They were armed for the most part with revolvers, knives and stilettos, though some of them used their picks, crowbars and axes as weapons. A desperate encounter ensued, the italians fighting with a determination to clean out the darkies. The darkies, soon observing that they were being butchered by the Italians, fied in every direction, pursued by the hawling mob of Italians, who kept flourishing their knives and firing their revolvers terrorizing the of the village; the loss is about \$200,000. The Kimball House, Allanta, Ga., was burned Saturday night; it cost \$600,000 the furniture \$135,000; the Gate City Naand firing their revolvers, terrorizing the darkies as well as the inhabitants. Most of the darkies made a bee line for Listerville, the block are also losers; the total loss is and it was within the borders of that peace-ful willage that the bloodlest part of the af-fray occurred. The Italians fought the darkies up to the river, and the latter then became panic-strickes. Canal Company, arrived last Sunday, and is surveying for the Canal Company, for the purpose of finding out something, we know not what; nevertheless, the dredging continues. — We are informed that Mr. J. L. Bell of Newport, is the champion log raiser of Carteret county. His watermelon and corn crops, like his neighbors', proved a partial failure; but he has about 100 head of hogs which are being fed from the spples of his orchard, and are now in good condition to kill. He is on the right track. — Major W. A. Hearne, the active promoter of the useful scheme of patting into operation a line of inhand steamers between Beaufort and New Berne and New River and Beaufort, has been spending a few days in town looking up probabilities in relation thereto. A desperate fight occurred in West Virginia last week between some Italians and negroes who are working on the Ohio River Railroad near Wheeling. It grow out of the accidental killing of two Italians by a blast fired by some negroes. An account says the Italians became angered, and one of three brothers of one of the killed attacked a negro who drew a razor-of course. This, caused a general assault. We now copy a part of the account:

- Watermelons sell dearer here than in New York. ---- Mr. Joseph Kinsey came from Florida night before last. He says the land of oranges will do well enough in the winter, but the summer's sun is too hot for him. --- It has been eported for some time that Judge Fowle would be the Liberal candidate for Gov ernor next year. We have never heard of the Judge denying it. Can it be true that the man who was the choice of so many Democrata for that position three years ago s going to repudiate the principles he so rigorously espoused then? The Republican papers are continually asserting that he will be the people's candidate in 1884, and with him they expect to wipe out

- Charlotte Journal-Observer; A new postoffice called Strieby has been established in Handolph county, with Alfred I Walden Postmaster. Mr. J. established in Handolph county, with Alfred I. Waldey, Postmaster. Mr. J. McF. Mushet, of Boston, arrived at the Central Hotel yesterday afternoon from a trip up the Shelby division of the Carolina Central Railroad, where he has been taking views along the line of that road to filus rate on article in "The South." Many of the views, Mr. Mushet says, are picturesque and exceedingly interesting. The view from the bridge looking down on Tiddy's paper mills, 80 feet below is one of the best. All the views of the Catawba are good. — Out in Long Creek township. sest. All the yiews of the Catawba are good. — Out in Long Creek township about four weeks ago, a mad dog bit a hog belonging to Mr. Frank Shoemaker, and last Thursday the hog died, after a weeks cavorting around with the rabies. The hog actually went mad and its favorite freak was to root. It rooted up three pine trees, five or six panels of fencing and finally overturned Mr. Shoemaker's corn erib. It died trying to root up a big rock. The carcass was hauled away and next day the buzzards feasted on it, and before they got through several of them died by the carcass. Others flew up into trees, where they sat with ruffled feathers, until they fell to the ground dead

Revising the Tax Lists.

As there seems to be some misunderstand ing in reference to the law requiring the Board of Commissioners of each county to meet and revise the tax lists and hear complaints of tax-payers, we give the provisions of the act, as follows: Section 18 of the Machinery Act says: "The Board of Commissioners of each county, after notice in one newspaper or by posters put up, shall meet on the second Monday in August, and revise the tax lists and valuation reported to them, and complete the list by computing the tax payable by each person and affixing the same opposite his name. They shall sit for one day at least, and when necessary shall sit until the revision is complete, a shall hear all persons objecting to the val ation of their property, or to the amount of tax charged against them. They shall have power to summon and examine witnesses, and shall correct the lists of the list-takers as may be right and just, and so that the valuation of similar property throughout the county shall be as near uniform as possible," etc. In addition, it may be well to mention that Commissioners are required, after notifying the owner or agent, to raise the valuation upon such property as they shall deem unreasonably low.

In accordance with the above, the Commissioners of this county met yesterday afternoon to revise the lists and hear complaints concerning assessments.

Invitation Accepted.

The last Tarboro Guide publishes a letter. signed by Messrs. W. P. Williamson, F. H. Battle and L. N. Carr, a committee, and endorsed by Judge Howard, Judge Phillips, Judge Gilliam and Capt. Five Fires in One Night. Saturday night last was one of the liveiest for our fire department they have had in some time. First came the alarm at about half-past 9 o'clock; then another at 11 o'clock, or a few minutes thereafter; then one at 1 o'clock, alluded to in our last as a rekindling of the fire on the premises of Mr. B. F. Hall, but which we have since learned was caused by the ignition of the roof of the Koonce house on Market street, near the corner of Ninth, which probably came from a spark from the fire at Mr. Hall's, near by; then there was a neighborhood alarm near the City Hospital about 4 o'clock Sunday morning, caused by the roof of a frame dwelling getting on fire; and, finally, it is reported that a shed caught fire somewhere on the wharf, but the flames were promptly extinguished. In only three cases, however, was the general alarm sounded.

Insane Patients. It was designed in the early part of this week to send Wm. Miller and Henry Hall, two colored insane patients at the County Poor House, to the Goldsboro Asylum, but upon the representation of Superintendent Savage to Mr. W. W. Shaw. Warden of the Out-door Poor, it was thought advisable for Dr. Potter, the county physician, to examine into the condition of Miller, which he did, and reported him unable to travel whereupon the matter of removal was postponed for the present. It appears that Miller's brain troubles have reduced him to a state of general debility from which it will be difficult for him to rally. In addition to his other ailments, his throat is thoroughly paralyzed, so it is with great difficulty he can either talk or swallow.

olinians, situated in Camden County, Georgia, at head of White Oak Creek, eight miles from Sa-

and many other noted Georg'ans and South Car-

illa river. It contains 7000 Acres f Cypress Swamp and Pine Land; 2,100 acres in Cypress Swamp, 1,000 acres of which is densely covered with trees of largest growth. The re naining 500 acres of swamp was cleared, ditched and canaled by T. Butler King, and planted

both cotton and rice, from which in one year he realized a \$100,000 crop. There is a canal in the centre of the tract one mile long, thirty feet wide and nine feet deep. There are several other small canals intersecting the main canal, all of which render the drainage of the swamp PER FECT. The soil of 2,100 acres swamp land is a rich alluvial deposit, resting upon a foundation of clay, mixed with a heavy deposit of harl. There is also upon the place a rich deposit of "Phosphate," which has been analyzed and pronounced identically the same as that of South Carolina Phosphate. The improvements were destroyed by war and from natural decay, which renders them of no consequence.

This piece of property has a history of great interest, as having been so desirable an investment that men of note in the past have been interested in it.
