THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reform Journal at Chambersburg, Penn.: 'A BOSTONIAN, just upon the door for his name, Mrs. Winslow will nurse the American Florence Nightingale of the Nursery. Of this we are so sure, that we will surely say to any mother who has a child in the nursery, "Let her nurse and escape the griping, colicking, and teething time. Mrs. Winslow's NURSERY SYRUP relieves the child from pain, and cures dysentery and diarrhoea. It softens the gums, reduces inflammation, cures wind, colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her NURSERY SYRUP for children teething. If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists at 25 cents a bottle.'
