Before this, they say, numerous carts and wagons were continually coming in, and they never came without making purchases, while now, goods are shipped direct from Northern markets to the country stores

Street Improvements.

Our city authorities have contracted with Mr. S. A. Pearce, of Columbia, S. C., for Belgian block with which to pave North Water street from Market to Mulberry street, and with Messrs. E. Sweeney & Sons, of New York, for the flagstone and curbing for the sidewalks. The blocks for the street pavement to be supplied from the granite quarries near Winnsboro, S. C., and the bluestone flagging and curbing for the sidewalks from the quarries on the Hudson river. The sidewalks are to be paved with solid flagstone and the street is to be twenty-four feet in the clear, with suitable terra-cotta pipe for drainage purposes, with sand catchers at each intersection to prevent sand from drifting into the

It is hoped to have the whole work on that street completed in less than ninety days. The old cobblestones to be removed from North Water street will be put down on Dock street, and, with what cobblestones the city already has on hand, there will be sufficient to pave Dock street to its intersection with Third. North Water street is certainly in a very

bad condition, and the improvement now about to be commenced will greatly facili tate the business of transportation on the wharf and save materially in the wear and tear of vehicles, which now find it difficult to pull through with heavy loads.

The work upon the street has been commenced, the first ground being broken on Wednesday, near the foot of Mulberry It has been found that a good deal of

ditching and subterranean work will be necessary to insure a good foundation for a portion of the roadway between Chesnut and Mulberry streets. The authorities express the hope that

after seeing the effects of the improvement on North Water street, it may lead to a like improvement on Market and Second

Mayor Hall, from whom we obtained the bove particulars, states that after the close of the present fiscal year in April next the city contemplates dredging out all the public docks, which is considered a desirable work both in adding to their usefulness and in improving their sanitary condition.

Death of an Old Citizen. The venerable Luke B. Huggins breathed his last about 12 o'clock on Wednesday night, as already briefly announced in the STAR. He was one of our oldest citizens, being at the time of his death a little over 77 years of age. It was our fortune to be present at a pleasant gathering at his house on the 28th of November last, where, surrounded by the loved ones of his own household and a number of his devoted friends, he celebrated his 77th birthday. He was then, and had been for some time, very feeble, and many feared then that it would be the last re-union of the kind in which he would participate.

Deceased was a native of Onslow county, where he farmed and merchandised until about 1847, when he removed to Newberne, where he was engaged in the grocery busi ness about five years. In 1852 he removed to this city, where he has since resided and continued in the grocery business. He had long been a devoted and consistent member of the First Baptist Church, and for many years had held the position of a Deacon. He was greatly esteemed by all who knew him, and the intelligence of his death will carry sorrow to many a house hold. His wife preceded him to the spirit world by only a year or so.

The funeral will take place this afternoon at 2.30 o'clock, and the remains will be interred in Bellevue Cemetery.

There is on exhibition at the Purcell House two stalks of "Saccharatum" or Louisiana sugar cane, grown by Mr. Armenius D. Johnson, of Kenansville, Duplin countý, which yields 2,250 pounds of sugar and 120 gallons of molasses to the acre. This cane grows in some instances as many as fifteen or sixteen stalks to the bill.

Maj. W. L. Young, who has the above on exhibition, also called our attention to a specimen of the wild olive tree, from Nixon sound, Pender county, which is peculiar to tropical latitudes and indicates a climate and atmospheric condition adaptted to the cultivation of the sugar cane.

Mayor's Court.

Dave Mallett, colored, an old offender, who was picked up in Brooklyn Wednesday night, and in a fair way to be frozen to death, was sent below for thirty days, the Chief of Police in the meantime to endeavor to secure his shipment on some vessel leaving this port.

J. M. King, who was charged with falling against a window of Mrs. Elizabeth Warren's confectionery store and breaking the glass, was ordered below for twenty days, said judgment to be void on condition that the defendant have the window repaired properly.

Magistrate's Court

Mary Jones, colored, was arraigned before Justice Millis, yesterday afternoon, on the charge of assault and battery upon Jane Hines, also colored. Judgment suspended ou the payment of costs.

A young colored man was arraigned on the charge of larceny, but there was not a particle of evidence to sustain the charge and the case was dismissed at the cost of the prosecutor.

As previously announced, Hon. Simon Wolf lectured at the Opera House last night upon "Egypt." After being handsomely introduced by Mayor Hall, Mr. Wolf, in explanation of his being late stated that his trunk, containing many valuable souvenirs of his residence in Egypt, which he wished to exhibit, had not reached here until a few moments before his appearance, and with his characteristic humor remarked that the wrong animal, he feared, had been introduced. An elephant would have had his trunk with him, but a Wolf, having none, must await the pleasure of the railroad to bring it. He then proceeded to the discussion

"Egypt" as he found it and as he saw it, leaving out its history and its archæology, and confining his remarks to modern Egypt. We do not attempt to outline his solere, as our space is limited, but that ft was highly interesting the close attention of his audience attested, and that Mr. Wolf is a polished speaker, with a charming and graceful manner and a purity and eloquence of language, no one who heard him will doubt. In the course of his lecture he exhibited a number of relics of Egypt, and a portfolio of photographs of notable personages and Egyptian scenery, which he has placed at the disposal of the Library, and which will be on exhibition at the Library Rooms during his stay here. We hope that this will not be Mr. Wolf's last appearance here, for he is an able and eloquent speaker, and we bespeak for him upon another occasion, not a more appreciative but a larger audience.

A QUICK RECOVERY.—It gives us great pleasure to state that the merchant who was reported being at the point of death from an attack of Pneumonia, has entirely recovered by the use of Dr. WM. HALL'S BALSAM FOR THE LUNGS. Naturally he feels grateful for the benefits derived from nsing this remedy, for the lungs and throat; and in giving publicity to this statement we are actuated by motives of public benefaction, trusting that others may be benefited in a similar manner. THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn.: A BENEFACTRESS. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething slege. Mrs. Winslow's Soothing Syrup relieves the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cureswind colic, and carries the infant safely through the colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists.
