MORNING EDITION. OUTLINES.

Messrs. Page, Horr and Reagan, of the committee on Commerce, made speeches in the House in favor of the Mississippi appropriation; good words for the South from Horr. Ex-Governor Dennison, of Ohio, is dead. The steamer Persia and seven men are missing. Flipper's sentence of dismissal is approved by the President. Judge Lynch sends another friend to his long home; this time in Kentucky. An old feud in Texas between two families (McNutt and Coggins) results in a fight with Winchester rifles, in which one was killed and several wounded. Messrs. Windom and Beck spoke to the House on the Whiskey bill, the former in opposition and the latter in favor of the measure. A non-union workman is badly beaten by strikers at Cleveland, Ohio, and will probably die. Egyptian affairs are still in a middle; all Europeans have left Cairo, and the Eastern Cable Co. have decided to change their plans. Ninety negroes were arrested in South Carolina yesterday for intimidating voters, and the Supervisor of Registration was also arrested for obstructing registration. The Private Secretary of Bishop Gilmour, of the Catholic Diocese of Cleveland, was forcibly ejected from a newspaper office yesterday, which created a sensation. New York markets: Money 9/32 3/4; cotton easy at 12 3/16@12 7/16; southern flour dull and easier at \$5.40@5.00; wheat, ungraded red \$1.20@1.44; corn, ungraded 76 1/2@77 1/2; rosin firm and more active at \$2.15@2.22 1/2; spirits turpentine very strong at 46 1/4@47c.

Mr. J. A. Long was nominated by congress at Raleigh but he is out in a cold declination any such very peculiar honor as the nomination implied. He says in Raleigh News-Observer: 'I had never a thought of such a thing, nor had any one directly or indirectly mentioned or hinted it to me, and since I was made I have respectfully declined to accept the nomination. I do not propose to board the vessel of the enemy in order to try to scuttle my own ship. I do propose to stay on board and help beat back the assaults of the enemy, and if the ship goes down, I propose to go down with the ship.' Well done Mr. Long. He is not to be bought with an office. The Charlotte Observer, in its account of the killing of the negro child, an account of which we published, who was cut in two by a train, gives this as from the engineer: 'A shudder ran through the engineer when he picked up the head and body of the child, and the sensations he experienced when it broke into a cry were indescribable. He hastily laid it upon the ground, when it uttered the most agonizing screams for full two minutes before it gave a gasp and died. It was a strange experience to hear a disembodied body crying, and was well calculated to make the witnesses shudder.' Most of the Southern Democratic papers that have come to hand approve the making-up of the Tariff Commission. Baltimore American, Rep. We have a pretty large exchange and we have not seen any indorsement of the Arthur appointments among Southern Democratic papers, with one New Orleans exception. To the contrary they denounce it warmly. The paragraph yesterday concerning the Republican nominations was based entirely upon the regular dispatches, as the writer knew of no other. Hence the remark that 'we are not surprised at anything but the nomination of Col. Folk' had no reference to those who had been nominated by the Mott-Johnston combination side show but who had declined. Miss Lacey, now of Baltimore, and formerly of New Orleans, is the real author of 'Somebody's Darling.' England reports the death of Thomas Anderson at 107. We may suppose there was a record, as such things are looked after in that country. Liberal sums have been subscribed for the relief of the Patrick county sufferers. The prospect for next crop is very good, we are glad to learn. Anthony, of Rhode Island Plantation, is happy again. He succeeds himself as United States Senator for six years. Good for \$30,000 more of the people's earnings. Mr. Henry Fleming in his defense to Miss Livingston's action gives her a desperate name and says the suit is simply for blackmail. She lives in a bad place and is the mother of a child. The Kansas wheat crop is safe. The estimated average is 18 bushels an acre. Crop estimated at 25,000,000 bushels. Rye acreage 300 per cent. increase. Corn acreage, increase 25 per cent. A New York policeman clubbed severely two Russian Jews because they complained of ill usage by the Hebrew Immigrant Aid Societies. A New York policeman would club any body or any thing, even granddaddy or dad. Charlotte Female Institute had 177 matriculates for the year just ended. Of these 150 were from this State. Six States were represented. The catalogue printed at Raleigh by Uzzell and Gatling is a beautiful specimen of the typographical art and fully equal to the best Northern specimens. The Washington Post satisfies itself that the next House will give the Democrats 21 majority—the same as claimed by the Philadelphia Press and N. Y. Times for the Republicans. They all know as much about the elections to come off as Vennor does about the weather for next Christmas. It is all guessing. The University Monthly for Jun has been received. It contains an interesting sketch of the late Judge George W. Brooks. It concludes thus: 'Counting by events, he was the first Federal Judge that North Carolina has had, and in his peculiar sphere and the times in which he acted, we well may apply to him the words of the poet: 'He was a man take him for all in all, We've shall look upon his like again.'

Local Items. The receipts of cotton yesterday footed up only 4 bales. This section was visited by a fine shower of rain yesterday. A large private party went down on the steamer Passport yesterday. Excursions are very fashionable. Up to yesterday afternoon only 196 dog badges had been sold. Canines are not valued as highly as they used to be. Yesterday was about the warmest day of the season, the thermometer in the STAR office registering as high as 86 degrees. Somebody suggested the idea yesterday of putting up the electric alarm bell and raffing it off. Who'll take a chance? The work of fitting up the steamer Minnehaha is progressing, and she will be ready to begin her trips by the first of next week. It is hoped the blackfish and sheephead excursionists will have a good time for their frolic to-day. They were disappointed the last trip. The Wilmington delegates to the Republican State Convention have returned home, well satisfied we presume with the little farce they have been enacting at Raleigh. We accidentally discovered yesterday that there was a 'Humpty Dumpty and Specialty Company' training in this city for the coming season, and composed of Wilmington boys. A young man was going through the streets yesterday with a snake alternately in his hand, in his pocket and in his hat, and he handled the reptile with as much sang froid as if it had been a kitten. A Big Excursion from the Up-Country to Wilmington and the Sea Shore. Arrangements have been perfected, we understand, for a big excursion from Shelby and intervening points on the Carolina Central Railroad to Wilmington, which is to come off on the 26th inst. It is expected that the most of the party, which will include quite a number of merchants, will remain here about a week, spending a good portion of the time at Smithville and on the sounds. It would be a good thing for Wilmington if we could have more such excursions, while it would also prove a benefit to our up-country friends. We are glad to hear, in this connection, that Mr. B. L. Perry, of the Hotel Brunswick, is offering inducements to attract travel in this direction, and that Col. Robinson, President of the C. C. Road is inclined to second any efforts to that end. Fate of Two Enterprising Dealers in Brass and Iron. Frank Mott alias Frank Baker, colored, who was arrested on Wednesday last, charged with stealing brass from the shipyard of Capt. S. W. Skinner, had a preliminary examination before Justice Mills yesterday. From the evidence it seems that he stole one piece of brass and sold it, which was valued at \$20, to say nothing of other articles of the same nature taken. Defendant was ordered to give a justified bond in the sum of \$50 for his appearance at the next term of the Criminal Court, in default of which he was committed to jail. Alex. Johnson, colored, arrested for stealing a valuable piece of iron from the same premises as above, also had a preliminary hearing yesterday, and in default of a justified bond in the sum of \$50, was sent to keep company with his friend Baker. Fire in the Country. Mr. John D. Mints, living in Columbus county, about three miles from Brinkley's Depot, had the misfortune to lose his kitchen and smoke house by fire yesterday morning. Mr. Mints awoke between the hours of 1 and 2 o'clock and discovered them in a light blaze. In addition to the buildings, Mr. M. lost all his provisions and kitchen furniture, not having so much as a pound of the former left, or anything to cook it in or eat it on. In the early part of the night he had taken a lot of honey and that was also lost. Mr. Wm. Mints, his brother, living in this city, also had about \$25 worth of furniture in the kitchen that was destroyed. There was no insurance on the property burned, which was valued at about \$200. About to Fight a Duel. The Greensboro Patriot has, under the above head, the following blood-curdling item of some interest to people hereabouts: 'Passengers on the Charlotte train this morning brought rumors of an expected hostile meeting between Jones, of the Charlotte Observer, and W. P. Canaday, of the Wilmington Post. Jones is the challenging party. The cause belli is an editorial in the Post charging Jones with being a liar, a thief and a coward.' We are reluctant to believe that any gore will be shed, though both combatants have brilliant fighting records. Jones has been blown up on a steamboat, slung-shot, shot at, caned, bludgeoned, clubbed and mauled, and is still a fine specimen of physical manhood. Democratic Committee Meeting. A meeting of the Democratic Executive Committee was called for last night, but it was finally postponed until this evening, when it will be held at the office of the Chairman and the time for the meeting of the County Convention will be fixed upon. Paralytic strokes, heart disease, and kidney affections, prevented by the use of Brown's Iron Bitters.

Opera House. Source and Concert for the Benefit of the Benevolent Society. The concert and source at the Opera House this evening bids fair to be intensely enjoyable. Prof. VanLaer will be assisted in the entertainment by the Arion Society and Prof. G. M. Hobbs, the violinist. The following gives a practical and sensible view of the coming treat and the important ends to be subserved by it: WILMINGTON, N. C., June 15, 1882. EDITOR STAR.—To-night (Friday) Prof. VanLaer gives one of his fine concerts. The cause for which it is given and the assurance of a fine entertainment should be a guarantee for a crowded house. Prof. VanLaer and his assistants have kindly tendered their time and talents in the interest of the poor of our city. In this city of 30,000 inhabitants there are belonging to the Ladies' Benevolent Society forty members. Think of it; only forty who feel an interest in this work for the suffering poor! Why should there not be 4,000? I understand that in the treasury there is just eight dollars, and this, too, at a time, when sickness must befall many who will need assistance or suffer. Will the good people of Wilmington take this matter close home to their warm hearts and let a liberal spirit be the outflow? The tide of fortune turns; sickness and reverses may be ours; will we not, whilst we can, open our purses and each pour at least a little into the treasury of the Society that the wants of the poor may be met? and, in doing this, how it will make glad the heart of the President of this Society, Mrs. Kennedy, who in her advanced years and feebleness is ever looking after the wants of the poor. If you can do more, give twenty-five cents and go to the concert. Let the house be full. A travelling troupe of twenty-five cents admission would fill the house and take your money away, and you be less highly entertained. Then go to the concert to-night. And you men of means, can't you send in your check to Mrs. Kennedy for an amount—say, just what conscience dictates? Will you do it? It will be a profitable investment. TRAVELLER. The Lutheran Lawn Party. The second and perhaps the last lawn party that the Lutherans of our city will give this summer, was given last night. It came so soon after the first one of three weeks ago, because the wife of the pastor, who is the President of the Dorcas Society, will leave for her home in Pennsylvania, next week, to be gone some three months, and the members desired her presence in the entertainment. The grounds, the vestry room of the church and the parsonage were all ablaze with various forms of light, to which some Chinese lanterns lent a beautiful effect. A constant flow of young and old came to patronize the ladies in their efforts to raise money. All appeared much pleased, everything passed off pleasantly, and the party was a financial success. After having for several hours partaken of food and delicacies, vocal and instrumental music was enjoyed till a late hour. Many present regretted that Mrs. A. Hasagen would leave for Germany last night, and thus sever the pleasant relations of her long membership with the Dorcas Society. The success of last night will no doubt encourage the ladies to make attempts in entertaining the public in other ways in the near future. Mr. Darby's Nomination. The Observer has stated upon the authority of the Wilmington STAR, that Mr. Frank Darby, of the Cape Fear District had declined to accept the nomination as candidate for Judge, tendered him by the anti-prohibition convention, and we now state upon the authority of Mr. Thomas P. Devereux, of Raleigh, that Mr. Darby has not declined. Col. Wm. Johnston yesterday received this dispatch, which he requests us to publish: RALEIGH, N. C., June 13th, 1882. Col. Wm. Johnston, Charlotte, N. C. Darby does not decline our nomination for Judge. THOMAS P. DEVEREUX. It is to be remarked that so far nothing has been said by Mr. Darby himself. How is it, Frank?—Charlotte Observer of the 14th. The STAR said in its issue of the 9th inst: We are glad to announce, by authority, that Mr. Frank H. Darby will not accept the nomination for Judge of the Fourth Judicial District tendered him by the Constitutional Convention at Raleigh. We have never for a moment doubted that this would be Mr. Darby's conclusion. Mr. Darby authorized this statement at that time and being interrogated yesterday repeated it, and added that neither would he accept the Republican nomination and endorsement. Vandals Cutting up an Engine Hose—What Could Have Been Their Motive? The discovery was made yesterday morning that the engine house of the Brooklyn hand engine company, located on Brunswick between Sixth and Seventh streets, had been broken open and the hose of the company, comprising about five hundred feet, had been cut up into small pieces, rendering it perfectly worthless. No idea can be formed as to the cause of this outrageous act of vandalism, as none of the mutilated hose was carried off. That the deed was perpetrated with some malicious intent, however, there can be no doubt. It is not certain whether the building was broken into on Tuesday or Wednesday night, but the deed was perpetrated on one of those nights. RIVER AND MARINE. The Swedish barque Cometen, arrived, hence for Riga, Russia, halted at Elsinore on the 8th. The schooner Bessie E. Dickinson, Dickinson, sailed from Bath, Me., for this port on the 9th inst. The schooner Fred. C. Holden cleared from Calais for Red Beach on the 12th inst., to load for this port. 'BLACK-DRAUGHT' cures costiveness and Sick-Headache. For sale by J. C. MUNDS.

War, Department, Signal Service, U. S. Army. Division of Telegrams and Reports for the Benefit of Commerce and Agriculture. COTTON-BELT BULLETIN. JUNE 15, 1882--5 P. M. The meteorological observations given in this bulletin are taken from the stations named, but are intended to cover the entire cotton belt, and are intended to give the entire cotton belt. The figures for Wilmington, for example, are the average temperature and rainfall at Wilmington, Florence, Cheraw, Charlotte, Littleton, York, and other stations in the cotton belt. So of Galveston, which is the district center of eighteen towns in the cotton region of Texas. The observations are taken at 5 P. M., but do not reach Wilmington until after midnight. AVERAGE. Foreign Shipments. The following comprise the foreign shipments from this port yesterday: The Norwegian barque 'Eolus', Capt. Krogh, for Antwerp, by Messrs. Paterson, Downing & Co., with 750 casks of spirits turpentine, and 1,870 barrels of rosin, valued at \$17,638.82; and the Norwegian brig 'Gaelian', Capt. Weibye, for Belfast, Ireland, with 500 casks spirits turpentine and 1,561 barrels of rosin, valued at \$16,100. Total value of n. foreign exports for the day, \$33,738.82. All scum and tartar disappear From mouth and teeth, though dark and dry. And all becomes fresh, pure and clear. If we use SORBOLOTT apply. That magic wash--all now confessed-- Gives to the mouth new loveliness. CITY ITEMS. PERSONAL: TO MEN ONLY.—The Voltaic Belt Co., Marshall, Mich., will send Dr. C. C. CELESTIA, 12 ELECTRO-VOLTAIC BELTS and ELECTRO-ARMCHAIRS on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles. Write for particulars and complete restoration of health had mainly by vigor. Address as follows: B. No. 30 is incurred, as thirty days' trial is allowed. MRS. J. INSLAW'S SOOTHING SYRUP.—Rev. Freeman Smith writes that his Boston Christian Freeman? We would by no means recommend any kind of medicine which did not know to be good particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge, in our own family. It has proved a blessing indeed, by bringing an infant troubled with colic, pain, quiet sleep, and its parents unbroken at night. Mothers can appreciate these blessings. Here is an article which works to perfection, which is harmless to the child, which it affords the infant is perfectly natural, and the little cherub awakes as 'bright as a button.' An antidote to the cholera, its value is incalculable. We have frequently heard mothers say they 'do not know what to do from the birth of the child till it had finished with the teething stage, on a consideration whatever. Sold by all druggists, 25 cents a bottle. St. Joseph Saturday Democrat, Aug. 27, 1881. A FRIEND TO THE FRIENDLESS. Sorrow and sickness is the too common heritage of humanity, and when we see how little is done to alleviate the miseries of the poor, we are almost out of patience with life. Even where the intentions are best, ignorance is too often the cause of suffering. It is a strong plea to bid the afflicted to 'take heed of the day,' and to 'minister to the mind' instead of the body. Science and Philanthropy, with love and sympathy, will come to the aid of the sufferers, they feel as if the angel of annunciation had drawn nigh to their bedside. Samaritan Nervine really is salvation to thousands who speak from a full heart when I say, it is the best medicine for the relief of the afflicted. It is a true and reliable medicine, which has been restored to health and happiness by means of it. Darby does not decline our nomination for Judge. THOMAS P. DEVEREUX. It is to be remarked that so far nothing has been said by Mr. Darby himself. How is it, Frank?—Charlotte Observer of the 14th.
