Colored Politicians Moving.

There is talk among the colored people of a meeting to be held at the Court House to morrow might to elect delegates to a State Convention of their race, to be held at Raleigh on the 5th of September; which Convention, it is understood, is to elect delegates in turn to a National Convention to be held in Louisville, Keutucky, on the of Sentember - It will be remembered

BeRosset and J. D. Munds - The German barque Marie, Capt. Permien, was cleared from this port for Hamburg, Germany, yesterday, by Mossrs. Patterion, Downing & Co., with

4,951 barrels of rosin, valued at \$7,199. - A gentleman says he was passing along the street a night or two ago when he was attacked by three large dogs, one of which he laid out on the pavement with a big hickory, when the others took light

- A gentleman from Beaufort ays Monday, Tuesday and Wednesday were pronounced the three hottest days they have experienced there in twenty years. The visitors are mostly leaving for their homes.

- A heavy rain passed over this city and vicinity yesterday. It was badly needed. The streets in some places were flooded and almost impassable. There was great deal of electricity in the atmosphere and some of the telephones kept up a lively - Our thanks are tendered for an

- The Biblical Recorder says: Rev. Dr. J. B. Taylor was in London on the 7th of August, and heard Spurgeon's son Charles preach in the Tabernacle, on the morning of the 5th and Canon Liddon at St. Paul's in the afternoon. He says: 'l have been to Westminster Abbey, Parliament, &c., and am seeing interesting and celebrated spots and buildings every way I turn

- Robert Moore, colored, who was carried to the Penitentiary last week, where he had been sentenced for three years for stealing geese, is said by the de puty who had him in charge, to have been very much annoyed by the fact that at nearly every station they stopped at along the road a flock of geese would come cackling and hissing around the car. It is probably an everyday habit with them, but Robert was not aware of that, and thought the demonstration was for his especial benefit.

Seeking Material. There is a story told on a good brother of this city who had been left by his pastor to conduct his weekly meetings, during his absence. The brother went on an excursion in the meantime, and when he got off the boat he took possession of a visiting minister's trunk (thinking it his own) and had it carried home; and now those of his friends who love a good joke are charging it upon him that he was after the minister's sermons to get material for his coming exhortations. However that may be, the

peril through which he passed to an intidrug store, and is to be occupied by Dr. mate friend who writes us as follows: danger, as I understood it, was nothing to what he really went through. He was in the sixth instead of the fifth story, and the cornice referred to in my last was the gutter for the mansard roof. They crawled on this the half block they were on, all of the next block, and part of the next, At every room they passed the smoke and fire was bursting out of the windows, and every time they turned a corner the crowd on the streets would set up such a yell as to nearly frighten them into loosing their hold and dropping to the pavement below. When they reached the rope they had no idea how long it was, or how far it would carry them. It stopped at the third story, and here they were met by a fireman, who

assisted them in their further escape."

## To Go to Boston.

We had heard with some regret that there had been some hitch in the arrangement for taking the splendid dried fruit exhibit of Mr. M. T. Hughes, of Guilford to the Boston Exposition, but we were informed yesterday afternoon that all obstacles in the way had been removed and that the exhibit had been turned over to Commissioner S. G. Worth, as at first intended, who will see to its removal and exhibition to the credit of the State of North Carolina. We predict that it will be one of the most attractive features in the exhibition.

It has been out of use for a long time, and is carefully preserved as a relic
