on the 16th: Mr. Frye is the only one who ever successfully introduced cross-roads oratory in the Senate. He totally disregards the dignity and the rhetoric which are supposed to obtain in that body, and a motion to adjourn is sufficient to precipitate him into the arena with foaming mouth and fists brandished like the muscular champion in Georgis who was caught practicing for a fight. One unaccustomed to the Frye style would have supposed that he was holding the listening Senate entranced with the greatest effort of his life, so tremendous were his bursts of eloquence on starch. Mr. Vance, the Senstorial joker from the Tar-Heel State, gave the orator a satirical

After graduating young Pendleton was assigned to the Engineer Corps as one of the five highest graduates, and was made a professor at West Point. RAILROAD MATTERS.

The Colored People in Council in Reference to the Proposed Coast Line

[Reported for the Star.] WILMINGTON, N. C., Jan. 17, 1883.

Pursuantto a call published by E. F. Martin, in the State papers, convening the stockholders of the Wilmington, Wrightsville & Onslow Railroad, a meeting was held at the Court House in Wilmington, composed of some of the leading colored men in the State, where the project was discussed at length and generally sanctioned.

On motion, John C. Dancy, of Tarboro, was elected Secretary, and the representatives of the various newspapers of the State Assistant Secretaries.

The views of those present were solicited, when John C. Dancy and J. C. Price made strong speeches in advocacy of the enterprise. They argued that the industrial enterprises were to work out the salvation of the race, and that with them suc-

E. F. Martin, the contractor, made some pertinent and timely remarks, pointing out the ease with which the road contemplated could be completed.

G. W. Price went into a geographical

and descriptive discussion of the road, and held that in no part of the State could a road be constructed at comparatively so small cost as the one projected. He suggested the appointment of a committee to raft resolutions expressive of the meeting. Lloyd, of Pender, spoke at length in faof the road and insisted that it could and hould be built.

The following committee on permanent organization was appointed by the Chairman: J. C. Price. J. C. Daney, Geo. T. Wassom, Geo. C. Scurlock, E. F. Martin, Owen Burney, William Stuff, J. O. Nixon, Geo. W. Price, Jr., A. F. Lloyd and J. G.

The committee was requested to meet at :30 o'clock. The meeting adjourned to meet again at

The meeting was called to order at 3:10 o'clock, P. M., by J. G. Dry. The committee on permanent organization recommended the following as permanent officers of the same, viz:

Jos. C. Price, President. Jas. G. Dry, Vice President. J. C. Dancy asked that the charter be read. Pending which John C. Dancy and

J. O. Nixon, were elected permanent Sec-Geo. W. Price opposed the reading of the charter in a lengthy speech, in the course of which he paid E. T. Martin, the projector, a merited compliment. A. F. Lloyd attempted to enter into a

B. Dudley, Jos. E. Sampson, John Holloway, W. M. Stiff, Geo. W. Price, E. F. Martin and F. C. Sadgwar were appointed to make estimates of cost of road per mile, &c. On motion a committee consisting of J. John C. Dancy offered the following

resolution as expressive of the sense of the meeting which was unanimously adopted: Whereas, It is the sense of this meeting that the people of Wilmington, Wrights-ville and Onslow are sadly in need of a Coastline Railway; therefore, be it

-- Coal sells at Raleigh for \$1 and at Charlotte for \$9.50. - Charlotte Observer: The depot igents and all other employes, were yesterday arranging to make up an elegant pres-ent for Capt. Johnson, as a testimonial of

their appreciation of him as an officer and

their esteem for him as a man. - Charlotte Journal: The Wilmington STAR of Saturday contains three suggestions to the Legislature which we regard as very timely and sensible, and we would be glad to see that body adopt them. An apportionment of \$14,000 of the public school fund for this county, has been completed, and the amount for each school district has been exactly ascertained.

- Warrenton Gazette: Some one proposes that criminal courts be established for many of the Eastern counties. No necessity for it, an extra session now and then, if necessary, will answer every purpose and be far cheaper. - The Bible expressly teaches than no man should covet another's. Dr. Mundy has declined a flattering call by a Virginia church and one from Charleston, S. C., at a salary of two thousand dollars, and now the good people of Goldsboro have sent for him.

- New Berne Journal: Bon Clark got into a dispute with some one near Chocawinity, Beaufort county, last Saturday night, when Jethro Nobles took sides against him and knocked him down. Clark arose and made for Nobles with his knife; stabbing him, the knife going into his lungs. The doctor pronounces it a very serious wound. — About one thousand bushels of rice sold yesterday, the highest price paid being \$1.08 including sacks. There were some fine yam potatoes in market on Monday, selling for sixty-five cents per bushel from the cart.

- Greensboro Patriot: The Danville Register is informed that M. E. Mc-Dowell & Co., of Philadelphia, are the purchasers of Blackwell's interest in the "Durham bull." Parties who profess to know say that the concern of W. T. Blackwell & Co., had 3,000,000 pounds of manufactured tobacco (smoking) on hand, and a large amount of leaf, waiting for the settlement of the tax question. It is said that Carr, who is a partner in the new concern, will push the business with ample capital and that the name of the concern will probably be the W. T. Blackwell Manufacturing Company. Report is that Blackwell will go to manufacturing plu; tobacco.

- Oxford Torchlight: And now they want a new county, to be called Roa noke. It is to be composed of parts of Halifax, Northampton and Warren. Poor Warren, she had better retire from the race and be disbanded at once. Why can't people let good enough alone? - The Superior Court adjourned after a week's session on Saturday before last. We give the gist of the work done in the following: George Hawkins sent up to the penitentiary for one year; George Thorpe alias Chavis, one year; Anderson Thorpe, three years; all for larceny. — Evidence in the matter of James I. Moore, contesting the seat of A. H. A. Williams, is now being taken before Justice Blackhall.

- Raleigh News-Observer: Mrs. Annie Griffis, wife of Mr. Haywood Griffis. died very suddenly by the fireside, at her home in St. Mary's township. The cause was heart disease. - Mr. S. G. Worth has received 250,000 eggs of the "white fish," a notably fine food fish peculiar to the region of the great lakes. - There was a rumor yesterday that the postoffice authorities had detected thefs of the mails and captured the thief at Winston. -The truth is Col. Dsckery has no grounds of contest, and can fine none after due dili gence, hence he is making a show of claiming his election merely in order to get such such an allowance as Congress may be disposed to give him. For our part, we protest now, that unless Col. Dockery shall make a good showing for his claim, he ought not to be allowed a cent by Congress, but ought to be required to pay all the expenses which his unjustifiable course may may entail on Col. Bennett. - Greensboro Patriot: The rail-

road authorities have agreed to deliver wood here at 50 cents per cord, making the total cost about \$2 35 per cord. —Oldham, of the New South, was crossed in love in his early days. But revenge is sweet. He now writes poetry. — Two orphan 'drum-mers' were arrested in Winston yesterday and shelled out to the tune of \$150, the penalty for selling without license.

Liveritt's star is in the ascendency. The report comes here from Washington that he is "solid with the administration." Wheeler is a "dead duck," and Joe Causey has got his best eye on Don White. —
The biggest rabbit ever jumped in these parts was exhibited on the streets yesterday. Dressed, it netted 184 pounds. It was thought to be a dog, but it was a genuine hare. — Geo. W. Wheeler, route agent between Greensboro and Winston, was arrested yesterday in Winston charged with robbing the mails. The evidence of the robbery was found on his person in the shape of counterfeit money, which had been "fixed" for the purpose by a United States detective. A trial will be had to-day before commissioner Brietz in Winston. Wheeler is a brother of ex-collector Wheel-

A Colored Foreigner in Trouble. Morris Andres, a colored individual, said to hail from one of the West India Islands. was arraigned before Justice Millis, yesterday morning, for assault and battery upon one Jane Blackman, a colored girl, apparently about 18 or 20 years old, and also on a peace warrant, it being alleged by the prosecutor that the defendant had threat ened to kill her and she was in constant fear of suffering violence at his hands. Andres made a statement at the close of the testimony which showed that he was a man of no mean intelligence, although his appearances were against him. He said he never contemplated any harm against the girl; that he was neither a heathen or a barbarian, but came from a civilized country, and rather than be suspected of any murderous designs upon the female he would wish to be as far away from her as wind and water could carry him. He was let off on the payment of costs in the case of assault and battery, and required to pay costs and give bond in the sum of \$50 to keep the peace for four months to satisfy the peace warrant.

Small-Pox in Trenton.

From a private letter received here from a physician in New Berne, we are informed that a case of small-pox was discovered in Trenton, Jones county, a few days ago.

Too great a vigilance cannot be exercised in detecting and stamping out this

Since writing the above we find in the New Berne Journal, just to hand, a confirmation of the statement that small-pox is in Trenton. The victim is Mrs. E. C. Mc-Daniel. Her husband returned from Cincinnati a few days ago with the disease in a mild form, though no one knew at the time what was the matter with him. The announcement by Dr. Chas. Duffy that it was small-pox completely terrified the inhabitants of the town. The Doctor says there is danger of its spreading and assuming a malignant type. When he was about leaving, the Journal says, an old gentleman told him there would be more praying in Trenton that night than was ever known in one night before. A child of Mrs. M. has since been attacked by the disease.

Louise. It is not generally known, but is nevertheless the fact, that Wilmington is to have real live Princess and a "sure-enough" Marquis within her limits. The Marquis of Lorne and Princess Louise are to arrive here this morning on the 7 o'clock train and will remain in Wilmington one hour, when a special train will take the royal lady and her noble husband to Charleston, where they are to take passage for the Bermudas on a British vessel awaiting them at that port. It is not often Wilmingtonians have an opportunity to gaze upon royalty, and we doubt not it will be a real pleasure to many to see one of the representatives of the royal family of the mother country in the person of one of the daughters of the | Hats ! Good Queen Victoria

Since the above was written a telegram to the railroad authorities last night, from Richmond, Va., stated that the Vice-regal party would not arrive at Wilmington this morning, as previously announced.

Replenishing his Wardrobe. Wm. Larkins, a colored youth, about 15 or 16 years of age, was arrested by Officer Bryan, yesterday morning, charged with stealing a pair of pants from Mr. Henry Deckert, a young gentlemen connected with Mr. F. A. Schutte's restaurant. It appears that Larkins was employed to clean the windows and do some other odd jobs about the premises, when he seized the opportunity to make an addition to his wardrobe "free gratis for nothing." He was required to give bond for his appearance before Mayor Smith this morning at 9 o'clock, failing in which he was committed to the

WINSLOW?—As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as a nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels.
