THE NEW MARKET.

Agreement Between the Committee on the Part of the Board of Aldermen and the Committee on the Part of the Butchers - The Propositions, Submitted, &c.

The following are the propositions sub mitted by the Committee on the part of the Board of Aldermen-W. H. Chad bourn, W. L. DeRosset and G. J. Boneyto the Committee appointed by the butchers of the city, and which were formally accepted by them as satisfactory in every

The Committee on Markets from the Board of Aldermen propose to use their influence with said Board towards the passage of such ordinances as will fully and effectually cover the following points, provided the butchers of the city will agree to occupy the stalls or places in the public markets on the 1st day of May, 1883:

1st. To prohibit the sale of fresh meats, beef, pork, mutton, game, poultry, fish, bysters, clams and other shell fish, garden truck and all farm products, at any other place within the city limits except the mar kets on Front street and at such other point as may hereafter be designated by the Board of Aldermen as a public market for the accommodation of the citizens.

2nd. To protect all who deal exclusively

in one or more of said articles of produce

from any loss in consequence of any lease of premises now occupied by them, the value of said leases existing up to October 1st, 1883, as well as of all fixtures which will be useless to their owners by reason of their removal to the public market, to be credited to the several parties against rents due by them on and after October, 1883. 3d. To rent by public auction on the 20th of April, 1883, for one year from October 1st, 1883, to be renewed at the option of the renter from year to year, all the stalls or designated places in the markets to the highest bidder for choice of location, such premiums to be divided pro rata among all he occupants of each market house sepa rately, in proportion to the total amount of rent and premium each shall have agreed to pay, which dividends shall be credited to each party against the rent which he may

have agreed to pay. Premiums bid on the the 20th of April, 1883, to be paid the same day and yearly thereafter, commencing Oc-4th. To appoint one inspector, to be se lected by the butchers, who shall give bond as required by the Board, who shall inspect,

rade, and weigh all cattle sold on the hoof; fees for which to be paid by the seller. 5th. To further protect the occupants of the several markets by making it a misde-meanor, punishable by fine and imprisonment, for any one to violate the provisions of the ordinances framed and passed in ac-

cordance with the first proposition. The committee on the part of the butchers-J. R. Melton, W. J. Kellogg and J. C. Bornemann-in accepting the propositions, say: "We, the committee of butchers, accept your propositions in good faith, hoping and believing that you will keep you pledges, by giving us the protection which will be to our best interest and yours."

THE POLICE.

The New Force Sworn In-Address of Mayor Hall, &c. The members of the police force, elected

by the Board of Aldermen Monday night, were sworn in yesterday at 12 o'clock and entered at once upon the discharge of their

Mayor Hall was present and made an address to the force, which, while it was couched in language which fell pleasantly upon the ears of the guardians of the city, was at the same time of a character to impress them with the weight of the responsibility resting upon them, and of his determination to see the duties properly discharged. He commented at some length upon his understanding of their obligations to the city, and particularly dwelt upon two points, as of supreme importance.

1st. Getting drunk while on duty.

2nd. Going to sleep while on duty. For each of these offences the penalty would be immediate dismissal, without opportunity of appeal. The sentinel, he said, who slept on his post and thus endangered the lives of the soldiers he was guarding, paid the penalty of the indiscretion with his life. The policeman who sleeps on his beat, while treated in a more humane manner, should be made to know the extent and importance of the trust imposed upon him, as the guardian of the lives and property of the citizens. For the minor offences, such as visiting bar-rooms, etc., he said the penalty would be suspension. In conclusion he stated that he would offer as inducements, and at his own expense, a gold medal worth \$10 to the policeman who proved himself the most efficient in the discharge of his duty during the year; and a silver medal worth \$10 to the officer whose department should be the most exemplary and who should be adjudged to have kept himself the neatest in his apparel, etc., during the year. Finally he told them that he would protect them at all hazards in the proper discharge of their arduous and

unpleasant duties. The address was well received by the

Accidentally Run Over. A little son of Mr. Joseph Lewis, who occupies rooms over Mr. J. F. Stolter's store, on Second, between Market and Princess streets, was accidentally knocked down and run over by a baker's wagon, in front of his house yesterday morning about 10 o'clock, and pretty badly cut about the neck and face. As soon as the driver of the wagon saw what had happened he dismounted, picked the little fellow up and carried him into the house, where he had the necessary surgical attention. The soft mud in the street where the accident took place no doubt prevented the injury from being more serious than it really was.

Mr. A. A. Miller, Romfield, N. C., says: 'My wife has taken Brown's Iron Bitters with excellent effect for nervousness and general debility."

CITY HOSPITAL.

Report of Manager on Part of County to Board of County Commissioners-Interesting Statistics, &c.

From the report of Commissioner Roger

Moore, Manager on the part of the County of the City Hospital, presented at the late meeting of the Board, we glean some facts of interest. The report covers the period from October, 1881, when the Hospital was opened, to January 1st, 1888. Dr. W. W. Lane, Superintendent and Surgeon in charge, has control of the Hospital and grounds, and devotes his entire time to its management and the treatment of the patients under his care. He has a competent steward and faithful matron, who give every care and attention, under Dr. Lane's direction, to those under treatment. There had been, up to the time stated above, 136 admissions, of which 122 were treated successfully, and 14 had died. The entire expenditures for the fourteen months were \$3,708.07, of which \$453.70 were paid for furniture, \$60 for legal services (rendered in examining and arranging titles to property) and \$599.75 to public buildings ac count, such as repairing houses, building and repairing fences, building cisterns, etc. aggregating \$1,113.45. Add to this amount the further sum of \$211.50, received from pay patients, for rents and for medicines sold, and it makes the total of \$1,324.95, which deducted from the amount of total expenditures, leaves a balance for operating expenses of the hospital for fourteen months of \$2,383.12, or an average monthly cost of \$170.23. The number of pay patients is expected to increase as the Hospital be

comes better known. The immediate erection of a ward kitch en or dead house is recommended. The management has given the matter attention, and is of the opinion that at an ex pense not to exceed \$1,500 a ward contain ing room for eighteen beds, a bath room kitchen and small dead house can be built and sewerage pipe laid. He considers these improvements absolutely necessary to the successful management of the institution; for at present, in the absence of regular ward, the sick are scattered about in the small houses of the premises, which entails a great deal more care upon the Su perintendent, and causes at times unavoid able delay in attending to the sick. Mana ger Moore, in conclusion, compliments in high terms the management of the Hos-

The admissions to the Hospital from Nov. 1st, 1881, to Jan. 1st, 1883, according to an accompanying report of Dr. Lane, embraced 45 white males, 27 white females. 43 colored males, 21 colored females. To tal, 72 whites, 64 colored. Grand total, 136. The deaths for the same period embraced 3 white males, 2 white females, 5 colored males, 4 colored females. Total, 5 whites, 9 colored. Grand total, 14.

Milton Nobles in "The Phonix." The crowd at the Opera House last eve ning was much larger than on the night previous, and the enthusiasm and enjoyment of the entertainment were unbounded "The Phonix" has lost none of its attractiveness, nor has Mr. Nobles' popularity in the least decreased since his last appear ance on our boards, a fact well proven by the applause that was so frequently and often boisterously accorded him last evening. Mr. Schwartz, as Moses Solomons, was no less a favorite, and his creation was as amusing and as mirth provoking as ever. The support throughout was very clever, and materially assisted in succesfully and capitally presenting this, as the bills have it, "ever popular play."
