FORTY-EIGHTH CONGRESS.

FIRST SESSION.

Committee Reports in the Senate-The General Deficiency Bill Passed-The River and Harbor Bill Under Consideration-Appropriations in the House-Debate on the Fortifications

By Telegraph to the Morning Star.1 SENATE.

WASHINGTON, June 30.—Mr. Slater, from the committee on Public Lands, submitted a report, to accompany the bill for-feiting the uncarned lands granted to the Northern Pacific Railroad Company. The report, he said, was not unanimous, and the minority of the committee would hereafter submit its views.

Mr. Allison, from the committee on Appropriations, reported a bill to continue the public printing for seven days in advance of the appropriations to be hereafter made. Mr. Allison had the Clerk read a letter Mr. Allison had the Clerk read a letter from the Public Printer, saying that no appropriation for printing would be available after to-day, and unless something was done to extend the Printing Appropriation act, and the passage of the Sundry Civil bill, all public printing, including the printing of the Congressional Record, would have to be stopped. The bill was read a third time and passed.

Mr. Plumb, from the committee on Pub-lic Lands, reported favorably a bill to forfeit the unearned lands granted to the Florida Railroad Company:

Mr. Morgan, from the same committee, reported favorably a bill declaring forfeited certain grants of land made to certain States to aid in the construction of rail-

Both bills were placed on the calendar. Mr. Morgan, from the committee on Public Lands, reported adversely the bill to grant public lands to the survivors of the Mountain Meadow massacre. Mr. Morgan said the committee was sat

isfied that if a valid claim existed against the government, arising out of the massa cre, it was not a claim that should be compensated in public lands, but money.

At the request of Mr. Garland, the bill thing the American people could do. To-day China or Italy had in their navies boats that could ride right into any deep harbor on the coast of the United States, and the United States had no guns worthy was placed on the calendar.

Mr. Cameron, of Pa., called up his resolution, herotofore submitted, discharging the Finance committee from further consideration of the bill for the retirement and recoinage of the legal dollar. Mr. Morrill expressed the hope that it would not be agreed to.

On motion to agree to the resolution, Mr. Morrill called the yeas and nays, which resulted—yeas 21, nays 28; so the resolution was not agreed to.

A message from the House announced the non-concurrence of that body in the Senate amendments to the General Deficiency bill. The Senate insisted on its amendment and ordered a committee of conference. The Chair appointed as such committee Messrs. Hale, Allison and Cock-

On motion of Mr. Harris, the Senate took up the House bill to limit to two years the time within which prosecutions may be instituted against persons violating the internal revenue laws. Mr. Sherman moved to amend by substi-

tuting three years for two. He thought two years too short a time. Mr. Garland said the Judiciary commit-tee had given the subject serious considera-tion, and had concluded to recommend two

years.
Mr. Hoar said that in some districts the grand juries met but once a year, and the limitation would therefore practically operate in such districts as for one year only. Mr. Harris said the internal revenue authorities had found few persecutions suc-cessful when initiated after two years, and the Secretary of the Treasury and the Commissioner of Internal Revenue had recommended the two-year limit.

Mr. Hawley thought the want of success

in prosecutions was an indication that the Department of Justice might be improved in its methods.

Mr. Sherman's motion was not agreed to the vote being a tie-yeas 29, nays 29. Mr. Harrison thought some provision should be made to protect againt concealed crime, the limit being in his opinion too

Mr. Hoar offered an amendment which was agreed to, extending the limit to the period of discharge of the grand jury at its next session after complaint shall be instituted; provided, the complaint be instituted within two years.

Mr. Sherman called attention to the fact that the two years limitation would apply to offences committed by collectors of in-ternal revenue handling millions of dollars a year. The bill being completed as in committee of the whole, was reported to the Senate, when Mr. Sherman renewed his motion to make the limitation three years. That amendment was now agreed to and the bill was then passed

Mr. Cameron, of Pa., introduced a joint resolution authorizing and directing the Secretary of the Treasury to purchase United States trade dollars to an amount not to exceed \$10,000,000 at their face value, paying therefor standard silver dollars; provided, the purchases be made prior to September 1st, 1884.

Mr. Morrill objected to its present consideration and the joint resolution went

The Senate then proceeded with the consideration of the River and Harbor bill. On motion of Mr. Allison, debate on the bill was suspended while the House joint resolution was read three times and passed providing for a continuance for five days from June 30th of the appropriations of the fiscal year just closing, the amount to be expended for the five days not to exceed five days' proportion of the whole of last year's appropriation. Mr. Allison remarked that this resolution was based on the expense. that this resolution was based on the expectation of an adjournment on Saturday, and if that expectation should not be realized a further extension would become necessary. Consideration of the River and Harbor bill was then resumed. The five minutes' rule was applied to the debate. 'The section prescribing penalties for filling up harbors

by deposits of garbage and refuse matter was ruled out on a point of order raised by Mr. Morgan that it was new legislation. At 6.30 p. m., having disposed of the committee amendments, all of which were agreed to except the above noted, the Senate adjourned, leaving the other amend-

ments to be proposed to morrow.
HOUSE OF REPRESENTATIVES. The amendments of the Senate to the Deficiency Appropriation bill, on motion of Mr. Randall, were non concurred in, and Messrs. Randall, Burnes and Calkins were appointed as conferees.

The following bills were introduced and

referred: By Mr. Lewis, of La., directing the Attorney-General to institute legal proceedings for the recovery and restoration of lands granted to the New Orleans, Baton Rouge & Vicksburg Railroad Co.

By Mr. King, of La., appropriating \$200,000, to be expended by the National Board of Health, to prevent the introduction and spread of Asiatic cholera in the United States.

CHARLESTON, S. C., June 30.—Spirits turpentine quiet at 27½c bid. Rosin steady—strained and good strained \$1 05.

Adjourned.

By Mr. Bagly, of N. Y., to prohibit the Division of Telegrams and Reports for the Benefit of Commerce and Agriculture. business of importing lazzaroni and beggars and hiring them out as laborers.

By Mr. Cox, of N. H., a preamble and resolution, reciting that on February 25th the House adopted a resolution calling on the President for all communications which have passed between the United States and Russia, with respect to the treatment of Hebrews by the latter government, and that no such communications have been transmitted, and respectfully requesting the President to comply with the resolution.

Mr. Randall introduced a joint resolution, providing that all appropriations for COTTON-BELT BULLETIN.

spectors and the detail of five army officers to act as Indian inspectors. The House provision to this effect was stricken out by

the Senate. The report was agreed to, and Mr. Throckmorton, of Texas, author of the

provision in dispute, moved that the House recede from its disagreement to the Senate

amendment. The motion was carried, and

the law remains as at present. This disposes of the bill as far as the House is con-

The House then went into committee of the Whole, Mr. Blount, of Ga., in the chair, on the Fortification Appropriation

Mr. Horr, of Michigan, said that the bill as reported by the majority of the commit-

as reported by the majority of the commit-tee on Appropriations was a departure from the practice of the government for the last seven or eight years. During that period money had been appropriated simply in sufficient quantity to keep the forts on land in a sort of preservation without doing any-thing in the line of making any new de-fences. The first item in the majority bill appropriated \$1,100,000 for beginning the

construction of new forts in deep water harbors of the country; while the second item appropriates \$300,000 for beginning new forts in the more shallow ports. Many of the existing forts, which had been built

with reference to 42-pound shot, were to-day utterly worthless as a means of defence against a gun throwing 2,000-pound shot.

Any second-class iron-clad vessel of any

second-class power in the world could steam

right into New York, lay tribute upon its

of the name to meet their assaults. Talk

about the little artillery the Government now possessed; it would be as practical to

stop the career of a wild rhinoceros by

shooting green peas out of a pop-gun at

him, as to try to stop one of those vessels

from entering our ports by means of the guns which we possess. Advocating briefly the items making appropriations for the purchase of submarine torpedoes and of machine guns, he called particular attention to the appropriation of \$1,000,000 for the

procurement of heavy steel-rifle guns, and

the necessity which existed that deep water ports should be furnished with these en-

gines of defence. What was the sense of

the government waiting until war was on

its hands before it began to prepare for it

He would have this nation never insult any

other nation, but he would have it strong: so well equipped that in the future it need never submit to any insult from any other power on the face of the earth.

Mr. Cox, of N. Y., contrasted the appropriations made by the majority and minority bills, and said that it might be that

upon investigation of the matter the House

might strike the golden mean. He would not be guilty of extravagance because there

was no imminence of war, neither would

he be derelict in regard to the proper ar-

mament and defence of the country. While

proposition for the construction of new cruisers, and hoped that the House con-

ferees on the Naval Appropriation bill would not yield a point to the Senate. The fault

of these unarmed cruisers was not so much

in the light guns they carried, but in their inability to keep out the projectiles of machine guns, which formed a large part

Mr. Finerty, of Ills., said it would give him pleasure to sustain the minority re-port, if he could do so conscientiously; but he believed that the national defences were

so depleted that it became the duty of every patriot, irrespective of party, to

raise his voice in favor of an appropriation

for coast fortifications. Economy was a virtue, but an economy which proposed to leave the country free and independent and prosperous, simply by the toleration of foreign powers, ceased to be economy and became closely allied to treason. We stood is a nation infortion to none until the respective of the stood in th

is a nation inferior to none in the resources

which made a nation great. We stood

saying, "We are at peace with every one and need no defence." We were traitors

in spirit who were content to draw water and hew wood. Was this the spirit of the

nation which refused the right of search

upon the seas? Was this the spirit of the

nation which, against overwhelming obstacles, carried the immortal flag

into the halls of the Montezumas?

He abhorred this spirit of economy, prac-

ticed to the extent of niggardliness. It not

only imperilled but degraded the patriotism of the nation. More, it placed Americans

in the light of men who were afraid of their

own chief officers. If any party were as cowardly as that it deserved to be beaten

at the polls. He did not want to be indenti-

fied with any party which squarely set its face against the defence of the country

against insult or the invasion of a foreign

enemy. In conclusion, he said: "You,

representatives of this great and gallant na-tion, which has turned its back never, and

has ever been victorious—you of the gal-lant South, and you of the independent and sturdy North—this is not a party question; it is the question of the whole nation. Let

powers of Europe—come on, and you will find, as the Persians found in Greece, that

every spot of soil shall be the grave of a hero or an invader; that every spot of soil

shall be held sacred to liberty; and that the

American army can prove again its supre-macy in the sunlight of liberty, and place

the stars and stripes in glory above any empire which seeks to pollute our soil with

the tread of its mercenary hosts." [Ap-

Mr. Dorsheimer supported the majority

The committee then rose, and Mr. Elliott, of Pa., reported from the Elections commit-

tee a resolution declaring John S. Wise

entitled to retain his seat as a Representa

tive at large from Virginia. The minority report was presented by Mr. Turner, of Ga., and ordered printed.

Mild Form of Asiatic Cholera at Tou-Ion-British Parliament Proceedings. (By Cable to the Morning Star.)

Paris, June 30 .- Doctors Brandel and Proudd, government physicians, who have been studying the cholera at Toulon, have reported that they incline to the belief that the disease is a mild form of Asiatic cholera. The appearance of cases at Marseilles has had great weight in leading them to take this position.

LONDON, June 30 .- In the House of Commons, to day, Mr. Gladstone moved that the vote of censure of the government's Egyptian policy be given pre-cedence over all other business; but this motion was defeated by a vote of 190 to 148. The rejection of Mr. Gladstone's motion was wholly unexpected. Mr. Gladstone and his colleagues in the government voted with the conservatives, in order to allow the debate on the vote of censure to take place as soon as possible. The sight of members of the government voting with the opposition caused great amusement. The Parnellites and a majority of the Liberals opposed the motion. Before proposing the motion Mr. Gladstone stated that he anticipated asking the House of Commons by vote to sustain or reject the Anglo-French agreement result of the

In the case of the Crown against Bradlaugh, for illegal voting in the House of Commons, the jury decided that Bradlaugh, in administering the oath to himself, did not take the oath in accordance with the practice of Parliament. A verdict was therefore given for the Crown.

PENNSYLVANIA.

The Chairman of the Republican Nacommenting upon the necessity of securing iron-clads of large size for purposes of defence, he strenuously opposed the Senate tional Committee Gives his Views About the Campaign, &c. [By Telegraph to the Morning Star.]

PITTSBURG, June 30.-B. F. Jones, chairman of the National Republican Commit tee, has returned home and talks freely about the campaign. He says that no defi-nite or detailed plan of operations has been agreed upon as yet, and cannot be until af-ter the meeting of the Democratic National Convention. The paramount issue, however, will be the tariff. As a national question it will enter largely into discussions upon the stump and in the press, in all doubtful States, and will receive special attention at the hands of the committee. The States he names as doubtful but expects to carry, are New York, New Jersey, Indiana, and possibly West Virginia. The latter he counts sure, unless Bayard is nominated, as he would be very strong there. In speaking of the Democratic candidates he said Mr. Cleveland has no certainty of nomination, but is in the lead.
Bayard or Butler would be harder to defeat. Thurman is the best man mentioned for the place, but would not make as popular a campaign as Cleveland. Tilden might accept yet, if he were tendered an unanimous nomination. Butler, he thought, might carry Massachusetts even if he did not get the Democrats' endorsement.

WASHINGTON.

Recommendation for the Appointment of Inspectors at U. S. Consulates-Neal of Ohio, Appointed Sollcitor of the Treasury.

[By Telegraph to the Morning Star.] WASHINGTON, June 30.—The Surgeon General of the Marine Hospital Service this morning recommended to the Secretary of the Treasury that an appropriation be asked for to provide for the appointment of inspectors at U. S. consulates in foreign ports, whose duty it shall be to notify the State Department of the departure of emigrants and goods from infected districts in Europe. Secretary Folger approved the recommendation and the whole matter was referred to the Appropriations Committee of the Senate. This action was taken on account of the spread of cholera in

White Meal Yeast.

A VERY VALUABLE PURE YEAST POWDER Having been thoroughly tested by a great many of the ladies of Wilmington, I feel no hesitation in commending it to the public. It is elegant for bread, rolls or biscuit.

It is made by Miss Hodges, of this city, of pure

egetable matter, and she refers to Mrs. A. A. Willard, Mrs. Gen. Whiting,

Mrs. W. I. Gore. Mrs. Samuel Northrop,

for the correctness of her statements.

JNO. L. BOATWRIGHT, 2 & 14 No. Front St.,
