- Tarboro Guide: One man in Edgecombe county had 150 acres of corn under water during the late freshet. --Mr. Jacob T. Avera, of Rocky Mount, was again arrested on Saturday last, by Deputy Marshal H. S. Spragins, on three indictments found by the grand jury at the re-cent term of the Federal Court at New Berne. This is a repetition, we understand, of the old charges and looks mightily like persecution.

- We regret to see Sheriff Brewer limping about and suffering from his old wound, that has recently begun to give him much pain. This wound was received at the battle of Gettysburg, in which battle his company (which was Co. E, 26th N. C. Regiment) had 80 men killed and wounded out of 82 that went into the fight. We doubt if any other company in any battle of the war suffered so heavily.—Pittsboro Record. We have some recollection that leads us to say that Captain (afterwards Colonel) David M. Carter's company (4th N. C.) lost as heavily in proportion at Seven Pines.—STAR.

- Charlotte Journal-Observer: A considerable of a hail storm visited the city yesterday afternoon. —Immediately upon the appearance of Capt. DeWolfe's card declining to run for Mayor against Mr. Maxwell, the Republicans set to work to bring out a candidate and before sundown had succeeded. They worked on Dr. R. M. Norment pretty heavily during the day and at last the pressure became too strong for him and he yielded to their wishes. —Chief of Police McNinch yesterday received a telegram from Mr. W. J. Roberts, Mayor of Shelby, calling on him to arrest George H. Newhand, an insurance agent, who was wanted in Shelby for swindling. - A destructive fire occurred yesterday morning in the town of Gastonia resulting in the total destruction of the brick store house and stock of goods of Smyre Brothers. The loss of building and goods will amount to \$6,000, but is fully covered by insurance. Mr. E. L. Smyre, a member of the firm, was in the city yesterday morning, buying a fresh stock of goods, when he received a telegram informng him of the burning of his store. -Col. C. J. Carraway, a citizen of Polkton. this State, put an advertisement in the Baltimore Sun a few days ago wanting a wife. A day or two after the advertisement appeared, Col. Carraway received a letter from a Baltimore lady, enclosing her photograph, with a description of herself, and he was so well pleased with it all that he concluded to go to Baltimore and see the lady in person. He went last week and when he returned he brought the lady home with him, having married her a few days after he first saw her in Baltimore.

- Mrs. Augusta Tabor, the divorced wife of Colorado's night-shirt-Senator, was given a reception by 200 of the wealthiest and most respectable people of Denver a few days after her return from a California tour. Meanwhile, Denver society studiously ignores Mrs. Tabor No. 2.

- James Murdoch, who appeared at the Cincinnati Dramatic Festival after a retirement of nearly twenty-five years from the stage, made his entry into dramatic life at the Arch Street Theater, in this city, in 1829, when he was eighteen years old. now lives in a little village named after him, near Cincinnati.

- Lord Augustus Henry Venable Vernon, sixth Baron of Vernon and Baron of Kinderton, in the Peerage of England, is dead. He was descended from Admiral Vernon, the antagonist of William Penn, and the Venable family of Virginia are of the same stock. Mount Vernon perpetuates the name in Virginia. - Richmond State.

—Bunn's Sunday Transcript. - Boston Globe: "A few days after a baby was born in Newport, Ky., a gentleman neighbor called in the house, and, on being shown the young one, said to it: 'How are you, colonel?' Its mother then asked: 'Why do you call it colonel?' 'It's a male child, isn't it?' he responded. 'Yes,' replied the mother. Well, then, he's a colonel. By the common law of Kentucky every male child born in the State is a colonel?' The mother was greatly tickled over the fact that she was the mother of a colonel."

#### LOG ROLLING.

While Wrestling with a Fallen Tree a Lumberman Hegelves Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbondale, Pa., the witer met William Coil, a lumberman. Accestomed to life and labor in the forest from early manhood. he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the sawed products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, strip ped for his work, and attacking a tree as Richard assaulted the heavy doors of Front de Bœuf's Castle, must have presented an admirable picture. One day, however-but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling book and threw my weight on the lever. She started, she did but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which lifted her up, she'd crushed me flat. As it was I got up without a broken bone, but with some mighty bad bruises."

"Then yeu were all right," said his auditor. "Not by a blamed sight, stranger. I took cold, rheumatism set in, and, if I hadn't heard of BEN-SON'S CAPCINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capcine took hold quick, and I'm 'bout as good as new. But there's one thing you kin calkilate on:—I shall never wrastle with another log unless I have the advantage of the ground. Fur. as I told you before, if it hadn't been for them brushes I'd been smashed so, you could 'a sold me for a door mat."

The Capcine is the thing for rheumatism. It doesn't keep you waiting. The word CAPCINE is cur in the center of the genuine. Price 25 cents. Seabury & Johnson. Chemists. New York. Seabury & Johnson, Chemists, New York. ap 22 D&W6m nrm su we ch sm oc 22

"Experience in its use in Stone of the Biadder, in my own person, enables me to attest the wonderful efficacy of the Buffalo Lithia Water in the painful maiady. After having been iong subjected to sufferings, the intensity of which cannot be described. I have under the influence of this water passed (I am confident I am within the bounds of truth), at least an ounce of Calculi (Uric Acid), some of which weighed as much as four grains, affording inexpressible rollef, and leaving me in a condition of comparative saw and comfort. I am now passing only cocasion ally small Calculi, and they are not attended by the Intense suffering which their passage has heretofore occasioned. On one occasion I passed thirty-five Calculi in forty-eight hours. The appearance of this Calculus Nuclei indicates an mistakably. I think, that they were all component particles of one large Calculus destroyed by the action of the water by means of solution and disintegration. At my advanced period of and disintegration. At my advanced period life (I am seventy-seven years and six months of age), and in my feeble general health, a surgion operation was not to be thought of, and the water seems to have accomplished all that such an operation, if successful, could have done.

SOLID SHOT AGAINST **BLOOD POISON** 

ATLANTA, GA., April 17, 1883 In 1878 I was the victim of a terrible Blood Poison, and after being treated by three Physicians was confined to my bed, wot able to raise my hand to my head—spitting up clots of blood and reduced in weight from 185 to 130 pounds. I then began the use of SWIPT'S SPECIFIC, and in less than three months I was entirely well, weight 196, and have never had a symptom of the disease since. If it had not been for Swift's Specific I believe I would have been in my grave.

Tried Hot Springs Two Years Without Reitef.

Mercurial Rheumatism made me a crippie. After trying Hot Springs two years, and the Mercury and Potash treatment until I was a skeleton and unable to do anything, I was prevailed upon to take a course of S. S. After taking three bottles my appetite began to improve, and I gained flesh rapidly. When I had taken twelve bottles I felt as well as I ever did. It is now twelve months since I took S. S. S. My health and appetite are good, and I am able to attend to all the business I can get.
