spain and Italy-The Cholera-Increased Mortality Caused at Marsoliles by Intense Heat - English Cholera Spreading-The French Congress for a Revision of the Constitution-Mexico-Dr. Koch's Lecture on Cholera-A Great Conservative Demonstration at Manchester. By Cable to the Morning Star.

ROME, Aug. 9.—In consequence of the declaration made by Spain to Italy, concerning the speech of Senor Pidal Ymon, Minister of Agriculture and Commerce in the Spanish Chamber of Deputies, in favor of the restoration of the temporal power, the Pope threatens to withdraw the Nuncio at Madrid. Spain has sent the Marquis of Molinos to Rome to pacify the Pope.

MARSEILLES, August 9.—A plot to escape has just been discovered among the prisoners at the prison at Boulevard Cheavn. Twenty-five men who had in some way secured crow-bars and files, arranged a plan to kill the wardens and break their way out. One of the number, however, informed the prison authorities of what was going on, and some of them were put in irons. The plot was said to have originated in the prisoners' fear of

London, August 9.—English cholera has appeared in several districts of Lancashire and is making considerable headway. The number of persons stricken with it exceeds 200 and five deaths have so far occurred The doctors attribute the outbreak to excessive heat and the use of improper arti-

BERLIN, August 9.—Hundreds of Russians, who were recently expelled from Germany, have returned. The police, on the presentation of properly vised passports, permit them to become residents. The National Gazette estimates that 2,000 Russians were expelled. The St. Petersburg Herald, organ of the German colony in that city, complains that 12,000 Germans in St. Petersburg are exposed to similar expulsion if the Russian Government is inclined to mak reprisals,

MANCHESTER, Eng., Aug. 9.-Prepara. tions have been made on an extensive scale for a Conservative meeting in this city today, and it is expected to prove a most imposing affair. The Marquis of Salisbury, Lord Randolph Churchill and other great Conservative leaders, will be among the speakers. Over 50,000 tickets have been issued. Resolutions will be submitted approving of the action of the House of Lords in the rejection of the franchise bill.

BERLIN, August 9.-Dr. Koch, the great authority on cholera, stated in a lecture last night that he was convinced the Delta of the Ganges was the real home of the disease. Religious pilgrimages in India greatly promoted the spread of cholera. An improved water supply, Dr. Koch thought, was the best means of checking the disease. Toulon, August 9.—There were three

deaths from cholera here last night. Paris, August 9.- There will be no military manœuvres at Marseilles, Montpelier, Lyons or Clermont this session owing to

CITY OF MEXICO, August 9.—The Independent press protests against the confisca-tion of the Hospital of Jesus by the Go-vernment. This hospital was endowed by the will of Conqueror Cortez. The pretext for confiscation is found in the non-fulfillment of the terms of the will, which endowed the convent and school as well as the hospital. The first two mentioned institutions have never been established. The hospital has hitherto been considered a sacred institution.

GREELY'S ARCTIC SEARCH. Interesting Relies of the Ill-Fated Expedition.

(By Telegraph to the Morning Star.)

New York, August 9 .- The original papers comprising the record of Greely's Arctic search and the most interesting of the relics of that ill-fated expedition, were to-day delivered into the custody of Major General Hancock, at Governor's Island, by Lieut. Sebree, of the Thetis. There were four boxes containing clothing, papers and curiosities accumulated by different members of the crew. Many of them were preserved as memorials of the dead heroes who collected them in the Arctic regions. In the bottom of the launch lay a broken top gallant mast and the battered American flag which Lieut. Greely planted in the ice as a signal of distress, and which was the means of their rescue by the relief party. Across the boxes lay a sled, about five feet in length and three in width. It was one manufactured by Lieut. Greely from broken pieces of the small boat and fastened together with strong strips of skin. It was shod with a strip of iron. The official records of Lieut. Greely's search for two years, were encased in tin boxes and strapped to a large plank which would have served as a buoy and kept the reports from being lost in case of a colli

A General Shut-Down of Cotton Mills at Fall River-A Cotton Mill Burned at Worcester.

FALL RIVER, Aug. 9.—A general shut-down of all cotton mills has been decided upon and will begin Monday. The only mills not approving of the shut down are the Border City, Pocasset, King Phillip, Union, Narraganset and Sagamore; but it is quite likely they will stop within a week. The cause of closing the mills is dull markets for prints. dull markets for prints.

Wordester, Aug. 9.—The Columbian mill, at South Bridge, with office, boarding house and tenement house, were burned by a supposed incendiary fire this morning. The mill had 9,000 spindles of cotton and employed sixty hands. It was awned and leased by Providence parties.

CROP REPORTS.

The Average Condition of Cotton Bet-ter than in July-Grain Crops in Good Condition-Tobacco Promising

a Large Yield.	
[By Telegraph to the Morning Star.] WASHINGTON, Aug. 9.—The Department of Agriculture reports the condition of cotton improved in Virginia, Tennessee, Mississippi, Louisiana and Arkaissas. The	Districts.
improvement is especially manifest in Mississippi and Louisians. In North Carolina and Georgia its average status is unchanged since the July report. In South Carolina, Florida and Alabama excessive rains have caused weedy growth and shedding of forms and has prevented cultivation. In Texas the drought has caused the loss of one point and raised serious apprehensions for the future. The temperature of the past month has been either normal or higher than the average in the Mississippi Valley and lower on the Atlantic coast and in Alabama, the region of increased rainfall. The cotton moth has appeared in the Gulf States and worms are reported in a few counties; but no damage has as yet resulted. The plant is generally reported late and deficient, as yet, in fruitage—in a condition to give good results with favorable weather and deferred frosts, or show heavy depreciation with continued excess of rain in one sec-	Wilmington Charleston Augusta Savannah Atlanta Montgomery Mobile New Orleans Galveston Vicksburg Little Rock Memphis Weather Indies The following day: For the South ing weather and with north to

average of condition has advanced from 86 in July to a little above 87. So far this is favorable, as in six years of the past ten, the August report has shown a decline from the record of the preceding month, the exceptions being 1876, 1880 and 1882. The State averages are: Virginia 88, North Carolina 87, South Carolina 91, Georgia 90, Florida 97, Alabama 92, Mississippi 89, Louisiana 85, Texas 79, Arkansas 87, Tennessee 92. Advices since the first of the month indicated an improvement from seasonable rains ted an improvement from seasonable rains in Texas. The condition of corn averages the same as in the July report, and is higher than in any August since 1880. It has been exceeded but three times in ten years—in ceeded but three times in ten years—in 1875, 1879 and 1880—when it was 99 in each instance. Drought has prevailed in portions of the Ohio Valley and in Texas with considerable severity, reducing the condition of corn six points. The averages of the principal States are: New York 91, Maryland 94, Virginia 95, North Carolina 97, South Carolina 94, Georgia 97, Alaba ma 99, Mississippi 90, Louisiana 78, Texas 83, Arkansas 91. Railroad Accident Near Carlisle-A Conductor and Fireman Killed-Business Failures at Alientown-The Cattle Plague in Lancaster. (By Telegraph to the Morning Star.)

CARLISLE, August 9.—Conductor Frank Small and Fireman Fuller Thompson were killed by an accident to a train on the Gettysburg & Harrisburg Railroad, near this place at noon to day. The train consisted of an engine and seven cars and contained companies from the western part of the State belonging to the 10th and 15th regi-ments of the National Guard, returning from the State encampment at Gettysburg. While the train was running slowly nearing Carlisle Junction, the rails suddenly spread; throwing the engine and tender down an embankment and causing four of the cars to leave the track. The engineer jumped and lodged in a small tree, escaping with a scalded foot and slight bruises.
Conductor Frank Small jumped but fell under a moving car and was killed. Fireman Fuller Thompson remained on the engine and was buried under the wreck. His body has not yet been recovered. None of the passengers was injured.

ALLENTOWN. August 9.—Sheinerpretz & Co., proprietors of the Home Woollen Mills, failed to day. Their liabilities, it is said, will exceed \$100,000.

LANCASTER, August 9.-A peculiar disease was discovered among a drove of cattle in this county several days ago, and the attention of Dr. Thomas J. Edge, Secretary of the State Board of Agriculture, and Dr. F. Bridges, of Philadelphia, State Veterinary Surgeon, was called to the fact. They visited the infected herd yesterday, and decided that several were suffering from Texas fever. Precautions were taken to prevent the spread of the disease, although the apprehended no serions danger.

Linn McFarland Supposed to have been Murdered by Indians. [By Telegraph to the Morning Star.]

HELENA, August 9.-Linn McFarland, prominent sheep man, was found dead yes-terday, 35 miles north of Billings, in the smouldering ruins of a log house. Nobody was about the place. McFarland was on his way to Billings with a team, and it appears that he stopped to feed. The murder is suspected to have probably been committed by Indians, as several roving bands have stopped there to feed.

The weekly statement of the Associated Banks shows the following changes: Loans increase \$576,900; specie increase \$1,602,200; legal tenders decrease \$230, 400; deposits increase \$1,548,400; circulation decrease \$20,600; reserve increase \$984,700. The banks now hold \$31,156,-600 in excess of legal requirements.

What the Heavy Rains are Doing.

Passengers by Friday night's train on the W. & W. road report a flood of rain between Goldsboro and New Berne on Friday. The train due from Morehead missed connection at Goldsboro with the W. & W. train going north and the train on the N. C. road, on account of the delays caused by the wash-outs on the A. & N. C. road. These were of quite a serious nature. At some points dirt had to be thrown in and timbers placed under the track before the train could pass, and in one instance it was found necessary to let the train go separately over a place in the road where there had been a particularly bad wash-out, after which the passengers got out and pushed the cars over the chasm. It was thought at one time that the train would have to return to New Berne. Between Kinston and LaGrange, where great fields of waving corn and promising cotton had gladdened the eyes of the passing traveller, it was noticed that much of it had been literally washed up by the roots, while all of it must have been more or less damaged.

MR. EDITOR:-Permit to communicate with the city authorities through the medium of your columns, as personal communications do not avail. North Water street has been paved with stone and a handsome stone walk has been laid on both sides of the street. The writer does not understand that this is paid for by tax-payers of North Water street but by those of the whole city. While residents and business men generally do not object to this, the enquiry might be made, Why do this, and then leave South Water street in it present condition? It is a reflection on any civilized community, and if our city officials invited Gov. Jarvis to visit our magnificent market, we trust they did not take him to the end on Water street, where he would have seen the necessity of sending a force of convict laborers to drain and cleanse it. Why the Board of Health allow such a nuisance to exist in our city to endanger the health of the en-tire community in mid-summer is also a
