

BY WM. H. BERNARD. PUBLISHED DAILY EXCEPT MONDAYS.

RATES OF SUBSCRIPTION, IN ADVANCE. ONE YEAR, \$4.00; SIX MONTHS, \$2.50; THREE MONTHS, \$1.50; ONE MONTH, 50c.

MORNING EDITION. NATIONAL DEMOCRATIC TICKET.

FOR PRESIDENT, GROVER CLEVELAND, OF NEW YORK.

FOR VICE PRESIDENT, THOMAS A. HENDRICKS, OF INDIANA.

Electors—State at Large: JOHN N. STAPLES, of Guilford.

DEMOCRATIC STATE TICKET. FOR GOVERNOR, ALFRED MOORE SCALES, of Guilford.

FOR LIEUTENANT GOVERNOR, CHARLES M. STEEDMAN, of New Hanover.

FOR SECRETARY OF STATE, WILLIAM L. SAUNDERS, of Wake.

FOR TREASURER, DONALD W. BAIN, of Wake.

FOR AUDITOR, W. P. ROBERTS, of Gates.

FOR ATTORNEY GENERAL, THEODORE F. DAVISON, of Buncombe.

FOR SUPERINTENDENT OF PUBLIC INSTRUCTION, S. M. FINGER, of Catawba.

FOR ASSOCIATE JUSTICE SUPREME COURT, J. S. MERRIMON, of Wake.

OUTLINES. The coal miners' strike in Illinois ended, work being resumed at old prices.

Deputy Marshal Matthews shot and killed Thos. Nixon, deputy marshal, at Dodge City, Kansas; a cowboy standing near was shot in the knee.

The Egyptian Congress met in London and after a brief session adjourned sine die.

Yellow fever is increasing at Panama; hospitals are crowded; the whole isthmus is in a filthy condition, and cholera expected.

President Arthur received a cable message from Queen Victoria, sending congratulations on the rescue of the survivors of the Greely Arctic expedition.

Six thousand acres of grain and several large dwellings were destroyed by fire in the southern part of San Joaquin Valley, Cal.

The loss by the great fire in London, at Wapping, will reach \$2,500,000.

Thirty deaths from cholera at Marietta, Miss. last night.

Money market quiet at 11:11:20; southern flour firm at \$3.50 @ 25; wheat, No. 2 red 97c; corn, ungraded 49 @ 52; resin steady at \$1.25 @ 27; spirits turpentine firmer at \$24 @ 23c.

Logan's political creed is windy, rapid, flat—flat, stale and unprofitable—dull as ditch-water and platitudinous as the oracular utterances of a cross-road politician.

We can not afford to waste much time over the fellow who persecuted free negroes before the war. Somebody has put Logan's article into fairly correct English. He did not mention the Zunis once.

Can the following announcement be true? Is there really to be a scarcity of "soap"? The Washington correspondent of the Charleston News and Courier writes on the 19th:

"A gentleman who has extensive acquaintance among the business men of New York, said to-day that Blaine's managers would experience great difficulty in securing funds from the merchants and brokers of that city for the prosecution of his campaign."

Blaine's native State is not "solid" for him. There is a Pennsylvanian revolt if not of very large dimensions as yet.

The workmen in the North are steadily becoming more hostile to Blaine. At Scottsdale, Pa., 44 delegates met, representing the principal coke works of that region.

Gov. Cleveland will begin to work on his letter of acceptance next week. We hope he will be shorter than Blaine.

The Democratic platform is longer than an Inaugural Address ought to be and a two column acceptance will be in order, after Blaine's flatulency and Logan's stump speech.

About this time "Soap" Jones will be sending out his invitations to the "fire tried" and "truly lit" in all of the departments of the Government to send in their part of the "soap" for campaign washing.

Shoe Heel Print: The whistle of the C. F. & Y. V. train can be heard daily now. It will be heard right at our door by the 10th of August; so say the authorities.

California, Ohio, Indiana and Minnesota are talked of as probably Democratic. Then add New York, New Hampshire, Massachusetts, Connecticut and New Jersey as certain or probable and you have a fine list. Such is the talk.

THE MORNING STAR.

VOL. XXXIV.—NO. 104. WILMINGTON, N. C., WEDNESDAY, JULY 23, 1884. WHOLE NO. 5269

At Cape May Harry Williams and others went out a fishing when they saw a vessel protruding above the waves. Inspecting it, Williams cried out: "My God! boys, that is father's schooner. I know her by the cross-tree that we fixed with the block to reef the halyards through before she started on her last voyage. God help them, they are all lost!"

Mr. Edgar M. Johnson, Governor Hoadly's law partner, offers to bet \$500 to \$300 that Cleveland will carry Ohio. He said to a New York Times correspondent: "There is no more doubt in my mind that Cleveland will carry Ohio than there is that he will win in Kentucky."

The Boston Post publishes a list of fifteen Republicans of that city (in addition to those named before) who are out for Cleveland. None in these lists belongs to the records of the Independent headquarters.

The August (Ga.) Chronicle reports that the Scotch Crofters cannot find employment in North Carolina and are thinking of trying South Carolina. Can this be so? The Chronicle says:

"It seems to us that the mountain region of North Carolina would present a most inviting field for such men and their families, and the native people there ought to welcome them as additions to their laboring population. There must be something grossly wrong and repulsive in our Southern economy if white men of the description of these Crofters cannot make or keep a home in this section."

Can the following announcement be true? Is there really to be a scarcity of "soap"? The Washington correspondent of the Charleston News and Courier writes on the 19th: "A gentleman who has extensive acquaintance among the business men of New York, said to-day that Blaine's managers would experience great difficulty in securing funds from the merchants and brokers of that city for the prosecution of his campaign."

Blaine's native State is not "solid" for him. There is a Pennsylvanian revolt if not of very large dimensions as yet. In Philadelphia many merchants and others are considering the best way of defeating Blaine, and they have been always Republicans.

The workmen in the North are steadily becoming more hostile to Blaine. At Scottsdale, Pa., 44 delegates met, representing the principal coke works of that region. They boycotted the Press, of Philadelphia and Calvin Wells, the Blaine Presidential elector at large.

Gov. Cleveland will begin to work on his letter of acceptance next week. We hope he will be shorter than Blaine. The Democratic platform is longer than an Inaugural Address ought to be and a two column acceptance will be in order, after Blaine's flatulency and Logan's stump speech. About this time "Soap" Jones will be sending out his invitations to the "fire tried" and "truly lit" in all of the departments of the Government to send in their part of the "soap" for campaign washing.

Spirits Turpentine.

—Winston Republican: A correspondent from Stokes asks us to say the Republicans of that county favor Hon. A. H. Joyce for Congress, first, last and all the time.

—Snow Hill Telegraph: Mr. Jerry Fields will make a splendid pointer of lin cotton to the acre on some of his lands this year. One hundred dollars would not buy an acre of it either.

—New Berne Journal: In the mountains of Western North Carolina a youth who catches a rattlesnake in a dead-fall is at once honored with the title of Colonel. In East Carolina, the slayer of a rattlesnake goes to a higher military rank.

—Goldsboro Messenger: Our Mr. Johnson is the happiest man in the city, and feels prouder and richer than any man in the Messenger office. He is the proprietor of another fine baby.

—A negro named Fayette Blythe, in Gaston county, cursed Mrs. Woodbury Allen in the absence of her husband, and afterwards attempted to shoot him.

—Lincolnton Press: Rev. N. B. Cobb, the well known Baptist minister, has been quite sick in Moranton for several days.

—The Baptist State Sunday School Convention is in session at Reidsville. The reporter for the News Observer says: Prof. F. P. Hogobood, of Oxford, is the good looking President, with Rev. H. W. Battle, of Wadesboro, as Vice President.

—Wilmington Peaches. Wilmington is getting famous for fine peaches. A friend of ours saw yesterday, raised by Mr. Alfred Alderman, weighing half a pound and measuring a little over ten inches in circumference.

THE CITY HOSPITAL.

What Has Been Done by Way of Improvement—A Useful and Growing Institution. We visited the City Hospital a few days since. Very few of our citizens, comparatively speaking, are probably aware of the great improvement which has recently taken place in this useful institution.

—The Ladies' Oakdale Memorial Association will also have a nice supper at the Ladies' Oakdale Memorial Association on Monday. We are glad to hear that the order is flourishing among the colored people of this city.

—A blaze was discovered on the roof of the kitchen of the dwelling on the northeast corner of Dock and Fifth streets, about 7 o'clock P. M., yesterday. It was speedily extinguished by a stream from the hydrant on the opposite corner, and but little damage was done.

—The Fruit Fair. From Capt. R. P. Paddison, President of the Fruit Fair Association, we learn that the prospects now are that there will be a large attendance.

—An negro named Fayette Blythe, in Gaston county, cursed Mrs. Woodbury Allen in the absence of her husband, and afterwards attempted to shoot him.
