## EVENING EDITION.

WHAT THE DEMOCRATIC PARTY

HAS DONE FOR THE NEGROES.

We think Capt. W. H. Kıtchin, Elector for the State at Large, makes a mistake as to the wishes of the Democratic party, if he is correctly reported. It is stated that he said in one of his speeches in Western Carolina that the Democrats did not desire the votes of colored men. This is certainly a mistake and especially so far as Eastern Democrats are concerned. We feel sure that all Democrats would be gratified to see the colored voters showing that they had a proper appreciation of the blessings of equitable, honest, economical Government. It would be pleasing to see the colored voters cutting themselves loose from the blind prejudices of the past and the enslavements in which they have been fast bound for nearly twenty years to the Republican party. When the reflecting colored voter considers the records of the two parties in North Carolina he must know that the Republican party has been one of promise and the Democratic party one of performance. The re cords of the two parties have been so plainly made that it is impossible for any one to be misled who has any intelligence.

What did the Republican party do for the negroes of North Carolina when it had control of the State Government? What else but use and abuse them for its own selfish ends We ask any colored man of ordinary sense if the Republican party in the State has done anything for the colored people but to vote them and through them to get office for the scallawags? What else has it done? Where are the asylums for the colored people that it built? Where are the school houses it erected that the children of the recently freed negroes should be educated?

Never mind about platform prom ises, but what have the white Republicans of the State done to advance the material, moral, religious and educational prosperity of the colored people? Promises are very cheap; performance is quite another thing. What is the record?

During the time when the Repub licans were in power they lost or squandered \$725,000 (nearly threequarters of a million) of the Common School Fund of the State, that had come into their hands from beyond the war. In fact they so squandered and destroyed that the negro schools amounted almost to nothing. In 1868 there was not a dollar of school fund spent for teaching. The report of Auditor Adams shows this:

"During the fiscal year ending September 30, 1869, there was spent out of the educational fund \$167,158.18. Not one dollar of this large sum was spent in teaching the poor children of the State, white or black, to read or to write. Instead of that the Republican Legislature took \$158,000

of that amount and divided it among its

of that amount and divided it among its members under the name of per diem at \$7 a day; \$3,000 was "loaned" to the University professors, and the ballance of the \$167,000 is charged to 'expense arount."

"During the fiscal year ending September 30, 1870, there was spent out of the aducational fund \$203,411.01. The investment in Special Tax Bonds of course proved an entire loss (they were worthless when bought). Not one fifth of the whole amount expended was applied to the public amount expended was applied to the public schools. Out of two hundred thousand dollars expended, less than thirty-nine thousand was paid for teaching."

The Republicans built no asylums for the negroes. So in the supreme matter of education and taking care of the blind and the insane the Republicans scarcely did anything.

Have the Democrats done any thing for the negroes of the State? What is the record? Have not the colored people had school advantages Are there not colored asylums as wel as white asylums? Who furnished the money for these things? The whites almost entirely? What are the facts?

The Democrats have had control of the State Government since 1st January, 1877. In the last sever years the sum of \$1,094,488.25 (one million, ninety-four thousand and four hundred and eighty-eight dol lars and twenty-five cents) has been expended in paying teachers colored schools. All this is Democratic work. But it is not all.

In seven years the Democrats have expended \$107,694.19 (one hundred and seven thousand six hundred and ninety-four dollars and nineteen cents) in building school houses for the colored people. In 1883 they ac tually applied more money to building colored school houses than to building white school houses, and by more than \$2,500. The negroes had for this one purpose \$43,025.99 in

Mark you, liberal as all this appears, the pay to superintendents is not included and thirteen counties made no report. So the probability is that the whole returns would have shown that in seven years the Democrats had expended some \$1,400,000 on the education of the children of colored voters.

Then the Democrats have given colored people a State Normal School. located at Fayetteville, where colored teachers are prepared. Much good is being done in this way. The Democrats have done so well that we

be thankful that the Democrats have been in power since the 1st of January, 1877. The records of the two parties show that the Democrats have steadily taxed themselves to educate the children of voters who from year to year acted with a party that had done nothing for them when

in power. And yet the Democrats would be pleased to see the colored voters showing some understanding and appreciation of these wise, just and kindly acts on the part of Democrats. Why should not grateful and ordinarily intelligent negroes vote to continue good, equitable, honest, economical home Government? Surely they desire to have the schools and asylums perpetuated. The past shows there is no guarantee of this except in continuing in office the Democratic party that has done so much for them.

If they will show their independence and appreciation of the good work done for them by supporting honest and trustworthy Democrats for office we are quite sure that the great body of Eastern Democrats will be glad.

Of course the Democrats will not make any concessions to win their votes. Mouthing demagogues of the York stripe may talk of "civil rights' and "social equality" and all that in order to beguile the negroes into voting for them, but the Democrats stand squarely by their fair and honorable record in the past and have no concessions to make. Equality in the courts, a free and fair ballot and protection in life, liberty and property are guaranteed to all. "The Democrats promise just, honest, economical Government and invite all electors who are for maintaining these to cooperate with them in the next elec-

It seems that the Indianapolis Sentinel is not more guilty than many other papers and not half as much so as the Chicago Times in the Blaine scandal. It made no direct charges, and in a few lines mentioned the story and said that if true Blaine was unfit to be President. The Boston Post says:

"If Mr. Blaine is not bluffing he should drop this suit, and begin one against the Chicago Times, and other newspapers that have published the story in full, making the direct charges backed by affidavits."

The Post says that it has been of-

fered the testimony of responsible sons to substantiate a very serious charge of flagrant outrage on the art of Blaine but it does not proto go into that kind of soeven ger work. The Post says truly:

"The Democratic papers did not begin this buzzard business, Mr. Blaine. They showed no disposition to go into private records until your jackals took off the cover had prepared." , and recount of all

The Republicans are not quite as boastful about breaking the "Solid South" as they were some weeks ago. You could not open a Republican paper without seeing it stated that both Virginias, North Carolina and Florida were almost certain to go for Blaine. It is very certain that the Blaine managers have not the slightest idea of carrying either Virginia or North Carolina. They are making a desperate effort to capture West Virginia and they have a fighting chance it may be. The Democrats in that State are fully aroused now to the danger that threatens them and they will make a splendid fight to retain their hold upon it. It is believed that the chances are with the Democrats, but they can only win by "pooling their issues" and making a hearty and united of fort to give Cleveland the six electoral votes. Florida may be in doubt also because of the influx of North ern settlers, but the Florida Democratic papers are not discouraged.

There is speculation in the papers that the next House may be Repub lican. A change of some 38 or 39 Districts will give the Republicans control. The way to save the House is for the Democrats to be united and earnest. A loss of one member in each State would be disastrous and Mr. Cleveland would be heavily handicapped from the start with a Republican Congress to tie his hands and prevent a close examination into the corruptions of the Government. The people must not neglect th Legislature and the U.S. House. It is more important to North Carolinians to have the Legislature and the control of the House than to elect the President. But let us work heartily for victory and elect all.

Dana's conversion to Butlerism is very suspicious. Dana has pretendhope they will never succeed m ob- ed to be an awful friend of honest taining any Federal aid to debauch government, and no one has had the people and lower the standard off more to say of raping States, Government thieves, official waste, profii-The negroes have great cause to gaey and peculation. We say Dans is playing the hypocrite new and for a consideration. On March 11th. 1883, or about that date, he said of Butler as a Presidential aspirant:

"It will not be forgotten that Butler's re turn to the Democracy is only a recent fact, and that for many dreary years, when others were fighting against desperate odds the great battle of liberty and good government, Butler remained an adherent of Grantism, justifying and defending its most atrocious outrages."

#### CURRENT COMMENT.

- What an infernal liar this man Ball is! Where can we find his equal in that respect? To a reporter who asked, "Has Gov. Cleveland ever had any social position in Buffalo?" we find this unblusing liar responding, "None whatever among the most respectable people." In their refutation of Ball's charges af fecting Gov. Cleveland's private character, the sub-committee of the Independent Republican committee of Buffalo say: "He was sought out and nominated for the mayoralty against his will, and was supported for that position by the larger portion of the educated, intelligent and moral citizens of Buffalo, without regard to politics, and on purely personal grounds. After he had gone through this contest he was again put forward as one of the most distinguished citizens of Buffalo as a candidate for the Governorship, and again received the sup-port of this same class of his fellow-citizens in this community, where he had lived for 29 years, and where his life was known and his character well understood, This support would either a drunkard or a libertine We are able to speak from personal knowledge, as his acquaintances of long standing, and to say that his general private life has been that of a quiet, orderly, self-respecting, and always highly-respected citizen."—Boston Post, Dem.

- We are glad to see that the New York Evening Post makes the recent murder of the Mormon Elders in Tennessee the occasion of a just rebuke to Congress for the "uncen-stitutional schemes [it originates] for the suppression of Mormonism." These, as our contemporary justly remarks, involve the "most wanton disregard of the ordinary rights of property and rules of law," and incite to violence. As we said yesterday, there is no shadow of apology for the murder of Mormon emissaries especially when the split-hickory method has been tried in North Carolina with the most salutary results.

—Norfolk Landmark, Dem.

It is now said that Gov. Cleve-land's letter of acceptance will not be ready uatil August 27, which would be 46 days after his nomination. Mr. Blaine's long farewell address did not make its appear-ance until 42 days after his nomination.— Boston Post.

Indianapolis Sentinel. The suit ordered by James G Blaine against the Sentinel is an entertaining one. It is the first of the kind ever brought by a candidate for the Presidency. Its precipitation is extraordinary. The grounds on which it is brought are flimsy. The manner of its bringing makes it an attempted injunction—a threat by the press of the current scandal concerning his private life. A reading of the editorial sued upon shows that the charge of malice is ridiculous. The reports it referred to are not only common talk throughout the country, but have heretofore also been printed. The article really constituted but an inquiry. Does Mr. Blame shrink from newspaper investigation into his private record? Was he sure when ordering the legal action that it would be determined before election day? Could he not have found a speedier way for proving the reports against him unfounded—if unfounded they be? The truth is, Mr. Blaine, under the mask

private life. He calls electricity to his aid to hurry the suit for frightening other papers from exposing him. It is a proceeding worthy of the man who stole the Mulligan letters. KEEP IT BEFORE THE PEO-

In short, were I called apont state from what mineral waters I have seen the greatest and most unmistakable amount of good accept. the largest number of cases in a general way would unhesitatingly say the Buffalo Spring, i Mecklenburg county, Va."

DR. O. F. MANSON, OF RICHMOND, VA., Late Professor of General Pathology and Physic logy in the Medical College of Virginia: "I have observed marked sanative effects from the Buffalo Water in Malarial Cacheria, Anton Dyspepsia, some of the Peculiar Affections of W. men, Anæmia, Hypochondriasis, Cardiae Polyto tions, &c. It has been especially efficacious in Chronic Intermittent Fever, numerous cases of this character, which had obstinately withstood the are remedies, having been restored to perfect had in a brief space of time by a sojourn at the Spring

DR. JOHN W. WILLIAMSON, JACKSON, TENN. Extracts from Communication on the The

"Virginia Medical Monthly" for February, 1877. "Their great value in Malarial Disease and Sequelæ has been most abundantly and satisfac-torily tested; and I have no question that it would have been a valuable auxiliary in the treatment of the epidemic of Yellow Fever which so terriby afflicted the Mississippi Valley during the past summer. I prescribed it myself, and it gave prompt relief in a case of Suppression of Urine, in Velley Fever and desired the interesting of the control of the c tressing and dangerous symptoms. The patient recovered, but how far the water may have contributed to that result (having prescribed it in but a single case) I, of course, cannot undertake to say. There is no doubt, however, about the fact that its administration was attended by the most benefit
