

FROM ALL PARTS OF THE WORLD. GROVER CLEVELAND.

His Letter Accepting the Nomination for the Presidency by the Democratic National Convention. (By Telegram to the Morning Star.)

ALBANY, N. Y., Aug. 19.—The following was received today by Col. Lamont, Secretary to Grover Cleveland, (who is at Upper Saranac Lake), with instructions to make it public on his receipt.

ALBANY, N. Y., Aug. 18, 1884. GENTLEMEN:—I have received your communication dated July 28th, 1884, informing me of my nomination for the office of President of the United States by the National Democratic Convention lately assembled at Chicago.

It should be remembered that the office of President is essentially executive in its nature. The duties devolving upon the chief executive are bound faithfully to enforce; and, when the wisdom of the political party which selects one of its members as the nominee for that office has outlined its policy and declared its principles, it seems to me that nothing in the character of the office or the necessities of the case require more from the candidate accepting such a nomination than the suggestion of certain well known truths, and the assurance that they will be faithfully observed.

We proudly call ours a government by the people. It is not such when a class is tolerated which arrogates to itself the management of public affairs, seeking to control people instead of representing them. Parties are the necessary outgrowth of our institutions, but the government is not by the people when one party fastens its control upon the country, and perpetuates its power by cajoling and betraying people instead of serving them. The government is not by the people when the result which should represent the intelligent will of free and thinking men is controlled by the shamless corruption of their suffrages.

When an election to office shall be the selection by voters of one of their number, to assume for a time a public trust, in which his dedication to the profession of politics, by the holders of the ballot, quickened by a sense of duty, shall average truth betrayed and pledges broken; and when suffrage shall be altogether free and uncorrupted, it is not a government by the people which is at hand; and, of the means to this end not one would, in my judgment, be more effective than an amendment to the Constitution disqualifying the President from reelection. When we consider the patronage of this great office, the allurements of power, the temptation to retain public places once gained; and, more than all, the availability the party finds in an incumbent whom a horde of officeholders with a zeal born of the interests received and fostered by the hope of favor, will come, stand ready to aid with money and trained political service, we recognize in the eligibility of the President for reelection the most serious danger to that calm, deliberate and disinterested political action which must characterize a government by the people.

A true American sentiment recognizes the dignity of labor, and the fact that honor lies in honest toil. Contented labor is an element of national prosperity. The work constitutes the capital, and the wages of labor, the income of the vast number of our population, and this interest should be jealously protected. Our workmen are not asking unreasonable indulgence, but are intelligent and many citizens. They seek the same consideration which those who demand who have other interests at stake. They should receive their full share of the care and attention of those who make and execute the laws, to the end that the wants and needs of employers and employed shall alike be subserved, and the prosperity of the country, the common heritage of both, be advanced. As relating to this subject, while we should not discourage the immigration of those who seek to acknowledge allegiance to our government and add to our citizen population, yet, as a means of protection to our workmen, a different rule should prevail concerning those who, if they come or are brought to our shores, do not intend to become Americans, but will injuriously compete with those justly entitled to our field of labor.

In my letter accepting the nomination to the office of Governor, nearly two years ago, I made the following statement, to which I have steadily adhered: "The laboring classes constitute the main part of our population. They should be protected in their efforts peacefully to assert their rights, when endangered by aggregated capital, and all statutes on this subject should recognize the care of the State for honest toil, and be framed with the view of improving the condition of the workingman." A proper regard for the welfare of the workingman being inseparably connected with the integrity of our institutions, none of our citizens are more interested than they in guarding against any corruptive influence which seeks to pervert the beneficent purposes of our government, and none should be more watchful of the artful machinations of those who allure them to self-inflicted injury. In a free country, the curtailment of the individual rights of the citizen should be essential to the peace and good order of the community. The limits between proper subjects of governmental control and those which can be more fittingly left to the moral sense and self-imposed restraint of the citizen should be carefully kept in view. Thus, laws unnecessarily interfering with the habits and customs of any of our people, which are not offensive to the moral sentiments of the civilized world and which are consistent, with good citizenship and public welfare, are unwise and venustous.

all who can demonstrate their fitness to enter it. These unscrupulous scramble for place under the government, with the consequent impunity which embitters official life, will cease, and the public departments will not be filled with those who conceive it to be their duty to aid the party to which they owe their place, instead of rendering patient and honest return to the people. I believe that the public temper is such that the voters of the land are prepared to support the party which gives the best promise of administering the government in an honest, simple and plain manner; which is consistent with its character and purposes. They have learned that mystery and concealment in the management of their affairs cover tricks and betrayals. The statesmanship they require consists in honesty and frugality, a prompt response to the needs of the people as they arise, and a vigilant protection of all their varied interests.

If I should be called to the Chief Magistracy of the Nation by the suffrages of my fellow-citizens, I will assume the duties of that office with a solemn determination to dedicate every effort to the country's good, and with an humble reliance upon the favor and support of the Supreme Being, whom I believe will always bless honest human endeavor in the conscientious discharge of public duty.

GROVER CLEVELAND. To Col. Wm. F. Yates, Chairman, and N. P. Beeson, and others, members of Notification Committee of the Democratic National Convention.

Key West Advice—Report on the Yellow Fever Epidemic in Mexico—A British Steamer Reported En Route for New York from the West Indies with Cholera—Call for Bonds.

WASHINGTON, Aug. 19.—The Secretary of War has authorized the use of the old barracks hospital at Key West for the Hospital Service in case it becomes necessary on account of yellow fever. There is thought to be no danger of a spread of the disease at present. Dr. King, sanitary inspector at Nogales, Arizona, reports that cholera has been passing the decline in the infected district of Sonora, Mexico. No cases are reported in Saraymos and three deaths a day on an average in Mercozoolo. He says he inspected seven trains during the week ended August 10th, and examined 113 passengers, of which number 24 were quarantined and their baggage fumigated. A call for about \$10,000,000 three per cent. bonds will probably be issued in a few days.

The annual at Barbados has telegraphed as follows: "The ship Braceland left St. Lucia for New York on the 16th inst., with cholera." This is the British steamer which left Calcutta on the 4th of June with cholera. The steamer took in Key West, Cholera broke out during the passage, and on her arrival at Table Bay, July 4th, she was reported to have had eighteen fatal cases. There were 63 coolies on board, of whom twenty-eight had been down with cholera. The steamer took in at Table Bay, and left for St. Lucia, where she arrived on the 3d inst., and was placed in quarantine. The health officer at New York was at once notified by telegraph. No apprehension is felt at the State General's office as the vessel will be properly cared for upon her arrival at the New York quarantine by the health officer at that port.

A telegram was received at the Navy Department to day from Paymaster Gordon, at Key West, saying that there is a decided improvement in Esnign Capelhart's condition. Undelivered mail matter to the dead of the Greely party, which was sent north in the care of Commander Schley, will be sent to the dead letter office, where it can be obtained by the writers.

THE GREELY PARTY. The Body of Private Whistler Examined—Another Shocking Revelation. (By Telegram to the Morning Star.) CHICAGO, Aug. 19.—A Delphi, Ind., dispatch says: "The body of private Whistler of the Greely party, was examined this morning in the presence of his relatives at the family cemetery in the country. His identity was fully established. The face and neck were well preserved, but the flesh is all cut from the back and limbs. The intestines were in place, but empty. The stomach only contained a small amount of hair and mossy stuff."

NEW YORK. Another Order of Arrest Against Ferdinand Ward. (By Telegram to the Morning Star.) NEW YORK, Aug. 19.—Another order of arrest has been obtained in the Superior Court against Ferdinand Ward, in a suit brought against Ward, U. S. Grant, U. S. Grant, Jr., James D. Fish and Wm. C. Smith, by Wm. H. Bingham, broker, to recover \$48,000. The papers were sent to Ludlow street jail, where Ward is now confined on another suit. Bail is fixed at \$48,000. Bingham claims to have advanced the above amount of money to the firm of Grant & Ward on representations made by Ward and Fish concerning the firm's dealings in U. S. Government contracts, which plaintiff now says were fraudulent. The reason for obtaining the order is said to be that negotiations for a compromise of the suit brought by ex-City Chamberlain Tappan and the release of Ward are pending.

ARKANSAS. A Farmer Murdered by a Negro—State Bonds. (By Telegram to the Morning Star.) LITTLE ROCK, August 19.—Near Cooke, on Sunday, a colored man named Parker rode up to the house of a white farmer, named Lawhorn, and called him to the gate. After a few minutes talk, Parker drew his pistol and shot Lawhorn dead and rode off, and has not been captured. Yesterday the German bank of this city, applied to Gov. Dorry to refund, under the act of 1878, \$23,000 of State bonds, issued in 1877 and due January 1st, 1877. The Governor refused, on the ground that the act was passed through bribery and corruption, and support of the ex-Governor, the Legislature, which meets in December. The bonds belong to what is known as the undisputed debt of the State.

CANADA. Excessively Hot Weather and Many Cases of Sunstroke. (By Telegram to the Morning Star.) TORONTO, Aug. 19.—Excessively hot weather continues throughout Canada, the thermometer ranging from 80 to 95 degrees in the shade. A large number of cases of sunstroke have been reported.

ELECTRIC SPARKS. A Key West (Fla.) dispatch says: Ensign Capelhart is better and there are strong hopes of his recovery. The British steamer Kate Fawcett, from Philadelphia for Coosaw, S. C., run down and sunk the schooner O. R. Boper, at about 3 a. m. August 18th. The schooner's crew were all saved. Eight tramps took possession of Cassellon, Da., yesterday; drove families out of their homes and commandeered the train. Four of the tramps were captured by the sheriff, the others escaped.

Belleuve High School, BEDFORD CO., VIRGINIA. For Boys and Young Men. Prepares for Business, College or University. Beautiful and healthy location. For Catalogue address the Principal, W. R. ABBOT, Principal, Belleuve P. O.
