Arrested on Suspiylon.

About 9 o'clock Thursday night, as Officer Smith, of the police force, was passing on Front street, near Dock, he discovered two colored boys with partially filled bags on their shoulders and acting in rather a suspicious manner. He hailed them, when one dropped his bag and ran, but the other clung to his and was captured. Both bags contained a large number of empty flasks, and as the boy fails to give satisfactory account of the manner in which they became possessed of them it is believed they were stolen. The two bags, with their centents, were taken to the City Hall to await a claimant, while the captured boy-one Edward Hill-was locked

Cape Fear Academy. The exercises yesterday, at this school, were highly enjoyed by a large and appre ciative audience. The programme consisted of recitations of standard prose and poetical selections, Shakespeare memorial ecitations, and a recitation of North Carolina history by ten boys. The subject was "The Battle of Alamance," and right well did each boy render the part assigned him. The exercises closed with a recitation by the Introductory class, of "Piano Music,"

A Successful Morticultural Enterprise
—Grape Culture and Fruit Growing. Our friend R. H. McKoy, Esq., who on Thursday afternoon paid a visit to the "Nobles' Vineyard," a short distance from the city, informs us that he was greatly surprised to see the important results following the efforts that have been made here in the culture of grapes and other

When Capt. Nobles first located in New Hanover county he was informed that the growing of grapes could not be made successful, as the fruit would not in our soil ripen uniformly. After experimenting for some time with three hundred vines Capt. Nobles found that all that was necessary was proper culture and judicious pruning to make the grape vines in this locality as productive as in any section of the State, as well as to insure uniform ripening and freedom from all kinds of disease. It will be semembered that for some years past among the finest grapes ever put upon this market for sale were those from this vine-

Our informant states that there is perhaps not a man in the county who realizes the magnitude that the business of grape culture is assuming at this vineyard. Only three years ago Capt. Nobles had three hundred vines. Now he has already twenty thousand vines set, comprising one hundred and fifty different varieties, and put out during the winter just past fully one hundred thousand cuttings; while he expects to plant at least twenty thousand vines the coming winter.

The proprietor of this extensive vineyard claims that this section, owing to the great length of the season, and the adaptability of the soil, is superior to any other locality for the propagation of nurseries. Our informant was shown a plot of ground, now reset in plum grafts, from which was taken and sold last winter seven thousand plum grafts that had in one year grown to the length of six to eight feet. The grafts' of apples, peaches and pears do equally as well. Mr. McKoy saw grafts in full bloom and in fruit. In fact, even buds that were inserted last August were in full bloom-

Expected Firemen's Visit. It is now definitely understood that the Wilmington S. F. E. Company, with their horses and engine, the "Little Giant," will accept the invitation to go to New Berne and be the guests of the Atlantic Steam Fire Engine Co. No. 1, of that city. It is proposed to make the visit about the middle of June, with as many as forty men, accompanied by the Cornet Concert Club to furnish the music, and a big time is expected. The engine will be thoroughly overhauled in the meantime, and new tubes put in the place of the old ones, which are said to leak badly, having lasted about nine years, whereas they are not usually expected to hold out longer than five years. Under these circumstances the company claims it is possible to keep up only about forty pounds of steam, when one hundred pounds would not be excessive. We are sure that our Wilmington boys will not be disappointed in their anticipation of a good time. New Berne has always been proverbial for her hospitality, and long before the great railroad celebration in 1857, when every house in town was open to accommodate the thousands of visitors, it was known that a New Bernian's pleasant duty-and one that he prized above all others-was to welcome and entertain in princely style and with unaffected cordiality those invited as guests to his beautiful "city of the elms."

The Duty on Rice-A Misapprehension Corrected.

Messrs. Norwood Giles & Co., of this city, have received a letter from Hon. Wharton J. Green, dated Washington, April 16th, relative to some misconstruction or misapprehension on the part of a number of persons in this section in regard to the duty on rice. Col. Green sends a copy of the original Morrison bill, and also a copy as reported from the committee on Ways and Means, and calls attention to the fact that the objectionable clause alluded to, which appears in the original bill, is entirely left out in the reported one. Salt, coal and timber are the only articles put on the free list. Consequently, says he, rice stands precisely on the same footing with the great bulk of other articles subject to duty tax, which is 20 per cent., if the bill becomes a law. This he thinks hardly probable during the present session, as it would stand but little chance before the Republican Senate, even if it succeeds in the House.

WHO IS MRS. WINSLOW!—2.8 this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as a nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is moreover, sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do ruse ur and bless her; especially is this the case in this city.
