatoes, a bushel of turnips and a pig. Preparations will be made to give future visitors of this description a warm reception.

—Asheboro Courier: Three colored prisoners made their escape from Troy jail last Thursday morning by filing their way out of their cell and knocking down the jailer when he entered with their breakfast. Larceny and robbing a store were their crimes.

—Kinston Free Press: On Saturday a man came to town whose hair was about 18 inches long, red and tied with blue ribbon. A colored man, Jno. Edwards by name, was arrested and carried to LaGrange last Wednesday for cruelly beating his little girl who was only about 8 or 9 years old.

—Milton Chronicle: We are glad to learn from the Oxford Free Lance that the stage line from that town to this is likely to prove a fixed fact. —Mr. S.

War Department, Signal Service, U. S. Army.

Division of Telegrams and Reports for the Benefit of Commerce and Agriculture. COTTON-BELT BULLETIN.

May 19, 1882—5 P.M. The meteorological observations given in this table are not those taken only at the points indicated.

The following are the indications for to-day: Middle Atlantic States, slightly warmer fair weather, mostly southerly winds and lower temperature.

South Atlantic States, warmer fair weather, light variable winds, mostly southerly, and stationary or lower temperature.

East Gulf States, cloudy weather, followed by local rains, winds mostly southerly, stationary or lower temperature and pressure.

West Gulf States, partly cloudy weather, local rains, southerly winds, stationary or higher temperature and lower pressure.

Tennessee and the Ohio Valley and the lower Lake regions, increasing cloudiness, followed by rain, winds mostly southerly, stationary or higher temperature and lower pressure.

Lost But Found. We unintentionally omitted to state in our last, as we had fully intended to do, that Capt. James I. Metts, of this city, a gallant officer of the Confederacy in the late "unpleasantness," and who was badly wounded in the second day's fight at Gettysburg, had just received by express the sword he carried on that occasion, and which was given into the hands of some person unknown in the confusion of the moment. This turned out to be a Maryland physician by the name of E. T. R. Reeves, who was attending to the wounded in the rear of the Federal lines on that memorable day, who could not tell after the fight from whom he received it, except that it came from the hands of a wounded lieutenant. It was only recently that an inquiry for the owner of the sword was published in the News and Observer of Raleigh, which was quickly responded to by Capt. Metts, who now finds himself in possession once more, after nearly twenty years, of this valuable souvenir of the "Lost Cause," which is endeared to him by so many fond but mournful recollections and associations.

Wanted to Bless Them. Poor Charley Bradley, a well known colored drayman, is very sick, and it has been expected that he has hauled about his last load of wood for his many customers on "the hill." A day or two ago, while partially under the influence of delirium, he wrote the following with a pencil and sent it to the reporter:

"WILMINGTON, N. C., May 18, 1882. "Please send all the little children to me. I want to see them. I want to place my hands upon their heads, white and colored too. CHARLEY BRADLEY."

RIVER AND MARINE.

—Steamship Gulf Stream, hence, arrived at Chambersburg, Penn., 21st inst.

—Barque Horace Sewder, Sears, hence, arrived at New York on the 17th inst.

—Nor. harge Bjorntra, Olsen, hence, arrived at Charleston, S. C., May 17th.

—The steamship Regulator, Capt. Doane, arrived from New York yesterday morning, and is expected to sail Sunday morning.

—The steamer A. P. Hurt, which has been on Capt. Skinner's way for a week or two, undergoing some necessary repairs, has about completed them, and will be launched in a day or two, when, as we understand, she will take the place of the steamer Go. Worth on the line between this city and Fayetteville for awhile.

Henderson Gold Leaf: It is with pleasure that we note the fact that a step has been moved on foot to establish a Female College in Henderson.

FOR THE CHILDREN.—Let the children take Simmons Liver Regulator and keep well. It is purely vegetable, and safe to take either alone or in connection with other medicine. Mild in acting and pleasant to take. Genuine prepared only by J. H. Zeilin & Co.

CITY ITEMS.

ON THIRTY DAYS' TRIAL.—We will send Dr. Dye's Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and old persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and mental health. Also Rheumatism, Neuralgia, Paralysis, Liver and Kidney Difficulties, Ruptures, and many other disabling ailments. Pamphlet sent free. Address Voltaire Belt Co., Marshall, Mich.

THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reform Messenger by a Chambersburg, Penn., A. BENTZMEYER. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "Blessing on Mrs. Winslow for helping her to survive and escape the griping, colic, and teething ills. Mrs. Winslow's Soothing Syrup relieves the child from pain, and induces healthy sleep. It softens the gums, reduces inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing else. To have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical Symplocos to the infant race. Sold by all druggists 25 cents a bottle.

HORSFORD'S ACID PHOSPHATE

Liver and Kidney Doubles. Dr. O. G. Cilley, of Boston, says: "I have used it very extensively, and with the most remarkable success in dyspepsia and in all cases where there is derangement of the liver and kidneys.

A gentleman once asked a distinguished dispensing druggist to explain the secret of the almost universal demand for Dr. Richmond's Samaritan Nerve. He said that it was in fact a genuine medicine—such a compound as every good physician would prescribe for the disease which it was advertised to cure. Of course it cost less than any druggist's charge for the same article supplied on a physician's prescription, and besides, there was a saving of the doctor's fee in addition. Moreover, by buying the drugs in such enormous quantities, and having a perfect apparatus for compounding the mixture, he was not only enabled to get better articles in the first place, but also to present the medicine in better form and at less price than the same preparation could be possibly obtained from any other source.

Dr. Richmond has devoted all his heart and his great labor for the benefit of the afflicted. He has achieved marked and merited success. There can be no real success without true merit. That his success is real is proved by the fact that his reputation as a man and physician does not deteriorate, and that the fact that he is steadily increasing demand for his Samaritan Nerve proves that it is no nostrum, but a reliable remedy. He has no costly patent to keep before his eyes as a patent medicine, and no patent has ever been asked for or obtained. Neither does he advertise it as a cure-all. There are many diseases that he acknowledges it will not cure. It may be used to relieve some of these diseases, but it does not cure them. It is advertised to relieve some of them. They may differ in symptoms, yet in character to the general observer there are many similarities, and the remedies for the same must take into consideration the fact that remedies possess various properties. Thus, some are both tonic and laxative; others may be tonic and laxative, the properties differing according to the quantity administered, and the time and circumstances which demand its employment.

For the manufacture of any pharmaceutical preparation the purity and strength of the materials used, and the requisite machinery to be employed, are among the chief essentials. The first is insured by purchasing the ingredients in large quantities, whereby the expense incurred in selecting the materials can be afforded; and the second can only be accomplished where the business is sufficiently extensive to warrant a large outlay of capital in procuring chemical apparatus, and the purchase of special machinery for the manufacture of our medicines, their quality having been vastly improved since the demand has become so great as to require their manufacture in very large quantities.

These items are not mere speculative remarks to mislead the reader, or to imbue him with false views of the superiority of our medicines. While the business is sufficiently extensive to warrant a large outlay of capital in procuring chemical apparatus, and the purchase of special machinery for the manufacture of our medicines, their quality having been vastly improved since the demand has become so great as to require their manufacture in very large quantities.

No more healthy or accessible situation for a school than Charlotte, N. C.; it is on the main trunk line from New Orleans to New York. Session extends from September 12th to June 12th.

For catalogue or particulars, address the Principal, REV. WM. B. ATKINSON, N. C. my 20 2d W.D.W.M. sat wed Thursd., N. C.
