RESPECTFULLY DECLINED.

H. W. HOLLEY, Your poem came, and we perused it
With all our patient hopeful care;
And, poet, though we have refused it,
We trust you'll deem us not unfair.
Although its perfect feet were pretty,
Its body lithe, its love intense,
Its head Apollo's—more's the pity—
It did not have a mite of sense!

-The Current. CURRENT COMMENT.

- Mr. Dawes professes not only to be satisfied, but even pleased, with Mr. Blaine's nomination. Yet this is the same Mr. Blaine who six years ago last January, stood up in the United States Senate and made a violent and wanton attack upon the record of Massachusetts, accusing her of treason, of over-reaching, of tyranny and about all the other crimes of which a State can be guilty; and when Mr. Dawes stood up to oppose his paper shield and corn-stalk lance to the weapons of the plumed knight, carefully forged for that particular occasion, he was ridden down in this manner: "And for a Senator from Massachusetts to rise here and pretend that his State did not bristle all over with unpatriotic records going clear up to the verge of treason, and in the opinion of some patriots of that day, stepping one point beyond it, is a degree of bravery which it would have been well to show in the war and not reserved for this day." Mr. Dawes swallows that insult and pretends to like it. Gen. Butler has not traduced the historical record of Massachusetts or impugned her patriotism. Mr. Blaine has done both. Yet Mr. Dawes is shocked at Gen Butler's conduct, but loves Mr. Blaine. - Boston Post, Dem.

Gov. Rebinson an LL. D. merely because he was Governor of Massachusetts, making him the second in the list of exceptions, of which Gen. Butler was the first. If Harvard sticks to its new departure and hereafter will confer its honorary degrees only upon men who have earned them by reason of their achievements in science or literature, the public will have occasion to bless the attack of spleen which enabled it to make so useful a reform .- Philadelphia Times.

THE DEMOCRATIC AD-

Chicago Herald. An elderly gentleman stepped up to the hotel register, wrote his name and residence, and called for a room. The clerk sized him up, and, evidently taking him for a man of simple tastes, said: "We are a little crowded just now, but I can give you an inside room on the fifth floor which will be pleasanter and somewhat cheaper than apartments lower down with street frontage." "It would, eh?" came the response in a voice like a horseshoer's wasp; "do I look as though I wanted something cheap?" "Oh, no, indeed; you misunderstand me, I was simply --- " "Look here, young man, I'm a delegate, and I want you to understand that this ain't no Bill English year. If you've got a bedroom on the parlor floor with a private parlor and a bath attached, I want it. Cuss a Democrat who can't spend a little money when the New Jerusalem is looming up no further away than November.'

A SUGGESTION.

New York Herald.

It is stated that Mr. Manton Marble is preparing the platform that is to be submitted next week at the Democratic Convention. We would make a suggestion as to the tariff plank, though we recently printed that contained in the platform of 1876, which was also the work of Mr. Marble. No simpler, more direct, comprehensive and sound statement can be framed than that made by Mr. Carlisle when he last spoke in this city:

"Taxation only for the purpose of raising revenue for public use. "Commercial regulation in time of peace only for the purpose of foster-ing and protecting legitimate trade." We do not see on what better platform the Democrats could stand as tariff reformers. This is sound and statesmanlike, and, what is of great importance, it is honest and in-

For the week ending this evening (July 3) the total receipts have reached 4,665 bales, against 5,642 bales last week, 4,725 bales the previous week and 8,409 bales three weeks since; making the total receipts since September 1,000 page 1,000 NEW YORK, July 3 .- The movemaking the total receipts since Se tember 1st, 1883, 4,787,296 bales, against 5,904,962 bales for the same period of '82-'83, showing a decrease since Sept. 1, 1883, of 1,117,666 bales. The exports for the week ending this evening reach a total of 15,531 bales, of which 13,878 were to Great Britain, 76 to France and 1,577 to the rest of the Continent, while the stocks as made up this even-ing are now 333,502 bales.

To-day this market was dull and

weak, in sympathy with the depression at Liverpool and improved crop accounts, but, as compared with last Friday, 8@13 points dearer for this crop, and 6@7 points dearer for the next. Cotton on the spot has been fairly active for export, with a moderate business for home consumption. Quotations were reduced to on Saturday, and advanced 1-16c on Tuesday and to on Wednesday. To-day the market was quiet and unchanged, and uplands closing at 11to, against

11 16c last Friday. The total sales for forward delivery for the week were 390,100 bales.

POLITICAL POINTS.

In a tariff for revenue only there is justice to both producer and con-sumer, an honest income for the Government and prosperity for an industrious people.—Detroit Times.

- It is said the veto message of President Arthur in the Fitz John Porter case is against his judgment, but that he surrendered to the persuasions and arguments of his Cabinet.—Phil. Record, Ind.

- The New York Tribune says that the Democrats "will not dare to nominate Tilden except as a last resort," when the truth is that they are promising to nominate him as a first resort.—St. Louis Post-Dispatch, Dem.

- The argument for free raw materials ought to carry conviction. Every great manufacturing nation has them, and we must have them befor our manufac-turers can greatly prosper. These materi-als must be had where they can be got cheapest and best.—Buffalo Express, Rep.

- Andrew G. Curtin, the elequent war Governor of Pennsylvania, voted in tavor of passing the Fitz John Porter bill over the President's veto. Among the votes to sustain the veto was that of Chalmers, the negro butcher of Fort Pillow. Good people of the North, "you pays your money and you takes your choice" between the two.—Harrisburg, (Pa.) Patriot.

Malarial Poison. .

ROME, GA., May 23, 1883. With the hope that it will reach the eye of other sufferers, I desire to make a statement of my case and my wonderful rescue from death from malarial blood poison by the use of the great S. S. S. (Swift's Spe-

In 1880 I came from the North to take charge of the gas works in Rome, as superintendent, and after the overflow, which occurred in the spring following, I was very much exposed to malarial poison, and in 1882 found my blood so contaminated with the poison that I was forced to give up business. I was treated by the Rome physicians without relief, they advising me to go North; which I did. The doctors North told me that my only hope was to return to the milder climate, and accordingly I came back to Rome completely broken down and nearly a skeleton. My trouble finally determined in an abscess of the liver, and nearly every one (myself included) thought I was doomed to die within a few days. In this condition I was advised by a friend to take Swift's Specific, and I took it just as a drowning man would catch at a straw, but as soon as my system got under the influence of the remedy, the abscess came to a point and burst, passing off without pain. In fifteen days after this I was up at my work, and have ever since enjoyed excel Every sufferer from malarial poision

Buffalo Lithia Water FOR MALARIAL POISONING.

USE OF IT IN A CASE OF YELLOW FEVER.

DR. WM. T. HOWARD, OF BALTIMORE, the University of Maryland.

Dr. Howard attests the common adaptation of this water in "a wide range of cases" with that of the far-famed White Sulphur Springs, in Green brier county, West Virginia, and adds the follow "Indeed, in a certain class of cases it is much superior to the latter. I allude to the abiding debility attendant upon the tardy convalescence from grave acute diseases; and more especially to the Cachexia and Sequels incident to Malarious Fevers, in all their grades and varieties, to certain forms of Alonic Dyspepsia, and all the Affections Peculiar to Women that are remediable at all by mineral waters.
