Information is received through a let ter from a Baltimore house to Messrs. Kenan & Forshee, of this city, to the effect that Littlefield is to put on a line of steamers between that city and Wilmington, and our citizen are appealed to, through those gentlemen, to give the line every encouragement in order to keep it up. Connection by steamer with Baltimore s a matter of no little importance to Wilmington, we should imagine, and if our business men really feel an interest in the matter now is their time to show it, as

we are assured if it is not properly sup ported now, and should be permitted to suspend operations once more, there will be no hope of getting up a line again. Fareign Exports fat the Month.
