THE TELEGRAPH TROUBLE,

Complaints of Wire-Cutting in New York-The U. S. Senate Committee on Labor Investigating the Strike -Statement of the Master Workman of the Telegraphers' Brotherhood, By Tolograph to the Morning Star.]

Naw Your, Aug. 13.—Press Agent Som-erville, of the Western Union Telegraph Company, said this morning that since ? o'clock hat night one hundred and fifty wires had been out. Twelve of the Gold and Stock wires were cut in this city beween midnight and daylight. The line-men were said to be out repairing the dam Western Union Company has employed detectives to watch their wires, but so far no reports of arrests of wireutters have been made. Somerville also and that the States in which the wires were cut would have to pay for the damage done and the expense of repairing them. The striking men persistently deny that they cut any of the wires. Officers of the Western Union Company say they are well up with their business and need but a few more telegraphers to place them in as good circumstances as before the strike. Of one hundred and fifty three offices of the Company in this city, seventy one are now

The New York sub-committee of the U S. Senate committee on Labor and Education began its sessions to-day in the Post Office building. The members present were Senators Blair, of New Hampshire, chair-man: George, of Mississippi, Pugh, of Ala-bama, Call, of Florida, and Aldrich, of Rhode Island. The special subject of the sub-committee's investigation is strikes and labor movements in general; the object being to obtain information which may be used in securing future legislation which may prevent them. The committee had several sessions last winter, when a number of witnesses were examined. The first witness to-day was John Campbell, of Pittsburg, Master Workman of the Telegraphers' Brotherhood. He testified that he had been · udegraph operator over twenty years and had been connected with the Knights of La-ber and the Brotherhood of Telegraphers for two years. There were between 18,000 and 19,000 telegraphers in the United States and Canada who are members of the Brotherhood, and the whole membership is about 39,000. The cause of the strike ,was the refusal to grant a demand on the part of the operators for increased compensation, a decrease in hours and extra compensation for Sunday work. Since 1870 the salaries of telegraph operators had been systemati-cally cut down. The object of the sirike was to bring the rate of compensation back to its former standard. Operators were now paid a fixed salary per month, the avecare rate throughout the country being about \$54 for commercial operators and \$39 per month for railroad operators. balaries in New York city were higher than those in smaller cities, with the exception of New Orleans, Memohia and Nashville, where the scale of wages was about equal to that in this city. The lowest rates for commercial operators were from \$35 to \$40 per month for operators at small way staman. Before the reduction in wages rates were from 35 to 40 per cent, higher than at present. In 1970 a first-class operator could make from \$90 to \$130 per month. These rates extended back to the time of the beginning of the war, when the scale of wages was about the same as it is at present for railroad operators, and that for commercial men a little higher. The Western Union Company employs a quarter of all the operators in the country, and about two-thirds are railroad operators. The American Rapid Company employs only shout one-fifth as many operators as the Western Union. The protest of the Broand all employees of telegraph operators. The rate of wages was not considered sufficient to live upon, and is much below that of common day labor ers. In many instances the companies were able to pay higher wages to their men without increasing their rates for services to the public. This was evident from the arge dividends paid by the Western Union. Besides this, facilities for transmitting mesvages had been increased by the invention of the duplex and quadruplex instruments. There had been no reduction in the tariff in manquence of these improvements, but on the other hand the wages of the operators were cut down. The number of operators had doubled since 1870, while the facilities of the Company had more than doubled The Western Union in that year handled

Campbell related the history of the strike since its beginning. There was a convention of the Brotherhood, he said, held in Chicago last March, at which a bill of grievances was drawn up. This was presented to the different local assemblies of the Brotherhood throughout the United States and Canada, who unanimously ratified the action of the Convention. Returns to the executive board were made about two months ago and the committee was instructed to present the demands of the operators to different companies and they were also empowered to arbitrate upon say proposition that might be made by the companies. On the 16th of July the demands were presented to the Western Union, American Rapid, Baltimore & Ohio commercial) and numerous telephone e mpanies in the city. The only answer which has yet been received in from the American Rapid company, which has partially accorded to the demands of the Brotherhood. The answer of the Western Union Company to the appeal of the operators was that it was not known whether the committee had authority to speak for emplayes of the Company.

7,000,000 messages and last year the num-

Mr. Campbell said that ninety per cent. of the employes were members of the Brotherhood. Operators had frequently presented grievances to local managers for an increase of wages, but these had been disregarded. It was generally believed that the Western Union Company had a well-established system of blacklisting men who made applications for an increase of wages, and took the first opportunity of discharging them from its employ, upon some pretext or another. Pavoritam was shown by local managers, and skill was at a discount. A system of intimidation was practiced by officials of the Company since 1870. Several movements had been started to organize the operators, but all had failed on account of this system of in-

timidation. Campbell also intimated that by a procens of watering its stock, practiced by the Western Union whenever it had absorbed a competing line, the Company was now paying at least 28 per cent, dividends on the real value of its stock. He also stated that the work of an operator was very wearing and exhausting and men seldom lived long who continued in the business. Many left it, after following it for a score offyears and this was about the limit of the average.

SAVARRAN, Ga., August 13.—Rosin opened and closed firm, with an advance of 5c in strained, with sales of 1,681 bbls. Spirita turpentine opened steady and closed quiet at 184c for regulars; sales 16 bols. THE STOCK MARKET.

to bell-The Market Wesk and

New Your, August 18.—Weakness and depression characterized share speculations to-day and prices current were the lowest for a long time past. A decided pressure to sell resulted in a break of 1 to 84, the latter in Oregon Tanacontinental. This stock touched 59 against 674 at the close on Saturday. The market looked very bad at one time, and the announcement of the failure of a prominent house would probably have precipitated a panic. There were rumors that a number of leading operators and firms were embarrassed, but the only failure amounced was that of a small firm whose liabilities are variously estimated from \$20,000 to \$50,000. A estimated from \$30,000 to \$80,000. A number of capitalists came down from Saratoga last night and were in conference at one of the Vanderbilt offices. The result of the meeting has not transpired, but it is believed to have been held for the purpose of devising means to stem the downward movement in stocks.

In the afternoon trading was very fever-ish, some shares selling at the lowest, while others were somewhat better.

An Unsuccessful Attempt to Lynch Three Negroes Charged with Mur-

[By Telegraph to the Morning Star,)

DANVILLE, Aug. 13 .- Younger, Keene

and Evans, the three negroes sent on for indictment to the grand jury of Pittaylva-nia county for the murder of Sheppard, were kept in jail here till this morning, the sheriff fearing that they would be lynebed if put on a train for Chatham, the county if put on a train for Chatham, the county sent, without military protection. About 11 o'clock on Saturday night a large body of men stopped and searched the train at Fall Creek depot, having first placed on the rails alarm torpedoes which they took from the agent. They also kindled fires along the track. The party, numbering 250, afterwards set out for Danville, a distance of the rails. six miles. They came to North Danville, but hearing an alarm bell which was rung on information received through railroad telegraph offices, and learning that military companies were at Danville jail, under command of the mayor, they dispersed about day break. But night two military companies, one white and one colored. were on guard at the fail. This morning the prisoners were taken to Chatham by the sheriff, under protection of the Danville Grays, a white company.

#### MISSOURI.

Violations of the Sunday Law at St.

Louis. (By Telegraph to the Morning Star.) Sr. Louis, August 13.—The confidence of the saloon keepers in their fight against the Sunday law does not seem as well grounded as the more active of them supposed. The number of new violations of the law, reported by the police to-day, was comparatively few. The first newspaper cases were called in the Court of Criminal Correction this morning. Although the editors had given bonds, they were not present, neither were they represented by counsel. The Court gave the stead of forfeiting their bonds continued their cases until September 4th. This aftermoon Judge Noenden decided that the State must prove that street cars are not a necessity, in order to convict the officers of the companies who are on trial for violating the law for running cars on Sunday. All cases instituted against the street sulroad companies under the Sunday law will therefore be dismissed.

#### GEORGIA

Control of the Augusts & Knoxville Railroad Secured by the Georgia

[By Telegraph to the Morning Star.] AUGUSTA, August 13.—Parties interested n the Georgia Central and Port Royal Railroads have secured a controlling interest in the stock and bonds of the Augusta & Knoxville Railroad. The road will be leased. Two per cent, will be paid on the stock, and the first mortgage sevens will be exchanged for first mortgage six per cent.
