Mr. Elam, the wounded duellist, was reported so far improved as to be able to walk about his room last

The reports of deaths from cholera are certainly very remarkable. They are about the same every day-say from 105 to 110.

The Anti-Monopolists party is aphly described by the New York Times as the "still born party." It died before it was fairly born.

Randall told a New York World reporter that he had nothing to say -that his record is known. Correct, Mr. Randall, it is known, and it is very much in favor of Protection.

According to the New York Heredd by all kinds of aceidents and calamities nearly three thousand people perished in the world since January 1. It has been a most destructive year and one most prolife in storms, floods and earthquakes,

Mr. R. F. Beirne was arrested in Richmond on the old warrant charging him with being about to engage in a duel, and was discharged for want of proof. It is said that the Augusta county authorities will make a vigorous effort to convict both the duellists of fighting in that county.

The New York Herald thinks Randall will be elected but thinks he ought not to be trusted. It says he should be made to promise to appoint tariff reformers on the very important Ways and Means Committee. He packed it before with Protectionists.

In 1882 Mr. Primus W. Jones, of Georgia, was first with a bale of cotton. On July 11 he sold one weighing 429 pounds, classed low middling, for 20 cents. This year Primus is first again. His bale sold at 254 cents, weight 335 pounds, classed middling. Who says now there's nothing in a name?

There has been discovered in Washington Territory the greatest wonder of the world in the way of a waterfall. It is at the head of the Cowlitz river, and is fifteen handred feet deep. There is said to be an other fall at the head of the Nooksack river that is reported to be between 400 and 500 feet deep.

The Index Appeal and its history is one that its owners may well feel pround of Keiley and Cameron, and the Venables, the lamented Chamberlayne, and Gregory and McCabe and Barham and others have made that history. It was, however, through the instiring labors and able management of Mr. Barham, the paper achieved its greatest siccess, and that it is to-day so progressive and floorishing. We are gratified to see it announced in the Goldsboro Advance that Rev. M. H. Moore, of the North Carolina Conference, is preparing and will publish a volume to be entitled "Sketches of the Pioneers of Methodism in North Carolina and Virginia." It will contain forty sketches and will make a book of some 500 pages. Mr. Moore is a young minister of good parts and he has shown that he can do such work with taste, skill and ability.

The special correspondent of the Louisville Courier-Journal has second interesting letter from Asheville. He pays Senator Vance a high compliment and very correctly describes him as "the most popular man in the State." He says:

The State Geologist of North Casolina states that in Western North Carolina there are fifty-nine peaks above 6,000 feet; ninetythree between 5,000 and 6,000, and 143 betweep 4,000 and 5,000, a total of 295 above

Goldsboro Bulletin . The geological formation underseath the city of Goldsboro, as was ascertained in boring the Weathersby-Strouse-Royal Artesian well, fully demonstrated the fact that at some time this country had been a vast body of water. For several feet, say from 18 to 20, there is a mixture of clay, sand and pebbles, and then a stratum of black chalky substance interspersed with an ore strongly impregnated with fron and sul-phur, after which quick sand and an occa-sional layer of clay and pebbles. At a depth of near one hundred feet a stratum of chalky clay of various colors as tenacious and tough as wax with scarcely any grit, a very fine material for pipe-making if is would stand the action of fire, but it

-Charlotte Journal-Observer: It is a singular fact that here in Charlotte, a city with water works, fine hotels, banks, street cars, parks, monuments, čity, hall, ten thousand inhabitants and five hundred or more streets, there is not a single street that has a name outside of Trade and Tryon. — Judge R. T. Bennett has consented to deliver the address at the Poplar Tent Fair on the 8th of August. The Register says there will also be present Senator Vance, Gev. Jarvis, Hon. W. A. Graham, Mr. Montford McGehee, Col. L.

L. Polk, and other gentlemen of eminence. - The accident that occurred on the Air Line Railroad Thursday evening was much more serious one than was at first reported, and resulted in painful injuries to the engineer, fireman and route agents. Engineer Pettus, who remained in his seat until the engine fell over, escaped from the overturned cab in a badly bruised condition, but not seriously hurt. Steve Reed, the fireman, was the most painfully injured of all, as he had his hip dislocated and was otherwise injured." In the postal car were route agents Myers, of Charlotte, and Hill, of Atlanta, both of whom were hurt. At the first shock Mr. Myers leaped from the car door and received painful injuries to his right arm. Mr. Hill, who remained in the car, was badly bruised up. He was sent to his home in Atlanta on the return train, and Mr. Myers came on to his home in this city. Both route agents will be laid up several days from their injuries. It appears that on last Wednesday evening four Wilkes county wagons bound for Statesville, struck camp for the night, at a point about fourteen miles from that town, and the next morning, while preparations. were being made to get under way again, two of the drivers, Fleet Martin, a son of Col. Claude Martin, and William Reeves, engaged in a friendly frolic, which, however, was brought to a sudden and terrible ending. Young Martin had an old pistol, which he playfully snapped at Reeves. Unknown to Martin there was a cartridge in the pistol which exploded The ball struck Reeves just over the right eye and pierced the brain, causing instant death. From the testimony of the witnesses, the fact is clearly settled that the affair was purely accidental, and was simply the result of rash carelessness and foolishness.

Mr. Schulken, who belonged to the North Carolina Conference of the M. E. Church South, was quite a young man, being only a little the rise of 24 years old. He was a student of Vanderbilt University, and received his first appointment from Bishop Pierce, at the Conference at Durham, in December, 1881, and was sent to the Clinton Circuit. His last appointment he received from Bishop Keener, at the Conference held at Raleigh, in November, 1882, and was sent to the Fair Bluff Mission. He attended the District Conference, which convened at Whiteville on the 24th of June hast, being then quite auwell. J. Death of a Well Known Engineer.

The late W. H. Petteway, the announcement of whose death Sunday morning caused much surprise and sorrow, was a well known machinist and engineer, and one who was greatly esteemed by all the railroad officials and employes with whom he was in the habit of coming in contact. He served his apprenticeship in the shops of the Wilmington & Weldon Railroad Company, and continued to work for the company for a long time after he had finished his apprenticeship. Latterly, however, he has been in the employ of the Wil mington, Columbia and Augusta Railread. which is under the same general management. He was a careful, painstaking engineer. Deceased, who was about 48 years old, leaves a widow and several children to mourn their loss. The remains were interred in Oakdale Cemetery on Sunday afternoon with Masonic honors, Rev Frank H. Wood, of Front Street M. E. Church, reading the impressive burial service of the Church, and Mr W. A. Williams, Master of St. John's Lodge, of which deceased was a member, reading the Masonic service appropriate to the occasion. The following gentlemen acted as pall-bearers: L. H. Bowden, T. P. Sykes, J. M. Henderson, James Alderman, W. W. Allen, W. W.

Mayor's Court. Quite a considerable disturbance was raised Sunday morning at the residence of Patrick Flynn, corner of Swann street and Hutaff's alley, which attracted a large crowd. Mr. Flynn and his wife were finally arrested, and yesterday morning the case came up before the Mayor, who, after hearing the evidence, discharged the old gentleman and sent his wife below for twenty days, the testimony going to show

that he was not to blame in the matter. Peter Walker, a colored youth, was called up to answer to the charge of disorderly conduct; in other words abusing and striking another colored boy named Arthur Cutlar, for which he was required to pay a fine of \$5 or be locked up for thirty

The Storm Sunday.

One of the worst looking clouds we ever saw came up from the northwest about 6 o'clock Sunday afternoon, and the rain struck the city just as the funeral procession of the late W. H. Petteway was entering the gate at Oakdale Cemetery, the members of which took refuge in the Lodge until the storm was over. It did not turn out as bad as was expected, however, and soon an opportunity was afforded for the ceremonies at the grave to be proceeded with.

A DOWN TOWN MERCHANT, having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still suffering; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the haby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was all hands siept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the wonderful change, and al-though at first offended at the deception prac-ticed upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and over-come the prejudices of the mother. Sold by all Druggists. 25 cents a bottle.
