Arthur is the most surprised man on the American Consinent. He did not know that the Congress was loaded.

Two Greenbackers and twenty-six Democrats in the House voted for the Arthur veto. There were but thirty-one Radicals voting the same

way. There is a great scarcity of the codfish this season. Well, we will try and get along with North Carolina roe herring, the best fish that swims, according to many fish lovers.

The following special was sent from Raleigh on August 3:

Some of the most prominent straightout Republicans in the vicinity of Asheville have called a mass-meeting at Asheville for August 19 to perfect an organization in opposition to the coalition liberal movement in North Carolina

W. W. Astor, one of New York's rich men does not owe his appointment as Minister to Italy to any peculiar fitness but solely because of his having been the faithful and flapping tail to Conkling's fluctuating

Gen. J. A. Bowman says positively that A. T. Stewart's remains have been recovered. It cost half a million to obtain them. They are deposited at the cathedral at Garden City, Long Island, and are guarded night and day.

Charles Jones says the Republicans will not nominate a man against him. Why should they? He is good enough Rad to suit their necessities and it is perilous to run two candidates of the same party. No. Charles will be their candidate.

Horrible! Call out the militia? Beat up the marines! Why, what has occurred? Well, in that section known as Rhode Island Plantation, and in the city of Providence, where Radicalism prevails like mosquitoes and sand-flies in some sections, Rev. W. A. T. Smith, a colored clergyman, was not allowed to put up at the fine Adams House. Call you that backing your friends?

on Dock street. The evidence was to the

effect that Whiting, who was in the em-

a clerk and book-keeper to be acting rather

suspiciously, and they kept a watch upon

his movements, the result of which was

that the defendant was detected in the very

Attempted Suicide. A well known white woman, by the name of Frank Hargrove, at present an inmate of the City Hospital, attempted to commit suicide, on Thursday last, by taking laudanum. It seems that she seized an opportunity to enter the Dispensary during the temporary absence of Dr. Lane, Surgeon in charge, and from appearances she must have swallowed at least two ounces of the poisonous drug. It was some time afterwards before the fact was discovered, when it was found that she was rapidly succumbing to the deadly lethargy produced by the laudanum. The usual antidotes were administered and remedies applied, and at Meeting of the Justices last accounts she had fully recovered from he effects of the poison.

A Temperance Family Excursion. Another of those pleasant, enjoyable and popular family excursions, under the auspices of New Hanover Tent No. 57. Independent Order of Rechabites, will be given on Tuesday next, the 8th inst., on the steamer Passport, which will leave her wharf at 8.80 o'clock, visiting Smithville and the forts. The Italian harpers will furnish the music for dancing, and refreshments will be supplied at city prices.

Honorably Acquitted. The case of Capt. A. C. Moore, charged with receiving stolen brass at his junk shop, knowing at the time that it had been stolen, came up before one of our magistrates yesterday afternoon, after sundry postponements, and Capt. Moore was honorably acquitted, there being no evidence to show that he knew the brass was stolen.

Speaking Monday Night.

His Excellency, Gov. Jarvis, Col. Bennett, Democratic candidate for Congressman-at-Large, and Col. Wharton J. Green, Democratic nominee for Congress from this District, will address the citizens of New Hanover, Monday night, in this city, speaking from the porch of the First National Bank building. Everybody in town will attend, of course, and our country friends should also take advantage of the opportunity to hear these distinguished speakers.

Will Recover. Much to the surprise of everybody familiar with the case, we learn, Mr. Timothy C. Orr, the old gentleman who was so bedly stabbed by his youngest son near Lillington, Pender county, on Saturday last, the 30th ult,, is recovering: When his wounds were first examined it was thought impossible that he could live, but, terrible as they were, they yielded to treatment by Dr. Lucas, who was called to see the stricken man, and he is now thought out
