Narrow Escape. A number of colored boys were in bathing at the foot of Church street, Wednesday evening, when one of them, who could not swim, got beyond his depth and was about to drown, having sunk twice, and was going down for the third time, when Mr. McCartney, a ship carpenter, who was at work on a flat in the shipyard, jumped overboard with all his clothing on and succeeded in saving him, though in a very exhausted condition. Mr. McCartney is between 50 and 60 years of age.

Hobbery. The store on the corner of Ninth and Ninth streets, kept by a German whose name our informant could not remember, was entered from the rear, by means of a false key, on Wednesday night, during the temporary absence of the clerk, and robbed of a quantity of meat and tobacco, a silver watch and a gun.

(The STAR has never been to "the famous Buncombe," we believe, or he would not have made the above "soft impeachment." We desire to assure our friends that the aroma of the spruce and white pine is as delicate, refreshing and poetical as can be claimed for the famous long-leaf of the eastern section; and "the music of the pines" of the mountains is as sweet and enchanting to the native mountaineer, as can be that which renders immortal the beautiful plans of the east. No, Randall did not draw his story from fancy. We have our place, and everything else in this country worth living, or worth longing for.

Near the White Sulphur Springs is encamped a party of New Yorkers, gentlemen and ladies, on a summer mountain tour. They are just from Greenville, S. C. Their half dozen tents pitched on the green sward near Richland Creek, the wagons and the teams tethered back from the camp, groups of ladies under the trees sketching the landscape, combine to form a pretty picture. Returning two hours later through a drenching rain, the water flowing ankle deep in the road, the camp almost a lake, and the rapid creek lashed into rage by the flood, we concluded the picnic party, returning to the city, and that the comfortable saloons or boudoirs of the city would be welcome exchange for the thin, chilly dripping canvas houses that gave very questionable shelter.

Local Note. — Mattie Bryan, colored, was sent to jail yesterday for non-payment of costs in a case of assault and battery before Justice Mills' court.

The prospect for the next term of the Criminal Court is not encouraging in one point of view. There are so far only four or five prisoners in jail for trial.

At the meeting of the County Democratic Executive Committee last night, it was decided to make arrangements for a grand ratification meeting on Tuesday, August 5th.

We have been shown some very handsome fancy work done by the two daughters of G. H. Ward, a colored barber of this city, aged 15 and 16, who are at an industrial school in Baltimore.

The Wilmington Light Infantry will go down the river this morning. We are told that their mission is simply to pay a visit of courtesy to the Sumter Light Infantry and Smithville Guards, and that there will be no drill.

Major Charles M. Stedman, Democratic candidate for Lieutenant-Governor, left for the West yesterday evening. He goes to Raleigh to confer with the Chairman of the State Executive Committee, thence to Greensboro, where, in response to a telegram from Gen. A. M. Scales, Democratic candidate for Governor, he will remain a day for consultation. From Greensboro he goes to Asheville, where he will remain until about the 10th of August, when he expects to begin his canvass of the Western counties unless otherwise determined by the State Executive Committee.

Major Stedman is full of zeal and enthusiasm in behalf of the Democratic State and National tickets and will do his full duty in the campaign now about to open.

The Lucky Numbers. At the monthly drawing of the Louisiana State Lottery on the 15th the following numbers drew the principal prizes: No. 13,383, first capital prize of \$75,000, sold in New Orleans and Memphis. No. 96,304, second capital prize of \$35,000, sold in Milwaukee, Wis., and Springfield, Tenn. No. 47,879, third capital prize of \$10,000, sold in San Francisco. No. 12,862 and 67,533, \$6,000 each, sold in New Orleans, Memphis and Norfolk, Va. No. 5,592, 70,230, 72,267, 75,909 and 82,513, \$2,000 each, sold in Norfolk, Va., New Orleans, New York, Opelousas, La., and Savannah, Ga.

Burglary. A daring burglary was perpetrated at the residence of Mr. Thad. Tyler on Monday night. It seems that the burglar got a joggle board from a neighboring piazza and projected it through a window of one of the rooms and immediately over the bed in which Mr. and Mrs. T. were sleeping, and then crawled in on it. Mrs. T. awoke and aroused her husband, who gave chase, but the fellow made his escape. Mr. Tyler found his vest in the yard, minus the sum of \$18, which he had left in one of his pockets.

Narrow Escape. A number of colored boys were in bathing at the foot of Church street, Wednesday evening, when one of them, who could not swim, got beyond his depth and was about to drown, having sunk twice, and was going down for the third time, when Mr. McCartney, a ship carpenter, who was at work on a flat in the shipyard, jumped overboard with all his clothing on and succeeded in saving him, though in a very exhausted condition. Mr. McCartney is between 50 and 60 years of age.

The store on the corner of Ninth and Ninth streets, kept by a German whose name our informant could not remember, was entered from the rear, by means of a false key, on Wednesday night, during the temporary absence of the clerk, and robbed of a quantity of meat and tobacco, a silver watch and a gun.

When Gov. Cleveland takes his seat as President on the 4th of March, 1884, his place as Governor of New York will be filled by Lieut. Gov. Hill, as the term of office does not expire until December 31, 1885. The Governor's term in New York is for three years.

There is a report that there is a movement afoot to make Mr. Randall chairman of the National Democratic Committee.

Spirits Turpentine. — The Rev. Dr. Wood has resigned the Presidency of Trinity College, and will fill the position until the next annual conference.

New Bern Journal: Democratic ratification meeting last Saturday night was a complete success. Indeed, it was the most successful turnout that ever took place in Kingston.

Raleigh Visitor: To-day being the birthday of C. B. Edwards, Esq., of the firm of Edwards, Broughton & Co. the hands in his employ, unexpectedly to him, made him a present of a fine silver set.

Warrenton Gazette: Our State ticket is, all and all, the best, we think, that has been put before the people since the war. — There is about three times, probably four times, as much tobacco planted in this county as there was last year.

Raleigh ratified on Tuesday night. Short speeches were made by Gen. Scales, Hon. W. H. Kitchin, of Halifax, Col. John N. Staples, of Greensboro, Judge Fowle and Capt. Cooke. The audience was very large. Wilmington will ratify in November.

Charleston News and Courier: TAYLOR, N. C., July 14.—Joe Monzon has had his sentence commuted to imprisonment for life in the penitentiary. Monzon was to have been hanged on the 26th inst. for the murder of Lowrance, a white man, two years ago.

Asheboro Courier: There are six prisoners in jail—two white women, two white men and two colored men. — There is a colored man near this place by the name of Jacob Baldwin who has killed more hawks, crows and owls than any other man in the State. He has a dog, a cat, or any where and call them to him, and when once within gun reach there is no escape.

Concord Times: Rev. Mr. Hoyle's health having failed, he has been released from duty on his circuit for the present. Rev. T. W. Smith has taken charge of the circuit. — M. M. Taylor has sold ten acres of land lying on the Beattie's Ford road, one mile from town, to Mr. Cook, for the sum of twelve hundred and fifty dollars, one hundred and twenty-five dollars per acre.

Concord Times: The farmers of Davie county want a mass meeting. They have become tired of packed conventions, and want a meeting of their own. — Two dogs are listed for taxation at High Point, valued at \$100 each. They are regular bone setters at that.

Elizabeth City Falcon: Two negroes had a difficulty on the N. S. train Saturday, near Moyock. One chased the other through the cars with a drawn knife, and the latter turned and shot his pursuer. He then jumped from the train and escaped. We could not ascertain the identity of the wounded man's injuries. — SULLOZ, July 10.—EDITOR FALCON: Seldom has such a gloom of sadness been thrown over a community as was witnessed here on last Saturday afternoon. It was occasioned by the sad death of one of our young men, Mr. Enoch Bray. He, together with a number of other young men, was bathing at the Shiloh wharf, and it is supposed that he was seized with the cramp. After a desperate struggle by one of his companions to save him, he sank.

Raleigh Farmer and Mechanic: Fletcher Lowry (one of Henry Berry Lowry's kin) was hanged in Georgia on Friday for murder. — Mr. E. M. Goodwin, a native of Wake county, has been elected Principal of the Western School, Rev. Bennett Smedes, Maj. Bingham, Capt. Frey, Prof. D. M. Thompson, and other North Carolinians expect to start in a few days for the National Teachers' Convention at Madison, Wisconsin, for the purpose of raising money for the round up of one \$38. It is thought more than six thousand teachers will attend. — On the summit of the famous Black Mountain in Mitchell county, a hotel with fifty-two rooms has just been completed. It has electric bells, piano, and other conveniences, and will no doubt be a favorite resort, as large parties have visited "Old Black" every year for half a century, notwithstanding the lack of accommodations. — The Ducktown route is within about twenty-five miles of completion to Nantehalah, terminal point under the contract. It crosses the Balsam mountains at an altitude of 3,400 feet, which is nearly a mile higher in the air than Raleigh.

Asheville Citizen: Mr. W. T. Penniman informs us of a sale of mica from the mines in Yancey county, with which he is associated. The latest sale was that of 113 pounds for \$384.40, an average of \$3.40 per pound, which is higher than has been called for our attention. The Rev. Mr. Atkinson, grandson of the late Bishop Atkinson, preached in Trinity Church, on Sunday morning, an excellent practical sermon, in good style, and doing honor to his distinguished lineage. A worthy servant of the holy cause which he has espoused. — Governor Jarvis, Treasurer Worth, and Senator Vance, the three Commissioners on the part of the State in connection with the Western North Carolina Road, passed Asheville on Friday morning to inspect and receive another additional section of ten miles. This makes twenty miles completed beyond Waynesville and fifty-one miles beyond Asheville, in addition to which several miles of a third section have been completed. — Our good friend

A man died in New York the other day from the bite of a rattlesnake he possessed. The doctors were unable to save him. Whiskey did no good. A "Traveler" published in the Times the following:

"In case of the repetition of such an occurrence, it may be of advantage to your readers to know that the injection of ammonia into the veins of the arm is the most effective antidote for snake poison known. It was discovered by Prof. Halford, of Melbourne, Australia, some years ago, and has been used most effectively in hundreds of cases, both in that country and in India. I have no hesitation in saying that had this treatment been applied as soon after the bite as the injection of whiskey, and the patient kept moving about—a most important precaution in such cases—Reilly by this time would be out of danger. On this subject I write with the authority of experience, having seen many cases of snake-bites—and their treatment—in Australia, where, although there are no rattlesnakes, the reptiles are extremely venomous; indeed, most of the species are deadly poisonous, unless prompt measures are resorted to after their bites."

Here is an item from the New York Herald of Wednesday:

"The feeling in favor of Cleveland and Hendricks among the members of the 'Produce Exchange' is very strong, as the Herald has already shown. Yesterday afternoon the first steps were taken toward the formation of a Cleveland and Hendricks battery. In a short time about fifty volunteers were secured, and it is predicted that within a few days a membership of several hundred will be obtained. A number of Republicans who have repudiated the Blaine nomination will join the ranks. The club will wear a neat uniform and be ready to take part in the first large parade of the campaign."

Everybody has heard of the immense drug house of the Schieffelin, in New York. They have been in business for probably forty years or more. Well, Mrs. Lucy Cady Schieffelin, the handsome and dashing wife of Bradhurst Schieffelin, was arrested in her husband's mansion at North Long Branch, just before midnight on Monday, on a charge of bigamy. Her husband is of the firm. She has one husband dead and two living.

At Gov. Cleveland's home, Buffalo, N. Y., the Democrats had a grand demonstration on the night of the 14th. There was a big procession, etc. An account says:

"Dr. Edward Stork, a German physician who has lived in Buffalo 50 years, and always been a Republican, spoke for Cleveland, and dwelt on the greater consideration shown German-Americans by the Democrats than by the Republicans. Other speakers followed on the same stand, and two other stands were erected in the vicinity, and speakers addressed overflowing meetings from them. The Democrats here apparently feel that they have the tide with them."

Gen. Scales will begin his canvass of the State at Newton on the 2nd of August. He will probably confine his canvass to the upper and Southern counties in August and September, and will speak in the Eastern section in October. This is right. He ought not to go East of Halifax until October. He will make an active canvass. Let him have good crowds wherever he goes.

Chelsea is near Boston. The Independent Republicans of that place have just held a meeting, in which Cleveland was endorsed and Blaine repudiated. There was a considerable sprinkling of prominent politicians among the number. Col. Higginson was the main speaker, but other leading men spoke, among them Dr. William Everett, of Quincy.

Gen. Gordon is known to have been safe on April 27th. If you wish to get a readable and cheap life of the hero by the Franklin Square edition (Harpers) of Archibald Forbes's life, price 20 cents. Mr. Forbes is the famous war correspondent of the London News who lectured two or three years ago in Wilmington. The cheap edition is illustrated.

Scotman Beck, the level-headed Scotman who represents so ably the State of Kentucky in the United States Senate, is delighted with the ticket and says if it cannot be elected then none can. He puts down New York as safe for 50,000 majority for Governor Cleveland. He says he will be the next President.

The Georgian girl has rather come to grief. Her secret has been discovered. A Massachusetts teacher of physical culture says: "The secret of her performance is that she is quick enough to use your own power against yourself, unless you understand the workings of the different muscles brought into play. The only way to resist such force is to resist. When once the secret is understood the power is gone."

Pauper immigrants are still being constantly landed at Castle Garden and in spite of all rules. Canada is suffering in the same way.

Greely abandoned Fort Conger August 9th, 1883, and established his camp where he was found October 21st, 1883; when reached by the rescuing party under Capt. Schley and Lieut. The New York Produce Exchange took a vote for President a few days since. Result: Cleveland, 247; Blaine, 140.

Let the committees begin work. Organize is the true slogan for the campaign. Do this and a big majority will follow.

The attempt to arrange the compromise has failed as to the franchise bill. If the Lords stand out what will the people do?

Charles Andrews, of Conn., a delegate to the recent National Convention, is stark mad and in the Insane Asylum. Possibly he partook too freely of Chicago tangle-leg.

According to the New York Herald of the 16th the business men of New York are at the back of Cleveland—are overwhelmingly for him. Leaders in large interests declare their conviction that Blaine is "unsafe."

A cowardly engineer by the name of Charles Merwin, on the Bath and Coney Island Railroad, caused a collision by his carelessness. He then deserted his post, his engine ran away and thus caused another accident, by which thirteen persons were injured.

The report of Capt. Schley, giving an account of the finding of the Greely party, will be read with intense interest. Only six of the party alive, Lieut. Greely among them. This ought to be the last of the expeditions. Already two many valuable and precious lives have been sacrificed for naught.
