"Hop Culture in the United States" is the title of a book we have just received from the publishers, E. Meeker & Co., Puryallup, Washington Territory. It is a practical treatise on hop growing in Washington Territory, from the cutting to the bale, with fifteen years' experience of the author, giving minute instructions how to plant, cultivate and care the crop; together with elaborate and general statistics of the hop trade of the world, cost of production, how to start a bop yard, best mode of preserving hops. The book contains, also, an exhaustive article from the pen of W. A. Lawrence, Esq., of Waterville, New York State. Price, \$1.50, and may be had of the publishers or of Mr. Lawrence.

In this connection, we would be glad to hear from some of our readers on the subject of hop culture in North Carolin. A correspondent residing in New York expresses the opinion that our climate is too hot for the successful culture of hops. It is on this point especially that we desire information.

Protection Democrats will hardly favor ex-Senator Jos. MaDonald for ur manag a holy war, and is uniting | the Presidency. On the 4th of March he writes as follows to Mr. Morrison, and these is no mistake in what he believes to be the true policy of the party in the Congress. He writes:

"Any statements you may have seen that I do not regard your action in attempting to relieve the burdens of the people by the pushing of your tariff bill as unwise and proper are untrue. The principal issue in the coming campaign must necessarily be the tariff. The only chance the Democrats have of success lies in the passage of your bill, or something like it. If the Democratic party allows this chance to go by without doing something to relieve the bur den of taxation, they will deserve defeat. hope your bill will be passed by the House. Let the Republican Senate take the responsibility of defeating it.

The Philadelphia Times, Protection organ, thus gives the dodge that will be resorted to to prevent the debate on the Tariff and the final vote. A Washington special of the 7th in-

"Among the expedients to be resorted to by the Republican side to defeat the Morrison Tariff bill will be an attempt to have the different schedules considered by items. Mr. Kasson is preparing a detailed comparison of the bill of last year with the pending bill, so as to be able to point out the differences and each item of reduction, from the beginning to the end of the bill, will be discussed and fought by the protectionists. They thus hope to be able to postpone indefinitely final action on the

"Letters received in Washington from prominent Western Democrats state that in the States of Wisconsin, Iowa, Kansas, Indiana, Illinois and Nebraska there is great unanimity in favor of a vigorous and unequivocal declaration in the Democratic platform against protection and for revenue reform. Several, if not all, of these States, it is reported, will hold their conventions for the election of delegates to the National Democratic Convention on June 25, and will, judging from present indications, speak with one voice and one language in favor of a tariff only for revenue.

Bishop Lyman will preach the Consecration Sermon.

Assisting the Needy.

We are informed that the First Baptist Church of this city gave something over \$70 to the collection for the cyclone sufferers. Last Monday the membership raised in cash \$20 for the Morehead Baptist Church, and on Sunday night they raised \$189 for the Baptists of Chester, S. C., so ably served by Rev. R. W. Sanders, whose church building was utterly destroyed by the cyclone of the 19th ult. Rev. Mr. Sanders, as before stated, served the church here very acceptably for about a month last summer, before the arrival of the preArrest of a Thief from Shoe Heel. Chief of Police Brock received a tele gram from Mayor E. F. McRae, of Shoe-Heel, on Sunday afternoon, about 5 o'clock, requesting the arrest of one Shepard Con-

rad, a mulatto, whom he described, charged

with stealing a sum of money, amounting to about \$55, mostly in gold, and other articles, and that he had left there ostensibly to go to Goldsboro. The matter was placed in the hands of Sergt. Robert Green, of the police force, and in about a half hour a person answering the description was discovered in the neighborhood of the foot of Cheanut street, satchel in hand; making his way to the depet. He was taken to the City Hall, but of course denied all knowledge of the missing funds. Arrived there he was stripped and searched and no money was found on his person; but just at this moment, when the countenance of Conrad was beginning to brighten up, Sergeant Green happened to recollect that during a temporary stoppage of the prisoner in the Mayor's office, where he was allowed for a moment to occupy a seat in the corner of the room, he thought he heard something drop upon the floor. He mentioned the circumstance to the Chief, and upon returning to the office, and searching at a spot designated, among a lot of paper parcels, a purse was picked up, which, upon examination, was found to contain \$48.15, nearly all in gold. Conrad was brought in and confronted with the new and (to him) damaging discovery, when he literally wilted, and was appa-

Fire in the Country.

The residence of Mr. Henry Sutherland, on the New Berne road, nine miles from Wilmington, together with his furniture, clothing and nearly all of his provisions, was destroyed by fire yesterday. He and his brother were both absent, leaving at home only females and small children. The fire originated on the roof and had gotten well under way before anyone saw it. Mr. Sutherland was attending a meeting of a building committee-he being a member of it-that was being held in Prospect Church, where he had just contributed to the end of completing the church, having been very liberal in his contributions and earnestly endeavoring to get others to aid in the good work. The committee had just finished their business and had gone over to Mr. Macomber's store, when a gentleman walked in and, addressing those present, said that Mr. Sutherland's house had burned down, and that his family had saved but very little. There was insurance on the building to a small amount, but none on the furniture, clothing, provisions, &c.: and by this fire a good and most worthy man, with a large family, has been deprived of home, clothing, furniture and almost everything he had.

Colored Presbyterians. We learn that the special meeting at the Chesnut Street Presbyterian church, of which Rev. D. J. CITY ITEMS WHO IS MRS. WINSLOW!—As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime specific as a pursue and physician she has wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as a nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed.
