North Ccrolina is far more interested in retaining this tax than in giving the "moonshiners" a full swing. The people are now heavily taxed on the necessaries of life. The STAR favors relieving them as far as possible. The STAR is for a Government of the people, and by the people, and for the people.

We find the following in an exchange beyond the State. We suppose it originated with some State paper but we do not know which one:

"The Supreme Court of North Carolina has decided that municipal ordinances must be subordinate to and harmonize with the general law of the State, unless special powers are conferred upon the town by its charter, and that, therefore, in the absence of special authority over the subject, an or-dinance prohibiting the sale of liquor within the corporate limits of a town is void, the general laws allowing whiskey to be retailed upon obtaining license.

Here are some verses that are appropriate for January 1, 1884:

'Familiar faces make way for the strange, And the old gives place to the new, But faith in the future is firm through change. As dreams of the past are true,

Then a toast for the year that is coming fast. May his days be merry and long! And a dirge for the year that has gone at last: We will speed him home with a seng."
