OUR FIREMEN. Reception to the Wilmington Hook and Ladder Company No. 1, on the Occasion of Their Receiving a New Truck-Speeches, Collation, &c.

The Howard Relief Fire Engine Company No. 1, and the Wilmington S. F. E. Company No. 1, met at half-past 3 o'clock, yesterday afternoon, and escorted the Wilmington Hook and Ladder Company No. 1 to the City Hall, where the Companies halted and formed in line, the procession having been headed by the Cornet Concert Club. After a short interval Capt. C. D. Myers, Chief of the Fire Department, came forward and delivered the following brief but earnest words of reception and congrat-

Capt. Quince, Officers and Members of Wilmington Hook and Ladder Company:—
It is to me a great pleasure to stand here and give hearty welcome and congratulations to you and your Company in your successful efforts to bring to our city a new and improved truck. It is a much needed addition to our force and must be appreciated, not only by our "City Fathers," by all who have the best interests of our Fire Department at heart.

Gentlemen of the Hook and Ladder Company: I have served both in the ranks and as an officer under command of the gentleman you have honored in giving your truck the name of, "Roger Moore," and the recollection of that service is always of

the most pleasant nature.

As an old working member of your Company, and as the new Chief of the Fire Department, I bid you in the name of all true firemen, most hearty welcome. Your fire record is untarnished. Always

prompt and never failing in any duty, I am sure now that your effort will be to make even a higher mark for the good old Company; to rank not only as the oldest white fire organization in North Carolina, but as one of the best of the kind in our

At this point Chief Myers was handed bottle of champagne, which he broke over the Truck, christening it with the name of ROGER MOORE.

Then, in conclusion, he said: "Gentlemen of the Hook and Ladder Company, His Honor, the Mayor of our city, will greet you.'

Mayor Hall then, in response to loud calls, came forward and spoke a few word of most earnest congratulation and compliment to the Hook and Ladder Company and the Fire Department generally, promising in his official capacity to do everything possible to aid and encourage them in their

Col. Roger Moore, former Chief of the Fire Department, was next enthusiastically called for, and responded in a manner that showed his deep sense of appreciation of the compliment paid him in naming the handsome truck after him, and of heartfelt interest in all that pertains to the Fire De partment of Wilmington, of which he was so long a faithful and efficient member.

The companies then, after repeated cheer ing, in which the Fire Department and the city officials all came in for a share, formed into procession again, with engines and truck, and paraded through various streets and finally halted at the Little Giant Engine Engine House, in the hall over which was spread an excellent collation, complimentary to the Hook & Ladder Company. Reaching the hall, an address of welcome, brief but eloquent and appropriate, was delivered by Capt. John Cowan, in behalf of the Howard Relief and Wilmington S. F. E. Company, at the close of which ample justice was done to the splendid repast, toasts were drunk and responded to, and a good time was had by all who participated.

A Narrow Escape from Drowning. As the British steamship Lykus was coming into port yesterday morning, and when nearly opposite the foot of Dock street, a boat, manned by a colored stevedore named Ed. Thomas, which had been at the side of the steamer, was cast loose, when before he could get control of her, she was drawn into the vortex caused by the action of the propeller, and capsized. Thomas quickly gained a position on the bottom of the boat, but in the meantime he made a very narrow escape from being struck on the head by the propeller, or some of its attachments. As it was he drifted off down the river, clinging to the boot, until some one put off from the shore and rescued him. The accident was witnessed by quite a crowd on the wharves, and many thought that there would surely be another added to the long list of unfortunates who have ended their existence in the "swift-rolling tide."

RIVER AND MARINE.

- The steamship Raleigh was to have sailed from Baltimore on Saturday, but some work was necessary on her boilers. which would delay her about two days. - A great many people visited the British steamship Woodside, at the Wilmington Compress and Warehouse wharves on Sunday. She is an iron steamer, and her length is 270 feet over all, 36 feet in width of beam, and 18 feet in depth of hold. Everything is worked by steam, even to her

steering apparatus. She hails from London.

- The following was prepared for Sunday's issue, but inadvertantly omitted: The schooner Alice Hearn, Captain M. Flemming, which cleared from this port for Philadelphia on the 15th inst., returned this afternoon, waterlogged. The captain reports that he took a gale off Hatteras on the 18th, which caused the vessel to spring aleak; the leak increasing he bore away for a harbor and was fallen in with by the steamer Lone Star and towed by her about 65 miles to the Cape Fear bar, and was then taken in tow by the tug Alpha and towed to this port. The vessel lost part of her deck load and is now full of water, with about one foot of water on her deck, A survey has been held and she will be dis-

charged at once.

the name of Thomas Dunn, who was convicted of some minor offence at the late term of the Criminal Court, and who was farmed out to W. H. Howe, Sr., for the costs, called at the house of a woman by the name of Holmes, living near Howe's plantation, formerly the Prigge place, where he worked, and asked that he be given shelter, as he felt unwell. He was allowed to sleep in the passage, and some time during the night, it is alleged, the woman heard such a scuffling and struggling in the part of the house where the man had been sleeping that she became badly frightened and fled to a neighbor's house. Sunday morning the husband of the woman, who had been off somewhere, returned to the house and found Dunn lying dead in the passage. Coroner David Jacobs was notified of the facts, but, after examination by Dr. F. W. Potter, an inquest was deemed unnecessary, it being the opinion of the physician that the man died from some natural cause. He was about 40 years of age. The coroner had him buried at the expense of the county, as he
