FORTY-SEVENTH CONGRESS

FIRST SESSION. The Tax Reduction Bill and Other

Matters in the Senate-Bills of Minor Importance in the House. [By Telegraph to the Morning Star.]

WASHINGTON, August 3.-The Senate, soon after 2 o'clock, voted to take up the Tax Reduction bill, but Mr. Morrill, in charge of the measure, yielded the floor for action on the bill to prevent pleuro-pneumonia in cattle. This bill was finally postponed without action, and the conferees on the Legislative, Executive and Judicial Appropriation bill reported an agreement. The report was adopted. The Tax Reduction bill was finally proceeded with, and Mr. Morrill submitted a proposition to the Democratic side that the bill be passed as it came from the House, with Senate amendments extending the time at which reductions shall take effect, and amendments reducing the tax on snuff and tobacco from sixteen cents to twelve cents per pound, and allowing a rebate. The time which remained of the session would not permit deliberate consideration of the numerous amendments which had been and are yet to be offered by the opposite side, and which they had declared their intention to discuss without limit. He hoped this course would be abandoned and the proposition he now made accepted.

Mr. Bayard declared that his associates and himself were not prepared to accede to the proposition. He reviewed the history of the measure, showing that its proportions had gradually developed until finally it came from the Senate Republican caucus with important changes. Some of its reductions were only ostensible, not real; particularly that in regard to hoop iron and cotton ties. It was questionable whether there was really a reduction in sugar duties. These caucus measures of the other side would not be accepted without the freest right to debate and amend them. The readjustment of the burdens of a tariff admitted to be out of date, unequal, unreasonable and full of errors, was the most important question before the country, and the other side now proposed to abandon the work of their own councils, to let the tariff go, and to take up this little sham of

A long debate followed between Messrs. Vance, Beck, Hoar and Sherman. The matter then went over without action, and the Senate passed a joint resolution of the House providing temporarily for the expenditures of the government.

The House adjournment resolution was laid on the table for future action, and the Senate, at 5.30 o'clock, went into executive session, and at 6.30 o'clock adjourned.

HOUSE OF REPRESENTATIVES Mr. Hiscock, of New York, chairman of the committee on Appropriations, reported back the "Anderson" adjournment resolution, with an amendment providing for final adjournment at noon of Saturday next. This led to an animated and interesting discussion, which frequently gave rise to much merriment, and which claimed the attention of members, who crowded around the principal disputants and encouraged them with applause. The resolution as amended was adopted without

division. A number of bills of minor importance were passed, but none of national interest were touched. Throughout the afternoon there were many indications that the end of the session was approaching. Committees when called presented no measures of importance, and there was no disposition inthe bills on the calendar or on the Speaker's table. The space in front of the Speaker's desk was occupied by members [waving favorite measures and endeavoring to catch the eye of the Speaker. Many were unsuccessful, but the more fortunate ones were but little better off, for objection was raised to almost every proposition. After a couple of hours had been consumed in efforts to pass measures, by unanimous consent the House at 3.15 o'clock adjourned.

Nominations-Sugar Duties Refunded -A Chinaman Refused Naturalization Papers-The Star Route Trials.

[By Telegraph to the Morning Star.] Washington, August 3 .- The President to-day nominated Andrew W. Smythe to be Superintendent of the New Orleans mint: Henry K. McCoy to be U. S. Judge for the Northern District of Georgia; Wm. Waldorf Astor, of New York, to be United States Minister to Italy

The total amount of duties refunded by the Treasury Department on sugar under the late decision of the Supreme Court up to August 1st, was \$1,466,525.

An intelligent well-dressed Chinaman yesterday applied to Judge Wylie to be naturalized as a citizen of the United States, but although otherwise entirely eligible, his application was rejected pursuant to the provisions of the lately enacted Chinese treaty bill

Mr. Merrick, counsel for the government in the Star Route trials has signified his intention of prosecuting the newspaper men who have already been brought to the attention of Judge Wylie, immediately after the termination of the Star Route trials now in progress.

The proceedings in the Star Route trials were dull compared with those of yesterday. Congressmen Page and Berry, of California, testified to having frequently urged upon the Post Office Department the extension and expedition of the Star service in their State. A number of private official letter books of the Post Office Department were called for by the defence, but the Department could not produce

Ortiz. of Sonora: "I have the honor to inform you that on the 24th ult. the Apaches attacked Col. The fight lasted several hours, resulting in the death of Viecente, Provinco Depatato of the District, and all the troops except five of the Federals and Col. Torreo, who was wounded. The Indians took all the horses, equipage and stores. They were strongly fortified and completely ambushed the troops. A force of troops has been sent in pursuit of the Apaches, who are moving

The Situation at Alexandria-A Reconnoissance in Force-Suez Occupied by British Marines-The Conference at Constantinople-A New Proposal from Italy in Regard to the Suez Canal-Arabi Pasha Negotiating with the Sultan-Gladstone's Utterances in the House of Commons.

[By Cable to the Morning Star.]

London, August 3.—The Post has the following from Alexandria: The English soldiers here are much overworked. A deficiency of officers is especially felt. Telegraphic communication between the Khedive and Arabi Pasha has been restored. Grave apprehensions are entertained regarding the trustworthiness of the interpreters which the English are forced to employ for want of better. When the forces move forward the English will be at the mercy of these men, as through them the rebel authorities can obtain information.

A dispatch from Suez states that that town has been occupied by the British. The

telegraph office has been reopened. CONSTANTINOPLE, August 3-At the sitting of the conference yesterday Count Corti, Italian Ambassador, introduced a proposal formulated by Italy in regard to the Suez Canal. The representatives of Germany, Austria and Turkey immediately signified their adhesion to the proposal, but Lord Dufferin and the Marquis De Noallies, the English and French Ambassadors, respectively declared that they must consult their governments before coming to a decision.

M. Onon, Russian representative, on rejoining the conference yesterday, gave no reasons for so doing. He announced that Russia also adhered to the proposal of Italy in regard to the Suez Canal

VIENNA, August 3 .- It is reported here hat Arabi Pasha is negotiating with the Palace at Constantinople about the kind of parole action between his own and the Turkish troops to be sent to Egypt. Arabi, it is said, proposes that the Turks occupy Cairo, while he will remove to some central position in the Delta, provided the Turks promise not to attack his rear.

ALEXANDRIA, August 3.—The 38th regiment made a reconnoisance at 3 o'clock this vening to a point five miles beyond the Ramleh outposts. Detachments occupying the gates of the town were ordered to hold themselves in readiness to proceed to the support of the reconnoitering party in the event of necessity.

SUEZ, Aug. 3.-Several hundred British marines have disembarked and occupied the town without resistance.

ALEXANDRIA, August 3.—The reconnoisance was the most extensive yet made. The Thirty-eighth and Sixtieth regiments advanced in two columns. The enemy's position was found to be almost abandoned; with the exception of a few videttes none of their force was observable. A few shots were fired, but there were no casaulties. The British returned at dusk.

A dispatch dated Suez, August 2d, says: The British marines occupied this town in I time to save it from being burned. No resistance was offered. PORTSMOUTH, August 3.—The steam-

ship Palmyra, with two batteries of artil-

lery and a large quantity of ammunition on

board, sailed to-day for Egypt. VIENNA, August 3.-The Fremdenblatt says: The proposal, establishing European protection of the Suez Canal, will be to a certain extent a test of the honesty of England's intentions. If England should refuse to concur in the proposal, existing distrust will not be unwarranted.

ALEXANDRIA, August 3.-It has been discovered that Arabi Pasha has again destroyed the railroad at Mahalla, which was recently repaired.

An angry crowd subsequently broke the windows in the houses frequented by the Italian faction. The Ir. ridenta Club had issued a manifesto exhorting its partisans not to participate in the festivities in connection with the opening of the exhibition here.

London, August 3.—The Times' dispatch announces that Prince Bismarck has instructed Prince Von Huttunlopel to express to De Freycinet regret at his retirement from the Ministry, and also to say that the wish has been expressed that De Freycinet could be induced to resume the office, in which case Germany would be willing to support his Eastern policy as much as pos-

DUBLIN, August 3. - The circular, to be issued by Parnell, with a view to checking the operations of the Land Compensation Co., is also signed by Dillon, Davitt, Egan, Gray and McCarthy. It will be sent throughout Ireland to obtain signatures to a request asking the Lord Mayor of Dublin to convoke a meeting during Exhibition week for the purpose of inaugurating a national fund for the relief of evicted tenants. The circular states that the organization will not be a political one, but that evictions will be increased if tenants be left defenceless in

the presence of the wealthy company. LONDON, August 3 .- In the House of Commons this evening Mr. Gladstone proposed not to take up the Arrears of Rent bill until Tuesday, as he did not wish to do anything precipitately before arriving at what might be a momentous decision. This statement was received with cheers.

Hon. Hugh Childers, War Secretary, said the question whether a correspondent of the Daily Telegraph shall be excluded from the British lines, was under consideration. London, August 3.-The Peterhead fish-

## The Split in the Republican State Con-

vention. [By Telegraph to the Morning Star.]

ATLANTA, August 3.—The Republican Conventions met to-day and received reports from joint committees of conference looking to an adjustment of the split. The syndicate wing demanded that Pledger be put out, and a conference of white men be allowed to select the State Central Committee. Pledger's Convention refused to acceded to the proposition of the bolters. The bolters elected Benj. Conley permanent President. Both Conventions will now proceed to business.

The regular Republican Convention adjourned after recommending Gen. L. J. Gartrell for Governor, and nominating a full State ticket. Resolutions of sympathy for Senator Hill were passed.

In the Syndicate Convention a resolution endorsing Gen. Gartrell was referred to the committee on Resolutions. This Convention will meet again to-night.

Aggressive Measures Proposed by the Harmony Mills Against Striking Operatives - The Freight-Handlers Strike-Non-Union Men Maltreated at McKeysport.

[By Telegraph to the Morning Star.] Cohoes, N. Y., August 3.—The Harmony Mills will be started Monday next. Nothing is said about wages. If the start fails, the Harmony Company will clear its tenements of all their occupants who are indisposed to accept the reduction and operatives from other manufacturing places and Europe will be engaged to fill their places. The company has now assumed the aggressive and proposes to enforce compliance with its wishes or make room for others who will

comply with them. JERSEY CITY, N. J., August 3 .- Thirteen of the striking freight handlers returned to their work to-day at the Jersey City docks of the Pennsylvania Railroad, at the old rate of 17 cents per hour. An official of the company stated that they could give employment to about forty more of the strikers; the rest would have to wait for some time.

McKeysport, Pa., August 3 -The prospect of non-Union men having no trouble is not assuring. A mob of twenty men molested the men who were going to their work this morning, hooting, yelling and bleating like sheep. One of the men was hit in the head with a brick. The mill is running to-day with an increased force. No men were intimidated sufficiently to leave work. Police were not at the scene of the row this morning and the citizens were generally indignant. They will preserve order and protect any man desiring to go to work.

A Fight with Cow-boys-One Man Killed and one Wounded. [By Telegraph to the Morning Star.]

Tucson, August 3.-A special dispatch from Phoenix, Arizona, says: A fight took place in this town last evening between three men, presumably cow-boys, and officers, assisted by citizens. All three of the cow-boys were captured. One man was killed and one badly wounded. As the prisoners were being taken to jail an attempt was made to lynch them. They were pushed under a tree and loud calls were made for a rope, when officers with a posse came to the rescue and removed the prisoners to jail.

On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homozopathy. That night the child passed in suffering, and the parents without sleep. Heturning home the day following, the father found the baby still suffering; and while contemplaying another sleepless night, the mother stepped from the room to attend to some domestic duties and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy.
