Yet, venturing upon the average estimate and naming 6,500,000 bales, it will not appear unreasonable if about 700,000 bales are deducted for the deficiency in the visible and invisible supply everywhere. Fayetteville Observer. ON THURSDAY, FEBRUARY 8TH, 1883, THE undersigned will revive the publication of the FAYETTEVILLE OBSERVER. undersigned will revive the publication of the FAYETTEVILLE OBSERVER.

The OBSERVER will be a large 38-column weekly newspaper, and will be mailed to subscribers, postage paid, at \$2 per annum, always in advance. It will give the news of the day in as ample form as its space will permit, and both regular and occasional correspondents will contribute letters from the Capital on State politics and affairs.

Democratic in politics, the OBSERVER will labor, first of all, to assure the prosperity of the Town of Fayetteville, to develop the vast agricultural resources of its own and the neighboring counties, and to promote all that concerns the welfare of the people of North Carolina.

Opposed to such innovations on the homely ways of our fathers as, in the guise of progress, harm society, the OBSERVER will be found in full sympathy with the new things born of the changed condition of the South which sound judgment or enlightened experience find to be also good.

As to the rest: it will strive to deserve the reputation of the name it inherits.
